## ADDENDUM NO. 2

Date: **May 15, 2023**

Issued by: Sacramento City Unified School District

Project: **RFP/Q #: 23-0622-2  
Solid Waste Handling and Recycling and Composting Services**

This addenda shall supersede the original Information, attachments, and specifications regarding RFP/Q No. **23-0622-2** where it adds to, deletes from, clarifies or otherwise modifies them. All other conditions and any previous addenda shall remain unchanged.

---

### **AD2.01 RESPONSES TO QUESTIONS**

**Question 1.** Through the California Right to Know Act would you please provide us with a copy of the prior/current term bid results in which solid waste and recycling collection services were awarded along with the most current pricing structure? (Would you please ensure the information includes your current rates for all solid waste and recycling services?)

**Response:** Previous RFP resulted in award to Republic Services. The District's expense for solid waste disposal in FY21-22 was \$462,750. See attached previous bid award and current fee rates.

**Question 2.** The headers on Attachment A refer to monthly service levels. Would you please modify this to reflect monthly rates for weekly services?

**Response:** Propose fee for once per month pickup, twice per month pickup, three pickups per month, etc... For each bin size applicable.

**Question 3.** May we invoice Sac City Unified School District a fixed monthly charge based on the provided rates for container size and frequency instead of calculating a per-pickup charge per container, per site, per month?

**Response:** Please provide an example of Billing Format as requested in Statement of Qualifications; Data Information Systems.

**Question 4.** How do you want the accounts and billing to be set up? By that we mean how do you expect holidays or breaks like winter break, spring break, etc... to be handled with billing and services? Do you want the account to go on a temporary stop service or reduced service schedule?

**Response:** The District's Facilities Operations Specialist/Manager and Contractor's dedicated Customer Service Representative shall develop the approach and level(s) of service for holidays and breaks based on the needs of the Site(s) and District.

**Question 5.** Do any of your Solid waste or recycle containers require lock bars and locks?

**Response:** Yes, as stated in Scope of Services.

**Question 6.** Do any of the locations listed on Attachment B have service time curfews or service time restrictions? If yes, which ones and what are the time restrictions?

**Response:** As stated in the Solid Waste Program Requirements, Item 3. Operating Hours/Time. Pickup of bins, located on schoolyards, shall be as early as possible in the morning, but shall follow all appropriate noise ordinances, and be completed by the end of that scheduled day; unless otherwise authorized by the District. This will assure the learning process is not disrupted and the safety of our students and school community.

**Question 7.** Do any of the locations listed on Attachment B of this RFQ/P #23-0622-2 have solid waste or recycle containers that are in a locked and fenced area?

**Response:** Yes, Contractor will be provided keys for the locations that are in a locked area

**Question 8.** Could you please share any relevant information regarding the current signage, education, and waste separation practices in place so that we can determine recommendations on improving material source separation?

**Response:** See attached signage sample.

**Question 9.** Would brown lids be acceptable for the organic food waste containers?

**Response:** Yes, if in compliance with SB1383.

**Question 10.** Would you please provide the service frequency and tonnage history for all the Roll-Off Containers serviced over the last 24 months by location?

**Response:** See attached documentation.

**Question 11.** What would be the effective start date of this new awarded agreement with vendor equipment on site?

**Response:** The District is seeking implementation and service to start within 30-days upon award of contract.

**Question 12.** Are the Vaccination Requirements in Article 8 applicable to this RFQ/P? On a prior RFQ/P an addendum communicated that the Vaccination Requirements were removed.

**Response:** See Addendum No. 1

**Question 13.** Can you further identify the meaning of compostable, i.e. separated food waste and green waste?

**Response:** Compostable food waste shall be collected in separate bin from compostable green waste. Each shall be diverted to proper composting facility.

**Question 14.** If the district causes the loss, broken, or deemed unacceptable (container fire), would the district be responsible for the cost of repair or replacement?

**Response:** In those types of instances, the District's Insurance Authority would be involved to resolve replacement/repair costs.

**Question 15.** We use high ecological standards to protect the environment while cleaning bins. Due to the cost of exchanging/cleaning, we are requesting that onsite cleaning be permitted. If not, please add to cost sheet an item for bin cleaning.

**Response:** The District's Facilities Specialist/Manager may authorize and schedule appropriate time for onsite cleaning. Submit fee proposal as necessary with Attachment A.

**Question 16.** What types of diversion reporting will you require? How often will this reporting be required?

**Response:** The individual site and District data shall be custom to the needs of the Sustainability Manager and reported upon request.

**Question 17.** Is this a requirement to weigh the bins for each commodity? Will the industry standard of estimation be allowable?

**Response:** The goal is to record and report data as accurately as possible. The District will accept the industry standard if the Contractor does not have the technology to weigh bins when tipped.

**Question 18.** If the containers are overloaded (the lids don't close) will you allow for the additional disposal charges?

**Response:** The Contractor's dedicated Customer Service Representative should first address any service problems with the District's Facilities Specialist/Manager, offering best practice solutions, allowing for correction prior to additional charges.

**END OF ADDENDUM NO.2**

**Acknowledgement of this Addendum will be required at time of bid.**

**RECOMMENDED BID AWARDS – Supplies/Services**

**Bid No. 170401**                      **Solid Waste Disposal and Recycling Services**

**Recommendation:**                **Republic Services**

**Amount:**                              **\$ See Listed Amounts Below**

**Funding Source:**                   **Funding is through site budgets**

**This is for Solid Waste and Recycling Service. The bid was lawfully advertised on April 26, 2017 and May 3, 2017. This is a one (1) year bid with the possibility of four (4), one (1) year extensions. Purchasing's recommends Republic Services as the lowest responsive bidders meeting specifications and established bid criteria.**

### Adjustments to Hauling/Disposal Service Rates

Republic Services proposes to adjust collection/hauling service and disposal rates on July 1, 2018 (or on the contract anniversary date if different), and annually thereafter during the term of the contract with the Sacramento City USD. Rate increase will be based on the PPI or 3% whichever is lower

## **2022-23 Waste Education Overview**

California has a mandate (SB1383) that requires all schools to reduce disposal of food waste through compost and food sharing programs. We have delivered green composting bins to every school, and the SCUSD sustainability manager is a resource for any schools looking to deepen their waste sorting education. This includes materials (like signage and bins) and onsite visits to model during 1 or 2 lunches. We are limited in capacity and would like to partner with our waste hauling provider to have a bigger impact.

In addition, we work with the Food Waste and Recycling Program, BREATHE California, to provide hands-on support to a select number of pilot schools each year. This year, they are working with 12 of our sites and have the capacity to increase by up to 10 more next year. Their in-depth support includes:

- Virtual and in-person trainings for students and staff
- Waste station infrastructure, including signage and bins
- On-site technical assistance throughout the school year
- Incentives for students to sort their waste

# RECYCLING

## Reciclaje

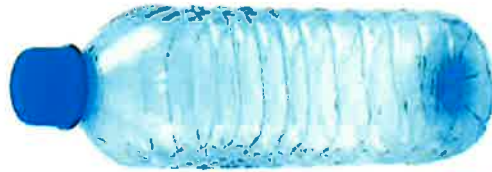

Los recipientes  
plásticos y duros

El metal y  
papel de  
aluminio

Las botellas  
plásticas

Las bandejas  
plásticas

El cartón  
(Lunchables)

Dry and empty items **ONLY**.  
SOLAMENTE los artículos secos y vacíos.
