

## **LCAP PRIORITY 7: ADVISORY COMMITTEE MEETING INPUT**

**December 16; January 22**

### **Priority 7: Implementation of Common Core Standards**

#### **Teachers**

Need to be explicit about the flow from voluntary to mandatory

Parents report that some teachers at sites are frustrated because there is no new curriculum

Next time: Want to hear about how teachers are collaborating

Co-Teachers

Teacher Assistants

Class size reduction into LCFF

Provide teachers more CR support

- Model/coaching

Staff development /Professional Learning via a menu

#### **Parents**

How are we involving parents of the subgroups?

Older children may struggle, need more support for parents

Examples of CC instructional materials for parents

Another opportunity for more feedback

Survey for additional feedback on all priorities

Accountability of parents to participate

- How/Methodology

How can parents hold teachers accountable?

Maybe use PRCs (Parent Resource Centers)

Provide assistance to parents so they can help their kids

Continue parent workshops

Parent education re: CC education/expectations

- Get them to want to be involved
- Increase access

#### **Implementation**

Partnership with community college, and other colleges

Establish a baseline

- Method of evaluating implementation over baseline
- Method of monitoring implementation / benchmarks

Best practices in other states?

Relationship with CSU Sacramento?

Community (non-school-based) after school program (ASP) alignment with CC

#### **Supports**

Partnership with community college, and other colleges

What is the activity under additional support?

Older children may struggle more -What kind of support?

Older children may struggle more – Counselors

Interventions for students

Address intervention and support

After school interventions

More tutors

Older children may struggle more - They weren't taught Common Core (CC) in elementary school  
Can funds be used to establish tutoring workshops on Common Core for ELL students and students who are below grade level?

### **Curriculum/Materials**

Matrix

Student & Teacher curriculum

In classroom materials

Classroom resources

- Study Guides
- Library alignment

Spending money on digital and text resources / materials

### **Assessment**

Testing on laptops

- Need appropriate tools
- Navigate all platforms

How do we communicate test results without an actual test?

### **Technology**

Technology

- Knowledge base of students
- Access to tech at home (how?)

Families without access to technology – how will they participate?

Computer skills for all – prepared, proficient

Teach kids basic computer skills for successful test taking

Increase access to technology in classroom, ASPs

Ensure student and teacher comfort with technology before testing

Use technology throughout the school year not just at test time

### **ELs/SpED/Foster Youth**

Are Special Education teachers getting special training regarding Common Core?

How do we address all of our students? Anyone with an IEP?

How are we ensuring IEPs and 504s are being rewritten? Tracking?

How do we address needs of special needs students?

How does Common Core affect special students and how are their needs being met?

Include ELD as part of implementation of CC

Students with special needs and 504s: develop a knowledge base
