Grade 3 Math

Maria and Wayne

Maria saved $24. She saved 3 times as much as Wayne.

Grade 3  OA.5; OA6; OA7

This video clip uses a task relatively early in the learning progression toward understanding the meaning of division and its relationship to multiplication.

You will see the task introduced to students near the beginning of the lesson followed by their interaction with the task.
1\textsuperscript{st} read for annotating wonderings, questions, and unknown words.

2\textsuperscript{nd} read of an informational text for \textit{what is the central idea} in the informational text?

VIDEO clip to watch re: identifying the central idea is 4:10 – 6:57
