

2017 Hour of Code Contest

Celebrate Computer Science Education Week
by Participating in Hour of Code

Grand Prize: MakerBot 3D Printer

How to participate:

During the week of December 4-8, have as many students as possible log in to Code.org and complete coding activities. Be sure to use the following procedure to ensure that we are able to track participation accurately:

- 1 Important!** Students must first 
- 2** After logging in to Clever, students should click on the  icon
- 3** Find a grade-level specific activity and start coding!

One K-6 or K-8 school and one secondary school with the highest participation rate (percentage of enrolled students) will each receive a MakerBot 3D printer. Ties will be broken by random selection.
