II. SCOPE OF WORK

Sacramento City Unified School District is an urban district operating 53 elementary schools, five K-8 schools, nine middle schools, nine high schools, and dependent charter, adult education, and alternative education campuses. The district's enrollment for fiscal year 2008-09 is 45,400 in all grades. The district's annual budget exceeds \$500,000,000.

The district requires the professional services of a consultant to conduct its external audit and facilitate the reporting of findings:

An annual audit will be conducted in accordance with generally accepted auditing standards; California Education Code; the standards for financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; the provisions of the OMB Circular A-133, Audits of State, Local Governments, and Non-Profit Organizations, (as applicable),

and the "Standards and Procedures for Audits of California K-12 Local Educational Agencies" issued by the Office of the State Controller.

It is anticipated that these auditing services will begin with the fiscal year ending June 30, 2009, with a renewal option for two subsequent years. The district will make financial records and related information available, will prepare schedules that may be requested, and will locate documents selected for testing and review. Copies of previous audits will be made available for inspection.

The Audit Report shall include at least:

1. A report on the study and evaluation of internal control systems. The report must identify the district's significant internal accounting controls, and those controls designed to provide reasonable assurance that all records are being managed in compliance with laws and regulations. This report must identify the controls which are not evaluated, and the material weaknesses identified as a result of the evaluation.
2. A statement of positive assurance with respect to those items tested for compliance including conformance with laws, rules, and regulations pertaining to non-major programs and other items which could have a material effect on financial reports and claims for advances and reimbursements. In addition, the auditor's report must disclose whether the district has complied with laws and regulations.
3. A statement of negative assurance on those items not tested.
4. A summary of all instances of noncompliance and an identification of total amounts of costs questioned, if any, as a result of noncompliance.
5. Other statements or reports to satisfy state and local government requirements. The three parts (Internal, State, Federal) of the audit report should be bound together. Separate management reports should be submitted with and attached as part of the above report or reports. Reports on fraud, abuse, or illegal acts or indication of such acts including all questioned costs found as the result of these acts should be covered by separate written report to the Federal department or agency. The auditor agrees to allow access to working papers and all related documents to the district and Federal, State, or local government officials or auditors. All such papers are to be retained by the auditor for a period of no less than five (5) years. Copies of the completed audit report are to be delivered to the district no later than November 30 of the year the audit is conducted. In the event that this becomes impossible due to circumstances beyond the control of the auditor, a waiver may be requested with an absolute deadline of December 15.

A representative from the audit firm will be required to present the results of this audit report to the governing board as well as meeting the audit committee at selected times during the fiscal year.
