Student Services Equity Index

Equity Indices

Equity indices provide a framework for “seeing the system”. The goal of the indices is to provide a robust way to allocate resources on not just student enrollment but also include other research based criteria to ensure that all resources are optimized to serve all students regardless of their profile.

Student Services Equity Index

- Student Services Equity Index uses early warning data to create the student-needs driven index
- Need Rating is based on staffing ratio of 50:1 for the number of students enrolled with the following risk indicators
 - attendance equal or less than 90%
 - 2+ suspension incidents
 - or 4+ behavior referrals
- A weighted formula for each school equates to FTE
- Allocating FTE where student need is greatest
- Allows the district to assess and respond to student needs
