

SCTA Proposal to SCUSD
June 8, 2021

ARTICLE 7—Assignments.

SCTA proposes that following change to Section 7.4 of this article only:

The District agrees that assigning split classes (more than one grade level in regular education grades K-6) is not in the best long-term interest of the students or teachers. The District agrees that it will make every effort, including adding or keeping staff at the school site, to reduce the number **avoid** split classes as well as **make every effort** to keep students at their neighborhood school (i.e., avoid Concapping).
