**PART D – BIDDERS QUESTIONS & RESPONSES:**

**AD1.01 QUESTIONS:**

I would like to submit Primex as a substitute for notification boards & clocks for the H.W. Harkness Telecenter project. We are a synchronized time/clock/notification board provider for school districts across the California area & would like to be considered despite not being specified on the project documents in section 'Educational Intercom Systems' on 27 51 23 50 – 9.

Attached to this email is a professional design evaluation from our Applications Engineer & the substitution request form of what we propose to include for the project. Additionally, attached are data sheets & a warranty statement for our Notify product line & transmitters for time synchronization.

My colleague included on this email, Dan, & I are happy to discuss anything included. If there is anything additional you need from us or have any questions or clarifications, please let us know. Thanks in advance.
