Listening

Note to Parents:

The second graders have worked very hard to create their own original fairy tales and are beginning to wrap up the writing process. Soon, your second grader will have the opportunity to share his or her hard work in an in-class celebration. Be sure to celebrate the great work your child has done at home, too!

Assignment: Illustrating Fairy Tales

You have worked so hard to create an original fairy tale! Now that you have finished writing and have moved into editing, it's time to illustrate your story. In the box below, draw a picture that captures the action of your fairy tale. You can draw any scene you wish.
