Our History

Parent Teacher Home Visits was founded by local parents in 1998, through an extraordinary partnership between:

- Area Congregations Together
- Sacramento City Unified School District
- Sacramento City Teachers Association

The partnership has remained committed, for the past 25 years, to leading the effort to bridge the gap between home and school through relational home visits.

From a Local Partnership...to an International Organization.

Parent Teacher Home Visits has grown across the country to 28 states, Washington DC, and internationally into Saskatchewan, Canada.
