Administrative Regulation

Use Of Technology In Instruction

AR 6162.7

Instruction

Selection of District Technology

District staff may identify and recommend technology for use within the district. The Chief Information Officer or delegate shall oversee the evaluation and approval of District technology resources.

District technology shall:

1. Promote and advance the instructional mission of the district;
2. Comply with all applicable district and legal/regulatory policies; and
3. Conform to district technology standards and protocols for access and management.

Unapproved technology may not be used within the district environment.
