

2<sup>nd</sup>

Look for a pattern. Solve.

1. Emma is collecting cans for a recycling project. The chart shows how many cans she plans to collect each week. What is the pattern?

Week 1	10 cans
Week 2	20 cans
Week 3	30 cans
Week 4	? cans
Week 5	? cans

\_\_\_\_\_ more cans each week

2. What is Emma's goal for week 4 and week 5?

Week 4: \_\_\_\_\_ Week 5: \_\_\_\_\_

5. Mrs. Rose takes cookies out of the oven. They are in 4 rows and 5 columns.

Which addition sentence shows how many cookies in all?

$4 + 5 = 9$

(A)

$4 + 4 + 4 = 12$

(B)

$5 + 5 + 5 + 5 = 20$

(C)

$5 + 5 + 5 + 5 + 5 = 25$

(D)

- 5 One week, a group of chimpanzees ate 437 bananas. The next week, they ate 465 bananas. Did they eat more than 900 bananas during both weeks? Explain.
