School Description

The Crocker/Riverside Staff extends a warm welcome to all the students and their parents. Crocker/Riverside School is an excellent neighborhood school with a dedicated teaching staff, wonderful children, and involved and supportive parents. We are committed in all our activities to provide a quality education for all our children. Our goal is to guide children to become fully participating citizens by giving them a strong academic education in a nurturing environment that recognizes diversity, promotes healthy choices and embraces community involvement.

Students receive a challenging and rigorous academic curriculum supported with enrichment activities, hands-on and real-life experiences, community resources, and active parent participation and involvement. Parent and community participation are outstanding and continue to provide vital assistance to our educational program. In addition to instruction in the core curriculum, students are provided learning opportunities in singing and music in the classrooms, library times, art through the Art Docent program, outdoor education through the Garden Docent program, classroom exchanges, and an active Student Council that enhances the school culture. Our school's PTA is very active and highly committed to supporting and improving the educational program and school environment through its involvement with the school and its many planned school and family activities.

The school provides a number of after-school programs including orchestra, band, choir, foreign languages, art, math tutoring, chess club, Debate Cubs, Green Team, 916Ink, and a running/fitness program for the students. Before and after-school child care is provided for a fee on our campus through the City Parks and Recreation's 4th "R" program.

Crocker/Riverside School is a wonderful neighborhood school with a tradition of high student achievement, academic success for all students and outstanding parent involvement. We believe in our students, and their educational success is our focus.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at http://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or LCAP, see the CDE LCFF Web
 page at http://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school at 916.264.4183 or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2015-16)

Textbooks and instructional materials are reviewed and then piloted across the district. Subsequent adoption by the Board of Education is consistent with the cycle of textbook approval by the State, California School Board. Textbooks are chosen for their alignment with California Content Standards, California Frameworks, and appropriateness for Sacramento City Unified School District students. Textbook sufficiency data is collected annually.

School Facility Conditions and Planned Improvements (Most Recent Year)

The main campus was built in 1939. This school has 20 permanent classrooms which include a multipurpose room, a library, and an administrative building. The school also has 2 portables. During the 2004 and 2005 modernization, renovations and upgrades were made in the following areas: interior, exterior, plumbing, HVAC, portable buildings, and miscellaneous upgrades.

The district takes great efforts to ensure that all schools are clean, safe, and functional. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. The district governing board has adopted cleaning standards for all the schools in the district. A summary of these standards is available at the school office, or at the district operations office. The principal works directly with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

The State Legislature established the Deferred Maintenance Fund (DMF) in 1980 to assist districts in maintaining facilities and sites. The District has participated in the Deferred Maintenance Program since its inception. The program requires both the local district and the State of California to share equally in the cost of major deferred maintenance projects, with the maximum contribution from the State limited to approximately one-half of one percent of the District's General Fund and Adult Education Fund operating budgets. For fiscal years 2008-09 through 2012-13, the Deferred Maintenance Program has been included in the State's Tier III Flexibility Program. Therefore, DMF funds received by the District are deposited in the General Fund, and are unrestricted. Due to state budget cuts for 2010-11 these unrestricted funds have not been designated to deferred maintenance purposes. The funds were used as part of the Tier III recommendations approved by the Board on the May 6, 2010 Board Meeting.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

• Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement

We welcome parents and encourage them to be actively involved with the school's program. Parent participation and involvement are very integral pieces of our program. Parents are involved in all aspects of the academic program. They assist teachers in the classroom with tutoring, student projects, field trips, art programs, etc. We have parent-run docent programs that rely entirely on parent volunteers for our science, art and garden programs. We have have a morning no idling curbside drop off program that relies on two parents each school morning for staffing. The school also has a very strong and active PTA that supports the teachers and school by providing a variety of school events and activities that enhance and enrich the children's educational experiences. Parents are actively recruited for school social functions, PTA events and as school helpers/volunteers. Many of the educational experiences for the students are made possible through the efforts of parent involvement.

For more information, contact Daniel McCord, Principal at (916) 264-4183.

State Priority: School Climate

The SARC provides the following information relevant to the School Climate State Priority (Priority 6):

• Pupil suspension rates, pupil expulsion rates; and other local measures on the sense of safety.

Professional Development provided for Teachers

To realize the vision of Sacramento City Unified School District, which is to fully prepare all students for college and career, it is imperative that the district provides numerous opportunities to expand the professional repertoire of its administrators and teachers.

To that end, the district has crafted a high quality professional program that is focused on ELA Common Core State Standards, Math Common Core State Standards, English Language Learners, Balanced Literacy and Instructional Strategies for Addressing the Needs of Diverse Learners. These areas of focus were derived from needs assessments coupled with the analysis of student learning of specific content and that is ongoing with follow-up opportunities, models effective practices, and uses assessments to guide and monitor progress. The learning opportunities afforded through this program deeply align with the needs of our individual schools, as well as our strategic plan, and connect to every aspect of school practice: thinking curriculum, intentional instructional practices, assessment for learning, and lesson design.

These learning experiences, which are offered during the school day and after-school are supported with on-site coaching, are in addition to the required 18-hours of professional development designated for teachers to engage in collaborative professional learning at their respective school sites. Such communities of practices, under the leadership and guidance of site administrators, afford our teachers the opportunity to deepen their content knowledge, strengthen their instructional repertoire, improve their assessment strategies, and foster a shared sense of responsibility. As a result, every teacher will help to promote and nurture a community of learners in which the individual school staff is not only enriched, but the district as a whole is enhanced.
