All District Superintendents

Dear Superintendents:

During the school year, we occasionally schedule school events that unintentionally conflict with religious holidays and observances. In an effort to assist you with your planning, we enlisted the help of the Pacific School of Religion, in Berkeley, to help develop the attached document. It is a list of religious holidays and observances during 2014 – 2015 that you can consult during your event planning process.

Please understand that this is by no means a definitive list. There are possibly other religious holidays and observances to consider, depending on your individual school communities.

We hope that you will find this document helpful.

Regards,
