Mission

At George Washington Carver, we challenge students to be critical thinkers, creative problem solvers, and lovers of beauty. Students are guided to find and develop their unique path to becoming self-reliant, self confident, socially responsible and productively engaged in the world.

Description

Through a multi-disciplinary and integrated curriculum Carver students master the academic and practical standards required for successful college entry and career readiness. Our school culture is based on critical thinking (head), creative expression (heart), and wholesome action (hands). Our school environment is designed to develop thinking, creating, and healthy activity. We foster respect for the individuality of each student throughout the school. Our college preparatory curriculum is integrated with the arts. At Carver High School, students find a place to explore and experiment; every classroom is like a laboratory or art studio where students and teachers engage in academic inquiry and test their ideas.

WHAT I LIKE
ABOUT **my**
pathway

“My experience at Carver High School has helped me gain a **better understanding** of my relationship with the environment and has influenced the things **I feel passionate** about”

—Priscilla Portillo, Class of 2014

“The **integrated projects** have helped me learn about the world in a way that also helps me know myself and how I can **make a difference** in my community.”

—Elijah Guadalupe, Class of 2015
