Subject: Update on Transition and Engagement Activities

In order to keep the Board informed regarding my transition and engagement activities, I am providing another summary of recent activities as part of my 100-day introductory tour of the district. As stated throughout the transition process, I am committed to engaging with all stakeholders in the community in order to hit the ground running.

The message to stakeholders has been, and continues to be, focused on three key areas:

- Why I came to Sacramento - I believe in the future of public education in California and I believe Sac City has the potential to be one of the best urban districts in the country.
- My vision - together we can create a service-oriented culture of excellence where success for each student and all relationships reflect our core values.
- Importance of collaboration – you cannot lead if nobody is following, so we must work hard in everything we do to make sure we are being inclusive of all of our partners.
