

Last spring, SCUSD engaged the community to determine our district's funding and academic priorities, as a result of the state's transition to a Local Control Funding Formula (LCFF). Based on your feedback, locally established goals, reflective of the state's eight priority areas, are now the foundation of our school and district work for the next three years. To ensure these goals continue to represent our work and priorities, SCUSD will revisit these priorities with you annually, as outlined in our Local Control and Accountability Plan (LCAP). Your continued participation and feedback is critical in this process and will help guide our future planning and progress. Please take the following five minutes to share your thoughts.

Thank you,
José L. Banda
Superintendent
Sacramento City Unified School District
