Speakers may be called in the order that requests are received, or grouped by subject area. We ask that comments are limited to two (2) minutes with no more than 15 minutes per single topic so that as many people as possible may be heard. By law, the Board is allowed to take action only on items on the agenda. The Board may, at its discretion, refer a matter to district staff or calendar the issue for future discussion.

(Board Minutes, Dec. 4, 2014)
Darlene Anderson has concerns about the purpose of education and alternative education. She feels it would be beneficial if young adult students came to Board meetings as she has for twenty years. She also feels that outreach to black families is minimal and that the LCAP was to ensure that would change.

Public Comment:
None

Board Member Comments:
Second Vice President Hansen made a motion to pull Item 8.1a in its entirety for discussion and approve the remainder of the consent agenda. Member Arroyo seconded. The motion passed unanimously.

Member Hansen asked about requisition SA15-00250 which is a contract to hire personnel consultants to study classified positions. He felt the cost of $152,500 to do this classification and compensation study sounded high and asked if this is something than can be done in-house. Chief of Staff Koua Franz and Interim Chief Business Officer Gerardo Castillo addressed his questions. Ms. Franz stated that discussions to study and align positions have been taking place over the last two years. Mr. Castillo stated that bids were taken for this contract; the one selected was not the highest or the lowest, and staff chose the contract as a team after interviews were conducted and other research was completed. The decision was made to go with an outside company rather than in-house to make sure there would be no bias. Mr. Castillo also explained that it had been planned to do such as study over the past two years, but was delayed due to budget constraints. Member Hansen asked what value can be captured from this project? And how are we training our own Human Resources staff to do job classifications? Mr. Castillo replied that one reason this company was chosen is that staff felt Human Resources would gain such knowledge from information shared. Superintendent Banda added that this is very specialized work that doesn’t happen often but is a very comprehensive study. District need to do this on a regular basis, not every year, but still done on a regular basis.
Diana Rodriguez mentioned that compensation must also be looked at in classifications. Normally a comparison of similar industries is required. She has past experience in this area and feels the cost is reasonable.

Member Hansen then stated he would like to learn more about the surplus material process to make sure the District is getting the best value for these items. President Woo asked if there was a motion to approve Item 8.1a. Second Vice President Hansen moved to approve the item, and Member Arroyo seconded. The motion was approved unanimously.

He will visit all schools well before the end of the school year. He has met regularly with labor partners and will continue to meet regularly with union leadership. Mr. Banda was able to make a home visit, with some District teachers and a principal, through the Parent Teacher Home Visit Project. He has met with elected officials including Sacramento County Supervisor Phil Serna, our District former Board President Patrick Kennedy and soon to be County Supervisor, City Councilmembers Jay Schenirer and Steve Hansen, Senator Richard Pan, and Assemblymember Kevin McCarty. Through the Sacramento County of Education he has also met regularly with Superintendents in our neighboring districts. At a recent

(Board Minutes, Dec. 4, 2014)
reception hosted by Chet Hewitt, CEO of Sierra Health Foundation, he met business community leaders. He has also met with Sacramento Police Chief Samuel Somers, school neighbors and volunteers, bus drivers, and cafeteria workers. He has met with the media and appeared on television morning shows, attended parent leadership classes, and school assemblies. Last month he held a Dessert and Coffee with Superintendent gathering at Hubert Bancroft Elementary School that was open to anyone wanting to come out and ask questions. Two more Dessert and Coffee meetings are scheduled for Monday, December 8, at 6:00 p.m. at Sam Brannan Middle School and Thursday, December 11, at 6:00 p.m. at Luther Burbank High School. He will continue to get out into the community and feels the diversity of the District is its strength. There is talk of "pockets of excellence" in our District, but we have more than "pockets". This is because we have great people who care deeply about our students and are committed to providing them with a great education. We have our challenges, but if we continue to focus on equity, access, and opportunity for every student, then we can meet those challenges.

9.4 President’s Report (Darrel Woo)

President Woo reported that tomorrow Sacramento County will be certifying the results of the November 4th election. The Board and District will welcome two new Board members, Ellen Cochrane, Trustee Area 2 and Jessie Ryan, Trustee Area 7 at the next Board meeting on December 18th. They will be sworn in officially on December 8th. There will be a small celebration at the Board meeting of December 18th for them and President Woo and Second Vice President Hansen. President Woo met with Comcast today and will be bringing a short briefing back in January on the updates of the Internet Essentials program which makes computers and internet access available to low income families. The teaching of digital skills is also provided for free.

9.5 Student Member Report (Asami Saito)

Student Member Saito commented that she and her fellow classmates are excited about the upcoming Winter vacation and reported that the Student Advisory Committee has completed their research and completed five new initiatives that they will be choosing from by next Monday. These top five are drugs and alcohol, food, technology, class nourishment, and dress code. They will choose three initiatives from these five that will be worked on for the rest of the school year and maybe even into next school year. Their next meeting will be December 16th. Student Member Saito invited the Board members to attend. She also reported that she was able to attend Superintendent Banda’s Dessert and Coffee meeting at Hubert Bancroft Elementary School.

9.6 Information Sharing By Board Members

Second Vice President Hansen reported that work is being continued on the Floyd Farms project at Leataataa Floyd Elementary School. He welcomed people to come and be a part of that project. There is a consortium with our County Supervisor and City Council member, our District, the Principal, and local community. The developer for Health Professions High School and Leataataa Floyd Elementary school has agreed as part of an MOU signed a number of years ago to build a 2.5 acre working farm directly adjacent to the elementary school. There will be a community charette next Thursday at Health Professions High School where the garden will be designed. Member Hansen will also be joining the Superintendent at Sam Brannan Middle School on Monday night.

Diana Rodriguez mentioned that Superintendent Banda also met with Assembleymember Roger Dickinson. She then reported that the Luther Burbank football team made it to the playoffs this year; she congratulated the team. She was able to attend, with the Superintendent and other staff, the Cesar Chavez bust unveiling at Cesar Chavez Elementary School. Referring to President Obama’s immigration announcement on November 20th, Member Rodriguez asked what the District is doing in terms of

(Board Minutes, Dec. 4, 2014)
outreach to families that may qualify, not only for Deferred Action for Childhood Arrivals (DACA) but also Deferred Action for Parental Accountability (DAPA). She also reported that she attended a press conference with the Mexican Consulate of Sacramento on this issue and the Mexican Consulate Ohtli Awards Ceremony along with Superintendent Banda. She is also sorry to see the outcome of events surrounding the Ferguson, Missouri Grand Jury report, and it makes her hope that Social Emotional Learning (SEL) will help make a positive change at some point in the future. She attended the WeConnect Health Fair on November 22nd at Sacramento Charter High School where she got to talk to the Comcast representative, and she looks forward to working with President Woo on that matter. Member Rodriguez also announced to the audience and viewers that the government sponsored program consists of free cell phones with unlimited minutes and text and is offered for families to connect with their children at school and to help with job search for low-income households. She would like Comcast to give a Board presentation. She also attended the Community Advisory Committee (CAC) meeting on December 2nd. She also reminded that the LCAP advisory committee applications are now available on-line and the Dessert and Coffee with Superintendent Banda is December 11th. She thanked incoming Board members Ellen Cochrane and Jessie Ryan for taking the time to meet with her and noted that the Board will now have four female Board members and one female Student Member. She lastly stressed the importance of training for Board members and the importance of developing a fiscal plan.

10.0 BOARD WORKSHOP/STRATEGIC PLAN AND OTHER INITIATIVES

10.1 Approve Resolution No. 2815: Authorizing the Issuance and Sale of Not to Exceed $34 Million Sacramento City Unified School District General Obligation Refunding Bonds and Approving Certain Actions and Documents in Connection Therewith
(Gerardo Castillo, CPA)

Gerardo Castillo, along with Jeff Small and Bruce Kerns of Stifel Nicolaus, reviewed the presentation given on November 20th and gave updates on the 2005, 21 million obligation bonds that can be refinanced for a savings of three million and the 2007 bonds with savings of $585,000 in refinancing. These second bonds, however, really need to have $750,000 in savings to make the refinancing worthwhile. Resolution 2815 will authorize the refinancing of the 2005 and 2007 obligation bonds to the extent that there will be net present value savings of approximately five percent. Therefore the 2005 bonds will need to have $1.1 million in savings to meet the five percent, while the 2007 bonds, again, will need savings of $750,000. The Resolution will also approve form of documents. Those documents will be completed at the time of sale. Attention was drawn to the Preliminary Official Statement, and it was explained that the blanks will be completed with information that the Board will consider tonight when Mr. Castillo presents the first Interim Report. There are some tables ordered from California Municipal Statistics which will be available on Monday, and also the Board will schedule to approve the District’s Audit Report on December 18th. When that information is available, the Preliminary Official Statement will be complete and finalized. Therefore, this document is in draft form, which is okay, but Mr. Small wanted to explain why it is in draft form and when it will be finalized.

Public Comment:
None

Board Member Comments:
Second Vice President Hansen thanked the team for the presentation and asked a question on slide eight regarding a bond insurance cost listed of $82,522. Mr. Small responded that currently the District has an A+ credit rating and that bonds are priced based on their credit rating. One way of enhancing the credit

(Board Minutes, Dec. 4, 2014)
rating is through bond insurance. The reason that the District would purchase bond insurance is to lower cost. Mr. Small and Mr. Kerns will be looking to see if value is there in terms of spending the money to purchase bond insurance; they will only spend the money if the expenditure would save more than that amount. Mr. Kern explained that the savings mentioned is achieved because the bond insurance company has a higher rating than the District’s A+ rating of AA+ rating. Investors are willing to accept lower interest rates for AA+ bonds than they would for A+ bonds. The lower payment over the life of the bond will be compared against the expense of acquiring the bond insurance in present value terms. Member Hansen asked if the final outcome would be reported to the District, reported to Mr. Castillo and the Superintendent? Mr. Castillo answered that yes, once they have closed a summary can be provided, that this has been the practice in the past, and that what is provided currently is estimated numbers based on the best knowledge that is now known.

Member Rodriguez asked if this will come back to the Board for approval once all the figures are finalized? Mr. Small replied that in the first part of January they will be working with Mr. Kern’s firm to attract investors. Those investors will bid interest rates. These rates will establish what the interest rates are that the District will get on the refinancing. That happens in a very fast time and there is really no way to come back to the District to approve those rates, but they will be working with staff on it. The Resolution before the Board tonight is to delegate trust in the finance companies, Mr. Small and Mr. Kern, to come back with a deal that will save at least 1.1 million dollars in the case of the 2005 bonds and at least $750,000 in the case of the 2007 bonds. In other words, a minimum threshold of savings is being set by the Board by approving the Resolution. Member Rodriguez asked when the Board will get the final figures on cost savings obtained. Mr. Small replied that following the bond sale there will be a written memorandum which will be available to staff and Board members. They would be happy to come back and present those figures as well.

President Woo clarified that the savings are enured to taxpayers 100 percent.

President Woo then entertained a motion which was given by Member Arroyo and seconded by Second Vice President Hansen. The motion passed unanimously.

10.2 2014-2015 First Interim Financial Report (Gerardo Castillo, CPA)  

Mr. Castillo gave the presentation on the 2014-2015 First Interim Financial Report and explained that the Education Code requires that this report must be submitted to the County Office of Education prior to December 15th. The report is as of October 31st. The County will review this report in detail, communicate to us that they agree or disagree with the submission, and then they will submit the report to the State. Mr. Castillo went over Education Code 42130 in detail, a summary of general fund, enrollment and ADA analysis, budget realities to be dealt with (such as increasing utility and health care costs), cash flow and budget analysis, fund balance, fiscal conditions, and next steps.

Public Comment:
Karen Swett feels that the information on this Item was presented in a direct, concise manner. She would like to see more funding under teacher salaries and per diems and less in training and administration. Terrence Gladney stated that at the John Cabrillo Elementary School site council meeting on Monday the Principal, Ms. Holmes, engaged the group on monitoring. They noticed that last year they had about $50,000 for English learners, but this year it is only $10,000. He is concerned that the reduction is not correct, and he would like administration to verify accuracy.

Board Member Comments:

(Board Minutes, Dec. 4, 2014) 7
Member Arroyo thanked Mr. Castillo for the pointed and direct presentation, and welcomed him to position of Interim Chief Business Officer.

Second Vice President Hansen asked, in light of decreasing enrollment, how can revenue be increased? And how can we turn declining enrollment around? He feels we need to do more partnering with the District and partners to build better academic programs so more parents and students will be attracted to the District. For example, William Land Elementary School has a Mandarin immersion program starting in Kindergarten in which we add 30 students per year. Half of these students come from out of District. He is very surprised by the increase in utilities, and asked about water reduction and what is the District doing to lower energy costs?

Superintendent Banda stated that the District has significantly reduced water usage, and asked Mr. Castillo if he had that information. Mr. Castillo replied we have reduced water consumption, but noted also that the City and County have added meters. Prior to this we paid based on the number of students that attended each school; however, although consumption went down, the cost went up due to a rate increase and the change in process of how we are charged. The electricity consumption also went down. Member Hansen noted that principals he has spoken with general do not know what their energy consumption is when he inquires. He also asks if they look at their bills, to which they respond that they do not receive them. Mr. Castillo reported that this is correct; the utility bills are processed by the central office. Member Hansen said we should explore making the bills available to the school so that they can be aware and focused on consumption. Mr. Castillo said that they are made aware once a year of the costs and informed that the costs does not come out of the school budget. He also agrees that it would be good to share the information regularly.

Member Hansen also noted the increase in STRS and PERS and that triple the amount of money now needs to be set aside. It is the right thing to do as CalSTRS is so underfunded as well as CalPERS to a lesser extent, but we need to recognize that this will be a gigantic hit on the budget which we should think about ahead of time. He is also concerned about the health care costs, particularly the increase in number of retirees. We have put very little money aside to pay for future costs, and he would hate to ever come to a pass where the District would be allowed by the courts to break contracts to retirees.

Member Hansen then had a question on page 13 regarding the two percent requirement for the general fund reserve, asking if that is a minimum or a maximum. Mr. Castillo answered that it is a minimum two percent and his understanding is that, under current law, the maximum cannot be more than double that. Mr. Castillo also said that the points Member Hansen brings up are very good, and also we need to think about the fact that Proposition 30 is a temporary tax. Member Hansen then asked a question on page 14 if there is an amount of prefunded health care listed? Mr. Castillo answered that our post retirement costs as we go is about 25 million dollars. Member Hansen clarified that this amount is not to pay for future costs but for current costs. Per Mr. Castillo, an amount set aside for current costs is 6.8 million dollars. Part of the agreement with the bargaining units was that part of the savings from health care would go toward this. We are still in the process with them concerning the changes in health benefits, so 6.8 million dollars is an amount that can potentially be saved.

Member Rodriguez commented on the increase in utility costs and suggested acknowledging and rewarding conservative behavior and cited a recent presentation given by Luther Burbank High School students from the SMUD High School Energy Audit Training Program. She had asked the students at that time if the District had implemented their recommendations. We had not as some discussion still had to be held, but Member Rodriguez suggested having some type of monthly reward acknowledgement program to recognize schools for good stewardship and environmental practices to motivate and inspire students. Mr. Castillo replied that he believes we can do some type of incentive as we have all data relating to costs and what percent of energy savings a school may have from month to month. Member

(Board Minutes, Dec. 4, 2014)
Rodriguez then commented on page four, other local funding, and suggested if that can be increased by even one percent, it would be very helpful to revenue growth. Another growth area is rental of District facilities. She then stated that the deficit of 11.5 million listed before other funding sources concerns her, but she understands that there are sources of revenue that come in after this point in the report. Looking at page six, line 4300, Member Rodriguez asked for a breakdown. Mr. Castillo answered there is a large amount on this line due to one-time funds from Common Core. Member Rodriguez also suggested expenditures can be reduced in line 5100 and 5800, sub agreements for services and professional consulting services. She next referred to page eight. The data seems to show student decline from 2004-2005 during the housing boom. Many families moved out of the area at that time, and Member Rodriguez does not see those families returning even though the economy improves. She then cited another major decline in enrollment in 2008-2009; this was when four schools were closed. This happened again in 2013-2014 with more school closures. Mr. Castillo added that during the time period, we went from one charter school to 13 currently. Ms. Rodriguez stated that the most recently formed charter would not have been formed if the District school at that location had not been closed. She feels revenue must be increased, cost reduced, and our customers must be the priority. She then went to slide 13 and asked for a breakdown on the monthly payroll amount out of restricted and unrestricted funds the next time figures are reported. She then asked for confirmation that Quality Education Investment Act funding on page four is ending. Mr. Castillo replied that is correct; the funding ends this year, there is no funding for next year, but if there is any carry over, the funds sites that still have this funding will still be able to spend it next year. Mr. Castillo stated that talks have begun with the Superintendent and Cabinet to plan for the exhaust of these funds. Member Rodriguez asked to stay in the loop on this so the staff and parents can be kept informed. Member Rodriguez also thanked Mr. Castillo for his invitation to her to attend a pre-audit meeting and is sorry that she will not be able to attend. However when she gets a copy she will specifically looking at is the unfunded liability, the Other Postemployment Benefits (OPEB), bonds, and net assets.

Superintendent Banda acknowledged Mr. Castillo and Interim Budget Director Mike Smith’s hard work on the report. He stated that we have a lot to be thankful for in presenting a positive budget; however, although we are on a good trajectory and making good progress, we need to be cautious about decisions going forward as there are still a lot of things that can impact us such as unfunded liabilities, rising costs, and rising health costs associated with retirement. We feel our staff deserve great benefits and good salaries, but it has to be sustainable.

Member Arroyo asked if the dependent charter schools are included in the report. Mr. Castillo answered that they are not. Member Arroyo clarified that the dependent charters utilize District employees and services, yet their numbers are not included in the enrollment and, hence, enrollment revenue. He asked if this is a requirement or a choice by the District to report in this manner. Mr. Castillo answered that it is a requirement as each charter has their own calculation. Member Arroyo noted that the newest charter, New Joseph Bonnhein, brought 50 students that came from outside of the District.

President Woo congratulated the presentation team for their work, closed the conference, moved to action, and entertained a motion. Member Rodriguez made a motion to approve, and Member Arroyo seconded. The 2014-2015 First Interim Financial Report was approved unanimously.

10.3 First Reading of Revised Board Bylaw 9270: Conflict of Interest (Raoul Bozio)

Raoul Bozio, Legal Services Manager, presented the revision to Board bylaw 9270 and explained how the Political Reform Act requires District revisions every two years. The revisions made are primarily to the appendix at this time. The amended bylaw is due to the County Board of Supervisors no later
than December 30, 2014.

Board Member Comments:
President Woo noted that the Board is still under Category One. Mr. Bozio replied that is correct and that next steps would be to move this Item to the Consent Agenda calendar for Board approval.

Member Rodriguez asked when Form 700 is due. Mr. Bozio replied that he will be sending existing Board members their forms in early March. New Board members will be filing the form within 30 days of taking office, and those leaving office will be filing within 30 days as well.

President Woo reminded the Board that the late filing fee is $10 per day, up to $100.

Recommendation: Approve Resolution No. 2818: Resolution Regarding Board Stipends.

Background/Rationale: Education Code section 35120 fails to define hardship which has led to uncertainty regarding payment of stipends for Board members who may be deserving of payment, due to a hardship, for absent meetings. All stipend payments will be based on an attendance sign-in sheet as well as any Board resolution(s) excusing absences in compliance with law. A Board member who is absent from a meeting may be eligible for payment by reporting the excused absence to the Board Office. A Board resolution will be periodically placed, as needed, on the Board agenda to state that the reason for the absence complies with Education Code section 35120 and shall be reflected in the minutes.

Background/Rationale:

The *Eliezer Williams, et al., vs. State of California, et al.* (*Williams*) case was filed as a class action in 2000 in the San Francisco County Superior Court. The plaintiffs included nearly 100 San Francisco County students, who filed suit against the State of California and state education agencies, including the California Department of Education (CDE). The basis of the lawsuit was that the agencies failed to provide public school students with equal access to instructional materials, safe and decent school facilities, and qualified teachers.

The case was settled in 2004, resulting in the State allocating $138 million in additional funding for standards-aligned instructional materials for schools in the first and second ranks (known as deciles) determined through the 2003 Academic Performance Index (API) Base. The settlement included another $50 million for implementation costs and other oversight-related activities for schools in deciles one through three (2003 API Base). These two amounts were included in the State budget signed in July 2004 by Governor Schwarzenegger. Another $800 million ($100 million per year) would be provided for critical repair of facilities also known as Emergency Repair Program (ERP) in future years for schools in deciles one through three (2003 and later 2006 API Base).
The Emergency Repair Program was designed to provide grant and/or reimbursement funding to Local Educational Agencies (LEAs) for the cost of repairing or replacing existing building systems or structural components that are broken or not functioning properly and that pose a health and safety threat to students and staff at eligible school sites. Funds were to be made available annually through the Budget Act and the program would operate until $800 million was allocated.

As of November 25, 2014, the State Allocation Board apportioned $525.9 million for funded projects statewide and the remaining $274.1 million will be apportioned under a future budget.

**Financial Considerations:**

Approximately $60.4 million is to be received by Sacramento City USD for project applications submitted under the Emergency Repair Program. Sacramento City USD ranked 4th in the State in total funds received. Only Santa Ana Unified, Moreno Valley Unified, and Compton Unified will receive more ERP funds. Unlike other State School Facilities Programs that require a minimum 40-50% match by the district, ERP projects are 100% fully funded by the State.

Approximately $60.4 million is to be received by Sacramento City USD for project applications submitted under the Emergency Repair Program. Sacramento City USD has been ranked 4th in the State in total funds allocated. Only Santa Ana Unified, Moreno Valley Unified, and Compton Unified will have been allocated more ERP funds.Unlike other State School Facilities Programs that require a minimum 40 -50% match by the district, ERP projects are 100% fully funded by the State.

IV. GOALS, OBJECTIVES, AND MEASURES

The new legislations sought to accomplish the following:

- Create a School Facilities Needs Assessment program;
- Provide financial assistance to repair specific health and safety issues at schools in deciles one through three (2003 and later 2006 API Base) through a new $800 million School Facilities Emergency Repairs Account. Acceptable project scopes included:
  - Communications Systems
  - Electrical
  - Fire Detection/Alarm and/or Sprinkler Systems
  - Flooring Systems
  - Gas
  - Hazardous Materials
  - Heating Ventilation and Air Conditioning
  - Paving
  - Pest/Vermin Infestation
  - Plumbing
  - Roofing;
- Require each district to implement a facilities inspection system.

V. MAJOR INITIATIVES

School Facilities Needs Assessment

District facilities were assessed using the prescribed State forms. Assessments included basic facility information, a facility inventory, useful life of major building systems, five-year costs to maintain functionality and necessary repairs.
Application Submittal for Emergency Repair Program Funding

Like most facility programs, the Emergency Repair Program was funded on a first come first served basis, time was of the essence. A concerted effort was mounted to maximize ERP funding for Sacramento City Unified School District. Each “Williams” school was re-inspected to identify health and safety issues that fell within the parameters of the ERP program. Completed applications with cost estimates and photographic evidence were submitted to the Office of Public School Construction.

VI. RESULTS

As many as 43 Sacramento City schools, including charters have and could receive funding for identified health and safety issues through the ERP program. As a result, our schools will have healthier and safer learning environments for students, staff, and the community.

VII. LESSONS LEARNED/NEXT STEPS

The Emergency Repair Program has some unique regulations. Under the State Facilities New Construction and Modernization Programs districts have some latitude to revise the scope of work without jeopardizing funding. The ERP program is very specific and scope driven; any change in scope could cause the District to forfeit ALL funding for the project, EVEN FUNDS ALREADY EXPENSED. We continue to work closely with OPSC and the Division of the State Architect (DSA) to address concerns of cost escalation. Most of our ERP projects were submitted by the summer of 2008. Construction material and labor costs have increased over this period. It was not anticipated that funding for these projects would lag so far behind the actual construction. Another unique requirement is timing. OPSC approved projects that do not need DSA review have 15-months to complete and projects requiring DSA review have 21-months to complete from the time of apportionment. Other school facilities program timelines are much more liberal and start the timing from award of funds by the State. It is imperative that all our ERP projects be completed within the program timelines. Failure to complete the projects on time will cause the District to forfeit ALL funding for the project, EVEN FUNDS ALREADY EXPENSED. Because of these unique program requirements and specific advice by OPSC staff our projects are not bundled into large multi-scope projects.
Facilities Support Services is preparing the recently apportioned projects for bid award. These projects will start appearing on Board agendas very soon. Staff is evaluating each project and assessing the timeline, complexity and school schedules. Some projects will be able to start prior to the end of the 2014/2015 school year while others will need to wait for school to end in June 2015.

Recommendation: Approve proposed Board policy.

Background/Rationale: The current Board Policy No. 6142.7 Physical Education Instruction was last updated on May 20, 2004, one year before state standards were adopted. The California State Board of Education on January 12, 2005, adopted the Physical Education Model Content Standards for California Public Schools, Kindergarten through grade Twelve. In addition, the Physical Education Framework for California Public Schools: Kindergarten through Grade Twelve was adopted by the State Board of Education on September 11, 2008.

Sacramento City Unified School District (SCUSD) Board of Education adopted a revised Board Policy No. 5030 Student Wellness on September 6, 2012, which contains physical education information. At that time a revised Board Policy No. 6142.7 Physical Education Instruction was not brought forth. We, therefore, are bringing a revised Physical Education Instruction Policy that aligns with the state laws, requirements and standards.

Financial Considerations: Costs associated with implementation of the policy include funding for revisions to courses of study, acquisition of special teaching authorizations, and professional learning. Total annual costs are estimated to be $65,000.

I. Overview
Sacramento City Unified School District (SCUSD) recognizes that physical education significantly contributes to students’ well-being and to SCUSD’s Strategic Plan; therefore, it is an integral part of our student’s education experiences. High-quality physical education instruction contributes to good health, develops fundamental and advanced motor skills, improves students’ self-confidence and provides opportunities for increased levels of physical fitness that are associated with high academic achievement.

The current Board Policy 6142.7 Physical Education Instruction was last updated on May 20, 2004, one year before state standards were adopted. The California State Board of Education on January 12, 2005, adopted the *Physical Education Model Content Standards for California Public Schools, Kindergarten Through Grade Twelve*. These standards focus on the content of physical education and incorporate the detail required to guide the development of consistent, high-quality physical education instructional programs aimed at students learning and achievement. The standards provide a comprehensive vision of what students need to know and be able to do at each grade level. In addition, the standards provide a model for high school course design. The *Physical Education Framework for California Public Schools: Kindergarten Through Grade Twelve*, was adopted by the State Board of Education on September 11, 2008 and serves as an essential resource for the development, implementation and evaluation of standards-based physical education programs and instruction.

SCUSD Board of Education adopted a revised Board Policy 5030 Student Wellness on September 6, 2012, which contains physical education information. The revisions to the Physical Education Instruction Policy are designed to bring the policy in alignment with state adopted curricular standards and instructional framework and the District’s Student Wellness Policy which reinforce the importance of physical education as a vital component of our students’ educational experiences and its contribution to each student’s health and well-being, social development, and readiness to learn. On August 15, 2013, the SCUSD Board of Education conducted the first reading of the revised policy.

II. Driving Governance

In schools across the United States, physical education has been substantially reduced in response to budget concerns and pressures to improve academic test scores. Yet the available evidence shows that children who are physically active and fit tend to perform better in the classroom and that daily physical education does not adversely affect academic performance. Schools can provide outstanding learning environments while improving children’s health through physical education. The development of Physical Literacy, taught in Physical Education classes has far reaching implications, not only for students’ lives, but for the communities in which they live, and for society as a whole. Physical Literacy achievement impacts students’ school success, which, in turn, influences their future prospects for employment and quality of life. In addition with the changes in academic expectation as a result of the Common Core State Standards this becomes even more critical. The proposed revisions to the Physical
Board of Education Executive Summary

Education Policy will provide the guidelines necessary to create the learning environments that support quality physical education instruction and learning.

III. Budget

The cost implications of the policy change relate to providing an array of options for students to meet the physical education course requirements for graduation. This encompasses costs associated with bringing the JROTC and marching band courses into compliance with the requirements outlined in CA Education Code including teacher certification, revisions to course of study content, and fitness testing requirements. Also included are costs for increasing the opportunities for students to take and pass the required physical fitness test and professional learning for teachers. The approximate annual cost is $65,000.

IV. Goals, Objectives and Measures

To measure the impact and effectiveness of the Physical Education Instruction program, the Academic Office will use the Physical Education Mandates Report, the Physical Education Exemptions Report, the FitnessGram Test Results, surveys regarding the EPEC curriculum and any other data agreed upon by the Board and the Superintendent or designee to evaluate program quality and the effectiveness of the district’s program in meeting goals for physical education. These measures will serve as a barometer for success.

The Academic Office will assess the quality, effectiveness, and fidelity of the implementation of teaching and learning resources through the consistent review of curriculum content for alignment to standards, cognitive demand, accuracy, diversity, and relevance. The quality of instruction and professional development will be determined through observations of instruction and teacher reflection. Using multiple measures to further ensure validity, the Academic Office will also collect perception data through surveys, evaluations of professional development, and the work of the Physical Education Training Specialist. All results will be used to determine if program changes are warranted.

V. Major Initiatives

The proposed revisions to the Physical Education Policy outlined below are recommended as a result of the work of a Physical Education Steering Committee. This broad-based group of stakeholders comprised of district and site-based staff as well as community partners, reviewed best practices as outlined in the state standards and frameworks as well as those in similar urban school districts and incorporated language proposed by the California School Board Association (CSBA). Below we outline the major proposed changes to the policy.

Alignment to CA Physical Education Standards and Framework
The proposed revised policy is updated to include explicit alignment of the Physical Education program...
to the Physical Education standards and framework and the use of a standards aligned curriculum. The revisions also describe the overall course of study for Physical Education in grades 9-12.

Students with Disabilities
The revised policy addresses adaptations to the program to meet the needs of students with disabilities. Students with disabilities will be provided with physical education that is in alignment with their Individualized Education Plan (IEPs) and 504 plans.

Physical Education Minutes
The state of CA Education Code (EC) mandates minutes every ten days for physical education instruction (EC Section 51210(g), 51223, 51222(a)). The revised policy outlines the required minutes at each grade level, K-12, to provide guidance to school sites in scheduling their physical education programs.

Physical Fitness Testing
Annual Physical Fitness testing is required by the state of CA for grades 5, 7, and 9 (EC 60800). The revised policy includes the timeframe during which the testing will occur and what qualifies as passage of the physical fitness test. In addition, requirements for data reporting are outlined.

Exemptions (Temporary and Permanent)
The physical education policy has been revised regarding allowable exemptions from physical education courses, both temporary and permanent. There were no changes to the temporary exemptions in the previous physical education policy. The permanent exemptions have been modified as follows:

- The language in the athletic exemption (EC 51242) was modified to reflect updated language, specifically a shift from the use of the word interscholastic exemptions to athletic exemptions.
- The Two-Year Exemption (EC 51241[b][1]) now reflects changes in Ed Code such as clarity on what constitutes passing the physical fitness test (i.e. passing five of six components of the physical fitness test), which has been required since 2007. It also includes the opportunity to take additional high school elective Physical Education courses if students elect the two-year exemption or fail to pass the physical fitness test in accord with state requirements.
- The 12th grader exemption (EC 51246) was added as it is an allowable exemption that was not in previous Board policy.

Program Evaluation
The new policy includes a program evaluation component as advised by CSBA and utilized by other districts. The program evaluation component will allow the district to assess the impact of the physical education program.

Special Cases for Awarding Physical Education Credit for Non-Physical Education Courses
The state of CA allows districts to award physical education credit to courses other than Physical Education courses if the course meets requirements including those related to the provision of minimum instructional minutes for physical education, various reporting requirements, and the assignment of an appropriately credentialed teacher (EC 33352(b)).
Marching Band
Awarding physical education credit for marching band is a local decision established by the local Governing Board. State requirements still apply and impact a district’s ability to award physical education credit for marching band. These requirements include the following according to EC 3352(b)(7) and 5 CCR Section 10060):

- The course must be taught by a teacher with demonstrated subject matter competence in teaching physical education. Demonstrated subject matter competence is determined by a district established Committee on Special Assignments (EC 44258.7).
- The state required 400 minutes of physical education every 10 school days (EC 51222 (a)) is met within the context of the course.
- The course of study for the course outlines how the course meets the objectives and criteria of EC 33352 which lists the eight physical education content areas required for physical education program credit. These eight areas must be taught over a span of the physical education courses a student takes and are as follows: a) effects of physical activity upon dynamic health; b) mechanics of body movement; c) aquatics; d) gymnastics and tumbling; e) individual and dual sports; f) rhythms and dance; g) team sports; and h) combatives. Most students start Marching Band as a freshman and continue Marching Band all four years.
- Students must be administered the physical fitness testing (PFT) pursuant to EC 60800 and the results of the PFT are to be included as part of the school accountability report card.

Junior Reserve Officers Training Corps (JROTC)
Recently, CTC passed a special teaching authorization in Physical Education Designated Subjects Special Subjects in Reserve Officers Training Corps ROTC and Basic Military Drill (BMD). The local school board may approve to award PE credit for JROTC and BMD, however state requirements outlined below, still apply:

- The instructor giving PE credit for JROTC/BMD must meet the higher standard of subject matter competence by passing the CSET in PE or by completing an approved PE subject matter program.
- Holders of the Special Teaching Authorization would only be authorized to teach PE in the context of a JROTC or BMD course that has been approved by the local school board to award PE credit.

1. Executive Summary

Estimated Time of Presentation: 20 Minutes
Submitted by: Gabe Ross, Chief Communications Officer
Approved by: José Banda, Superintendent
I. Introduction:

At the November 20 Board of Education meeting, staff presented a revised plan regarding the creation of the Local Control and Accountability (LCAP) Advisory Committee. After receiving feedback from the community, the revised plan was adjusted to account for recommendations made by community members.

The plan is based on models used in Oakland Unified School District and Los Angeles Unified School District, as well as the 7-11 Committee appointment process used previously in SCUSD, where each democratically elected Board member (along with the Superintendent) appoint representatives to the committee. The representatives must be reflective of the diversity of the community we serve and specifically represent subgroups called out in the Local Control Funding Formula.

II. Driving Governance:

According to Ed Code 52060 on or before July 1, 2015, the Governing Board of each school district shall adopt a Local Control Accountability Plan (“LCAP”) using a template adopted by the State Board of Education (“SBE”), effective for three years with annual updates. It will include the district’s annual goals for all students and for each subgroup in regard to the eight state priorities and any local priorities, as well as the plans for implementing actions to achieve those goals. Statute requires the inclusion of parents, including parents or legal guardians of targeted disadvantaged pupils in the planning and implementation of the LCFF, including the creation of a specific parent advisory committee.

III. Application Process:

People interested in participating filled out an online application with the following information:

- Name
- Address
- Phone Number
- Email Address
- Demographic Information (parent, student, community partner, etc.)
- Which school(s) do you attend/represent?
- Which Trustee Area do you reside in?
- Do you represent Low Income (LI), English Learner (EL), Special Ed or Foster Youth students (yes/no/decline to state - with space for explanation)?
- Provide brief summary of why you want to serve on this committee and why you feel your voice is representative of your area and/or one or more of the subgroups explicitly called out in LCFF. Please include information about your history of service (PTA, School Site Council, neighborhood association, etc.). Give examples of how you have worked
collaboratively in a group setting.

- Please explain your interpretation of the difference between "advisory" and "advocacy".
- Opportunity to attach supporting documents (resume, etc.)
- Commitment to a minimum of two meetings a month for 7 months including a willingness to participate in outreach opportunities.
- Willingness to participate in training and mentorship from district staff and the Board.

The district used all means at our disposal to promote and publicize the application process so that the applicant pool is inclusive and representative of the entire community.

IV. Committee Selection:
Each SCUSD Trustee and the Superintendent will select two (2) members for the committee from the pool of applicants. The committee will include sixteen (16) members. Staff recommends that Trustees make every effort to appoint representatives from their Trustee Area.

V. Committee Demographics:
To be sure that this committee is reflective of the diverse community we serve, as well as subgroups explicitly called out in LCFF, the group must include a minimum number of representatives in key demographic areas.

The LCAP Advisory Committee must include:
- At least ten (10) parents
- At least two (2) students
- At least eleven (11) representatives that represent a Title 1 school (current parent, former parent, student, staff member, parent advocate, community partner or other qualified representative)
- At least three (3) representatives that represent English-learners (current parent, former parent, student, staff member, parent advocate, community partner or other qualified representative)
- At least two (2) representatives that represent special needs students (current parent, former parent, student, staff member, parent advocate, community partner or other qualified representative)
- At least one (1) representative from the Foster Youth community
- No more than three (3) staff members

Note that these representations are intentionally consistent with the district’s demographic breakdown. Approximately 71% of SCUSD students qualify for Free or Reduced Price Lunch; approximately 22% of SCUSD students are English-learners; approximately 13% of SCUSD students receive special education services. There are approximately 227 foster youth in SCUSD.
VI. Role and Scope:
This advisory group will be charged with a number of critical tasks and conversations to support the Board’s LCAP decision-making process.

- **Synthesize other stakeholder input** – The district will be gathering data from a variety of stakeholders throughout the LCAP process (school site meetings, district community meetings, Community Planning Process). This group will help to synthesize this data so that it helps to inform discussions on the LCAP.
- **Review annual progress towards stated metrics (Annual Review)** – This group will provide advisory input regarding completion of the Annual Review portion of the LCAP, helping to review metrics and data relative to stated goals and outcomes.
- **Provide input and feedback on draft district goals, metrics, actions, services and expenditures** – In order to ensure that the Board of Education has the feedback they need to make informed decisions regarding the budget and LCAP, this group will provide advisory input regarding these aspects of the draft plan. As required by LCFF, the district will respond in writing to all comments and questions in advance of presentation of the LCAP to the Board.

The intent of this group is to, in part, provide advisory counsel to the Board and Superintendent regarding expenditures’ alignment to district goals, not to override or usurp authority of individual school communities.

This Advisory Committee will meet regularly (exact schedule TBD) throughout the LCAP planning process.

VII. Timeline/Next Steps:
- **January 2015 – Committee begins meeting**
- **January – March, 2015 – Committee meets to:**
  - Receive information and training regarding district budget and state education law
  - Review data as part of the Annual Review process
  - Provide advisory input to staff regarding the creation of draft plan based on LCAP data and budgetary information
- **April – June, 2015 – Committee meets to:**
  - Provide detailed input and comments on draft LCAP plan
  - Assist in gathering significant stakeholder input regarding the plan
  - Help synthesize input for staff and board
