CELEBRATING WOMEN'S HISTORY

Every March, women around the world are celebrated in recognition and remembrance. This month we want to acknowledge and celebrate local women in Sacramento who are making a difference in their communities today. We must also acknowledge the millions of women who have paved the way to provide inspiration, guidance, mentorship and leadership to our local leaders, making it possible to elevate to the places they are now. The section below highlights some of these important women in Sacramento, click the link below each picture to learn about each person:

[Mai Vang, Sacramento City Council](#)

[Dr. Shirley Webber, CA Secretary of State](#)

[Anne Rudin, Sacramento's First Female Mayor](#)

[Angela Chavez, Local Non-Profit Leader](#)

CELEBRATING WOMEN'S HISTORY

Vicki Gonzalez, Award Winning Journalist

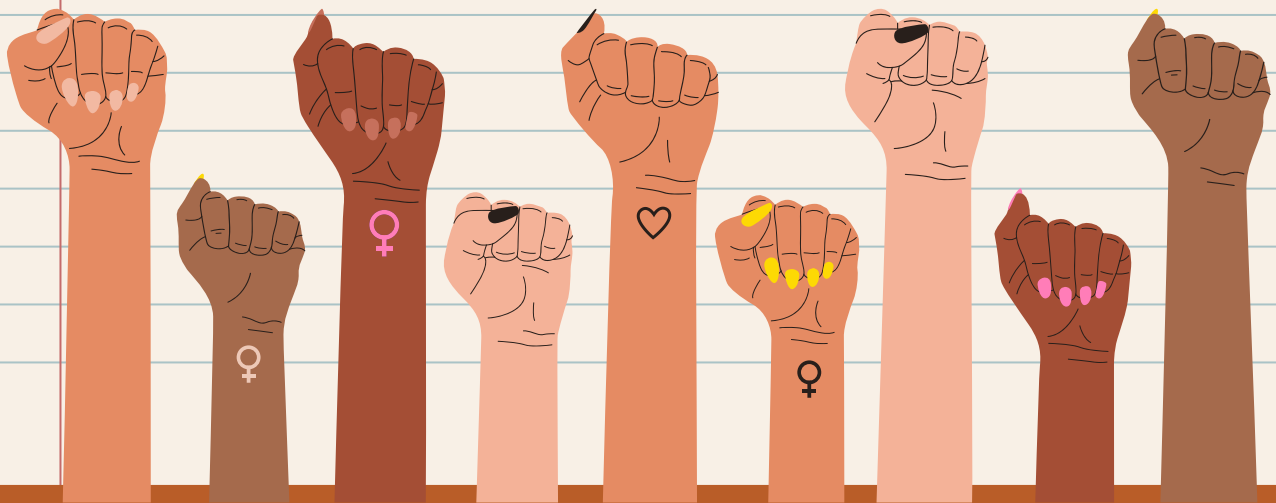

Britta Guerrero, CEO Sacramento
Native American Health Center

Dr. Flojaune Cofer, Senior Director
of Public Health Advocates

Dr. Amparo Villablanca,
UC Davis Cardiovascular Medicine Pioneer

DISABILITY AWARENESS MONTH

March is Developmental Disabilities Awareness Month! This is a time to celebrate the more than 6 million Americans who live with developmental disabilities and to reflect on the contributions they make to our broader community.

People with developmental disabilities have a right to be included in every aspect of community life and to have opportunities for education and work, just as anyone else would. As adults, people with developmental disabilities also have the right to self-determination, to make decisions about their own lives that are right for them. They can take risks, try new things, stretch their boundaries, and reach for the stars to achieve their dreams and live the life they want.

When people with developmental disabilities are included in the broader community, everyone benefits. We can share experiences, learn from each other, and help lift each other up.

To help change the stigma of developmental disabilities, we've provided a list of some famous people below:

Michael Phelps
Olympic Athlete

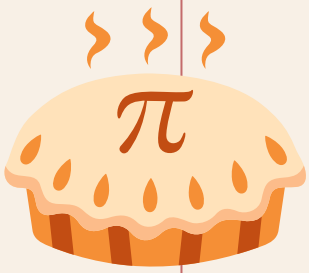

John F. Kennedy
55th President of the U.S.

Ervin "Magic" Johnson
NBA Hall of Fame

Whoopi Goldberg
Famous Actress

PI DAY & MESA

March is dedicated to PI Day (March 14) and is also a celebration of all the brilliant mathematicians and physicists who have tirelessly worked on PI. What is PI? Pi is the most studied number in mathematics, and for good reason. The number pi is integral to our understanding of geometry. Pi has uses in physics, astronomy, and mathematics. Pi is used in architecture and construction as well, and has been a vital part of everything from arches and bridges to the Pyramids of Giza. Last year, a Swiss physicist team set the world record for calculating the PI number to 62,831,853,071,796 digits

In honor of PI Day we want to celebrate our local organization MESA (Math, Engineering and Scientific Achievement) groups who are in SCUSD. MESA (Mathematics, Engineering, Science Achievement) is nationally recognized for its innovative and effective academic development program. MESA engages educationally disadvantaged students so they excel in math and science and graduate with math-based degrees. MESA partners with segments of higher education as well as K-12 institutions. MESA USA is a consortium of statewide MESA programs representing 10 states across the country. MESA USA operates collaboratively to broaden participation and improve academic outcomes for underrepresented students in STEM education. MESA programs combine to serve over 50,000 K-16 students annually.

Want to get involved in MESA? Follow the link below:

Saint Patrick's Jokes For Kids

WHERE DO
 LEPRECHAUNS SIT TO
 RELAX?

In sham-rocking chairs!

HOW DID THE
 LEPRECHAUN GET TO
 THE MOON?

In a sham-rocket!

WHY DO LEPRECHAUNS
 HATE RUNNING?

They would rather jig than jog!

WHAT KIND OF BOW
 CAN'T BE TIED?

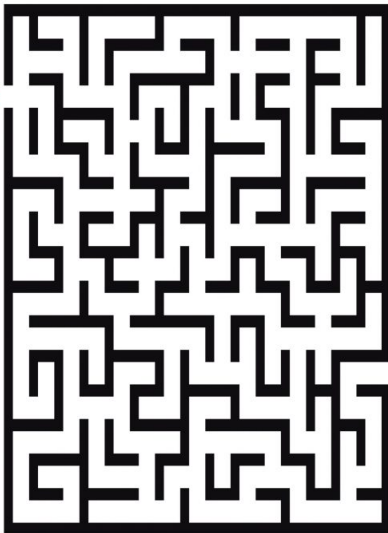

A rainbow!

WHAT DO YOU CALL A
 FROG THAT JUMPED
 INTO A POT OF GOLD?

A leap-rechaun!
