Comment:	<p>Dear School Board, How much more do you need to see? How many more BIPOC leaders need to be pushed out or resign due to prevalent and permissive discrimination? BM Phillips tried to call your attention to it and you all acted like she was talking crazy things. Two women of color who are highly educated and highly qualified yes Dr. Simms & Dr Mackey were pushed out and reassigned with no reasons given to them but only because Ms Baeta has a problem with vocal and more educated women of color. Mr Harris is now gone. You approve another blonde white woman to a higher position that is less qualified than most but is friends with Baeta. Now you have another person who will be an Assistant Superintendent who is less qualified than Dr. Simms and Dr. Mackey. Don't you all see a pattern? The community does. Reward people who don't intimidate the superintendent and Ms. Baeta. This is ridiculous and you all need to stop it. Protect our kids and our leaders of color!</p>

Comment:	<p>As a former student in this district it is hard for me to see just how bad this district continues to get especially when I thought it could not get any worse. but it has. I don't know the current superintendent personally but I do know that he has never been to any events in my community or stood side by side with Black community leaders in support of anything that they were trying to do. I also know that there has been and is a mass exodus of Black people who have worked in the district especially since this superintendent has been here. I did meet Chief Harris at an event and he seemed genuine and has worked with the Black Parallel school board. This superintendent has never worked with the very group that is for advancing young Black students and advocating for Black excellence. I would argue that the superintendent doesn't even know what Black excellence is and I know his cabinet does not either. So my question to this board is why is Aguilar here if he has neither the knowledge or experience to advance outcomes for Black students or any minority group for that matter? He needs to go point blank period.</p>

Comment:	<p>Board, Once again another school year begins and the chaos continues. Independent Study is a hot mess and we lost yet ANOTHER leader of color. When are you going to learn and listen to the majority of students and families in your community??!! Folks are pushing to have you all recalled because of your lack of true stewardship of our most neediest students and families and the Black and Brown leaders that are/were in this district. Member Phillips alluded to how tremendous the loss of Mr. Harris is to the district Could his departure be because he too saw how racist Christine Baeta is allowed to be under Aguilar?! Member Phillips also spoke to other Black and Brown leaders that were pushed out by this horrible team of Baeta and Aguilar. That's right, she meant Dr. Simms and Dr. Mackey who fell victim to the insecure white privilege Baeta who can't stand to have more educated women of color around her because her lack of education and experience is on full display around them. Aguilar showed his insecurity also when he allowed it to happen and poor Mr. Harris is gone now despite their long relationship. All of this is so obvious to us in the community yet you all sit there and act like you don't read these comments or are you just that arrogant and ignorant that you refuse to see what is right in front of your faces. I also found out that a Black AP who ended being paid for her silence has left to another district. You all are idiots being blindly led by a little dictator and his white princess general. You need to take a look at yourselves and ask who do you serve: the students or yourselves. #recallSCUSDSchoolBoard</p>

Comment:	Critical race theory, anti racist training, equity , social justice. Are these controversial topics being taught to teachers in training to indoctrinate my children?
