

# 7 Steps to Successful Research

## 1. **Topic** – *Choose What You Want to Study*

What do you already know?  
What do you want to find out?

## 2. **Goal Setting** – *Make a Plan*

Is there a time limit my teacher is setting?  
What is there a time limit I set for myself?

## 3. **Research** – *Discover the Facts*

Where can I find my sources?  
How many will I need?

## 4. **Organizing** – *Build a Framework From Your Notes*

How will I organize my notes?  
How will I interpret my findings?

## 5. **Goal Evaluation** – *Check your goals*

Look back at step 2, how did I do?

## 6. **Product** – *Create Something New*

What product do I want to create? Model? Visual Representation? Written Work? Collection? Action, Demonstration? Technology?

## 7. **Presentation** – *Share With Others What I Learned*

Who is the audience?
