

Sacramento City Unified School District
Board of Education Special Meeting
September 8, 2021 Public Comments

Name:	Wendy Reynolds
Comment:	As part of the Facilities Master Plan, can something be done, FINALLY, about the condition of the pool at JF Kennedy High School? It's been half operational for years. I have been told there was a work order submitted about 6 years ago to provide for a legitimate water polo net on one end of the pool that has never been fulfilled. The JFK swim team missed out on the entire 2020-2021 (albeit abbreviated) season because the pool was not operational. The water polo team is having to practice at CKM when they can and all games are away games, causing the team to miss class in order to travel. The district is always spending money on football fields and basketball courts - why is the aquatics program getting the short end of the stick?
