24. BUY AMERICAN PROVISION – In compliance with 7 CFR, Sections 210.21[d] and 220.13[d]; U.S. Department of Agriculture Policy Memorandum SP 38-2017; Section 104(d) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 Public Law 105-336 added a provision, Section 12(n), to the National School Lunch Act (NSLA) (42 United States Code Section 1760[n]), that requires all school food authorities (SFA) to purchase, to the maximum extent practical, domestic commodities or products. Section 12(n) of the NSLA defines a domestic commodity or product as an agricultural commodity (i.e., meat/meat alternate, grain, fruit, vegetable, and fluid milk) or processed product (i.e., processed food product that includes components that contribute to a reimbursable meal, such as a chicken patty that contains a meat/meat alternate and grain component) that is processed in the United States using substantial agricultural commodities that are produced in the United States. The VENDOR shall purchase, to the maximum extent practicable, domestic agricultural commodities or products substantially processed in the United States. “Substantial” means the final processed product contains over 51% domestically grown agricultural commodities. This provision applies to all food purchases paid from the nonprofit school food services account. There are limited exceptions to this provision which allow for the purchase of products not meeting the “domestic” standard as described above (“non-domestic”) in circumstances when use of domestic products is truly not practicable. However, before utilizing an exception, alternatives to purchasing non-domestic food products should be considered.

Exceptions to the Buy American provision should be used as a last resort; however, an alternative or exception may be approved upon request. Per Senate Bill 490 exceptions include:

- i. The bid or price of the nondomestic agricultural food product is more than 25 percent lower than the bid or price of the domestic agricultural food product
- ii. The quality of the domestic agricultural food product is inferior to the quality of the agricultural food product grown, packed, or produced non-domestically.
- iii. The agricultural food product is not produced or manufactured domestically in sufficient and reasonably available quantities of a satisfactory quality to meet the needs of the district.

To be considered for the alternative or exception, the request must be submitted in writing to SCUSD Nutrition Services in advance of delivery. The request must include: (1) the alternative substitutes that are domestic and meet the required specifications, with price of the domestic food alternative substitute and the availability of the domestic alternative substitute in relation to quantity ordered, and (2) the reason for exception, whether limited/lack of availability or price. If price, include the price of the domestic food product and the price of the non-domestic product that meets the required specifications of the domestic product.

Sacramento City Unified School District
Cafeteria Food Distribution
RFP #24-1005-2

Once the exception request is received, a Nutrition Services designee will determine the type of exception, and complete the appropriate documentation to keep on file for three years as required by the CDE. Types of exceptions include:

1. Annual: Can only be used for the following five commodities: bananas, canned mandarin oranges, pineapple, jicama, and mangos.
2. Seasonal: Can be used in situations when commodities are not available seasonally
3. One-Time: Can be used for commodities or processed products in circumstances when the use of domestic foods is truly not practicable.

Additionally, the Buy American provision applies to all processed end products through the use of USDA Foods. The Vendor must be able to provide documentation to the District that processed end products containing USDA Foods meet the 51% requirement, by weight or volume. Substantial means that over 51 percent of the final processed product consists of agricultural commodities that are grown domestically. Products from Guam, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are allowed under this provision as territories of the United States. In compliance with Code Sections 4330 to 4334 inclusive California products shall receive preference over materials made elsewhere. If a bidder is proposing an article of foreign make, the fact must be stated in his bid. Exceptions to the Buy American Provision will be used as a last resort, and will be determined by the District based on the two exceptions defined by the USDA Policy Memo SP 38-2017, Compliance with and Enforcement of the Buy American Provision in the National School Lunch Program.

25. MISCELLANEOUS PROVISIONS:
