Board Policy

Rideshare Program

BP 3514.2

Business and Noninstructional Operations

The Governing Board recognizes that vehicle emissions contribute significantly to air pollution. To reduce such emissions, the Board strongly encourages employees, students and community members to carpool, bicycle, or use public transportation whenever possible.

The Superintendent or designee shall develop a rideshare program which includes:

1. Incentives to encourage employee participation; and
2. A plan by which employees who carpool or use alternative modes of transportation will be guaranteed a ride home in the event of illness or a severe crisis.
