Board Policy
Staff Development

BP 4331
Personnel

The Governing Board recognizes that professional development opportunities enhance employee effectiveness and contribute to staff morale. The Board desires that all administrators share in planning activities which are pertinent to their specific areas of responsibility and which improve overall management efficiency.

Staff development shall be tied to the needs of the district. The Board especially encourages activities which will improve the quality of the educational program and focus on the areas of technology, school reform, at-risk youth and communication with parents/guardians.

Within budget parameters, the Superintendent may approve participation in activities which will benefit individual administrators and enhance their contributions to the district.
