Governing Commitments

The Board will govern lawfully with primary emphasis on Results for students; encourage full exploration of diverse viewpoints; focus on governance matters rather than administrative issues; observe clear separation of Board and Superintendent roles; make all official decisions by formal vote of the Board; and govern with long-term vision.

1. The Board will function as a single unit. The opinions and personal strengths of individual members will be used to the Board's best advantage, but the Board faithfully will make decisions as a group, by formal vote. No officer, individual, or committee of the Board will be permitted to limit the Board's performance or prevent the Board from fulfilling its commitments.
2. The Board is responsible for its own performance, and commits itself to continuous improvement. The Board will assure that its members are provided with training and professional support necessary to govern effectively. As a means to assure continuous improvement, the Board regularly and systematically will monitor all policies in this section, and will assess the quality of each meeting by debriefing the meeting following its conclusion.
3. To ensure that the Board's business meetings are conducted with maximum effectiveness and efficiency, members will:
 - a. come to meetings adequately prepared
 - b. speak only when recognized
 - c. not interrupt each other
 - d. not engage in side conversations
 - e. not repeat what has already been said
 - f. not "play to the audience" or monopolize the discussion
 - g. support the president's efforts to facilitate an orderly meeting
 - h. communicate openly and actively in discussion and dialog to avoid surprises
 - i. encourage equal participation of all members
 - j. practice respectful body language

4. The Board will use a consent agenda as a means to expedite the disposition of routine matters and dispose of other items of business it chooses not to discuss. All administrative matters delegated to the Superintendent that are required to be approved by the Board will be acted upon by the Board via the consent agenda.
5. An item may be removed from the consent agenda upon request of a member. Our standard protocol is as follows: If any board member wishes to remove an item from the consent agenda, he/she should alert the superintendent and board president by no later than 9:00 AM the day of the board meeting.
6. After the first full cycle of monitoring, the monitoring of **Operational Expectations** policies will be included on the agenda for separate discussion only if Superintendent reports indicate non-compliance, if a majority of the Board has questions about Superintendent compliance or reasonable interpretation, or if policy content is to be debated. Otherwise, **OE** monitoring reports will be included in the consent agenda.
7. The Board will direct the organization through policy. The Board's major focus will be on the results expected to be achieved by students, rather than on the strategic choices made by the Superintendent and staff to achieve those results.
8. The Board, by majority vote, may revise or amend its policies at any time. However, as a customary practice, a proposed policy revision will be discussed at one session of the Board prior to being approved at a subsequent Board meeting.

Policy Type: Governance Culture**Board Committees**

The Board may create committees if they are deemed helpful to assist the Board in the performance of its responsibilities. If committees are established, they will be used exclusively to support the work of the Board as described in Policy GC-3, and will never be created or used to assist the Superintendent in any operational area.

1. Board committees and other such entities by whatever name created by the Board will not be used to direct, advise, assist or oversee the staff. Committees customarily will prepare recommendations for Board consideration. Board committees will have no authority over staff, and may exercise demands on staff time and organizational resources only to the extent authorized in this policy.
2. Board committees may not speak or act for the Board. The responsibilities and authority of all Board committees are carefully stated in this policy to assure that committees fully understand their duties and extent of authority, and to assure that committee work will not usurp or conflict with the Board's own authority or conflict with authority delegated to the Superintendent.
3. All Board committees are considered to be ad hoc, or temporary. The date for their termination is listed for each committee. Committees may be renewed or reauthorized upon their expiration, but unless the Board acts to renew the committee's existence, it shall cease to exist upon the date specified.

Board Member Conflict of Interest

Board members are expected to avoid conflicts of interest involving all matters considered by the Board. A conflict of interest exists when a member is confronted with an issue in which the member has a personal or financial interest or an issue or circumstance that could render the member unable to devote complete loyalty and singleness of purpose to the public interest.

1. If a Board member has a personal or financial interest in any matter being considered by the Board, the member shall disclose such interest to the Board, shall not vote on the matter and shall not attempt to influence the decisions of other Board members.
2. A member of the Board shall not also be an employee of the district.
3. With the exception of the monthly stipend for board service, no member shall receive any compensation for services rendered to the district. This provision shall not prohibit members from receiving reimbursement for authorized expenses incurred during the performance of board duties
4. The Board shall not enter into any contract with any of its members or with a firm in which a member has a financial interest if such contract results in the member's direct, personal gain directly related to the contract.
5. A Board member is expected to avoid conflict of interest in the exercise of the member's fiduciary responsibility. Accordingly, a Board member may not:
 - a. disclose or use confidential information acquired during the performance of official duties as a means to further the Board member's own personal financial interests or the interests of a member of the Board member's immediate family;
 - b. accept a gift of substantial value or economic benefit which would tend to improperly influence a reasonable person, or which the Board member knows or should know is primarily for the purpose of a reward for official action; "substantial value or economic benefit" is defined by XXX to mean XXX
 - c. engage in a substantial financial transaction for private business purposes with a person whom the Board member directly supervises; "substantial financial transaction" is defined by XXX to mean XXX.

- d. perform an official act which directly confers an economic benefit on a business in which the Board member has a substantial financial interest or is engaged as a counsel, consultant, representative or agent; “substantial financial interest” is defined by XXX to mean XXX.

Process for Addressing Board Member Violations

The Board and each of its members are committed to faithful compliance with the provisions of the Board's policies. The Board recognizes that its failure to deal with deliberate or continuing violations of its policies risks the loss of confidence in the Board's ability to govern effectively. Therefore, in the event of a member's willful and/or continuing violation of policy, the Board ordinarily will address the issue by the following process:

- a. Conversation in a private setting between the offending member and the Board president or other individual member;
- b. Possible removal by the Board from any Board leadership or committee positions to which the offending member has been appointed or elected;
- c. Censure of the offending member of the Board as a means of separating the Board's focus and intent from those of the offending member.

1. The Board will make decisions by formal, recorded vote in order to avoid any ambiguity about whether direction has been given. In the event that a Board decision is ambiguous, the superintendent shall, at the time of the decision, seek clarification.
2. The Superintendent is neither obligated nor expected to follow the directions or instructions of individual members, officers or committees unless the Board has specifically delegated such exercise of authority.

Staff Accountability

The Superintendent is responsible for all matters related to the day-to-day operation of the district, guided by the Board and its policies. All staff members report directly or indirectly to the Superintendent.

1. The Board will never give direction to any employee other than the Superintendent.
2. The Board will not directly evaluate – formally or informally – any staff member other than the Superintendent. This does not restrict a board member from communicating his or her opinion about a staff member to the Superintendent.
3. Except as required by law, the Board will not participate in decisions or actions involving the hiring, evaluating, disciplining or dismissal of any employee other than the Superintendent.

Authority of the Superintendent

The Board will provide direction to the Superintendent through written policies that define the organizational results to be achieved for students and define operational conditions and actions to be accomplished or avoided.

1. The Board will develop **Results** policies instructing the Superintendent to achieve defined results for the students served by the district.
2. The Board will develop **Operational Expectations** policies which express the Board's values about operational conditions and actions. Certain of these values will be expressed positively to assure that the stated actions occur and the identified conditions exist, and will be stated as directives. Certain other values represent actions and conditions that are to be avoided, and will be stated prohibitively.
3. As long as the Superintendent uses the reasonable interpretation of the Board's **Results** and **Operational Expectations** policies, the Superintendent is authorized to establish additional district regulations, make decisions, establish practices and develop activities the Superintendent deems appropriate to achieve the Board's **Results** policies. The Superintendent is not expected to seek Board approval or authority for such decision falling within the Superintendent's area of delegated authority.
4. The Board may change its **Results** and **Operational Expectations** policies, and in so doing shift the boundary between Board and Superintendent areas of responsibility. The Board will respect and support the reasonable interpretation of its policies by the Superintendent, even though resulting actions chosen by the Superintendent may not be the actions the Board or its members may have taken.
5. The Superintendent from time to time may seek the guidance of the Board to meet the organizational results.

Policy Type: Board/Superintendent Relationship**Superintendent Accountability**

The Board considers successful Superintendent performance to be district accomplishment of the Board's **Results** policies and operation according to the values expressed in the Board's **Operational Expectations** policies. These two components define the Superintendent's job responsibilities, and are the basis for the Superintendent's performance evaluation.

1. The Board will determine district performance based upon a systematic monitoring process.
2. The Board will acquire monitoring data on **Results** and **Operational Expectations** policies by one or more of three methods:
 - a. By **Internal Report**, in which the Superintendent submits information that certifies and documents to the Board compliance or reasonable progress;
 - b. By **External Review**, in which an external third party selected by the Board assesses compliance or reasonable progress with applicable Board policies;
 - c. By **Board Inspection**, in which the whole Board or a committee duly charged by the Board formally assesses compliance or reasonable progress based upon specific policy criteria.
3. The consistent performance standard for **Operational Expectations** policies shall be whether the Superintendent has:
 - a. Reasonably interpreted the policy and its subparts;
 - b. Complied with the provisions of the Board policy.
4. The consistent performance standard for **Results** policies shall be whether the Superintendent has:
 - a. Reasonably interpreted the policy and its subparts;
 - b. Made reasonable progress toward achieving the outcomes defined by the Board's **Results** policies.

6. The Board will make the final determination as to whether Superintendent interpretation is reasonable, whether the Superintendent is in compliance and whether reasonable progress has been made. In doing so, the Board will apply the “reasonable person” standard.
6. All policies that instruct the Superintendent will be monitored according to a schedule and by a method determined by the Board and included in the Board’s annual work plan. The Board may monitor any policy out of this defined sequence, if it is determined by a majority of the Board that conditions warrant monitoring at times other than those specified by the annual schedule.
7. Each September, the Board will conduct a formal summative evaluation of the Superintendent. The summative evaluation will be based upon data collected during the year from the monitoring of **Results** and **Operational Expectations** policies. The Board will prepare a written evaluation document that will consist of:
 - a. A summary of the data derived during the year from monitoring the Board’s **Results** and **Operational Expectations** policies;
 - b. Conclusions based upon the Board’s prior action during the year relative to the Superintendent’s reasonable interpretation of each **Result** policy and whether reasonable progress has been made toward its achievement;
 - c. Conclusions based upon the Board’s prior action during the year relative to whether the Superintendent has reasonably interpreted and operated according to the provisions of the **Operational Expectations** policies.

The purpose of the annual evaluation of the Superintendent is to summarize the actions previously taken by the Board as it monitored *Results* and *Operational Expectations* policies during the year, and to draw conclusions on that basis.
