Recommendation: Approve Resolution No. 2879 authorizing the negotiated sale of General Obligation Bonds (Measure Q Bonds) and approving forms of documents and actions of officers of the District necessary in connection with the bonds.

Background/Rationale: In 2012, the voters passed Measure Q, a Proposition 39 election authorization to issue \$346 million of general obligation bonds.

The District issued the first two series of Measure Q Bonds in the total amount of \$43 million in 2013. Bond proceeds funded authorized projects from 2013-2015. In 2015 the District issued the next series of Measure Q Bonds totaling \$90 million to fund high priority projects that will be completed during the next 2 years.

The District is now issuing an additional series of bonds not to exceed \$14 million to complete high priority projects over the next 2 years.

Financial Considerations: General obligation bonds are repaid by local property tax revenues. The obligation of the bond's debt service is separate from the general fund of the District. The bonds do not impact the general fund.

LCAP Goal(s): Family and Community Engagement.

Measure Q 2016 Bond Sale

April 21, 2016

I. OVERVIEW / HISTORY

On November 6, 2012, the district received authorization, by more than fifty-five percent of the votes cast by eligible voters, to issue Measure Q General Obligation Bonds (“Bonds”) in the amount of \$346 million.

Measure Q provides for the upgrading of classrooms; science labs; computer systems and technology; renovating heating and ventilation systems; improving student safety and security systems; and repairing roofs, restrooms, floors and plumbing.

Following the passage of Measure Q, the district conducted its first bond sale in the summer of 2013. \$43 million in Measure Q Bonds were issued to fund projects for the two-year period, 2013-2014 through 2014-2015.

In 2015, the district sold an additional \$90 million of Measure Q Bonds to fund high priority projects such as core academic renovation, modernization, technology upgrades, fire and irrigation improvements, and resource and energy conservation projects. The projects are expected to be completed over the next 2 years.

In order to keep the project construction moving forward, staff is requesting Board approval to issue additional Measure Q Bonds in an amount not-to-exceed \$14 million.

II. DRIVING GOVERNANCE

- California Government Code Section 53506 and following allows school districts to issue and sell bonds at a public or private sale
- Education Code Section 15140 and following authorizes the County to allow school districts to issue bonds on their own
- California Government Code Section 53559 states that the county director of finance will continue to administer the tax levy for debt service for the Bonds

III. BUDGET

General obligation bonds are voter-approved debt, which are secured by the legal obligation to levy *ad valorem* property taxes sufficient to pay annual debt services. General obligation bonds are independent from the district’s general fund. As authorized by the taxpayers, the County Director of Finance is obligated to levy *ad valorem* taxes on a property subject to taxation in the district. Costs associated with the Bonds do not impact the district’s general fund.

The Board of Supervisors and officers of the County are obligated by statute to provide for the levy and collection of property taxes in each year sufficient to pay all principal and interest coming due on the Bonds in such year, and to pay from such taxes all amounts due on the Bonds as provided by law and in the Paying Agent Agreement. The District hereby requests the Board of Supervisors to annually levy a tax upon all taxable property in the District sufficient to redeem the Bonds, and to pay the principal thereof, redemption premium, if any, and interest thereon as and when the same become due, and to provide for any mandatory sinking fund payments or set-asides that may be required, as set forth in the Paying Agent Agreement when executed.

Section 12. Pledge of Tax Revenues. The District hereby pledges all revenues from the property taxes collected from the levy by the County Board of Supervisors for the payment of outstanding bonds of the District heretofore or hereafter issued pursuant to voter-approved measures of the District, including the Bonds (for the purpose of this pledge, hereinafter collectively referred to as the “Bonds”) and amounts on deposit in the interest and sinking fund of the District to the payment of the principal or redemption price of and interest on the Bonds. This pledge shall be valid and binding from the date hereof for the benefit of the owners of the Bonds and successors thereto. The property taxes and amounts held in the interest and sinking fund of the District shall be immediately subject to this pledge, and the pledge shall constitute a lien and security interest which shall immediately attach to the property taxes and amounts held in the interest and sinking fund of the District to secure the payment of the Bonds and shall be effective, binding, and enforceable against the District, its successors, creditors and all others irrespective of whether those parties have notice of the pledge and without the need of any physical delivery, recordation, filing, or further act.

The pledge is an agreement between the District and the bondholders to provide security for the Bonds in addition to any statutory lien that may exist, and the Bonds and each of the other Bonds secured by the pledge are or were issued to finance or refinance one or more of the projects specified in the applicable voter-approved measure.

PRELIMINARY OFFICIAL STATEMENT DATED MAY __, 2016

NEW ISSUE – BOOK-ENTRY ONLY

RATING: Standard & Poor's: “___”
(See “MISCELLANEOUS—Rating” herein.)

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the District, based upon an analysis of existing laws, regulations, rulings, and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 and is exempt from State of California personal income taxes. In the further opinion of Bond Counsel, interest on the Bonds is not a specific preference item for purposes of the federal individual or corporate alternative minimum taxes, although Bond Counsel observes that such interest is included in adjusted current earnings when calculating corporate alternative minimum taxable income. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds. See “TAX MATTERS.”

The District, located in Sacramento County, California (the “**County**”), is the 13th largest school district in the State of California (the “**State**”) as measured by student enrollment. The District provides educational services to the residents in and around the City of Sacramento (the “**City**”), the State capital. The District operates under the jurisdiction of the Superintendent of Schools of the County. See “THE BONDS—Authority for Issuance; Purpose” herein. The District’s estimated average daily attendance for fiscal year 2015-16 is 38,876 students and the District’s 2015-16 general fund expenditures are projected at approximately \$520.4 million.

The District operates 40 elementary schools for grades K-6, eight K-8 schools, six middle schools for grades 7-8, one 7-9 school, one 7-12 school, seven comprehensive high schools for grades 9-12, five alternative education centers, two special education centers, two adult education centers, 14 charter schools (including five dependent charter schools) and 44 children’s centers/preschools serving infants through age 12. The District’s estimated enrollment for fiscal year 2015-16 is approximately 46,877 students. For fiscal year 2015-16, the District projects to employ approximately [3,495] employees, which includes 2,077 certificated (credentialed teaching) employees, 1,174 FTE classified (noninstructional) employees, and 244 supervisory/other personnel.

Prior to his appointment, Mr. Banda served for two years as Superintendent of Seattle Public Schools, Washington state’s largest K-12 district, four years as Superintendent of the 20,000-student Anaheim City School District, three years as Superintendent of the Planada School District, and thirteen years as a secondary administrator, including eight years as a high school principal. THE BONDS

Authority for Issuance; Purpose

The Bonds are issued pursuant to the Constitution and laws of the State, including Article 4.5 of Chapter 3 of Part 1 of Division 2 of Title 5 of the Government Code, and other applicable provisions of law, including applicable provisions of the Education Code, the Paying Agent Agreement and a resolution adopted by the Board on [May 5], 2016 (the “**Resolution**”).

The Bonds were authorized to be issued at an election held on November 6, 2012, by more than 55% of the votes cast by eligible voters within the District for a bond measure known locally as “Measure Q”. Measure Q authorizes the District to issue bonds in an aggregate principal amount not to exceed \$346,000,000 for purposes summarized as follows: “To better prepare students for college and careers by upgrading classrooms, science labs, computer systems and technology; renovating heating and ventilation systems; reducing costs through energy efficiency; improving student safety and security systems; repairing roofs, floors, walkways, bathrooms, electrical, plumbing and sewer systems.” The Bonds are the third series to be issued pursuant to the Measure Q authorization. After the issuance of the Bonds, \$199,100,000 * will remain to be issued by the District pursuant to the Measure Q authorization.

As required by the Education Code of the State and the Measure Q authorization, the District established a Citizens’ Oversight Committee to review the District’s expenditure of bond proceeds and its progress in completing the projects specified in the measure, and to make periodic reports to the public in order to ensure that bond funds are spent only for authorized purposes.

The Bonds are being issued to (i) finance specific construction, acquisition and modernization projects approved by the voters in the Measure Q election held on November 6, 2012, and (ii) pay costs of issuance of the Bonds. See “Application and Investment of Bond Proceeds” herein.

Form and Registration

The Bonds will be issued in fully registered book-entry form only, as current interest bonds without coupons, in denominations of \$5,000 principal amount each or any integral multiple thereof. The Bonds will initially be registered in the name of Cede & Co., as nominee of The Depository Trust Company (“**DTC**”), New York, New York. DTC will act as securities depository for the Bonds. Registered ownership of the Bonds may not be transferred except as described in APPENDIX G. Purchases of Bonds under the DTC system must be made by or

* Preliminary, subject to change.

through a DTC participant, and ownership interests in Bonds or any transfer thereof will be recorded as entries on the books of said participants. Except in the event that use of this book-entry system is discontinued for the Bonds, beneficial owners will not receive physical certificates representing their ownership interests. See “APPENDIX G—BOOK-ENTRY ONLY SYSTEM” herein.

Payment of Principal and Interest

The Bonds will be dated the date of their delivery and bear interest at the rates set forth on the inside cover page hereof, payable on February 1 and August 1 of each year, commencing on February 1, 2017 (each, an “**Interest Payment Date**”), until payment of the principal amount thereof, computed using a year of 360 days consisting of twelve 30-day months. Bonds authenticated and registered on any date prior to the close of business on January 15, 2017, will bear interest from the date of their delivery. Bonds authenticated during the period between the 15th day of the calendar month immediately preceding an Interest Payment Date (the “**Record Date**”) and the close of business on that Interest Payment Date will bear interest from that Interest Payment Date. Any other Bond will bear interest from the Interest Payment Date immediately preceding the date of its authentication. If, at the time of authentication of any Bond, interest is then in default on outstanding Bonds, such Bond will bear interest from the Interest Payment Date to which interest has previously been paid or made available for payment thereon.

Payment of interest on any Bond on each Interest Payment Date (or on the following business day, if the Interest Payment Date does not fall on a business day) will be made to the person appearing on the registration books of the Paying Agent as the registered owner thereof as of the preceding Record Date, such interest to be paid by check or draft mailed to such owner at such owner’s address as it appears on such registration books or at such other address as the owner may have filed with the Paying Agent for that purpose on or before the Record Date. The owner of an aggregate principal amount of \$1,000,000 or more of Bonds may request in writing to the Paying Agent that such owner be paid interest by wire transfer to the bank and account number on file with the Paying Agent as of the applicable Record Date.

Principal will be payable at maturity, as set forth on the inside cover page, or upon redemption prior to maturity, upon surrender of Bonds at such office of the Paying Agent as the Paying Agent will designate. The interest, principal and premiums, if any, on the Bonds will be payable in lawful money of the United States of America from moneys on deposit in the interest and sinking fund of the District (the “**Interest and Sinking Fund**”) within the County treasury, consisting of *ad valorem* property taxes collected and held by the Director of Finance of the County (the “**Director of Finance**”), together with any net premium and accrued interest received upon issuance of the Bonds.

So long as all outstanding Bonds are held in book-entry form and registered in the name of a securities depository or its nominee, all payments of principal of, premium, if any, and interest on the Bonds and all notices with respect to such Bonds will be made and given, respectively, to such securities depository or its nominee and not to beneficial owners. So long as the Bonds are held by Cede & Co., as nominee of DTC, payment will be made by wire transfer.

Redemption*

Optional Redemption of Bonds. The Bonds maturing on or before August 1, 2026, are not subject to redemption prior to their respective stated maturity dates. The Bonds maturing on and after August 1, 2027, are subject to redemption prior to their respective stated maturity dates, at the option of the District, from any source of available funds, as a whole or in part on any date, on or after August 1, 2026. The Bonds will be redeemed at a price equal to 100% of the principal amount thereof, together with interest accrued thereon to the date of redemption, without premium.

Mandatory Sinking Fund Redemption. The \$_____ Term Bond maturing on August 1, 20___, is also subject to mandatory sinking fund redemption on each mandatory sinking fund redemption date and in the respective principal amounts as set forth in the following schedule, at a redemption price equal to 100% of the

* Preliminary, subject to change.

principal amount thereof to be redeemed (without premium), together with interest accrued thereon to the date fixed for redemption:

<u>Mandatory Sinking Fund Redemption Date (August 1)</u>	<u>Principal Amount to Be Redeemed</u>
--	--

*Maturity.

The principal amount to be redeemed in each year shown in the table above will be reduced at the option of the District, in integral multiples of \$5,000, by the amount of such Term Bond optionally redeemed prior to the mandatory sinking fund redemption date.

Selection of Bonds for Redemption. If less than all of the Bonds are called for redemption, the Bonds will be redeemed as directed by the District, and if not so directed, in inverse order of maturities, and if less than all of the Bonds of any given maturity are called for redemption, the portions of the Bonds of a given maturity to be redeemed will be redeemed as directed by the District, and if not so directed, will be determined by lot.

Notwithstanding anything herein to the contrary, so long as Cede & Co, as the nominee of DTC or any substitute depository for the Bonds is the registered owner to the Bonds, the selection of Bonds held by beneficial owners in book-entry form for redemption will be made by DTC or such substitute depository for the Bonds pursuant to the procedures of DTC or the substitute depository for the Bonds. The procedures of DTC or the substitute Depository for the Bonds may not be consistent with the procedures outlined above. See “APPENDIX G—BOOK-ENTRY ONLY SYSTEM.”

Notice of Redemption. Notice of redemption of any Bond is required to be given by the Paying Agent, upon written request of the District, not less than 20 nor more than 60 days prior to the redemption date (i) by first class mail to the respective owners of any Bond designated for redemption at their addresses appearing on the bond registration books, and (ii) as may be further required in accordance with the Continuing Disclosure Certificate. See “APPENDIX E—FORM OF CONTINUING DISCLOSURE CERTIFICATE.”

Each notice of redemption is required to contain the following information: (i) the date of such notice; (ii) the name of the Bonds and the date of issue of the Bonds; (iii) the redemption date; (iv) the redemption price; (v) the dates of maturity of the Bonds to be redeemed; (vi) if less than all of the then outstanding Bonds are to be called for redemption, the distinctive serial numbers of the Bonds of each maturity to be redeemed; (vii) in the case of Bonds redeemed in part only, the respective portions of the principal amount of the Bonds of each maturity to be redeemed; (viii) the CUSIP number of each maturity of Bonds to be redeemed; (ix) a statement that such Bonds must be surrendered by the owners at such office of the Paying Agent designated by the Paying Agent; and (x) notice that further interest on such Bonds will not accrue after the redemption date. A certificate of the Paying Agent or the District that notice of call and redemption has been given to owners and to the appropriate securities depositories as provided in the Paying Agent Agreement will be conclusive against all parties. The actual receipt by the owner of any Bond or by any securities depository of notice of redemption will not be a condition precedent to redemption, and failure to receive such notice, or any defect in the notice given, will not affect the validity of the proceedings for the redemption of such Bonds or the cessation of interest on the date fixed for redemption.

Effect of Notice of Redemption. When notice of redemption has been given substantially as provided for in the Paying Agent Agreement, and when the redemption price of the Bonds called for redemption is set aside for the purpose as described in the Paying Agent Agreement, the Bonds designated for redemption will become due and payable on the specified redemption date and interest will cease to accrue thereon as of the redemption date, and upon presentation and surrender of such Bonds at the place specified in the notice of redemption, such Bonds will be

redeemed and paid at the redemption price thereof out of the money provided therefor. The owners of such Bonds called for redemption after such redemption date will look for the payment of such Bonds and the redemption premium thereon, if any, only to moneys on deposit for such purpose in the Interest and Sinking Fund of the District or the escrow fund established for such purpose. All Bonds redeemed will be cancelled forthwith by the Paying Agent and will not be reissued.

Right to Rescind Notice. The District may rescind any optional redemption and notice thereof for any reason on any date prior to the date fixed for redemption by causing written notice of the rescission to be given to the owners of the Bonds so called for redemption. Any optional redemption and notice thereof will be rescinded if for any reason on the date fixed for redemption moneys are not available in the Interest and Sinking Fund or otherwise held in trust for such purpose in an amount sufficient to pay in full on said date the principal of, interest, and any premium due on the Bonds called for redemption. Notice of rescission of redemption will be given in the same manner in which notice of redemption was originally given. The actual receipt by the Owner of any Bond of notice of such rescission will not be a condition precedent to rescission, and failure to receive such notice or any defect in such notice will not affect the validity of the rescission.

Conditional Notice. Any notice of optional redemption may be conditioned on any fact or circumstance stated therein, and if such condition will not have been satisfied on or prior to the redemption date stated in such notice, said notice will be of no force and effect on and as of the stated redemption date, the redemption will be cancelled, and the District will not be required to redeem the Bonds that were the subject of the notice. The Paying Agent will give notice of such cancellation and the reason therefor in the same manner in which notice of redemption was originally given. The actual receipt by the Owner of any Bond of notice of such cancellation will not be a condition precedent to cancellation, and failure to receive such notice or any defect in such notice will not affect the validity of the cancellation.

Defeasance of Bonds

The District may pay and discharge any or all of the Bonds by depositing in trust with the Paying Agent or an escrow agent at or before maturity, money or non-callable direct obligations of the United States of America or other non-callable obligations the payment of the principal of and interest on which is guaranteed by a pledge of the full faith and credit of the United States of America, in an amount which will, together with the interest accrued thereon and available moneys then on deposit in the Interest and Sinking Fund, be fully sufficient in the opinion of a certified public accountant licensed to practice in the State to pay and discharge the indebtedness on such Bonds (including all principal, interest and redemption premiums) at or before their respective maturity dates.

If at any time the District pays or causes to be paid or there is otherwise paid to the Owners of any or all outstanding Bonds all of the principal, interest and premium, if any, represented by Bonds when due, or as described above, or as otherwise provided by law, then such Owners will cease to be entitled to the obligation of the County to levy and collect taxes to pay the Bonds and such obligation and all agreements and covenants of the District to such Owners under the Paying Agent Agreement will thereupon be satisfied and discharged and will terminate, except only that the District will remain liable for payment of all principal, interest and premium, if any, represented by such Bonds, but only out of moneys on deposit in the Interest and Sinking Fund or otherwise held in trust for such payment, provided that the unclaimed moneys provisions described below will apply in all events.

Unclaimed Moneys

Any money held in any fund created pursuant to the Paying Agent Agreement or by the Paying Agent in trust for the payment of the principal of, redemption premium, if any, or interest on the Bonds and remaining unclaimed for two years after the principal of all of the Bonds has become due and payable (whether by maturity or upon prior redemption) will be transferred to the Interest and Sinking Fund for payment of any outstanding bonds of the District payable from said fund; or, if no such bonds of the District are at such time outstanding, said moneys will be transferred to the general fund of the District as provided and permitted by law.

Application and Investment of Bond Proceeds

The proceeds of sale of the Bonds, exclusive of any premium and accrued interest received, will be deposited in the County treasury to the credit of the Building Fund of the District. Any premium and accrued interest will be deposited upon receipt in the Interest and Sinking Fund of the District within the County treasury.

All funds held by the Director of Finance with respect to the Bonds hereunder or under the law will be invested at the discretion of the Director of Finance pursuant to law and the investment policy of the County. At the written direction of the District, all or any portion of the Building Fund may also be invested on behalf of the District in the Local Agency Investment Fund in the treasury of the State.

The District will not take any action or inaction, or fail to take any action, or permit any action to be taken on its behalf or cause or permit any circumstances within its control to arise or continue, if such action or inaction would adversely affect the exclusion from gross income of the interest payable on the Bonds under Section 103 of the Internal Revenue Code of 1986 (the "Code").

In the event that at any time the District is of the opinion that it is necessary or helpful to restrict or limit the yield on the investment of any moneys held by the Director of Finance with respect to the Bonds, or by the Paying Agent under the Paying Agent Agreement, the District will so instruct the Director of Finance or the Paying Agent, as appropriate, in writing, and the Director of Finance and the Paying Agent will take such action as may be necessary in accordance with such instructions.

If the District provides to the Director of Finance or the Paying Agent an opinion of Bond Counsel that any specified action required under the Paying Agent Agreement is no longer required or that some further or different action is required in order to maintain the exclusion from federal income tax of interest on Bonds under Section 103 of the Code, the Director of Finance and the Paying Agent may conclusively rely on such opinion in complying with the requirements of the Paying Agent Agreement, and the covenants thereunder will be deemed to be modified to that extent.

Earnings on the investment of moneys in either fund will be retained in that fund and used only for the purposes to which that fund may lawfully be applied. Moneys in the Building Fund may only be applied for the purposes for which the Bonds were approved. Moneys in the Interest and Sinking Fund may only be applied to make payments of interest, principal, and premium, if any, on bonds of the District. For information on the County's investment policy, see APPENDIX F: "COUNTY OF SACRAMENTO INVESTMENT POLICIES AND PRACTICES AND INVESTMENT POOL QUARTERLY REPORT."

SECURITY AND SOURCE OF PAYMENT FOR THE BONDS

General

In order to provide sufficient funds for repayment of principal and interest when due on the Bonds, the Board of Supervisors of the County (the “**Board of Supervisors**”) is empowered and is obligated by law to levy *ad valorem* taxes upon all property subject to taxation by the District, without limitation as to rate or amount (except as to certain personal property which is taxable at limited rates). Such taxes are in addition to other taxes levied upon property within the District, including the countywide tax of 1% of taxable value. When collected, the tax revenues will be deposited by the County in the District’s Interest and Sinking Fund, which is required by law to be maintained by the County and to be used solely for the payment of bonds of the District.

The Bonds are payable from *ad valorem* taxes to be levied within the District pursuant to the California Constitution and other State law, and are not a debt or obligation of the County. No fund of the County is pledged or obligated to repayment of the Bonds.

Pledge of Tax Revenues

Pursuant to the Resolution, the District pledges all revenues from the property taxes collected from the levy by the Board of Supervisors for the payment of the Bonds and amounts on deposit in the Interest and Sinking Fund of the District to the payment of the principal or redemption price of and interest on the Bonds. This pledge is valid and binding from the date of adoption of the Resolution for the benefit of the owners of the Bonds and successors thereto. The property taxes and amounts held in the Interest and Sinking Fund of the District are immediately subject to this pledge, and the pledge constitutes a lien and security interest which immediately attaches to the property taxes and amounts held in the Interest and Sinking Fund of the District to secure the payment of the Bonds and is effective, binding, and enforceable against the District, its successors, creditors and all others irrespective of whether those parties have notice of the pledge and without the need of any physical delivery, recordation, filing, or further act. “Bonds” for purpose of this pledge means all bonds of the District heretofore or hereafter issued pursuant to voter-approved measures of the District, including the Bonds, as all such Bonds are required by State law to be paid from the Interest and Sinking Fund of the District.

The pledge is an agreement between the District and the bondholders to provide security for the Bonds in addition to any statutory lien that may exist. The Bonds and each of the other bonds secured by the pledge are or were issued to finance or refinance one or more of the projects specified in the applicable voter-approved measure.

Statutory Lien - SB 222

California Senate Bill 222 (2015) (“**SB 222**”), effective January 1, 2016, provides that general obligation bonds are secured by a statutory lien on the *ad valorem* taxes levied and collected to pay principal and interest thereon. For more information, see “OTHER LEGAL MATTERS – Statutory Lien” herein.

Property Taxation System

Property tax revenues result from the application of the appropriate tax rate to the total assessed value of taxable property in the District. School districts use property taxes for payment of voter-approved bonds and receive property taxes for general operating purposes as well.

Local property taxation is the responsibility of various county officers. For each school district located in a county, the county assessor computes the value of locally assessed taxable property. Based on the assessed value of property and the scheduled debt service on outstanding bonds in each year, the county auditor-controller computes the rate of tax necessary to pay such debt service, and presents the tax rolls (including rates of tax for all taxing jurisdictions in the county) to the board of supervisors for approval. The county treasurer-tax collector prepares and mails tax bills to taxpayers and collects the taxes. In addition, the treasurer-tax collector, as *ex officio* treasurer of each school district located in the county, holds and invests school district funds, including taxes collected for payment of school bonds, and

is charged with payment of principal and interest on such bonds when due. The Director of Finance of the County performs the duties imposed on the treasurer-tax collector and auditor-controller. The State Board of Equalization also assesses certain special classes of property, as described later in this section.

Assessed Valuation of Property Within the District

Taxable property located in the District had a 2014-15 assessed value of approximately \$27.5 billion and has a 2015-16 assessed value of approximately \$28.8 billion. All property (real, personal and intangible) is taxable unless an exemption is granted by the State Constitution or United States law. Under the State Constitution, exempt classes of property include household and personal effects, intangible personal property (such as bank accounts, stocks and bonds), business inventories, and property used for religious, hospital, scientific and charitable purposes. The State Legislature may create additional exemptions for personal property; while the State Legislature may not create exemptions for real property, it has in the past implemented property tax postponement programs, including Assembly Bill 2231 (“**AB 2231**”), signed by the Governor on September 28, 2014 to allow certain qualifying senior, blind, and disabled citizens to defer payment of property taxes on their principal residence. Although most taxable property is assessed by the assessor of the county in which the property is located, some special classes of property are assessed by the State Board of Equalization, as described below.

Taxes are levied for each fiscal year on taxable real and personal property assessed as of the preceding January 1, at which time the lien attaches. The assessed value is required to be adjusted during the course of the year when property changes ownership or new construction is completed. State law also affords an appeal procedure to taxpayers who disagree with the assessed value of any property. When necessitated by changes in assessed value during the course of a year, a supplemental assessment is prepared so that taxes can be levied on the new assessed value before the next regular assessment roll is completed.

Under the State Constitution, the State Board of Equalization assesses property of State-regulated transportation and communications utilities, including railways, telephone and telegraph companies, and companies transmitting or selling gas or electricity. The Board of Equalization also is required to assess pipelines, flumes, canals and aqueducts lying within two or more counties. The value of property assessed by the Board of Equalization is allocated by a formula to local jurisdictions in the county, including school districts, and taxed by the local county tax officials in the same manner as for locally assessed property. Taxes on privately owned railway cars, however, are levied and collected directly by the Board of Equalization. Property used in the generation of electricity by a company that does not also transmit or sell that electricity is taxed locally instead of by the Board of Equalization. Thus, the reorganization of regulated utilities and the transfer of electricity-generating property to non-utility companies, as often occurred under electric power deregulation in California, affects how those assets are assessed, and which local agencies benefit from the property taxes derived. In general, the transfer of State-assessed property located in the District to non-utility companies will increase the assessed value of property in the District, since the property’s value will no longer be divided among all taxing jurisdictions in the County. The transfer of property located and taxed in the District to a State-assessed utility will have the opposite effect, generally reducing the assessed value in the District as the value is shared among the other jurisdictions in the County. The District is unable to predict future transfers of State-assessed property in the District and the County, the impact of such transfers on its utility property tax revenues, or whether future legislation or litigation may affect ownership of utility assets, the State’s methods of assessing utility property, or the method by which tax revenues of utility property is allocated to local taxing agencies, including the District.

Locally taxed property is classified either as “secured” or “unsecured,” and is listed accordingly on separate parts of the assessment roll. The “secured roll” is that part of the assessment roll containing State-assessed property and property (real or personal) for which there is a lien on real property sufficient, in the opinion of the county assessor, to secure payment of the taxes. All other property is “unsecured,” and is assessed on the “unsecured roll.” Secured property assessed by the State Board of Equalization is commonly identified for taxation purposes as “utility” property.

The following table shows the recent history of taxable assessed valuation of the various classes of property in the District since fiscal year 2000-01.

Assessments may be adjusted during the course of the year when real property changes ownership or new construction is completed. Assessments may also be appealed by taxpayers seeking a reduction as a result of economic and other factors beyond the District's control, such as a general market decline in land values, reclassification of property to a class exempt from taxation, whether by ownership or use (such as exemptions for property owned by State and local agencies and property used for qualified educational, hospital, charitable or religious purposes), or the complete or partial destruction of taxable property caused by natural or manmade disaster, such as earthquake, flood, fire, toxic dumping, etc. When necessitated by changes in assessed value in the course of a year, taxes are pro-rated for each portion of the tax year. See also "–Appeals of Assessed Valuation; Blanket Reductions of Assessed Values" below.

Appeals of Assessed Valuation; Blanket Reductions of Assessed Values. There are two basic types of property tax assessment appeals provided for under State law. The first type of appeal, commonly referred to as a base year assessment appeal, involves a dispute on the valuation assigned by the assessor immediately subsequent to an instance of a change in ownership or completion of new construction. If the base year value assigned by the assessor is reduced, the valuation of the property cannot increase in subsequent years more than 2% annually unless and until another change in ownership and/or additional new construction or reconstruction activity occurs.

The second type of appeal, commonly referred to as a Proposition 8 appeal (which Proposition 8 was approved by the voters in 1978), can result if factors occur causing a decline in the market value of the property to a level below the property's then current taxable value (escalated base year value). Pursuant to State law, a property owner may apply for a Proposition 8 reduction of the property tax assessment for such owner's property by filing a written application, in the form prescribed by the State Board of Equalization, with the appropriate county board of equalization or assessment appeals board. A property owner desiring a Proposition 8 reduction of the assessed value of such owner's property in any one year must submit an application to the county assessment appeals board (the "**Appeals Board**"). Following a review of the application by the county assessor's office, the county assessor may offer to the property owner the opportunity to stipulate to a reduced assessment, or may confirm the assessment. If no stipulation is agreed to, and the applicant elects to pursue the appeal, the matter is brought before the Appeals Board (or, in some cases, a hearing examiner) for a hearing and decision. The Appeals Board generally is required to determine the outcome of appeals within two years of each appeal's filing date. Any reduction in the assessment ultimately granted applies only to the year for which application is

made and during which the written application is filed. The assessed value increases to its pre-reduction level (escalated to the inflation rate of no more than 2%) following the year for which the reduction application is filed. However, the county assessor has the power to grant a reduction not only for the year for which application was originally made, but also for the then current year and any intervening years as well. In practice, such a reduced assessment may and often does remain in effect beyond the year in which it is granted.

In addition, Article XIII A of the State Constitution provides that the full cash value base of real property used in determining taxable value may be adjusted from year to year to reflect the inflationary rate, not to exceed a 2% increase for any given year, or may be reduced to reflect a reduction in the consumer price index or comparable local data. This measure is computed on a calendar year basis. Counties have in the past ordered blanket reductions of assessed property values and corresponding property tax bills on single family residential properties when the value of the property has declined below the current assessed value.

No assurance can be given that property tax appeals and/or blanket reductions of assessed property values will not significantly reduce the assessed valuation of property within the District in the future. See APPENDIX A – “INFORMATION RELATING TO THE DISTRICT’S OPERATIONS AND BUDGET – CONSTITUTIONAL AND STATUTORY PROVISIONS AFFECTING DISTRICT REVENUES AND APPROPRIATIONS – Limitations on Revenues” for a discussion of other limitations on the valuation of real property with respect to *ad valorem* taxes.

Bonding Capacity. As a unified school district, the District may issue bonds in an amount up to 2.5% of the assessed valuation of taxable property within its boundaries. Based on the fiscal year 2015-16 assessment roll, the District’s gross bonding capacity is approximately \$720.4 million, and its net bonding capacity is \$___ million (taking into account current outstanding debt before issuance of the Bonds). Refunding bonds may be issued without regard to this limitation; however, once issued, the outstanding principal of any refunding bonds is included when calculating the District’s bonding capacity.

The more property (by assessed value) owned by a single taxpayer, the more tax collections are exposed to weakness in the taxpayer's financial situation and ability or willingness to pay property taxes. Furthermore, assessments may be appealed by taxpayers seeking a reduction as a result of economic and other factors beyond the District's control. See "–Appeals of Assessed Valuation; Blanket Reductions of Assessed Values" above.

Tax Rates

The State Constitution permits the levy of an *ad valorem* tax on taxable property not to exceed 1% of the full cash value of the property, and State law requires the full 1% tax to be levied. The levy of special *ad valorem* property taxes in excess of the 1% levy is permitted as necessary to provide for debt service payments on school bonds and other voter-approved indebtedness.

The rate of tax necessary to pay fixed debt service on the Bonds in a given year depends on the assessed value of taxable property in that year. (The rate of tax imposed on unsecured property for repayment of the Bonds is based on the prior year's secured property tax rate.) Economic and other factors beyond the District's control, such as a general market decline in property values, reclassification of property to a class exempt from taxation, whether by ownership or use (such as exemptions for property owned by State and local agencies and property used for qualified educational, hospital, charitable or religious purposes), or the complete or partial destruction of taxable property caused by natural or manmade disaster, such as earthquake, flood, fire, toxic dumping, etc., could cause a reduction in the assessed value of taxable property within the District and necessitate a corresponding increase in the annual tax rate to be levied to pay the

principal of and interest on the Bonds. Specifically, the District lies at the confluence of the Sacramento and American Rivers. It is encircled by waterways which could experience uncontrolled floods, including the deep water shipping channel and the Sacramento and Yolo bypasses, as well as the Sacramento and American Rivers. The occurrence of severe seismic activity in the area or extremely severe storms could result in substantial damage to property in the District which could contribute to a substantial reduction in the assessed value of taxable property within the District. Additionally, widespread damage to the homes and infrastructure in the District as well as to the classrooms and other facilities of the District could decrease enrollment, and have a material adverse effect on the District's finances and operations. Issuance of additional authorized bonds in the future might also cause the tax rate to increase.

Typical Tax Rate Area. The following table shows *ad valorem* property tax rates for the last several years in a typical Tax Rate Area of the District (TRA 3-005). TRA-3-005 comprises approximately 27.31% of the total assessed value of taxable property in the District in fiscal year 2015-16.

In accordance with the law which permitted the Bonds to be approved by a 55% affirmative vote, bonds approved by the District's voters at the November 6, 2012 Measure Q election may not be issued unless the District projects that repayment of all outstanding bonds approved at the election will require a tax rate no greater than \$60.00 per \$100,000 of assessed value. Based on the assessed value of taxable property in the District at the time of issuance of the Bonds, the District projects that the maximum tax rate required to repay all outstanding bonds approved at the Measure Q election will be within that legal limit. The tax rate test applies only when new bonds are issued, and is not a legal limitation upon the authority of the Board of Supervisors to levy taxes at such rate as may be necessary to pay debt service on the Bonds in each year.

Tax Charges and Delinquencies

A school district's share of the 1% countywide tax is based on the actual allocation of property tax revenues to each taxing jurisdiction in the county in fiscal year 1978-79, as adjusted according to a complicated statutory scheme enacted since that time. Revenues derived from special *ad valorem* taxes for voter-approved indebtedness, including the Bonds, are reserved to the taxing jurisdiction that approved and issued the debt, and may only be used to repay that debt.

The county treasurer-tax collector prepares the property tax bills. Property taxes on the regular secured assessment roll are due in two equal installments: the first installment is due on November 1, and becomes delinquent after December 10. The second installment is due on February 1 and becomes delinquent after April 10. If taxes are not paid by the delinquent date, a 10% penalty attaches and a \$10 cost is added to unpaid second installments. If taxes remain unpaid by June 30, the tax is deemed to be in default, and a \$15 state redemption fee applies. Interest then begins to accrue at the rate of 1.5% per month. The property owner has the right to redeem the property by paying the taxes, accrued penalties, and costs within five years of the date the property went into default. If the property is not redeemed within five years, it is subject to sale at a public auction by the county treasurer-tax collector.

Property taxes on the unsecured roll are due in one payment on the lien date, January 1, and become delinquent after August 31. A 10% penalty attaches to delinquent taxes on property on the unsecured roll, and an additional penalty of 1.5% per month begins to accrue on November 1. To collect unpaid taxes, the county treasurer-tax collector may

obtain a judgment lien upon and cause the sale of all property owned by the taxpayer in the county, and may seize and sell personal property, improvements and possessory interests of the taxpayer. The county treasurer-tax collector may also bring a civil suit against the taxpayer for payment.

The date on which taxes on supplemental assessments are due depends on when the supplemental tax bill is mailed.

Teeter Plan

The County has adopted the Alternative Method of Distribution of Tax Levies and Collections and of Tax Sale Proceeds (the “**Teeter Plan**”), as provided in Sections 4701 to 4717 of the California Revenue and Taxation Code. Upon adoption and implementation of this method by a county board of supervisors, local agencies for which the county acts as “bank” and certain other public agencies and taxing areas located in the county receive annually the full amount of their share of property taxes on the secured roll, including delinquent property taxes which have yet to be collected. While a county benefits from the penalties associated with these delinquent taxes when they are paid, the Teeter Plan provides participating local agencies with stable cash flow and the elimination of collection risk.

To implement a Teeter Plan, the board of supervisors of a county generally must elect to do so by July 15 of the fiscal year in which it is to apply. As a separate election by a vote of the board of supervisors, a county may elect to have the Teeter Plan procedures also apply to assessments on the secured roll.

Once adopted, a county’s Teeter Plan will remain in effect in perpetuity unless the board of supervisors orders its discontinuance or unless prior to the commencement of a fiscal year a petition for discontinuance is received and joined in by resolutions of the governing bodies of not less than two-thirds of the participating districts in the county. An electing county may, however, decide to discontinue the Teeter Plan with respect to any levying agency in the county if the board of supervisors, by action taken not later than July 15 of a fiscal year, elects to discontinue the procedure with respect to such levying agency in which the rate of secured tax delinquencies in that agency in any year exceeds 3% of the total of all taxes and assessments levied on the secured roll by that agency. The District is not aware of any plan by the County to discontinue the Teeter Plan.

Upon making a Teeter Plan election, a county must initially provide a participating local agency with 95% of the estimated amount of the then-accumulated tax delinquencies (excluding penalties) for that agency. In the case of the initial year distribution of assessments (if a county has elected to include assessments), 100% of the assessment delinquencies (excluding penalties) are to be apportioned to the participating local agency which levied the assessment. After the initial distribution, each participating local agency receives annually 100% of the secured property tax levies to which it is otherwise entitled, regardless of whether the county has actually collected the levies.

If any tax or assessment which was distributed to a Teeter Plan participant is subsequently changed by correction, cancellation or refund, a pro rata adjustment for the amount of the change is made on the records of the treasurer and auditor of the county. Such adjustment for a decrease in the tax or assessment is treated by the County as an interest-free offset against future advances of tax levies under the Teeter Plan.

The Teeter Plan was effective for the fiscal year commencing July 1, 1993, and pursuant to the Teeter Plan the County purchased all delinquent receivables (comprised of delinquent taxes, penalties, and interest) which had accrued as of June 30, 1993, from local taxing entities and selected special assessment districts and community facilities districts. Under the Teeter Plan, the County distributes tax collections on a cash-basis to taxing entities, such as the District, during the fiscal year and at year-end distributes 100% of any taxes delinquent as of June 30th to the respective taxing entities and those special assessment districts and community facilities districts which the County determines are eligible to participate in the Teeter Plan.

The County reserves the right to exclude from the Teeter Plan any special tax levying agency or assessment levying agency if such agency has provided for accelerated foreclosure proceedings in the event of non-payment of such special taxes or assessments except that, if such agency has a delinquency rate in the collection of such special tax or assessment as of June 30 of any fiscal year that is equal to or less than the County's delinquency rate on the collection of current year *ad valorem* taxes on the countywide secured assessment roll, such agency's special taxes or assessments may, at the County's option, be included in the Teeter Plan.

The *ad valorem* property tax levied to pay the interest on and principal of the Bonds of the District is subject to the Teeter Plan. So long as the Teeter Plan is in effect, the District will receive 100% of the *ad valorem* property tax levied to pay its bonds irrespective of actual delinquencies in the collection of the tax by the County.

The following table shows a recent history of real property tax collections and delinquencies for the tax levied to repay the District's general obligation bonds, without regard to the Teeter Plan.

Direct and Overlapping Debt

Set forth below is a schedule of direct and overlapping debt prepared by California Municipal Statistics, Inc. The table is included for general information purposes only. The District has not reviewed this table for completeness or accuracy and makes no representations in connection therewith. The first column in the table names each public agency which has outstanding debt as of April 1, 2016, and whose territory overlaps the District in whole or in part. The second column shows the percentage of each overlapping agency's assessed value located within the boundaries of the District. This percentage, multiplied by the total outstanding debt of each overlapping agency (which is not shown in the table) produces the amount shown in the third column, which is the apportionment of each overlapping agency's outstanding debt to taxable property in the District.

The table generally includes long-term obligations sold in the public capital markets by the public agencies listed. Such long-term obligations generally are not payable from revenues of the District (except as indicated) nor are they necessarily obligations secured by land within the District. In many cases, long-term obligations issued by a public agency are payable only from the general fund or other revenues of such public agency.

TAX MATTERS

In the opinion of Orrick, Herrington & Sutcliffe LLP, bond counsel to the District (“**Bond Counsel**”), based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Code and is exempt from State of California personal income taxes. Bond Counsel is of the further opinion that interest on the Bonds is not a specific preference item for purposes of the federal individual or corporate alternative minimum taxes, although Bond Counsel observes that such interest is included in adjusted current earnings when calculating corporate alternative minimum taxable income. A complete copy of the proposed form of opinion of Bond Counsel is set forth in APPENDIX D hereto.

To the extent the issue price of any maturity of the Bonds is less than the amount to be paid at maturity of such Bonds (excluding amounts stated to be interest and payable at least annually over the term of such Bonds), the difference constitutes “original issue discount,” the accrual of which, to the extent properly allocable to each Beneficial Owner thereof, is treated as interest on the Bonds which is excluded from gross income for federal income tax purposes and State of California personal income taxes. For this purpose, the issue price of a particular maturity of the Bonds is the first price at which a substantial amount of such maturity of the Bonds is sold to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). The original issue discount with respect to any maturity of the Bonds accrues daily over the term to maturity of such Bonds on the basis of a constant interest rate compounded semiannually (with straight-line interpolations between compounding dates). The accruing original issue discount is added to the adjusted basis of such Bonds to determine taxable gain or loss upon disposition (including sale, redemption, or payment on maturity) of such Bonds. Beneficial Owners of the Bonds should consult their own tax advisors with respect to the tax consequences of ownership of Bonds with original issue discount, including the treatment of Beneficial Owners who do not purchase such Bonds in the original offering to the public at the first price at which a substantial amount of such Bonds is sold to the public.

Bonds purchased, whether at original issuance or otherwise, for an amount higher than their principal amount payable at maturity (or, in some cases, at their earlier call date) (“**Premium Bonds**”) will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, like the Premium Bonds, the interest on which is excluded from gross income for federal income tax purposes. However, the amount of tax-exempt interest received, and a Beneficial Owner’s basis in a Premium Bond, will be reduced by the amount of amortizable bond premium properly allocable to such Beneficial Owner. Beneficial Owners of Premium Bonds should consult their own tax advisors with respect to the proper treatment of amortizable bond premium in their particular circumstances.

The Code imposes various restrictions, conditions and requirements relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the Bonds. The District has made certain representations and covenanted to comply with certain restrictions, conditions and requirements designed to ensure that interest on the Bonds will not be included in federal gross income. Inaccuracy of these representations or failure to comply with these covenants may result in interest on the Bonds being included in gross income for federal income tax purposes, possibly from the date of original issuance of the Bonds. The opinion of Bond Counsel assumes the accuracy of these representations and compliance with these covenants. Bond Counsel has not undertaken to determine (or to inform any person) whether any actions taken (or not taken), or events occurring (or not occurring), or any other matters coming to Bond Counsel’s attention after the date of issuance of the Bonds may adversely affect the value of, or the tax status of interest on, the Bonds. Accordingly, the opinion of Bond Counsel is not intended to, and may not, be relied upon in connection with any such actions, events or matters.

Although Bond Counsel is of the opinion that interest on the Bonds is excluded from gross income for federal income tax purposes and is exempt from State of California personal income taxes, the ownership or disposition of, or the accrual or receipt of amounts treated as interest on, the Bonds may otherwise affect a Beneficial Owner’s federal, state or local tax liability. The nature and extent of these other tax consequences depends upon the particular tax status of the Beneficial Owner or the Beneficial Owner’s other items of income or deduction. Bond Counsel expresses no opinion regarding any such other tax consequences.

Current and future legislative proposals, if enacted into law, clarification of the Code or court decisions may cause interest on the Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or to be

subject to or exempted from state income taxation, or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. For example, the Obama Administration's budget proposals in recent years have proposed legislation that would limit the exclusion from gross income of interest on the Bonds to some extent for high-income individuals. The introduction or enactment of any such legislative proposals or clarification of the Code or court decisions may also affect, perhaps significantly, the market price for, or marketability of, the Bonds. Prospective purchasers of the Bonds should consult their own tax advisors regarding the potential impact of any pending or proposed federal or state tax legislation, regulations or litigation, as to which Bond Counsel is expected to express no opinion.

The opinion of Bond Counsel is based on current legal authority, covers certain matters not directly addressed by such authorities, and represents Bond Counsel's judgment as to the proper treatment of the Bonds for federal income tax purposes. It is not binding on the Internal Revenue Service ("IRS") or the courts. Furthermore, Bond Counsel cannot give and has not given any opinion or assurance about the future activities of the District, or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the IRS. The District has covenanted, however, to comply with the requirements of the Code.

Bond Counsel's engagement with respect to the Bonds ends with the issuance of the Bonds, and, unless separately engaged, Bond Counsel is not obligated to defend the District or the Beneficial Owners regarding the tax-exempt status of the Bonds in the event of an audit examination by the IRS. Under current procedures, parties other than the District and its appointed counsel, including the Beneficial Owners, would have little, if any, right to participate in the audit examination process. Moreover, because achieving judicial review in connection with an audit examination of bonds is difficult, obtaining an independent review of IRS positions with which the District legitimately disagrees may not be practicable. Any action of the IRS, including but not limited to selection of the Bonds for audit, or the course or result of such audit, or an audit of bonds presenting similar tax issues may affect the market price for, or the marketability of, the Bonds, and may cause the District or the Beneficial Owners to incur significant expense.

OTHER LEGAL MATTERS

Possible Limitations on Remedies; Bankruptcy

General. Following is a discussion of certain considerations relating to potential bankruptcies of school districts in California. It is not an exhaustive discussion of the potential application of bankruptcy law to the District. State law contains a number of safeguards to protect the financial solvency of school districts. See "APPENDIX A – FINANCIAL AND OPERATING INFORMATION – SCHOOL DISTRICT BUDGET PROCEDURES AND REQUIREMENTS – District Budget Process and County Review." If the safeguards are not successful in preventing a school district from becoming insolvent, the State Superintendent of Public Instruction (the "**State Superintendent**"), operating through an administrator appointed by the State Superintendent, may be authorized under State law to file a petition under Chapter 9 of the United States Bankruptcy Code (the "**Bankruptcy Code**") on behalf of a district for the adjustment of its debts, assuming that such district meets certain other requirements contained in the Bankruptcy Code necessary for filing such a petition. School districts under current State law are not themselves authorized to file a bankruptcy proceeding, and they are not subject to involuntary bankruptcy.

Bankruptcy courts are courts of equity and as such have broad discretionary powers. If the District were to become the debtor in a proceeding under Chapter 9 of the Bankruptcy Code, the parties to the proceedings may be prohibited from taking any action to collect any amount from the District (including *ad valorem* tax revenues) or to enforce any obligation of the District, without the bankruptcy court's permission. In such a proceeding, as part of its plan of adjustment in bankruptcy, the District may be able to alter the priority, interest rate, principal amount, payment terms, collateral, maturity dates, payment sources, covenants (including tax-related covenants), and other terms or provisions of the Bonds and other transaction documents related to the Bonds, if the bankruptcy court were to determine that the alterations were fair and equitable. In addition, in such a proceeding, as part of such a plan, the District may be able to eliminate the obligation of the County to raise taxes if necessary to pay the Bonds. There also may be other possible effects of a bankruptcy of the District that could result in delays or reductions in payments on the Bonds. Moreover, regardless of any specific adverse determinations in any District bankruptcy proceeding, a District bankruptcy proceeding could have an adverse effect on the liquidity and market price of the Bonds.

As stated above, if a school district were to go into bankruptcy, the bankruptcy petition would be filed under Chapter 9 of the Bankruptcy Code. Chapter 9 provides that it does not limit or impair the power of a state to control, by legislation or otherwise, a municipality of or in such state in the exercise of the political or governmental powers of such

municipality, including expenditures for such exercise. For purposes of the language of Chapter 9, a school district is a municipality. State law provides that the *ad valorem* taxes levied to pay the principal and interest on the Bonds shall be used for the payment of principal and interest of the District's general obligation bonds and for no other purpose. If this restriction on the expenditure of such *ad valorem* taxes is respected in a bankruptcy case, then the *ad valorem* tax revenue could not be used by the District for any purpose other than to make payments on the Bonds. It is possible, however, that a bankruptcy court could conclude that the restriction should not be respected.

Statutory Lien. Pursuant to Senate Bill 222 (2015) (“**SB 222**”) that became effective on January 1, 2016, all general obligation bonds issued by local agencies in California, including the Bonds, will be secured by a statutory lien on all revenues received pursuant to the levy and collection of the tax. SB 222 provides that the lien will automatically arise, without the need for any action or authorization by the local agency or its governing board, and will be valid and binding from the time the bonds are executed and delivered. Although a statutory lien would not be automatically terminated by the filing of a Chapter 9 bankruptcy petition by the District, the automatic stay provisions of the Bankruptcy Code would apply and payments that become due and owing on the Bonds during the pendency of the Chapter 9 proceeding could be delayed unless the Bonds are determined to be secured by a pledge of “special revenues” within the meaning of the Bankruptcy Code and the pledged *ad valorem* taxes are applied to pay the Bonds in a manner consistent with the Bankruptcy Code.

Special Revenues. If the *ad valorem* tax revenues that are pledged to the payment of the Bonds (see “SECURITY AND SOURCE OF PAYMENT FOR THE BONDS – Pledge of Tax Revenues”) are determined to be “special revenues” within the meaning of the Bankruptcy Code, then the application in a manner consistent with the Bankruptcy Code of the pledged *ad valorem* revenues that are collected after the date of the bankruptcy filing should not be subject to the automatic stay. “Special revenues” are defined to include, among others, taxes specifically levied to finance one or more projects or systems of the debtor, but excluding receipts from general property, sales, or income taxes levied to finance the general purposes of the debtor. The District has specifically pledged the *ad valorem* taxes for payment of the Bonds. Additionally, the *ad valorem* taxes levied for payment of the Bonds are permitted under the State Constitution only where either (i) the applicable bond proposition is approved by 55% of the voters and such proposition contains a specific list of school facilities projects, or (ii) if the applicable bond proposition is approved by two-thirds of voters and such bonds must be issued for the acquisition or improvement of real property. Because State law prohibits the use of the tax proceeds for any purpose other than payment of the bonds and the bond proceeds can only be used to fund the acquisition or improvement of real property and other capital expenditures included in the proposition, such tax revenues appear to fit the definition of special revenues. However, there is no binding judicial precedent dealing with the treatment in bankruptcy proceedings of *ad valorem* tax revenues collected for the payments of bonds in California, so no assurance can be given that a bankruptcy court would not hold otherwise.

In addition, even if the *ad valorem* tax revenues are determined to be “special revenues,” the Bankruptcy Code provides that special revenues can be applied to necessary operating expenses of the project or system, before they are applied to other obligations. This rule applies regardless of the provisions of the transaction documents. Thus, a bankruptcy court could determine that the District is entitled to use the *ad valorem* tax revenues to pay necessary operating expenses of the District and its schools, before the remaining revenues are paid to the owners of the Bonds.

Possession of Tax Revenues; Remedies. If the County or the District goes into bankruptcy and has possession of tax revenues (whether collected before or after commencement of the bankruptcy), and if the County or the District, as applicable, does not voluntarily pay such tax revenues to the owners of the Bonds, it is not clear what procedures the owners of the Bonds would take or how effective they would be in obtaining possession of such tax revenues.

Opinion of Bond Counsel Qualified by Reference to Bankruptcy, Insolvency and Other Laws Relating to or Affecting Creditor's Rights. The proposed form of opinion of Bond Counsel, attached hereto as Appendix D, is qualified by reference to bankruptcy, insolvency and other laws relating to or affecting creditor's rights.

Legal Opinion

The validity of the Bonds and certain other legal matters are subject to the approving opinion of Orrick, Herrington & Sutcliffe LLP, San Francisco, California, Bond Counsel to the District. A complete copy of the proposed form of Bond Counsel opinion is set forth in “APPENDIX D—PROPOSED FORM OF OPINION OF BOND COUNSEL.” Bond Counsel undertakes no responsibility for the accuracy, completeness or fairness of this Official Statement.

Legality for Investment in California

Under provisions of the Financial Code of the State, the Bonds are legal investments for commercial banks in the State to the extent that the Bonds, in the informed opinion of the bank, are prudent for the investment of funds of its depositors, and, under provisions of the Government Code, the Bonds are eligible securities for deposits of public moneys in the State.

Continuing Disclosure

The District has covenanted for the benefit of the holders and Beneficial Owners of the Bonds to provide certain financial information and operating data relating to the District (the “**Annual Report**”) by not later than nine months following the end of the District’s fiscal year (currently ending June 30), commencing with the report for the 2015-16 fiscal year (which is due no later than April 1, 2017) and to provide notice of the occurrence of certain enumerated events, if material. The Annual Report and the notices of material events will be filed by the District with the Municipal Securities Rulemaking Board. The specific nature of the information to be contained in the Annual Report or the notices of material events is set forth in “APPENDIX E—FORM OF CONTINUING DISCLOSURE CERTIFICATE.” These covenants have been made in order to assist the Underwriter in complying with Securities and Exchange Commission Rule 15c2-12(b)(5) (the “**Rule**”).

[During the five-year period preceding the date of this Official Statement, the District failed to timely file certain material event notices and financial operating information required by the terms of its previous undertakings, including but not limited to certain annual reports and notices of rating changes, or insurer-related rating changes or rating withdrawals with respect to numerous series of obligations. Additionally, certain of the annual reports timely filed did not disclose certain information required by the terms of the District’s previous undertakings, including assessed value, tax delinquencies, the top taxpayers, appropriations limit and appropriations subject to the limit, and lottery revenue. The District also failed to timely file certain operating data with respect to the Community Facilities District No. 1. In December 2013, the District put procedures in place to prevent future noncompliance, including having Capitol Public Finance Group, LLC, the District’s current dissemination agent (“**Dissemination Agent**”), assist the District with compliance with its continuing disclosure obligations. The Dissemination Agent has assisted the District in filing all necessary information to make the District current in its continuing disclosure obligations under the Rule and continues to work with the District in establishing and maintaining the necessary safeguards to assist in the timely filing of required information going forward.]

No Litigation

No litigation is pending or, to the best knowledge of the District, threatened, concerning the validity of the Bonds or the District’s ability to receive *ad valorem* taxes and to collect other revenues, or contesting the District’s ability to issue and retire the Bonds, the political existence of the District, the title to their offices of District or County officials who will sign the Bonds and other certifications relating to the Bonds, or the powers of those offices. A certificate (or certificates) to that effect will be furnished to the original purchasers at the time of the original delivery of the Bonds.

The District is routinely subject to lawsuits and claims. In the opinion of the District, the aggregate amount of the uninsured liabilities of the District under these lawsuits and claims will not materially affect the financial position or operations of the District.

MISCELLANEOUS

Ratings

The Bonds have received the rating of “___” by Standard & Poor’s Ratings Services, a Standard & Poor’s Financial Services LLC business (“**S&P**”). Rating agencies generally base their ratings on their own investigations, studies and assumptions. The District has provided certain additional information and materials to the rating agency (some of which does not appear in this Official Statement). The ratings reflect only the views of the rating agency and any explanation of the significance of such rating may be obtained only from such rating agency as follows: S&P at www.standardandpoors.com. A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time. There is no assurance that any rating will continue for any given period of time or that the ratings not be revised downward or withdrawn entirely by the rating agencies, if, in the judgment of the

rating agencies, circumstances so warrant. Any such downward revision or withdrawal of any rating may have an adverse effect on the market price of the Bonds. The District undertakes no responsibility to oppose any such downward revision, suspension or withdrawal.

Professionals Involved in the Offering

Orrick, Herrington & Sutcliffe LLP is acting as Bond Counsel and as Disclosure Counsel to the District with respect to the Bonds, and will receive compensation from the District contingent upon the sale and delivery of the Bonds. Kutak Rock LLP is acting as Underwriter's Counsel to the Underwriter with respect to the Bonds, and will receive compensation from the Underwriter contingent upon the sale and delivery of the Bonds. Capitol Public Finance Group, LLC is acting as Financial Advisor with respect to the Bonds, and will receive compensation from the District contingent upon the sale and delivery of the Bonds.

Potential for Bond Insurance

The District has applied for municipal bond insurance to guarantee the scheduled payment of principal of and interest on one or more maturities of the Bonds and, if a commitment is issued to insure the Bonds, will determine prior to the sale of the Bonds whether to obtain such insurance for one or more maturities.

Underwriting

The Bonds are to be purchased by Stifel, Nicolaus & Company, Incorporated (the "**Underwriter**"). The Underwriter has agreed, subject to certain terms and conditions set forth in the Bond Purchase Agreement, dated [May] __, 2016 by and between the Underwriter and the District, to purchase the Bonds at a purchase price of \$_____ (which represents the aggregate initial principal amount of the Bonds, [plus/less] a net original issue [premium/discount] of \$_____ and less \$_____ of Underwriter's discount). The Underwriter will purchase all the Bonds if any are purchased. The Bonds may be offered and sold to certain dealers (including dealers depositing said Bonds into investment trusts) and others at prices lower than the initial public offering price, and the public offering price may be changed from time to time by the Underwriter.

The Underwriter has certified the public reoffering prices or yields set forth on the cover page hereof. The Underwriter's compensation is computed based on those prices or yields, and the District takes no responsibility for the accuracy of those prices or yields. The Underwriter may offer and sell the Bonds to certain dealers and others at prices lower than the offering prices stated on the cover page. The offering prices may be changed from time to time by the Underwriter.

APPENDIX A

INFORMATION RELATING TO THE DISTRICT'S OPERATIONS AND BUDGET

The information in this Appendix concerning the operations of the District, the District's finances, and State funding of education, is provided as supplementary information only, and it should not be inferred from the inclusion of this information in this Official Statement that the principal of or interest on the Bonds is payable from the general fund of the District or from State revenues. The Bonds are payable from the proceeds of an ad valorem tax approved by the voters of the District pursuant to all applicable laws and Constitutional requirements, and required to be levied by the County on property within the District in an amount sufficient for the timely payment of principal of and interest on the Bonds. See "SECURITY AND SOURCE OF PAYMENT FOR THE BONDS" in the Official Statement.

THE DISTRICT

Introduction

The Sacramento City Unified School District (the "**District**"), located in Sacramento County, California (the "**County**"), is the 13th largest school district in the State of California (the "**State**") as measured by student enrollment. The District provides educational services to the residents in and around the City of Sacramento (the "**City**"), the State capital. The District operates under the jurisdiction of the Superintendent of Schools of Sacramento County. See "THE BONDS—Authority for Issuance; Purpose" in the Official Statement. The District's estimated average daily attendance for fiscal year 2015-16 is 38,876 students and the District's 2015-16 general fund expenditures are projected at approximately \$520.4 million.

The District operates 40 elementary schools for grades K-6, eight K-8 schools, six middle schools for grades 7-8, one 7-9 school, one 7-12 school, seven comprehensive high schools for grades 9-12, five alternative education centers, two special education centers, two adult education centers, 14 charter schools (including five dependent charter schools) and 44 children's centers/preschools serving infants through age 12. The District's estimated enrollment for fiscal year 2015-16 is approximately 46,877 students. For fiscal year 2015-16, the District projects to employ approximately [3,495] employees, which includes 2,077 certificated (credentialed teaching) employees, 1,174 FTE classified (noninstructional) employees, and 244 supervisory/other personnel.

The District is governed by a Board of Education (the "**Board of Education**") consisting of seven members and one student member. The regular members are elected to staggered four-year terms every two years, alternating between three and four available positions. Beginning in 2008, board member elections are no longer held District-wide, but instead are held among voters who reside in each of seven trustee areas.

The day-to-day operations are managed by a board-appointed Superintendent of Schools. José L. Banda was appointed Superintendent of the District on July 17, 2014. Prior to his appointment, Mr. Banda served for two years as Superintendent of Seattle Public Schools, Washington state's largest K-12 district, four years as Superintendent of the 20,000-student Anaheim City School District, three years as the Superintendent of the Planada School District, and thirteen years as a secondary administrator, including eight years as a high school principal. Mr. Banda has over 30 years of experience in the field of education and holds a Bachelor of Arts from California State University in Bakersfield and a master's in Educational Leadership from Chapman University.

Gerardo Castillo, CPA, began his term as the Interim Chief Business Officer on August 16, 2014 and became Chief Business Officer on March 1, 2015. Prior to becoming Interim Chief Business Officer, Mr. Castillo served as Director of Finance of the District for seven years. Mr. Castillo holds a CBO certificate and has over 17 years of work experience in finance, including 13 years in the field of school district finance.

DISTRICT FINANCIAL MATTERS

State Funding of Education; State Budget Process

General. As is true for most school districts in California, the District's operating income consists primarily of three components: a State portion funded from the State's general fund in accordance with the Local Control Funding Formula (see "—Allocation of State Funding to School Districts; Local Control Funding Formula" herein), a State portion funded from the Education Protection Account, and a local portion derived from the District's share of the 1% local *ad valorem* property tax authorized by the State Constitution. In addition, school districts may be eligible for other special categorical funding from State and federal government programs. The District projects to receive approximately 77.4% of its general fund revenues from State funds (not including the local portion derived from the District's share of the local *ad valorem* tax), projected at approximately \$409.9 million for fiscal year 2015-16. Such State funds include both the State funding provided under LCFF as well as other State revenues (see "—Allocation of State Funding to School District; Local Control Funding Formula – Attendance and LCFF" and "—Other District Revenues – Other State Revenues" below). As a result, decreases or deferrals in State revenues, or in State legislative appropriations made to fund education, may significantly affect the District's revenues and operations.

Under Proposition 98, a constitutional and statutory amendment adopted by the State's voters in 1988 and amended by Proposition 111 in 1990 (now found at Article XVI, Sections 8 and 8.5 of the State Constitution), a minimum level of funding is guaranteed to school districts, community college districts, and other State agencies that provide direct elementary and secondary instructional programs.

Recent years have seen frequent disruptions in State personal income taxes, sales and use taxes, and corporate taxes, making it increasingly difficult for the State to meet its Proposition 98 funding mandate, which normally commands about 45% of all State general fund revenues, while providing for other fixed State costs and priority programs and services. Because education funding constitutes such a large part of the State's general fund expenditures, it is generally at the center of annual budget negotiations and adjustments.

The State budget for fiscal year 2013-14 contained a new formula for funding the school finance system (the "**Local Control Funding Formula**" or "**LCFF**"). The LCFF replaced the revenue limit funding system and most categorical programs. See "—Allocation of State Funding to School Districts; Local Control Funding Formula" herein for more information.

State Budget Process. According to the State Constitution, the Governor must propose a budget to the State Legislature no later than January 10 of each year and a final budget must be adopted no later than June 15. Historically, the budget required a two-thirds vote of each house of the State Legislature for passage. However, on November 2, 2010, the State's voters approved Proposition 25, which amended the State Constitution to lower the vote requirement necessary for each house of the State Legislature to pass a budget bill and send it to the Governor. Specifically, the vote requirement was lowered from two-thirds to a simple majority (50% plus one) of each house of the State Legislature. The lower vote requirement also would apply to trailer bills that appropriate funds and are identified by the State Legislature "as related to the budget in the budget bill." The budget becomes law upon the signature of the Governor, who may veto specific items of expenditure. Under Proposition 25, a two-thirds vote of the State Legislature is still required to override any veto by the Governor. School district budgets must generally be adopted by July 1, and revised by the school board within 45 days after the Governor signs the budget act to reflect any changes in budgeted revenues and expenditures made necessary by the adopted State budget. The Governor signed the fiscal year 2015-16 State budget on June 24, 2016.

When the State budget is not adopted on time, basic appropriations and the categorical funding portion of each school district's State funding are affected differently. Under the rule of *White v. Davis* (also referred to as *Jarvis v. Connell*), a State Court of Appeal decision reached in 2002, there is no constitutional mandate for appropriations to school districts without an adopted budget or emergency appropriation, and funds for State programs cannot be disbursed by the State Controller until that time unless the expenditure is (i) authorized by a continuing appropriation found in statute, (ii) mandated by the State Constitution (such as appropriations for salaries of elected State officers), or (iii) mandated by federal law (such as payments to State workers at no more than minimum wage). The State Controller has consistently stated that basic State funding for schools is continuously

appropriated by statute, but that special and categorical funds may not be appropriated without an adopted budget. Should the Legislature fail to pass a budget or emergency appropriation before the start of any fiscal year, the District might experience delays in receiving certain expected revenues. The District is authorized to borrow temporary funds to cover its annual cash flow deficits, and as a result of the *White v. Davis* decision, the District might find it necessary to increase the size or frequency of its cash flow borrowings, or to borrow earlier in the fiscal year. The District does not expect the *White v. Davis* decision to have any long-term effect on its operating budgets.

Aggregate State Education Funding. The Proposition 98 guaranteed amount for education is based on prior-year funding, as adjusted through various formulas and tests that take into account State proceeds of taxes, local property tax proceeds, school enrollment, per-capita personal income, and other factors. The State's share of the guaranteed amount is based on State general fund tax proceeds and is not based on the general fund in total or on the State budget. The local share of the guaranteed amount is funded from local property taxes. The total guaranteed amount varies from year to year and throughout the stages of any given fiscal year's budget, from the Governor's initial budget proposal to actual expenditures to post-year-end revisions, as better information regarding the various factors becomes available. Over the long run, the guaranteed amount will increase as enrollment and per capita personal income grow.

If, at year-end, the guaranteed amount is calculated to be higher than the amount actually appropriated in that year, the difference becomes an additional education funding obligation, referred to as "settle-up." If the amount appropriated is higher than the guaranteed amount in any year, that higher funding level permanently increases the base guaranteed amount in future years. The Proposition 98 guaranteed amount is reduced in years when general fund revenue growth lags personal income growth, and may be suspended for one year at a time by enactment of an urgency statute. In either case, in subsequent years when State general fund revenues grow faster than personal income (or sooner, as the Legislature may determine), the funding level must be restored to the guaranteed amount, the obligation to do so being referred to as "maintenance factor."

In recent years, the State's response to fiscal difficulties has had a significant impact on Proposition 98 funding and settle-up treatment. The State has sought to avoid or delay paying settle-up amounts when funding has lagged the guaranteed amount. In response, teachers' unions, the State Superintendent and others sued the State or Governor in 1995, 2005, 2009 and 2011 to force them to fund schools in the full amount required. The settlement of the 1995 and 2005 lawsuits has so far resulted in over \$4 billion in accrued State settle-up obligations. However, legislation enacted to pay down the obligations through additional education funding over time, including the Quality Education Investment Act of 2006, have also become part of annual budget negotiations, resulting in repeated adjustments and deferrals of the settle-up amounts.

The State has also sought to preserve general fund cash while avoiding increases in the base guaranteed amount through various mechanisms: by treating any excess appropriations as advances against subsequent years' Proposition 98 minimum funding levels rather than current year increases; by temporarily deferring apportionments of Proposition 98 funds from one fiscal year to the next; by permanently deferring apportionments of Proposition 98 funds from one fiscal year to the next; by suspending Proposition 98, as the State did in fiscal year 2004-05, fiscal year 2010-11, fiscal year 2011-12 and fiscal year 2012-13; and by proposing to amend the State Constitution's definition of the guaranteed amount and settle-up requirement under certain circumstances.

The District cannot predict how State income or State education funding will vary over the term to maturity of the Bonds, and the District takes no responsibility for informing owners of the Bonds as to actions the State Legislature or Governor may take affecting the current year's budget after its adoption. Rainy Day Fund; SB 858. The 2014-15 State Budget proposed certain constitutional amendments to the rainy day fund (the “**Rainy Day Fund**”) on the November 2014 ballot, as well as certain provisions which could limit the amount of reserves that may be maintained by a school district that became operational when Proposition 2 was passed. See “CONSTITUTIONAL AND STATUTORY PROVISIONS AFFECTING DISTRICT REVENUES AND APPROPRIATIONS – Proposition 2” herein.

AB 1469. As part of the 2014-15 State Budget, the Governor signed Assembly Bill 1469 (“**AB 1469**”) which implements a new funding strategy for the California State Teachers’ Retirement System (“**CalSTRS**”), increasing the employer contribution rate in fiscal year 2014-15 from 8.25% to 8.88% of covered payroll. See “– Retirement Benefits – CalSTRS” herein for more information about CalSTRS and AB 1469.

2015-16 State Budget. The Governor signed the fiscal year 2015-16 State budget (the “**2015-16 State Budget**”) on June 24, 2015. The 2015-16 State Budget represents a multiyear plan that is balanced and that continues to focus on paying down budgetary debt from prior years and setting aside reserves. The 2015-16 State Budget increases spending on education, health care, in-home supportive services, workforce development, drought assistance and the judiciary. The 2015-16 State Budget projects \$115 billion in revenues and transfers, a 3% increase over fiscal year 2014-15. By the end of fiscal year 2015-16, the State’s Rainy Day Fund is expected to have a balance of approximately \$3.5 billion. Under the 2015-16 State Budget, the State is expected to repay the remaining \$1 billion in deferrals to schools and community colleges, make the final payment on the \$15 billion in Economic Recovery Bonds used to cover budget deficits since 2002, and reduce outstanding mandate liabilities owed to schools and community colleges by \$3.8 billion.

As it relates to K-12 education, the 2015-16 State Budget provides total funding of \$83.2 billion (\$49.7 billion in general funds and \$33.5 billion in other funds). The 2015-16 State Budget provides Proposition 98 funding for all K-14 education of \$68.4 billion, an increase of \$7.6 billion over fiscal year 2014-15. Since fiscal year 2011-12, Proposition 98 funding for K-12 education has grown by more than \$18.6 billion, representing an increase of more than \$3,000 per student.

Certain budget adjustments for K-12 programs include the following:

- **Local Control Funding Formula.** An increase of \$6 billion in Proposition 98 general funds to continue the State’s transition to the Local Control Funding Formula. This formula commits most new funding to districts serving English language learners, students from low-income families and youth in foster care. This increase will close the remaining funding implementation gap by more than 51%.
- **Career Technical Education.** The 2015-16 State Budget establishes the Career Technical Education (“**CTE**”) Incentive Grant Program and provides \$400 million, \$300 million and \$200 million Proposition 98 general funds in fiscal years 2015-16, 2016-17, and 2017-18, respectively, for local education agencies to establish new or expand high quality CTE programs.
- **Educator Support.** An increase of \$500 million in one-time Proposition 98 general funds for educator support. Of this amount, \$490 million is for activities that promote educator quality and effectiveness, including beginning teacher and administrator support and mentoring, support for teachers who have been identified as needing improvement, and professional development aligned to the State academic content standards. These funds will be allocated to school districts, county offices of education, charter schools, and the State special schools in an equal amount per certificated staff and are available for expenditure over the next three years.
- **Special Education.** The 2015-16 State Budget includes \$60.1 million in Proposition 98 general funds (\$50.1 million ongoing and \$10 million one-time) to implement selected program changes recommended by the task force, making targeted investments that improve service delivery and outcomes for all disabled students, with a particular emphasis on early education.
- **K-12 High-Speed Internet Access.** An increase of \$50 million in one-time Proposition 98 funds to support additional investments in internet connectivity and infrastructure, building on the \$26.7 million in one-time Proposition 98 funding that was provided in fiscal year 2014-15. This second installment of funding will further

upgrade internet infrastructure to reflect the increasing role that technology plays in classroom operations to support teaching and learning.

- K-12 Mandates. An increase of \$3.2 billion in one time Proposition 98 general funds to reimburse K-12 local educational agencies for the costs of State mandated programs. These funds will make a significant down payment on outstanding mandate debt, while providing school districts, county offices of education and charter schools with discretionary resources to support critical investments such as Common Core implementation.
- K-12 Deferrals. The 2015-16 State Budget provides \$897 million Proposition 98 in general funds to eliminate deferrals consistent with the revenue trigger included in the fiscal year 2014-15 State budget.

The complete 2015-16 State Budget is available from the California Department of Finance website at www.dof.ca.gov. Prohibitions on Diverting Local Revenues for State Purposes. Beginning in 1992-93, the State satisfied a portion of its Proposition 98 obligations by shifting part of the property tax revenues otherwise belonging to cities, counties, special districts, and redevelopment agencies, to school and community college districts through a local Educational Revenue Augmentation Fund (“**ERAF**”) in each county. Local agencies, objecting to invasions of their local revenues by the State, sponsored a statewide ballot initiative intended to eliminate the practice. In response, the State Legislature proposed an amendment to the State Constitution, which the State’s voters approved as Proposition 1A at the November 2004 election. That measure was generally superseded by the passage of a new initiative constitutional amendment at the November 2010 election, known as “**Proposition 22.**”

The effect of Proposition 22 is to prohibit the State, even during a period of severe fiscal hardship, from delaying the distribution of tax revenues for transportation, redevelopment, or local government projects and services. It prevents the State from redirecting redevelopment agency property tax increment to any other local government, including school districts, or from temporarily shifting property taxes from cities, counties and special districts to schools, as in the ERAF program. This is intended to, among other things, stabilize local government revenue sources by restricting the State’s control over local property taxes. One effect of this amendment will be to deprive the State of fuel tax revenues to pay debt service on most State bonds for transportation projects, reducing the amount of State general fund resources available for other purposes, including education.

Prior to the passage of Proposition 22, the State invoked Proposition 1A to divert \$1.935 billion in local property tax revenues in 2009-10 from cities, counties, and special districts to the State to offset State general fund spending for education and other programs, and included another diversion in the adopted 2009-10 State budget of \$1.7 billion in local property tax revenues from local redevelopment agencies, which local redevelopment agencies have now been dissolved (see “– *Dissolution of Redevelopment Agencies*” below). Redevelopment agencies had sued the State over this latter diversion. However, the lawsuit was decided against the California Redevelopment Association on May 1, 2010. Because Proposition 22 reduces the State’s authority to use or shift certain revenue sources, fees and taxes for State general fund purposes, the State will have to take other actions to balance its budget in some years – such as reducing State spending or increasing State taxes, and school and community college districts that receive Proposition 98 or other funding from the State will be more directly dependent upon the State’s general fund.

Dissolution of Redevelopment Agencies. The adopted State budget for fiscal year 2011-12, as signed by the Governor on June 30, 2011, included as trailer bills Assembly Bill No. 26 (First Extraordinary Session) (“**AB1X 26**”) and Assembly Bill No. 27 (First Extraordinary Session) (“**AB1X 27**”), which the Governor signed on June 29, 2011. AB1X 26 suspended most redevelopment agency activities and prohibited redevelopment agencies from incurring indebtedness, making loans or grants, or entering into contracts after June 29, 2011. AB1X 26 dissolved all redevelopment agencies in existence and designated “successor agencies” and “oversight boards” to satisfy “enforceable obligations” of the former redevelopment agencies and administer dissolution and wind down of the former redevelopment agencies. Certain provisions of AB1X 26 are described further below.

In July of 2011, various parties filed an action before the Supreme Court of the State of California (the “Court”) challenging the validity of AB1X 26 and AB1X 27 on various grounds (*California Redevelopment Association v. Matosantos*). On December 29, 2011, the Court rendered its decision in *Matosantos* upholding virtually all of AB1X 26 and invalidating AB1X 27. In its decision, the Court also modified various deadlines for the implementation of AB1X 26. The deadlines for implementation of AB1X 26 described below take into account the modifications made by the Court in *Matosantos*.

On February 1, 2012, and pursuant to *Matosantos*, AB1X 26 dissolved all redevelopment agencies in existence and designated “successor agencies” and “oversight boards” to satisfy “enforceable obligations” of the former redevelopment agencies and administer dissolution and wind down of the former redevelopment agencies. With limited exceptions, all assets, properties, contracts, leases, records, buildings and equipment, including cash and cash equivalents of a former redevelopment agency, will be transferred to the control of its successor agency and, unless otherwise required pursuant to the terms of an enforceable obligation, distributed to various related taxing agencies pursuant to AB1X 26.

AB1X 26 requires redevelopment agencies to continue to make scheduled payments on and perform obligations required under its “enforceable obligations.” For this purpose, AB1X 26 defines “enforceable obligations” to include “bonds, including the required debt service, reserve set-asides, and any other payments required under the indenture or similar documents governing the issuance of outstanding bonds of the former redevelopment agency” and “any legally binding and enforceable agreement or contract that is not otherwise void as violating the debt limit or public policy.” AB1X 26 specifies that only payments included on an “enforceable obligation payment schedule” adopted by a redevelopment agency shall be made by a redevelopment agency until its dissolution. However, until a successor agency adopts a “recognized obligation payment schedule” the only payments permitted to be made are payments on enforceable obligations included on an enforceable obligation payment schedule. A successor agency may amend the enforceable obligation payment schedule at any public meeting, subject to the approval of its oversight board.

Under AB1X 26, commencing February 1, 2012, property taxes that would have been allocated to each redevelopment agency if the agencies had not been dissolved will instead be deposited in a “redevelopment property tax trust fund” created for each former redevelopment agency by the related county auditor-controller and held and administered by the related county auditor-controller as provided in AB1X 26. AB1X 26 generally requires each county auditor-controller, on May 16, 2012 and June 1, 2012 and each January 16 and June 1 (now each January 2 and June 1 pursuant to AB 1484, as described below) thereafter, to apply amounts in a related redevelopment property tax trust fund, after deduction of the county auditor-controller’s administrative costs, in the following order of priority:

- To pay pass-through payments to affected taxing entities in the amounts that would have been owed had the former redevelopment agency not been dissolved; provided, however, that if a successor agency determines that insufficient funds will be available to make payments on the recognized obligation payment schedule and the county auditor-controller and State Controller verify such determination, pass-through payments that had previously been subordinated to debt service may be reduced;
- To the former redevelopment agency’s successor agency for payments listed on the successor agency’s recognized obligation payment schedule for the ensuing six-month period;
- To the former redevelopment agency’s successor agency for payment of administrative costs; and
- Any remaining balance to school entities and local taxing agencies.

The District projects it will receive less than \$200,000 in pass-through payments in fiscal year 2014-15. The District does not anticipate the dissolution of redevelopment agencies to have any significant effect on its total general revenues.

It is possible that there will be additional legislation proposed and/or enacted to “clean up” various inconsistencies contained in AB1X 26 and there may be additional legislation proposed and/or enacted in the future affecting the current scheme of dissolution and winding up of redevelopment agencies currently contemplated by

AB1X 26. For example, AB 1484 was signed by the Governor on June 27, 2012, to clarify and amend certain aspects of AB1X 26. AB 1484, among other things, attempts to clarify the role and requirements of successor agencies, provides successor agencies with more control over agency bond proceeds and properties previously owned by redevelopment agencies and adds other new and modified requirements and deadlines. AB 1484 also provides for a “tax claw back” provision, wherein the State is authorized to withhold sales and use tax revenue allocations to local successor agencies to offset payment of property taxes owed and not paid by such local successor agencies to other local taxing agencies. This “tax claw back” provision has been challenged in court by certain cities and successor agencies. The District cannot predict the outcome of such litigation and what effect, if any, it will have on the District. Additionally, no assurances can be given as to the effect of any such future proposed and/or enacted legislation on the District.

Proposed 2016-17 State Budget. The Governor released his proposed fiscal year 2016-17 State budget (the “**2016-17 Proposed State Budget**”) on January 7, 2016. The 2016-17 Proposed State Budget proposes a balanced budget for Fiscal Year 2016-17. The Governor proposes to use funds to pay down outstanding budgetary borrowing including loans from special funds, Proposition 98 settle up obligations, transportation loans, and pension liabilities related to University of California employees. The 2016-17 Proposed State Budget estimates that total resources available in fiscal year 2015-16 will be approximately \$121.2 billion (including a prior year balance of \$3.7 billion) and total expenditures in fiscal year 2015-16 will be approximately \$116.1 billion. The 2016-17 Proposed State Budget projects total resources available for fiscal year 2016-17 of \$125.8 billion, inclusive of revenues and transfers of \$120.6 billion and a prior year balance of \$5.17 billion. The 2016-17 Proposed State Budget projects total expenditures of \$122.6 billion, inclusive of non-Proposition 98 expenditures of \$71.6 billion and Proposition 98 expenditures of \$50.97 billion. The 2016-17 Proposed State Budget proposes to allocate \$966 million of the General Fund’s projected fund balance to the Reserve for Liquidation of Encumbrances and \$2.2 billion of such fund balance to the State’s Special Fund for Economic Uncertainties.

The 2016-17 Proposed State Budget prioritizes a balanced budget for the long term and fully funding the State’s Rainy Day Fund. The Governor projects that the Rainy Day Fund will have a balance of approximately \$6 billion in fiscal year 2016-17. The 2016-17 Proposed State Budget proposes to make an additional \$2 billion deposit during fiscal year 2016-17 to bring the balance of the Rainy Day Fund to \$8 billion, which is approximately 65% of the target balance. For more information about the Rainy Day Fund, see “CONSTITUTIONAL AND STATUTORY PROVISIONS AFFECTING DISTRICT REVENUES AND APPROPRIATIONS – Proposition 2 – *Rainy Day Fund*” herein.

Despite budgetary improvements as compared to recent years, the 2016-17 Proposed State Budget acknowledges that the additional tax revenues from capital gains are temporary in nature and that the additional revenues from Proposition 30 will expire in 2016 (with respect to the sales tax increase) and 2018 (with respect to the income tax increase). Further, the 2016-17 Proposed State Budget cautions that the State should address several risks, including: the inevitable occurrence of another recession, ongoing fiscal challenges of the federal government, the budget’s heavy dependency on the performance of the stock market, the high levels of State debts and liabilities, including unfunded retirement liabilities, and deferred maintenance of the State’s roads and other infrastructure.

Certain workload adjustments and budgetary proposals for K-12 education set forth in the 2016-17 Proposed State Budget include the following:

- School District Local Control Funding Formula. The 2016-17 Proposed State Budget proposes to provide \$2.8 billion to continue the implementation of the Local Control Funding Formula. The 2016-17 Proposed State Budget proposes to eliminate almost 50% of the remaining funding gap between actual funding and the target level of funding. The Governor estimates that total Local Control Funding Formula implementation is now 95%.
- County Offices of Education Local Control Funding Formula. An increase of \$1.7 million Proposition 98 General Fund to support a cost-of-living adjustment and A.D.A. changes for county offices of education.
- Proposition 98 Minimum Guarantee. The 2016-17 Proposed State Budget proposes Proposition 98 funding of \$71.6 billion, inclusive of State and local funds, for fiscal year 2016-17 which is

expected to satisfy the Proposition 98 minimum guarantee.

- Early Education Block Grant. The 2016-17 Proposed State Budget proposes a \$1.6 billion early education block grant for local educational agencies that will combine Proposition 98 funding from the State Preschool Program, transitional kindergarten, and the preschool Quality Rating and Improvement System Grant.
- Mandate Claims. The 2016-17 Proposed State Budget proposes to allocate approximately \$1.28 billion in one-time moneys to reduce outstanding mandate claims by school districts, charter schools, and county offices of education.
- Career Technical Education. The 2015-16 State Budget included resources to support the first year of the Career Technical Education Incentive Grant program, a transitional education and workforce development initiative administered by the California Department of Education. Pursuant to the program, the State will allocate \$400 million in fiscal year 2015-16, \$300 million in fiscal year 2016-17, and \$200 million in 2017-18 in the form of competitive matching grants to school districts, county offices, of education, and charter schools.
- One-Time Discretionary Funding. The 2016-17 Proposed State Budget proposes an increase of more than \$1.2 billion in one-time Proposition 98 General Fund for school districts, charter schools and county offices of education to use at local discretion.
- Charter School Growth. The 2016-17 Proposed State Budget proposes an increase of \$61 million Proposition 98 General Fund to support projected charter school A.D.A. growth.
- Charter School Startup Grants. The 2016-17 Proposed State Budget proposes an increase of \$20 million one-time Proposition 98 General Fund to support operational startup costs for new charter schools in 2016 and 2017, which is expected to partially offset the loss of federal funding previously available for such purpose.
- Systems of Learning and Behavioral Supports. The 2016-17 Proposed State Budget proposes an increase of \$30 million one-time Proposition 98 General Fund resources to build upon the \$10 million investment included in the 2015-16 State Budget for an increased number of local educational agencies to provide academic and behavioral supports in a coordinated and systematic way.
- Special Education. The 2016-17 Proposed State Budget proposes a decrease of \$15.5 million Proposition 98 General Fund to reflect a projected decrease in Special Education A.D.A.
- Cost-of-Living Adjustment Increases. The 2016-17 Proposed State Budget proposes an increase of \$22.9 million Proposition 98 General Fund to support a 0.47% cost-of-living adjustment for categorical programs, including Special Education, Child Nutrition, Foster Youth, Preschool, American Indian Education Centers, and the American Indian Early Childhood Education Program, which are not funded within the Local Control Funding Formula.
- Local Property Tax Adjustments. The 2016-17 Proposed State Budget proposes a decrease of \$149.4 million Proposition 98 General Fund for school districts and county offices of education in fiscal year 2015-16 as a result of higher offsetting property tax revenues. In addition, the Governor proposes a decrease of \$1.2 billion in Proposition 98 General Fund for school districts and county offices of education in fiscal year 2016-17 as a result of increased offsetting local property tax revenues.
- School District Average Daily Attendance. As a result of a decrease in projected ADA from the 2015-16 State Budget, the 2016-17 Proposed Budget proposes a decrease of \$150.1 million in

2015-16 for school districts and a decrease of \$34.1 million in fiscal year 2016-17 for school districts.

- Proposition 39. Proposition 39, the California Clean Energy Jobs Act of 2012, has provided increased corporate tax revenues in the State. For fiscal year 2013-14 through fiscal year 2017-18, Proposition 39 requires half of the increased revenues, up to \$550 million per year, to be used to support energy efficiency. The 2016-17 Proposed State Budget proposes to allocate \$365.4 million to support school district and charter school energy efficiency projects in fiscal year 2016-17.
- Proposition 47. Proposition 47 (2014) requires a portion of any State savings which have resulted from the State's reduced penalties for certain non-serious and non-violent property and drug offenses, to be allocated to K-12 truancy and dropout prevention, victim services, and mental health and drug treatment. The 2016-17 Proposed State Budget proposes to allocate approximately \$7.3 million of such funds to, among other things, truancy reduction, dropout prevention and crime prevention efforts relating to K-12 students. The Governor expects to count such funds towards the Proposition 98 minimum guarantee.

LAO Overview of 2016-17 Proposed State Budget. The Legislative Analyst's Office ("LAO"), a nonpartisan State office which provides fiscal and policy information and advice to the State Legislature, released its report on the 2016-17 Proposed State Budget entitled "The 2016-17 Budget: Overview of the Governor's Budget" on January 11, 2016 (the "**2016-17 Proposed Budget Overview**"), in which the LAO commends the State for its emphasis on increasing its budget reserves. The LAO notes that such an approach is prudent, as a large reserve may be essential to weathering the next recession. Further, the LAO is generally supportive of the Governor's priorities and the 2016-17 Proposed State Budget's focus on infrastructure, which the LAO notes is aging and in need of renovation and improvements. Nevertheless, the LAO warns that budget vulnerability remains and that cautious budgetary decision making is necessary. For example, the LAO suggests the State begin with robust targets for fiscal year 2016-17 budget reserves and take a measured approach to spending in order to better position the State for any near-term economic downturn.

With respect to the Proposition 98 budget plan in the 2016-17 Proposed State Budget, the LAO believes the Governor's estimated local property tax revenue counting toward Proposition 98 is approximately \$1 billion too low for 2015-16 and 2016-17. If local property tax revenue comes in higher than the Governor's administration expects, Proposition 98 General Fund costs will be correspondingly lower. However, the LAO cautions that the proposed use of Proposition 98 funding in fiscal year 2016-17 may provide inadequate protection against economic downturn. Thus, the LAO advises against committing all available 2016-17 Proposition 98 funds to ongoing purposes, as a sustained economic slowdown could force the State to cut programs and potentially backpedal in its implementation of the Local Control Funding Formula.

The 2016-17 Budget Overview is available on the LAO website at www.lao.ca.gov. Changes in State Budget. The final fiscal year 2016-17 State budget, which requires approval by a majority vote of each house of the State Legislature, may differ substantially from the Governor's budget proposal. Accordingly, the District cannot provide any assurances that there will not be any changes in the final fiscal year 2016-17 State budget from the 2016-17 Proposed State Budget. Additionally, the District cannot predict the impact that the final fiscal year 2016-17 State Budget, or subsequent budgets, will have on its finances and operations. The final fiscal year 2016-17 State Budget may be affected by national and State economic conditions and other factors which the District cannot predict.

Future Budgets and Budgetary Actions. The District cannot predict what future actions will be taken by the State Legislature and the Governor to address changing State revenues and expenditures or the impact such actions will have on State revenues available in the current or future years for education. The State budget will be affected by national and State economic conditions and other factors beyond the District's ability to predict or control. Certain actions could result in a significant shortfall of revenue and cash, and could impair the State's ability to fund schools during fiscal year 2016-17 and in future fiscal years. Certain factors, like an economic recession, could result in State budget shortfalls in any fiscal year and could have a material adverse financial impact on the District. As the Bonds are payable from *ad valorem* property taxes, the State budget is not expected to have an impact on the payment of the Bonds.

Allocation of State Funding to School Districts; Local Control Funding Formula

Prior to the implementation of the Local Control Funding Formula in fiscal year 2013-14, under California Education Code Section 42238 and following, each school district was determined to have a target funding level: a "base revenue limit" per student multiplied by a district's student enrollment measured in units of A.D.A. The base revenue limit was calculated from a district's prior-year funding level, as adjusted for a number of factors, such as inflation, special or increased instructional needs and costs, employee retirement costs, especially low enrollment, increased pupil transportation costs, etc. Generally, the amount of State funding allocated to each school district, referred to as State "equalization aid," was the amount needed to reach that district's base revenue limit after taking into account certain other revenues, in particular, locally generated property taxes. To the extent local tax revenues increase due to growth in local property assessed valuation, the additional revenue is offset by a decline in the State's contribution; ultimately, a school district whose local property tax revenues exceeded its base revenue limit was entitled to receive no State equalization aid, and received only its special categorical aid, which is deemed to include the "basic aid" of \$120 per student per year guaranteed by Article IX, Section 6 of the Constitution. Such districts were known as "basic aid districts," which are now referred to as "community funded districts." School districts that received some equalization aid were commonly referred to as "revenue limit districts," which are now referred to as "LCFF districts." The District is an LCFF district.

Beginning in fiscal year 2013-14, the LCFF replaced the existing revenue limit funding system and most categorical programs, and distributes combined resources to school districts through a base revenue limit funding grant ("**Base Grant**") per unit of A.D.A. with additional supplemental funding allocated to local educational agencies based on their proportion of English language learners, students from low-income families and foster youth. The LCFF has an eight-year implementation program to incrementally close the gap between actual funding and the target level of funding, as described below. The LCFF includes the following components:

- A Base Grant for each local education agency, equivalent to \$7,643 per unit of A.D.A. in fiscal year 2013-14. Such Base Grant per unit of A.D.A., adjusted by grade span variation and to be adjusted annually for cost-of-living, is as follows: \$6,845 for grades K-3, \$6,947 for grades 4-6, \$7,154 for grades 7-8 and \$8,289 for grades 9-12. This amount includes an adjustment of 10.4% to the Base Grant to support lowering class sizes in grades K-3, and an adjustment of 2.6% to reflect the cost of operating career technical education programs in grades 9-12.
- A 20% supplemental grant for the unduplicated number of English language learners, students from low-income families and foster youth to reflect increased costs associated with educating those students.
- An additional concentration grant of up to 50% of a local education agency's Base Grant, based on the number of English language learners, students from low-income families and foster youth served by the local education agency that comprise more than 55% of enrollment.
- An Economic Recovery Target (the "ERT") that is intended to ensure that almost every local education agency receives at least their pre-recession funding level (i.e., the fiscal year 2007-08 revenue limit per unit of A.D.A.), adjusted for inflation, at full implementation of the LCFF. Upon full implementation, local education agencies would receive the greater of the Base Grant or the ERT.

Of the projected \$25 billion in new funding to be invested through the LCFF over the next eight years, the vast majority of new funding will be provided for Base Grants. Specifically, of every dollar invested through the LCFF, 84 cents will go to Base Grants, 10 cents will go to supplemental grants and 6 cents will go to concentration grants.

Under the new formula, for “basic aid districts” (now, “community funded districts”), local property tax revenues would be used to offset up to the entire allocation under the new formula. However, community funded districts would continue to receive the same level of State aid as allocated in fiscal year 2012-13.

Local Control Accountability Plans. A feature of the LCFF is a system of support and intervention for local educational agencies. School districts, county offices of education and charter schools are required to develop, implement and annually update a three-year local control and accountability plan (“**LCAP**”). Each LCAP must be developed with input from teachers, parents and the community, and should describe local goals as they pertain to eight areas identified as state priorities, including student achievement, parent engagement and school climate, as well as detail a course of action to attain those goals. Moreover, the LCAPs must be designed to align with the district’s budget to ensure adequate funding is allocated for the planned actions.

Each school district must submit its LCAP annually on or before July 1 for approval by its county superintendent. The county superintendent then has until August 15 to seek clarification regarding the contents of the LCAP, and the school district must respond in writing. The county superintendent can submit recommendations for amending the LCAP, and such recommendations must be considered, but are not mandatory. A school district’s LCAP must be approved by its county superintendent by October 8 of each year if such superintendent finds (i) the LCAP adheres to the State template, and (ii) the district’s budgeted expenditures are sufficient to implement the strategies outlined in the LCAP.

Performance evaluations are to be conducted to assess progress toward goals and guide future actions. County superintendents are expected to review and provide support to the school districts under their jurisdiction, while the State Superintendent of Public Instruction performs a corresponding role for county offices of education. The California Collaborative for Education Excellence (the “Collaborative”), a newly established body of educational specialists, was created to advise and assist local education agencies in achieving the goals identified in their LCAPs. For local education agencies that continue to struggle in meeting their goals, and when the Collaborative indicates that additional intervention is needed, the State Superintendent of Public Instruction would have authority to make changes to a local education agency’s LCAP.

The District received approximately \$315.5 million in aggregate revenues allocated under the LCFF in fiscal year 2015-16, and projects to receive approximately \$347.1 million in aggregate revenues under the LCFF in fiscal year 2015-16 (or approximately 65.5% of its general fund revenues in fiscal year 2015-16). Such amount includes an estimated \$39.9 million in supplemental grants and \$23.4 million in concentration grants in fiscal year 2015-16.

Effect of Changes in Enrollment. Changes in local property tax income and A.D.A. affect LCFF districts and community funded districts differently.

In a LCFF district, increasing enrollment increases the total amount distributed under LCFF and thus generally increases a district's entitlement to State aid, while increases in property taxes do nothing to increase district revenues, but only offset the State aid funding requirement. Operating costs typically increase disproportionately slower than enrollment growth until the point where additional teachers and classroom facilities are needed. Declining enrollment has the reverse effect on LCFF districts, generally resulting in a loss of State aid while operating costs typically decrease slowly until the district decides to lay off teachers, close schools, or initiate other cost-saving measures. Enrollment can fluctuate due to factors such as population growth, competition from private, parochial, and public charter schools, inter-district transfers in or out, and other causes.

In community funded districts, the opposite is generally true: increasing enrollment increases the amount to which the district would be entitled were it a LCFF, but since all LCFF income (and more) is already generated by local property taxes, there is typically no increase in State income. New students impose increased operating costs, but typically at a slower pace than enrollment growth, and the effect on the financial condition of a community funded district would depend on whether property tax growth keeps pace with enrollment growth. Declining enrollment typically does not reduce property tax income, and has a negligible impact on State aid, but eventually reduces operating costs, and thus can be financially beneficial to a community funded district.

Local Sources of Education Funding

The principal component of local revenues is a school district's property tax revenues, i.e., each district's share of the local 1% property tax, received pursuant to Sections 75 and following and Sections 95 and following of the State Revenue and Taxation Code. California Education Code Section 42238(h) itemizes the local revenues that are counted towards the amount allocated under the LCFF (and formerly, the base revenue limit) before calculating how much the State must provide in State aid. The more local property taxes a district receives, the less State aid it is entitled to receive. Prior to the implementation of the LCFF, a school district whose local property tax revenues exceeded its base revenue limit was entitled to receive no State aid, and received only its special categorical aid which is deemed to include the "basic aid" of \$120 per student per year guaranteed by Article IX, Section 6 of the Constitution. Such districts were known as "basic aid districts." School districts that received some State aid were commonly referred to as "revenue limit districts." The District was a revenue limit district and is now referred to as an LCFF district.

Under the LCFF, local property tax revenues are used to offset up to the entire State aid collection under the new formula; however, community funded districts would continue to receive the same level of State aid as allotted in fiscal year 2012-13. See "—Allocation of State Funding to School Districts: Local Control Funding Formula" herein for more information about the LCFF.

Local property tax revenues account for approximately 21.5% of the District's aggregate LCFF income, and are projected to be approximately \$74.5 million, or approximately 14.1% of total general fund revenue in fiscal year 2015-16. The County is a "Teeter Plan" county, which means that the District is made whole for any delinquencies in payment of property taxes by local property owners. See "SECURITY AND SOURCE OF PAYMENT FOR THE BONDS—Teeter Plan" in the first part of this Official Statement. For a discussion of legal limitations on the ability of the District to raise revenues through local property taxes, see "CONSTITUTIONAL AND STATUTORY PROVISIONS AFFECTING DISTRICT REVENUES AND APPROPRIATIONS" herein.

Other District Revenues

Federal Revenues. The federal government provides funding for several District programs, including special education programs. Federal revenues, most of which are restricted, comprise approximately 8.8% (or approximately \$46.7 million) of the District's general fund projected revenues for fiscal year 2015-16.

Other State Revenues. In addition to State apportionments for Proposition 98 funding through the Local Control Funding Formula, the District receives other State revenues which comprise approximately 24.2% (or approximately \$128.3 million) of the District's general fund projected revenues for fiscal year 2015-16. A

significant portion of such other State revenues are amounts the District expects to receive from State lottery funds, which may not be used for non-instructional purposes, such as the acquisition of real property, the construction of facilities, or the financing of research. School districts receive lottery funds proportional to their total A.D.A. The District's State lottery revenue is projected to be approximately \$6.6 million in fiscal year 2015-16, representing about 1.2% of general fund revenues.

Other Local Revenues. In addition to *ad valorem* property taxes, the District receives additional local revenues from items such as interest earnings and other local sources. Other local revenues comprise approximately 1.4% (or approximately \$7.5 million) of the District's general fund projected revenues for fiscal year 2015-16.

Significant Accounting Policies and Audited Financial Reports

The State Department of Education imposes by law uniform financial reporting and budgeting requirements for K-12 school districts. Financial transactions are accounted for in accordance with the Department of Education's California School Accounting Manual. This manual, according to Section 41010 of the Education Code, is to be followed by all California school districts, including the District. Significant accounting policies followed by the District are explained in Note 1 to the District's audited financial statements for the fiscal year ended June 30, 2015, which are included as APPENDIX C.

Independently audited financial reports are prepared annually in conformity with generally accepted accounting principles for educational institutions. The annual audit report is generally available about six months after the June 30 close of each fiscal year. Crowe Horwath LLP, Sacramento, California, served as independent auditor to the District for fiscal year ended June 30, 2015. The District considers its audited financial statements to be public information, and accordingly no consent has been sought or obtained from the auditor in connection with the inclusion of such statements in this Official Statement. The auditor has neither audited nor reviewed this Official Statement. The auditor has made no representation in connection with inclusion of the audit herein that there has been no material change in the financial condition of the District since the audit was concluded. The District is required by law to adopt its audited financial statements following a public meeting to be conducted no later than January 31 following the close of each fiscal year.

The following table shows the statement of revenues, expenditures and changes in fund balances for the District's general fund for fiscal years 2011-12 through 2015-16.

District Budget Process and County Review

State law requires school districts to adopt a balanced budget in each fiscal year. The State Department of Education imposes a uniform budgeting and accounting format for school districts. Under current law, a school district governing board must adopt and file with the county superintendent of schools a tentative budget by July 1 in each fiscal year. The District is under the jurisdiction of the Sacramento County Superintendent of Schools (the "County Superintendent").

The County Superintendent must review, conditionally approve or disapprove the budget no later than August 15. The County Superintendent is required to examine the adopted budget for compliance with the standards and criteria adopted by the State Board of Education and identify technical corrections necessary to bring the budget into compliance with the established standards. If the budget is disapproved, it is returned to the District with recommendations for revision. The District is then required to revise the budget, hold a public hearing thereon, adopt the revised budget and file it with the County Superintendent no later than September 8. Pursuant to State law, the County Superintendent has available various remedies by which to impose and enforce a budget that

complies with State criteria, depending on the circumstances, if a budget is disapproved. After approval of an adopted budget, the school district's administration may submit budget revisions for governing board approval.

Subsequent to approval, the County Superintendent will monitor each district under its jurisdiction throughout the fiscal year pursuant to its adopted budget to determine on an ongoing basis if the district can meet its current or subsequent year financial obligations. If the County Superintendent determines that a district cannot meet its current or subsequent year obligations, the County Superintendent will notify the district's governing board of the determination and may then do either or both of the following: (a) assign a fiscal advisor to enable the district to meet those obligations or (b) if a study and recommendations are made and a district fails to take appropriate action to meet its financial obligations, the County Superintendent will so notify the State Superintendent of Public Instruction, and then may do any or all of the following for the remainder of the fiscal year: (i) request additional information regarding the district's budget and operations; (ii) after also consulting with the district's board, develop and impose revisions to the budget that will enable the district to meet its financial obligations; and (iii) stay or rescind any action inconsistent with such revisions. However, the County Superintendent may not abrogate any provision of a collective bargaining agreement that was entered into prior to the date upon which the County Superintendent assumed authority.

A State law adopted in 1991 ("AB 1200") imposed additional financial reporting requirements on school districts, and established guidelines for emergency State aid apportionments. Under the provisions of AB 1200, each school district is required to file interim certifications with the County Superintendent (on December 15, for the period ended October 31, and by mid-March for the period ended January 31) as to its ability to meet its financial obligations for the remainder of the then-current fiscal year and, based on current forecasts, for the subsequent fiscal year. The County Superintendent reviews the certification and issues either a positive, negative or qualified certification. A positive certification is assigned to any school district that will meet its financial obligations for the current fiscal year and subsequent two fiscal years. A negative certification is assigned to any school district that is deemed unable to meet its financial obligations for the remainder of the fiscal year or the subsequent fiscal year. A qualified certification is assigned to any school district that may not meet its financial obligations for the current fiscal year or two subsequent fiscal years. A school district that receives a qualified or negative certification may not issue tax and revenue anticipation notes or certificates of participation without approval by the County Superintendent in that fiscal year or in the net succeeding year. The District self-certified with the County Office of Education a positive certification for the first and second interim reports for fiscal year 2015-16.

The following table summarizes the District's adopted general fund budget for fiscal year 2015-16.

District Debt Structure

Tax and Revenue Anticipation Notes. To address predictable annual cash flow deficits resulting from the different timing of revenues and expenditures, the District has issued tax and revenue anticipation notes in recent years as shown in the table below. The District's notes are a general obligation of the District, payable from the District's general fund and any other lawfully available moneys. The District does not expect to issue a Tax and Revenue Anticipation Note in fiscal year 2015-16.

General Obligation Bonds. On October 19, 1999, voters in the District approved by a two-thirds vote a bond measure authorizing the District to issue \$195,000,000 in general obligation bonds, known locally as "Measure E" bonds. The District sold \$50,000,000 of the Measure E bonds on February 10, 2000, \$45,000,000 of the Measure E bonds on March 27, 2001, \$45,000,000 of the Measure E bonds on May 7, 2002, and \$55,000,000 of the Measure E bonds on August 1, 2004. There is no remaining unissued authorization under Measure E.

On November 5, 2002, voters in the District approved by 55% or more a bond measure authorizing the District to issue \$225,000,000 in general obligation bonds, known locally as "Measure I" bonds. The District sold \$80,000,000 of the Measure I bonds on March 1, 2003, \$80,000,000 of the Measure I bonds on July 1, 2005, and \$64,997,966 of the Measure I bonds on November 14, 2007. The District refunded a portion of the Series 2005 and Series 2007 bonds with the issuance of its 2015 General Obligation Refunding Bonds on January 28, 2015. All of the Measure I Bonds have been issued. A portion of the General Obligation Bonds (Election of 2002) Series 2005, and the General Obligation Bonds (Election of 2002) Series 2007, remain outstanding.

On November 6, 2012, voters in the District approved by 55% or more two bond measures known locally as "Measure Q" bonds and "Measure R" bonds. Measure Q authorizes the District to issue \$346,000,000 in general obligation bonds. Measure R authorizes the District to issue \$68,000,000 in general obligation bonds. \$132,900,000 of the Measure Q bonds and \$27,100,000 of the Measure R bonds have been issued, without regard to the Bonds. All remain outstanding. Prior to the issuance of the Bonds, \$233,100,000 of the Measure Q bonds and \$40,900,000 of the Measure R bonds remain unissued.

The District's outstanding general obligation bonds as of _____ 1, 2015 are summarized in the table below. Approximately \$_____ of the District's general obligation bonds remain outstanding, not including the Bonds.

Voter-approved bonds and bonds issued to refund such bonds are payable from a special *ad valorem* property tax authorized to be levied by the County as necessary to repay the amounts coming due in each year. See the table above for a description of principal and interest owed on all bonds outstanding.

Pension Obligations. In June 2000, the District entered into a joint exercise of powers agreement with the Yolo County Office of Education to form the California Administrative Services Authority (“CASA”). See “—CASA Pension Program and Pension Program Revenue Bonds” below. In 2002, CASA issued \$6,295,000 of its California Administrative Services Authority 2002 Revenue Bonds (Sacramento City Unified School District Pension Financing) (the “**CASA Bonds**”). CASA loaned a portion of the proceeds of the CASA Bonds to the District under a Loan Agreement (the “**Loan Agreement**”), dated as of January 1, 2002, between the Authority and the District. Approximately \$[0.65 million] remains for the District to pay under the Loan Agreement. The final payment is due January 1, 2017.

Certificates of Participation. On April 18, 2001, Certificates of Participation (“**COPs**”) of \$43,580,000 were issued with fixed interest rates ranging from 4.1% to 5.0% maturing on March 1, 2031, for the advance refunding of Series 1999C COPs (with a remaining principal obligation of \$29,590,000) and to provide additional capital for construction projects. With the payment of \$30,000,000 to the Escrow Agent to advance refund and defease the District’s 1999C COPs, the 1999C COPs are considered to be defeased, and the obligations have been removed from the District’s financial statements.

On July 11, 2002, the District issued \$58,000,000 of Variable Rate COPs for the advance refunding of 1998 Series A COPs (with a remaining principal amount of \$13,750,000) and 1999 Series D COPs (with a remaining obligation of \$15,480,000) and to provide additional capital for construction projects. With the payment of \$29,230,000 to the Escrow Agent to advance refund and defease the District’s 1998 Series A COPs and the 1999 Series D COPs, the District’s 1998 Series A COPs and the 1999 Series D COPs are considered to be defeased. The 2002 Variable Rate COPs were remarketed on March 14, 2011 in the aggregate principal amount of \$48,020,000. Interest on these Variable Rate COPs was based on the SIFMA Term Floater Rate, determined by a remarketing agent.

On January 16, 2014, \$44,825,000 of Lease Revenue Refunding Bonds, 2014 Series A were issued by the Sacramento City Schools Joint Powers Financing Authority (the “**Authority**”), simultaneously with \$29,460,000 of Lease Revenue Refunding Bonds, 2014 Series B, issued by the Authority by private placement (collectively, the “**Lease Revenue Bonds**”), to prepay all outstanding 2001 COPs and to purchase all outstanding 2002 Variable Rate COPs on March 1, 2014, the date that the SIFMA Term Floater Rate Mode was scheduled to expire and the date the 2002 Variable Rate COPs became subject to mandatory tender (the “**Mandatory Tender Date**”). The District purchased all outstanding 2002 Variable Rate COPs on the Mandatory Tender Date with a portion of the proceeds of

the Lease Revenue Bonds. The final maturity date for the Lease Revenue Bonds is March 1, 2040. The minimum base rental payment is \$3,147,750 in 2039 and the maximum base rental payment is \$5,529,383 in 2028.

Special Tax Bonds. In January 1992, the District established the Community Facilities District No. 2 (“CFD No. 2”) for the purpose of financing new and improved school facilities for students generated by new development within the District. Parcels annexed into CFD No. 2 are assessed a special tax, the proceeds of which are to be used directly for expenditures associated with the authorized purposes of CFD No. 2 or to pay the principal of and interest on bonds issued by the District through CFD No. 2. The collection of the tax must be authorized annually, and in no case shall it continue beyond 30 years. As of the date hereof, no bonds have been issued by CFD No. 2.

Other Post-Employment Benefits. In addition to the pension benefits described above, the District provides post-employment health benefits for eligible employees who retire early and certain of their dependents. The amount and length of these benefits depends on a variety of factors, including age at retirement, length of service, and status as a certificated, classified or management employee.

Beginning in fiscal year 2008-09, the District was required to implement Governmental Accounting Standards Board Statement No. 45 (“GASB 45”) which directs certain changes in accounting for post-employment healthcare benefits (“OPEB”) in order to quantify a government agency’s current liability for future benefit payments. GASB 45 is directed at quantifying and disclosing OPEB obligations, and does not impose any

requirement on public agencies to fund such obligations. On July 18, 2014, Bickmore Risk Management Services completed an evaluation of the District’s obligations as of July 1, 2013.

The report calculates the value of all future benefits already earned by current retirees and current employees, known as the “actuarial accrued liability” (“**AAL**”). As of July 1, 2013 the most recent actuarial valuation date, the District had an actuarial accrued liability of approximately \$615.2 million for 3,476 current retirees and beneficiaries and 4,006 additional future participants. For fiscal year 2015-16, the report calculates the AAL to be \$664.9 million. The AAL is an actuarial estimate that depends on a variety of assumptions about future events such as health care costs and beneficiary mortality. Every year, active employees earn additional future benefits, an amount known as the “normal cost”, which is added to the AAL. The report estimated the normal cost at approximately \$17.6 million as of July 1, 2013 and approximately \$18.7 million for the fiscal year beginning June 1, 2015. To the extent that the District has not set aside moneys in an OPEB trust with which to pay these accrued and accruing future liabilities, there is an *unfunded* actuarial accrued liability (“**UAAL**”). As of July 1, 2013, the report calculated the District’s UAAL to be approximately \$611.4 million. The District currently funds the costs of retiree benefits on a pay-as-you-go basis.

The annual required contribution (“**ARC**”) is the amount required if the District were to fund each year’s normal cost plus an annual amortization of the unfunded actuarial accrued liability, assuming the UAAL will be fully funded over a 30-year period. If the amount budgeted and funded in any year is less than the ARC, the difference reflects the amount by which the UAAL is growing. For the fiscal year ending June 30, 2016, the ARC was determined to be approximately \$54.5 million.

In 2014-15, the District funded \$27.8 million in pay-as-you-go expenditures. The District’s fiscal year 2015-16 projected pay-as-you-go expenditure for post-retirement benefits is \$30.0 million.

The District contributed funds to the California Employers’ Retiree Benefit Trust (the “**CERBT**”) in the total recognized value of approximately \$244,100 as of fiscal year ending June 30, 2014 [and \$_____ in fiscal year 2014-15]. Any additional assets contributed to the CERBT will be applied to offset the AAL and decrease the UAAL as of the District’s next valuation report. [The District expects to contribute approximately \$_____ to the trust in fiscal year 2015-16.]

Capital Lease. The District leases office equipment, computers and buses under long-term lease purchase agreements, payable from the general fund of the District. In accordance with generally accepted accounting principles, the District capitalizes these lease purchase agreements within the General Long-Term Debt Account Group. As of June 30, 2015, the schedule of future minimum lease payments was as follows:

<u>Year Ending June 30</u>	<u>Capital Lease Payments</u>
2016	\$50,263
2017	50,263

The District employs 2,077 full-time-equivalent (“**FTE**”) certificated employees, 1,174 FTE classified employees, and 244 FTE management and supervisory/other employees. District employees are represented by employee bargaining units as shown in the following table:

[In 2014, the Sacramento City Teacher’s Association (SCTA) filed an action against the District alleging that the District altered its members’ benefits unilaterally. The District cannot predict what effect this may have, if any, on the District’s budget or operations.]

Retirement Benefits

CalSTRS. The District participates in the State Teachers’ Retirement System (“**CalSTRS**”) for all full-time and some part-time certificated employees. Contributions to CalSTRS are fixed in statute. In fiscal year 2013-14, teachers contributed 8% of salary to CalSTRS, while school districts contributed 8.25%. In addition to the teacher and school contributions, the State contributed 4.517% of teacher payroll to CalSTRS (calculated on payroll data from two fiscal years ago). Unlike typical defined benefit programs, however, neither the CalSTRS employer nor the State contribution rate varies annually to make up funding shortfalls or assess credits for actuarial surpluses. The State does pay a surcharge when the teacher and school district contributions are not sufficient to fully fund the basic defined benefit pension (generally consisting of 2% of salary for each year of service at age 60 referred to herein as “pre-enhancement benefits”) within a 30-year period. However, this surcharge does not apply to systemwide unfunded liability resulting from recent benefit enhancements.

As of June 30, 2014, an actuarial valuation (the “2014 CalSTRS Actuarial Valuation”) for the entire CalSTRS defined benefit program showed an estimated unfunded actuarial liability of \$72.7 billion, a decrease of approximately \$949 million from the June 30, 2013 valuation. The funded ratios of the actuarial value of valuation assets over the actuarial accrued liabilities as of June 30, 2014, June 30, 2013 and June 30, 2012, based on the actuarial assumptions, were approximately 68.5%, 66.9% and 67.0%, respectively. Future estimates of the actuarial unfunded liability may change due to market performance, legislative actions and other experience that may differ from the actuarial assumptions used for the CalSTRS valuation. The following are certain of the actuarial assumptions set forth in the 2014 CalSTRS Actuarial Valuation: measurement of accruing costs by the “Entry Age Normal Actuarial Cost Method,” 7.50% investment rate of return, 4.50% interest on member accounts, 3.75% projected wage growth, and 3.00% projected inflation. The 2014 CalSTRS Actuarial Valuation also assumes that all members hired on or after January 1, 2013 are subject to the provisions of PEPRA (as defined herein). See “–California’s Public Employees’ Pension Reform Act of 2013” below for a discussion of the pension reform measure signed by the Governor in August 2012 expected to help reduce future pension obligations of public employers with respect to employees hired on or after January 1, 2013. Future estimates of the actuarial unfunded liability may change due to market performance, legislative actions, changes in actuarial assumptions and other experiences that may differ from the actuarial assumptions.

As indicated above, there was no required contribution from teachers, schools districts or the State to fund the unfunded actuarial liability for the CalSTRS defined benefit program and only the State legislature can change contribution rates. The 2014 CalSTRS Actuarial Valuation noted that, as of June 30, 2014, the contribution rate, inclusive of contributions from the teachers, the school districts and the State, was equivalent to 32.338% over the

next 30 years.

As part of the 2014-15 State Budget, the Governor signed Assembly Bill 1469 which implements a new funding strategy for CalSTRS, increasing the employer contribution rate in fiscal year 2014-15 from 8.25% to 8.88% of covered payroll. Such rate would increase by 1.85% beginning in fiscal year 2015-16 until the employer contribution rate is 19.10% of covered payroll as further described below. Teacher contributions will also increase from 8.00% to a total of 10.25% of pay, phased in over the next three years. The State’s total contribution will also increase from approximately 3% in fiscal year 2013-14 to 6.30% of payroll in fiscal year 2016-17, plus the continued payment of 2.5% of payroll annual for a supplemental inflation protection program for a total of 8.80%. In addition, AB 1469 provides the State Teachers Retirement Board with authority to modify the percentages paid by employers and employees for fiscal year 2021-22 and each fiscal year thereafter to eliminate the CalSTRS unfunded liability by June 30, 2046. The State Teachers Retirement Board would also have authority to reduce employer and State contributions if they are no longer necessary.

Pursuant to Assembly Bill 1469, school district’s contribution rates will increase in accordance with the following schedule:

Effective Date (July 1)	School District Contribution Rate
2016	12.58%
2017	14.43
2018	16.28
2019	18.13
2020	19.10

The District’s employer contribution to CalSTRS from the general fund for fiscal years 2010-11, 2011-12, 2012-13, 2013-14 and 2014-15 were \$15,323,790, \$14,823,475, \$14,075,308, \$14,021,893, and \$15,447,858 respectively. The District projects employer contributions to CalSTRS of approximately \$30.0 million for fiscal year 2015-16. With the implementation of AB 1469, the District anticipates that its contributions to CalSTRS will increase in future fiscal years as compared to prior fiscal years.

CalSTRS produces a comprehensive annual financial report and actuarial valuations which include financial statements and required supplementary information. CalPERS. The District also participates in the California Public Employees’ Retirement System (“CalPERS”) for all full-time and some part-time classified employees. Classified school personnel who are employed four or more hours per day may participate in CalPERS. All qualifying classified employees of K-12 school districts in the State are members in CalPERS, and all of such districts participate in the same plan. As such, all such districts share the same contribution rate in each year. However, unlike school districts’ participating in CalSTRS, the school districts’ contributions to CalPERS fluctuate each year and include a normal cost component and a component equal to an amortized amount of the unfunded liability. Accordingly, the District cannot provide any assurances that the District’s required contributions to CalPERS will not significantly increase in the future above current levels.

According to the CalPERS Schools Pool Actuarial Valuation as of June 30, 2014, the CalPERS Schools plan had a funded ratio of 86.6% on a market value of assets basis. The funded ratio as of June 30, 2013, June 30, 2012, June 30, 2011, June 30, 2010 and June 30, 2009 was 80.5%, 75.5%, 78.7%, 69.5% and 65.0%, respectively. According to the actuarial valuation as of June 30, 2014, the latest increase in the funded ratio was mainly due to the investment return for 2013-14 being greater than expected. On April 17, 2013, the CalPERS Board of Administration approved a recommendation changing the CalPERS amortization and smoothing policies. Effective with the June 30, 2014 valuation, CalPERS no longer uses an actuarial value of assets and employs a new

amortization and rate smoothing policy that will spread rate increases or decreases over a five-year period, and amortizes all experience gains and losses over a fixed 30-year period. Such changes are expected to increase contribution rates in the near term but lower contribution rates in the long term.

In 2014, the CalPERS Board of Administration completed a two-year asset liability management study incorporating actuarial assumptions and strategic asset allocation, and adopted changes to the current asset allocation that will reduce the expected volatility of returns. The adopted asset allocation is expected to have a long-term blended return that continues to support a discount rate assumption of 7.5%. In February of 2014, the CalPERS Board of Administration adopted new actuarial demographic assumptions that take into account greater life expectancies of public employees. Such assumptions are expected to increase costs for the State and public agency employers (including school districts), which costs will be amortized over 20 years and phased in over three years beginning in fiscal year 2014-15 for the State and amortized over 20 years and phased in over five years beginning in fiscal year 2016-17 for the employers. CalPERS estimates that the new demographic assumptions could cost public agency employers up to 9% of payroll for safety employees and up to 5% of payroll for miscellaneous employees at the end of the five year phase-in period. To the extent, however, that future experiences differ from CalPERS' current assumptions, the required employer contributions may vary.

The District is required to contribute toward CalPERS, at a State-determined percentage of CalPERS-eligible salaries. For fiscal year 2015-16, the contribution percentage is 11.847%. The District's total general fund employer contributions to CalPERS for fiscal years 2010-11, 2011-12, 2012-13, 2013-14 and 2014-15 were \$6,411,937, \$6,640,921, \$6,381,013, \$6,471,351, and \$6,954,207 respectively. The District projects employer contributions to CalPERS of approximately \$6.4 million for fiscal year 2015-16. With the change in actuarial assumptions described above, the District anticipates that its contributions to CalPERS will increase in future fiscal years as the increased costs are phased in. The implementation of PEPRA (see "California Public Employees' Pension Reform Act of 2013" below), however, is expected to help reduce certain future pension obligations of public employers with respect to employees hired on or after January 1, 2013. The District cannot predict the impact these changes will have on its contributions to CalPERS in future years.

CalPERS produces a comprehensive annual financial report and actuarial valuations that include financial statements and required supplementary information. Copies of the CalPERS comprehensive annual financial report and actuarial valuations may be obtained from CalPERS Financial Services Division. The information presented in these reports is not incorporated by reference in this Official Statement.

California Public Employees' Pension Reform Act of 2013. The Governor signed the California Public Employee's Pension Reform Act of 2013 (the "**Reform Act**" or "**PEPRA**") into law on September 12, 2012. The Reform Act affects both CalSTRS and CalPERS, most substantially as they relate to new employees hired after January 1, 2013 (the "**Implementation Date**"). As it pertains to CalSTRS participants hired after the Implementation Date, the Reform Act changes the normal retirement age, increasing the eligibility for the 2% "age factor" (the percent of final compensation to which an employee is entitled to for each year of service) from age 60 to 62 and increasing the eligibility of the maximum age factor of 2.4% from age 63 to 65. For non-safety CalPERS participants hired after the Implementation Date, the Reform Act changes the normal retirement age by increasing the eligibility for the 2% age factor from age 55 to 62 and also increases the eligibility requirement for the maximum age factor of 2.5% to age 67.

The Reform Act also implements certain other changes to CalPERS and CalSTRS including the following:

- (a) all new participants enrolled in CalPERS and CalSTRS after the Implementation Date are required to contribute at least 50% of the total annual normal cost of their pension benefit each year as determined by an actuary,
- (b) CalSTRS and CalPERS are both required to determine the final compensation amount for employees based upon the highest annual compensation earnable averaged over a consecutive 36-month period as the basis for calculating retirement benefits for new participants enrolled after the Implementation Date (currently 12 months for CalSTRS members who retire with 25 years of service), and
- (c) "pensionable compensation" is capped for new participants enrolled after the Implementation Date at 100% of the federal Social Security contribution and benefit base for members participating in Social Security or 120% for CalSTRS and CalPERS members not participating in social security.

The District is unable to predict what the amount of State pension liabilities will be in the future, or the amount of the contributions which the District may be required to make (except as already announced). CalSTRS and CalPERS are more fully described in Note 9 to the District's financial statements attached hereto as APPENDIX C – "FINANCIAL STATEMENTS OF THE DISTRICT FOR THE FISCAL YEAR ENDED JUNE 30, 2015."

GASB 67 and 68. In June 2012, the Governmental Accounting Standards Board approved a pair of related statements, GASB 67, Financial Reporting for Pension Plans ("GASB 67"), which addresses financial reporting for pension plans, and GASB 68, Accounting and Financial Reporting for Pensions ("GASB 68"), which establishes new accounting and financial reporting requirements for governments that provide their employees with pensions. The guidance contained in these statements will change how governments calculate and report the costs and obligations associated with pensions. GASB 67 replaces the current requirements of GASB 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, for most public employee pension plans, and GASB 68 replaces the current requirements of GASB 27, Accounting for Pensions by State and Local Governmental Employers, for most government employers. The new statements also replace the requirements of GASB 50, Pension Disclosures, for those governments and pension plans. Certain of the major changes include: (i) the inclusion of unfunded pension liabilities on the government's balance sheet (such unfunded liabilities are currently typically included as notes to the government's financial statements); (ii) full pension costs would be shown as expenses regardless of actual contribution levels; (iii) lower actuarial discount rates would be required to be used for most plans for certain purposes of the financial statements, resulting in increased liabilities and pension expenses; and (iv) shorter amortization periods for unfunded liabilities would be required to be used for certain purposes of the financial statements, which generally would increase pension expenses. GASB 67 took effect in fiscal years beginning after June 15, 2013, and GASB 68 took effect in fiscal years beginning after June 15, 2014.

Accrued Vacation. The long-term portion of accumulated and unpaid employee vacation for the District as of June 30, 2015, was \$7.8 million.

Restricted Maintenance Reserve Account

As a condition to receiving State modernization or construction funds, the District has agreed to fund a restricted maintenance reserve account in the general fund each year for 20 years of at least 3% of its general fund budget. For fiscal year 2015-16, the District funded a maintenance reserve contribution of approximately \$[___] million or [___]% of the general fund expenditures.

Insurance, Risk Pooling and Joint Powers Arrangement

The District is a member of the Schools Insurance Authority (the "SIA"), a Joint Powers Authority (a "JPA") which operates as a common risk management and insurance program for property and liability coverage. In June 2004, the Board of Education terminated its relationship with CASA, also a JPA. CASA was intended to offer an alternative retirement system for certain District personnel.

The District is also a member of the California Schools Vision Coalition and the California Schools Dental Coalition.

CASA Pension Program and Pension Program Revenue Bonds

Formation of CASA and the Pension System. In June 2000, the District entered into a joint exercise of powers agreement with the Yolo County Office of Education to form CASA, a State "joint powers authority," in order to provide administrative services to its members and to offer an alternative retirement system to replace CalPERS and Social Security for certain electing District classified personnel. See "Retirement Benefits" above. In order to participate in the CASA retirement system, District employees took a leave of absence from the District to become employed by CASA, and were contracted back to the District to work in their old positions and functions. Under applicable laws, so long as a public employer offers an acceptable alternative to, and does not participate in, CalPERS and Social Security, neither the employer nor its employees are required to contribute to those systems. By recapturing the Social Security contributions, CASA expected to be able to afford enhanced retirement benefits compared to CalPERS, and thus to attract and retain highly qualified staff for the District.

On April 1, 2004, the Board notified CASA that it intended to terminate the District's Operating Agreement under which CASA provided staff services to the District, effectively returning those employees to District employment as of July 1, 2004. The District no longer has any employees working for or through CASA.

Since July 1, 2004, the District has resumed making ordinary contributions to CalPERS and Social Security for its former CASA employees. In a settlement agreement with CalPERS reached in January 2007, the District has also agreed to enroll former CASA employees retroactively into CalPERS for the time they were employed by CASA. The retroactive adjustments have been completed and payment to CALPERS for the additional service credit has been made.

Charter Schools

Charter schools operate as autonomous public schools, under charter from a school district, county office of education, or the State Board of Education, with minimal supervision by the local school district. Charter schools receive revenues from the State and from the District for each student enrolled, and thus effectively reduce revenues available for students enrolled in District schools. The District is also required to accommodate charter school students originating in the District in facilities comparable to those provided to regular District students.

Thirteen charter high schools currently operate in the District's boundaries, four of which are dependent and nine of which are directly funded. One dependent charter elementary school also operates in the District's boundaries. For the directly-funded schools, the District pays revenue in lieu of property taxes up to the LCFF amount for charter students originating within the District. For fiscal year 2015-16, the District expects to make in-lieu payments in an amount equal to approximately \$8.9 million.

CONSTITUTIONAL AND STATUTORY PROVISIONS AFFECTING DISTRICT REVENUES AND APPROPRIATIONS

Limitations on Revenues

On June 6, 1978, California voters approved Proposition 13 ("**Proposition 13**"), which added Article XIII A to the State Constitution ("**Article XIII A**"). Article XIII A limits the amount of any *ad valorem* tax on real property to 1% of the full cash value thereof, except that additional *ad valorem* taxes may be levied to pay debt service on (i) indebtedness approved by the voters prior to July 1, 1978, (ii) bonded indebtedness for the acquisition or improvement of real property which has been approved on or after July 1, 1978 by two-thirds of the voters on such indebtedness, and (iii) bonded indebtedness incurred by a school district or community college district for the construction, reconstruction, rehabilitation or replacement of school facilities or the acquisition or lease of real property for school facilities, approved by 55% of the voters of the district, but only if certain accountability measures are included in the proposition. The Measure Q authorization under which the Bonds are issued was approved pursuant to clause (iii). Article XIII A defines full cash value to mean "the county assessor's valuation of real property as shown on the 1975-76 tax bill under full cash value, or thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership have occurred after the 1975 assessment." This full cash value may be increased at a rate not to exceed 2% per year to account for inflation.

Article XIII A has subsequently been amended to permit reduction of the "full cash value" base in the event of declining property values caused by damage, destruction or other factors, to provide that there would be no increase in the "full cash value" base in the event of reconstruction of property damaged or destroyed in a disaster and in other minor or technical ways.

County of Orange v. Orange County Assessment Appeals Board No. 3. Section 51 of the Revenue and Taxation Code permits county assessors who have reduced the assessed valuation of a property as a result of natural disasters, economic downturns or other factors, to subsequently "recapture" such value (up to the pre-decline value of the property) at an annual rate higher than 2%, depending on the assessor's measure of the restoration of value of the damaged property. The constitutionality of this procedure was challenged in a lawsuit brought in 2001 in the Orange County Superior Court, and in similar lawsuits brought in other counties, on the basis that the decrease in assessed value creates a new "base year value" for purposes of Proposition 13 and that subsequent increases in the assessed value of a property by more than 2% in a single year violate Article XIII A. On appeal, the California Court

of Appeal upheld the recapture practice in 2004, and the State Supreme Court declined to review the ruling, leaving the recapture law in place.

Legislation Implementing Article XIII A. Legislation has been enacted and amended a number of times since 1978 to implement Article XIII A. Under current law, local agencies are no longer permitted to levy directly any property tax (except to pay voter-approved indebtedness). The 1% property tax is automatically levied by the county and distributed according to a formula among taxing agencies. The formula apportions the tax roughly in proportion to the relative shares of taxes levied prior to 1989.

Increases of assessed valuation resulting from reappraisals of property due to new construction, change in ownership or from the 2% annual adjustment are allocated among the various jurisdictions in the “taxing area” based upon their respective “situs.” Any such allocation made to a local agency continues as part of its allocation in future years.

Beginning in the 1981-82 fiscal year, assessors in the State no longer record property values on tax rolls at the assessed value of 25% of market value which was expressed as \$4 per \$100 assessed value. All taxable property is now shown at full market value on the tax rolls. Consequently, the tax rate is expressed as \$1 per \$100 of taxable value. All taxable property value included in this Official Statement is shown at 100% of market value (unless noted differently) and all tax rates reflect the \$1 per \$100 of taxable value.

Article XIII B of the California Constitution

An initiative to amend the State Constitution entitled “Limitation of Government Appropriations” was approved on September 6, 1979, thereby adding Article XIII B to the State Constitution (“**Article XIII B**”). Under Article XIII B state and local governmental entities have an annual “appropriations limit” and are not permitted to spend certain moneys which are called “appropriations subject to limitation” (consisting of tax revenues, state subventions and certain other funds) in an amount higher than the “appropriations limit.” Article XIII B does not affect the appropriation of moneys which are excluded from the definition of “appropriations subject to limitation,” including debt service on indebtedness existing or authorized as of January 1, 1979, or bonded indebtedness subsequently approved by the voters. In general terms, the “appropriations limit” is to be based on certain 1978-79 expenditures, and is to be adjusted annually to reflect changes in consumer prices, populations, and services provided by these entities. Among other provisions of Article XIII B, if these entities’ revenues in any year exceed the amounts permitted to be spent, the excess would have to be returned by revising tax rates or fee schedules over the subsequent two years.

The District’s budgeted appropriations limit from “proceeds of taxes” (sometimes referred to as the “**Gann limit**”) for the 2014-15 fiscal year are equal to the allowable limit of approximately \$237.7 million, and estimates an appropriations limit for fiscal year 2015-16 of approximately \$242.1 million. Any proceeds of taxes received by the District in excess of the allowable limit are absorbed into the State’s allowable limit.

Article XIII C and Article XIII D of the California Constitution

On November 5, 1996, the voters of the State of California approved Proposition 218, popularly known as the “Right to Vote on Taxes Act.” Proposition 218 added to the California Constitution Articles XIII C and XIII D (“**Article XIII C**” and “**Article XIII D**,” respectively), which contain a number of provisions affecting the ability of local agencies, including school districts, to levy and collect both existing and future taxes, assessments, fees and charges.

According to the “Title and Summary” of Proposition 218 prepared by the California Attorney General, Proposition 218 limits “the authority of local governments to impose taxes and property-related assessments, fees and charges.” Among other things, Article XIII C establishes that every tax is either a “general tax” (imposed for general governmental purposes) or a “special tax” (imposed for specific purposes), prohibits special purpose government agencies such as school districts from levying general taxes, and prohibits any local agency from imposing, extending or increasing any special tax beyond its maximum authorized rate without a two-thirds vote; and also provides that the initiative power will not be limited in matters of reducing or repealing local taxes,

assessments, fees and charges. Article XIIC further provides that no tax may be assessed on property other than *ad valorem* property taxes imposed in accordance with Articles XIII and XIII A of the California Constitution and special taxes approved by a two-thirds vote under Article XIII A, Section 4. Article XIID deals with assessments and property-related fees and charges, and explicitly provides that nothing in Article XIIC or XIID will be construed to affect existing laws relating to the imposition of fees or charges as a condition of property development.

The District levies a special tax in connection with the establishment of CFD No. 2 for the purpose of providing for and financing certain facilities. The District does not impose any other taxes, assessments, or property-related fees or charges which are subject to the provisions of Proposition 218. It does, however, receive a portion of the basic 1% *ad valorem* property tax levied and collected by the County pursuant to Article XIII A of the California Constitution. The provisions of Proposition 218 may have an indirect effect on the District, such as by limiting or reducing the revenues otherwise available to other local governments whose boundaries encompass property located within the District thereby causing such local governments to reduce service levels and possibly adversely affecting the value of property within the District.

Statutory Limitations

On November 4, 1986, State voters approved Proposition 62, an initiative statute limiting the imposition of new or higher taxes by local agencies. The statute (a) requires new or higher general taxes to be approved by two-thirds of the local agency's governing body and a majority of its voters; (b) requires the inclusion of specific information in all local ordinances or resolutions proposing new or higher general or special taxes; (c) penalizes local agencies that fail to comply with the foregoing; and (d) required local agencies to stop collecting any new or higher general tax adopted after July 31, 1985, unless a majority of the voters approved the tax by November 1, 1988.

Appellate court decisions following the approval of Proposition 62 determined that certain provisions of Proposition 62 were unconstitutional. However, the California Supreme Court upheld Proposition 62 in its decision on September 28, 1995 in Santa Clara County Transportation Authority v. Guardino. This decision reaffirmed the constitutionality of Proposition 62. Certain matters regarding Proposition 62 were not addressed in the Supreme Court's decision, such as whether the decision applies retroactively, what remedies exist for taxpayers subject to a tax not in compliance with Proposition 62, and whether the decision applies to charter cities.

Proposition 98 and Proposition 111

On November 8, 1988, voters approved Proposition 98, a combined initiative constitutional amendment and statute called the "Classroom Instructional Improvement and Accountability Act" (the "**Accountability Act**"). The Accountability Act changed State funding of public education below the university level, and the operation of the State's Appropriations Limit. The Accountability Act guarantees State funding for K-12 school districts and community college districts (collectively, "**K-14 districts**") at a level equal to the greater of (a) the same percentage of general fund revenues as the percentage appropriated to such districts in 1986-87, which percentage is equal to 40.9%, or (b) the amount actually appropriated to such districts from the general fund in the previous fiscal year, adjusted for growth in enrollment and inflation.

Since the Accountability Act is unclear in some details, there can be no assurance that the Legislature or a court might not interpret the Accountability Act to require a different percentage of general fund revenues to be allocated to K-14 districts than the 40.9%, or to apply the relevant percentage to the State's budgets in a different way than is proposed in the Governor's Budget. In any event, the Governor and other fiscal observers expect the Accountability Act to place increasing pressure on the State's budget over future years, potentially reducing resources available for other State programs, especially to the extent the Article XIIB spending limit would restrain the State's ability to fund such other programs by raising taxes.

The Accountability Act also changes how tax revenues in excess of the State Appropriations Limit are distributed. Any excess State tax revenues up to a specified amount would, instead of being returned to taxpayers, be transferred to K-14 districts. Such transfer would be excluded from the Appropriations Limit for K-14 districts and the K-14 school Appropriations Limits for the next year would automatically be increased by the amount of such transfer. These additional moneys would enter the base funding calculation for K-14 districts for subsequent years,

creating further pressure on other portions of the State budget, particularly if revenues decline in a year following an Article XIII B surplus. The maximum amount of excess tax revenues which could be transferred to schools is 4% of the minimum State spending for education mandated by the Accountability Act, as described above.

On June 5, 1990, California voters approved Proposition 111 (Senate Constitutional Amendment 1), which further modified the Constitution to alter the spending limit and education funding provisions of Proposition 98. Most significantly, Proposition 111 (1) liberalized the annual adjustments to the spending limit by measuring the “change in the cost of living” by the change in State per capita personal income rather than the Consumer Price Index, and specified that a portion of the State’s spending limit would be adjusted to reflect changes in school attendance; (2) provided that 50% of the “excess” tax revenues, determined based on a two-year cycle, would be transferred to K-14 school districts with the balance returned to taxpayers (rather than the previous 100% but only up to a cap of 4% of the districts’ minimum funding level), and that any such transfer to K-14 school districts would not be built into the school districts’ base expenditures for calculating their entitlement for State aid in the following year and would not increase the State’s appropriations limit; (3) excluded from the calculation of appropriations that are subject to the limit appropriations for certain “qualified capital outlay projects” and certain increases in gasoline taxes, sales and use taxes, and receipts from vehicle weight fees; (4) provided that the Appropriations Limit for each unit of government, including the State, would be recalculated beginning in the 1990-91 fiscal year, based on the actual limit for fiscal year 1986-87, adjusted forward to 1990-91 as if Senate Constitutional Amendment 1 had been in effect; and (5) adjusted the Proposition 98 formula that guarantees K-14 school districts a certain amount of general fund revenues, as described below.

Under prior law, K-14 school districts were guaranteed the greater of (a) 40.9% of general fund revenues (the “first test”) or (b) the amount appropriated in the prior year adjusted for changes in the cost of living (measured as in Article XIII B by reference to per capita personal income) and enrollment (the “second test”). Under Proposition 111, school districts would receive the greater of (a) the first test, (b) the second test or (c) a third test, which would replace the second test in any year when growth in per capita general fund revenues from the prior year was less than the annual growth in State per capita personal income. Under the third test, school districts would receive the amount appropriated in the prior year adjusted for change in enrollment and per capita general fund revenues, plus an additional small adjustment factor. If the third test were used in any year, the difference between the third test and the second test would become a “credit” to be paid in future years when general fund revenue growth exceeds personal income growth.

Proposition 30

On November 6, 2012, voters approved Proposition 30, also referred to as the Temporary Taxes to Fund Education, Guaranteed Local Public Safety Funding, Initiative Constitutional Amendment. Proposition 30 temporarily (a) increased the personal income tax on certain of the State’s income taxpayers by one to three percent for a period of seven years beginning with the 2012 tax year and ending with the 2019 tax year, and (b) increased the sales and use tax by one-quarter percent for a period of four years beginning on January 1, 2013 and ending with the 2016 tax year. The revenues generated from such tax increases are included in the calculation of the Proposition 98 minimum funding guarantee (see “– Proposition 98 and Proposition 111” above). The revenues generated from such temporary tax increases are deposited into a State account created pursuant to Proposition 30 (the Education Protection Account), and 89% of the amounts therein are allocated to school districts and 11% of the amounts therein are allocated to community college districts.

The Proposition 30 tax increases are temporary and expire at the end of the 2016 and 2019 tax years. The District cannot predict the effect the loss of the revenues generated from such temporary tax increases will have on total State revenues and the effect on the Proposition 98 formula for funding schools.

Applications of Constitutional and Statutory Provisions

The application of Proposition 98 and other statutory regulations has become increasingly difficult to predict accurately in recent years. For a discussion of how the provisions of Proposition 98 have been applied to school funding see “DISTRICT FINANCIAL MATTERS – State Funding of Education; State Budget Process.”

Proposition 2

Proposition 2, which included certain constitutional amendments to the Rainy Day Fund and, upon its approval, triggered the implementation of certain provisions which could limit the amount of reserves that may be maintained by a school district, was approved by the voters in the November 2014 election.

Rainy Day Fund. The Proposition 2 constitutional amendments related to the Rainy Day Fund (i) require deposits into the Rainy Day Fund whenever capital gains revenues rise to more than 8% of general fund tax revenues (and the 2014-15 State Budget notes that capital gains revenues are expected to account for approximately 9.8% of general fund revenues in fiscal year 2014-15); (ii) set the maximum size of the Rainy Day Fund at 10% of general fund revenues; (iii) for the next 15 years, require half of each year's deposit to be used for supplemental payments to pay down the budgetary debts or other long-term liabilities and, thereafter, require at least half of each year's deposit to be saved and the remainder used for supplemental debt payments or savings; (iv) allow the withdrawal of funds only for a disaster or if spending remains at or below the highest level of spending from the past three years; (v) require the State to provide a multiyear budget forecast; and (vi) create a Proposition 98 reserve (the Public School System Stabilization Account) to set aside funds in good years to minimize future cuts and smooth school spending. The State may deposit amounts into such account only after it has paid all amounts owing to school districts relating to the Proposition 98 maintenance factor for fiscal years prior to fiscal year 2014-15. The State, in addition, may not transfer funds to the Public School System Stabilization Account unless the State is in a Test 1 year under Proposition 98 or in any year in which a maintenance factor is created.

SB 858. Senate Bill 858 ("**SB 858**") became effective upon the passage of Proposition 2. SB 858 includes provisions which could limit the amount of reserves that may be maintained by a school district in certain circumstances. Under SB 858, in any fiscal year immediately following a fiscal year in which the State has made a transfer into the Public School System Stabilization Account, any adopted or revised budget by a school district would need to contain a combined unassigned and assigned ending fund balance that (a) for school districts with an A.D.A. of less than 400,000 students, is not more than two times the amount of the reserve for economic uncertainties mandated by the Education Code, or (b) for school districts with an A.D.A. that is more than 400,000 students, is not more than three times the amount of the reserve for economic uncertainties mandated by the Education Code. In certain cases, the county superintendent of schools may grant a school district a waiver from this limitation on reserves for up to two consecutive years within a three-year period if there are certain extraordinary fiscal circumstances.

The District, which has an A.D.A. of less than 400,000 students, is required to maintain a reserve for economic uncertainty in an amount equal to 3% of its general fund expenditures and other financing uses. The District does not expect SB 858 to adversely affect its ability to pay the principal of and interest on the Bonds as and when due.

Future Initiatives

Article XIII A, Article XIII B, Article XIII C, Article XIII D, as well as Propositions 62, 98, 111 and 218, were each adopted as measures that qualified for the ballot pursuant to the State's initiative process. From time to time other initiative measures could be adopted, further affecting District revenues or the District's ability to expend revenues.

The District encompasses a large portion of the City of Sacramento (the “City”), small portions of the cities of Rancho Cordova and Elk Grove, and adjacent unincorporated areas of Sacramento County. APPENDIX G

BOOK-ENTRY ONLY SYSTEM

The information in this APPENDIX G has been provided by DTC for use in securities offering documents, and the District takes no responsibility for the accuracy or completeness thereof. The District cannot and does not give any assurances that DTC, DTC Participants or Indirect Participants will distribute to the beneficial owners either (a) payments of interest, principal or premium, if any, with respect to the Bonds or (b) certificates representing ownership interest in or other confirmation of ownership interest in the Bonds, or that they will so do on a timely basis or that DTC, DTC Participants or DTC Indirect Participants will act in the manner described in this Official Statement. The current "Rules" applicable to DTC are on file with the Securities and Exchange Commission and the current "Procedures" of DTC to be followed in dealing with DTC Participants are on file with DTC. As used in this appendix, "Securities" means the Bonds, "Issuer" means the District, and "Agent" means the Paying Agent. The District notes that it will issue one fully registered certificate for each maturity of the Bonds in the principal amount of such maturity, and suggests that this is what the first numbered paragraph below intends to convey.

1. The Depository Trust Company ("**DTC**"), New York, NY, will act as securities depository for the securities (the "**Securities**"). The Securities will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Security certificate will be issued for each issue of the Securities, each in the aggregate principal amount of such issue, and will be deposited with DTC. If, however, the aggregate principal amount of any issue exceeds \$500 million, one certificate will be issued with respect to each \$500 million of principal amount, and an additional certificate will be issued with respect to any remaining principal amount of such issue.

2. DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("**Direct Participants**") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("**DTCC**"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("**Indirect Participants**"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

3. Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC's records. The ownership interest of each actual purchaser of each Security ("**Beneficial Owner**") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive

certificates representing their ownership interests in Securities, except in the event that use of the book-entry system for the Securities is discontinued.

4. To facilitate subsequent transfers, all Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Securities may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Securities, such as redemptions, tenders, defaults, and proposed amendments to the Security documents. For example, Beneficial Owners of Securities may wish to ascertain that the nominee holding the Securities for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

6. Redemption notices shall be sent to DTC. If less than all of the Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

7. Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Securities unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

8. Redemption proceeds, distributions, and dividend payments on the Securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from Issuer or Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Agent, or Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of Issuer or Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

For purposes of such selection, each Bond shall be deemed to consist of individual Bonds of denominations of \$5,000 principal amount each, which may be separately redeemed.

Section 4.02. Notice of Redemption. (a) Notice of redemption of the Bonds will be mailed postage prepaid not less than 20 nor more than 60 days prior to the redemption date (i) by first class mail to the respective Owners of Bonds at the addresses appearing on the bond registration books of the Paying Agent, and (ii) as may be further required in accordance with the Continuing Disclosure Certificate.

When notice of redemption has been given, substantially as described above, and when the amount necessary for the payment of the redemption price, if any, is set aside for such purpose, the Bonds designated for redemption will become due and payable on the date fixed for redemption thereof, and upon presentation and surrender of said Bonds at the place specified in the notice of redemption, such Bonds will be redeemed and paid at the redemption price thereof out of the money provided therefor.

If at any time the District pays or causes to be paid or there is otherwise paid to the owners of any or all outstanding Bonds all of the principal, interest and premium, if any, represented by such Bonds when due, or as described above, or as otherwise provided by law, then such Owners shall cease to be entitled to the obligation of the County to levy and collect taxes to pay the Bonds as described in Section 5.01 hereof, and such obligation and all agreements and covenants of the District to such Owners hereunder shall thereupon be satisfied and discharged and shall terminate, except only that the District will remain liable for payment of all principal, interest and premium, if any, represented by such Bonds, but only out of moneys on deposit in the Interest and Sinking Fund or otherwise held in trust for such payment, provided, that the unclaimed moneys provisions described in Section 6.07 hereof will apply in all events.

Section 5.03. Tax Covenants. (a) The District shall not take any action or inaction, or fail to take any action, or permit any action to be taken on its behalf or cause or permit any circumstances within its control to arise or continue, if such action or inaction would adversely affect the exclusion from gross income of the interest payable on Bonds under Section 103 of the Code. Without limiting the generality of the foregoing, the District shall comply with the instructions and requirements of each Tax Certificate. This covenant shall survive payment in full of the Bonds.

(b) In the event that at any time the District is of the opinion that for purposes of this Section it is necessary or helpful to restrict or limit the yield on the investment of any moneys held by the Director of Finance with respect to the Bonds, or by the Paying Agent under this Paying Agent Agreement, the District shall so instruct the Director of Finance or the Paying Agent, as appropriate, in writing, and the Director of Finance and the Paying Agent shall take such action as may be necessary in accordance with such instructions.

(c) Notwithstanding any provisions of this Section, if the District shall provide to the Director of Finance or the Paying Agent an opinion of Bond Counsel that any specified action required under this Section is no longer required or that some further or different action is required in order to maintain the exclusion from federal income tax of interest on Bonds under Section 103 of the Code, the Director of Finance and the Paying Agent may conclusively rely on such opinion in complying with the requirements of this Section, and the covenants hereunder shall be deemed to be modified to that extent.

Section 5.04. Continuing Disclosure. The District hereby covenants and agrees that it shall comply with and carry out all of the provisions of the Continuing Disclosure Certificate. Notwithstanding any other provision of this Paying Agent Agreement, failure of the District to comply with the Continuing Disclosure Certificate shall not be considered an event of default hereunder; provided that any Owner or Beneficial Owner (as defined below) may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the District to comply with its obligations under this Section. For purposes of this Section, “Beneficial Owner” shall mean any person which has or shares the power, directly or indirectly, to make investment decisions concerning ownership of any Bonds (including persons holding Bonds through nominees, depositories or other intermediaries).

Section 5.05. Validity of Bonds. The recital contained in the Bonds that the same are regularly issued pursuant to the Law and that the total amount of indebtedness of the District, including the amount of the Bonds, is within the limit provided by law, shall be conclusive evidence of their validity and of compliance with the provisions of the Law in their issuance.

ARTICLE VI

THE PAYING AGENT

Section 6.01. Duties and Liabilities of Paying Agent. (a) The Paying Agent shall be the paying agent, registrar and transfer agent for the Bonds and shall perform such functions in accordance with the provisions hereof. The Paying Agent shall perform such duties and only such duties as are expressly and specifically set forth in this Paying Agent Agreement.

(b) The District may, by an instrument in writing, remove the Paying Agent initially a party hereto and any successor thereto, and shall remove the Paying Agent initially a party hereto and any successor thereto if at any time (i) requested to do so by an instrument or concurrent instruments in writing signed by the Owners of a majority of the aggregate Principal Amount of the Bonds at the time Outstanding (or their attorneys duly authorized in writing), or (ii) the Paying Agent shall cease to be eligible in accordance with subsection (e) of this Section, or shall become incapable of acting, or shall be adjudged a bankrupt or insolvent, or a receiver of the Paying Agent or its property shall be appointed, or any public officer shall take control or charge of the Paying Agent or of its property or affairs for the purpose of rehabilitation, conservation or liquidation, in each case by giving written notice of such removal to the Paying Agent and thereupon shall appoint a successor Paying Agent by an instrument in writing.

(c) The Paying Agent may at any time resign by giving written notice of such resignation by first class mail, postage prepaid, to the District, and to the Owners at the respective addresses shown on the Registration Books. Upon receiving such notice of resignation, the District shall promptly appoint a successor Paying Agent by an instrument in writing.

(d) Any removal or resignation of the Paying Agent and appointment of a successor Paying Agent shall become effective upon acceptance of appointment by the successor Paying Agent; provided, however, that under any circumstances the successor Paying Agent shall be qualified as provided in subsection (e) of this Section. If no qualified successor Paying Agent shall have been appointed and have accepted appointment within 45 days following giving notice of removal or notice of resignation as aforesaid, the resigning Paying Agent or any Owner (on behalf of such Owner and all other Owners) may petition any court of competent jurisdiction for the appointment of a successor Paying Agent, and such court may thereupon, after such notice, if any, as it may deem proper, appoint such successor Paying Agent. Any successor Paying Agent appointed under this Paying Agent Agreement shall signify its acceptance of such appointment by executing and delivering to the District and to its predecessor Paying Agent a written acceptance thereof, and thereupon such successor Paying Agent, without any further act, deed or conveyance, shall become vested with all the moneys, estates, properties, rights, powers, trusts, duties and obligations of such predecessor Paying Agent, with like effect as if originally named Paying Agent herein; but, nevertheless at the written request of the District or the successor Paying Agent, such predecessor Paying Agent shall execute and deliver any and all instruments of conveyance or further assurance and do such other things as may reasonably be required for more fully and certainly vesting in and confirming to such successor Paying Agent all the right, title and interest of such predecessor Paying Agent in and to any property held by it under this Paying Agent Agreement and shall pay over, transfer, assign and deliver to the successor Paying Agent any money or other property subject to the conditions herein set forth. Upon acceptance of appointment by a successor Paying Agent as provided in this subsection, the District shall mail or cause the successor Paying Agent to mail, by first class mail postage prepaid, a notice of the succession of such Paying Agent hereunder to the Owners at the addresses shown on the Registration Books. If the District fails to mail such notice within 15 days after acceptance of appointment by the successor Paying Agent, the successor Paying Agent shall cause such notice to be mailed at the expense of the District.

(e) The Paying Agent, if not the Director of Finance, shall be a bank, national banking association or trust company having trust powers incorporated or organized under the laws of the United States of America or any state thereof, having (or if such bank, national banking association or trust company is a member of a bank holding company system, its parent bank holding company shall have) a combined capital and surplus of at least \$75,000,000, in good standing and subject to supervision or examination by federal or state agency. If such bank, national banking association or trust company publishes a report of condition at least annually, pursuant to law or to the requirements of any supervising or examining agency above referred to, then for the purpose of this subsection the combined capital and surplus of such bank, national banking association or trust company shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published.

In case at any time the Paying Agent shall cease to be eligible in accordance with the provisions of this subsection (e), the Paying Agent shall resign immediately in the manner and with the effect specified in this Section.

Section 6.02. Merger or Consolidation. Any bank, national banking association or trust company into which a successor Paying Agent may be merged or converted or with which it may be consolidated or any bank, national banking association or trust company resulting from any merger, conversion or consolidation to which it shall be a party or any bank, national banking association or trust company to which the Paying Agent may sell or transfer all or substantially all of its corporate trust business, provided such bank, national banking association or trust company shall be eligible under Section 6.01(e) shall be the successor to such Paying Agent, without the execution or filing of any instrument or any further act, deed or conveyance on the part of any of the parties hereto, anything herein to the contrary notwithstanding.

Section 6.03. Liability of Paying Agent. (a) The recitals of facts herein and in the Bonds contained shall be taken as statements of the District, and the Paying Agent shall not assume responsibility for the correctness of the same, or make any representations as to the validity or sufficiency of this Paying Agent Agreement or of the Bonds or shall incur any responsibility in respect thereof, other than as expressly stated herein in connection with the respective duties or obligations herein or in the Bonds assigned to or imposed upon it. The Paying Agent shall, however, be responsible for its representations contained in its certificate of authentication on the Bonds. The Paying Agent makes no representations as to the validity or sufficiency of this Paying Agent Agreement or of any Bonds, or in respect of the security afforded by this Paying Agent Agreement and the Paying Agent shall incur no responsibility in respect thereof. The Paying Agent shall be under no responsibility or duty with respect to (i) the issuance of the Bonds for value, (ii) the application of the proceeds thereof except to the extent that such proceeds are received by it in its capacity as Paying Agent, or (iii) the application of any moneys paid to the District or others in accordance with this Paying Agent Agreement except as the application of any moneys paid to it in its capacity as Paying Agent. The Paying Agent shall not be liable in connection with the performance of its duties hereunder, except for its own negligence or willful misconduct. The Paying Agent shall not be liable for any action taken or omitted by it in good faith and believed by it to be authorized or within the discretion or rights or powers conferred upon it by this Paying Agent Agreement. The Paying Agent and its officers and employees may become the Owner of Bonds with the same rights it would have if it were not Paying Agent, and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as a member of, or in any other capacity with respect to, any committee formed to protect the rights of Bond Owners, whether or not such committee shall represent the Owners of a majority in aggregate Principal Amount of the Bonds then Outstanding.

(b) The Paying Agent shall not be liable for any error of judgment made in good faith by a responsible officer, unless it shall be proved that the Paying Agent was negligent in ascertaining the pertinent facts.

(c) No provision of this Paying Agent Agreement shall require the Paying Agent to risk or expend its own funds in the performance of its rights and duties hereunder.

(d) The immunities and protections extended to the Paying Agent also extend to its directors, officers, employees and agents.

(e) The Paying Agent may execute any of its powers or duties hereunder through attorneys, agents or receivers and shall not be answerable for the actions of such attorneys, agents or receivers if selected by it with due care.

Section 6.04. Right to Rely on Documents. The Paying Agent shall be protected in acting upon any notice, resolution, request, consent, order, certificate, report, opinion, bonds or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties. The Paying Agent may consult with counsel, who may be counsel to the District, with regard to legal questions, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance therewith; provided, however, the Paying Agent shall in no event delay any payment with respect to the Bonds in anticipation of any such opinion.

Whenever in the administration of the duties imposed upon it by this Paying Agent Agreement the Paying Agent shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action hereunder, such matter (unless other evidence in respect thereof be herein specifically prescribed) may be deemed to be conclusively proved and established by a Written Certificate of the District, and such Written Certificate shall be full warrant to the Paying Agent for any action taken or suffered in good faith under the provisions of this Paying Agent Agreement in reliance upon such Written Certificate, but in its discretion the Paying Agent may, in lieu thereof, accept other evidence of such matter or may require such additional evidence as it may deem reasonable.

Section 6.05. Accounting Records and Reports; Preservation and Inspection of Documents. The Paying Agent shall keep or cause to be kept proper books of record and accounts in which complete and correct entries shall be made of all transactions relating to the receipts, disbursements, allocation and application of all money on deposit in the accounts and funds established hereunder, which such books shall be available for inspection by the District at reasonable hours and under reasonable conditions.

All documents received by the Paying Agent under the provisions of this Paying Agent Agreement shall be retained in its possession and shall be subject during business hours and upon reasonable notice to the inspection of the District, the Owners and their agents and representatives duly authorized in writing.

Section 6.06. Compensation and Indemnification. The District shall pay to the Paying Agent from time to time all reasonable compensation pursuant to a pre-approved fee letter for all services rendered under this Paying Agent Agreement, and also all reasonable expenses, charges, legal and consulting fees pursuant to a pre-approved fee letter and other disbursements pursuant to a pre-approved fee letter and those of its attorneys, agents and employees, incurred in and about the performance of their powers and duties under this Paying Agent Agreement. The District further agrees, to the extent permitted by law, to indemnify, defend and save the Paying Agent harmless against any liabilities which it may incur in the exercise and performance of its powers and duties hereunder, and which are not due to its

negligence or its willful misconduct. The duty of the District to indemnify and compensate the Paying Agent shall survive the termination and discharge of this Paying Agent Agreement and the resignation or removal of the Paying Agent.

Section 6.07. Unclaimed Moneys. Any money held in any fund created pursuant to this Paying Agent Agreement or by the Paying Agent in trust for the payment of the principal of, redemption premium, if any, or interest on the Bonds and remaining unclaimed for two years after the principal of all of the Bonds has become due and payable (whether by maturity or upon prior redemption) will be transferred to the Interest and Sinking Fund for payment of any outstanding bonds of the District payable from said fund; or, if no such bonds of the District are at such time outstanding, said moneys will be transferred to the general fund of the District as provided and permitted by law.

Sacramento City Unified School District, County of Sacramento, State of California (herein called the "District"), acknowledges itself obligated to and promises to cause to be paid to the registered owner identified above or registered assigns, but only from taxes collected by the County of Sacramento (the "County") for such purpose pursuant to Section 15250 of the Education Code of the State of California, on the maturity date set forth above or upon redemption prior thereto, the principal sum specified above in lawful money of the United States of America, and to pay interest thereon in like lawful money at the interest rate per annum stated above, computed on the basis of a 360-day year of twelve 30-day months, payable on February 1 and August 1 in each year, commencing February 1, 2017, until payment of said principal sum. If this bond is authenticated and registered on any date prior to the close of business on January 15, 2017, it shall bear interest from the date hereof. If authenticated during the period between any Record Date (defined as the 15th day of the month preceding an interest payment date) and the close of business on its corresponding interest payment date, it shall bear interest from such interest payment date. Otherwise, this bond shall bear interest from the interest payment date immediately preceding the date of its authentication.

The principal hereof is payable to the registered owner hereof upon the surrender hereof at the office of the Director of Finance of the County (herein called the "Paying Agent"), the paying agent/registrar and transfer agent of the District, in Sacramento, California. The interest hereon is payable to the person whose name appears on the bond registration books of the Paying Agent as the registered owner hereof as of the close of business on the Record Date preceding each interest payment date, whether or not such day is a business day, such interest to be paid by check mailed to such registered owner at the owner's address as it appears on such registration books, or at such other address filed with the Paying Agent for that purpose. So long as Cede & Co. or its registered assigns shall be

the registered owner of this bond, payment shall be made by wire transfer as provided in the Paying Agent Agreement hereinafter described.

This bond is one of a duly authorized issue of bonds of like tenor (except for such variations, if any, as may be required to designate varying series, numbers, denominations, interest payment modes, interest rates, maturities and redemption provisions), amounting in the aggregate to \$[PAR AMOUNT], and designated as “Sacramento City Unified School District General Obligation Bonds, Election of 2012 (Measure Q), 2016 Series D” (the “Bonds”). The Bonds were authorized by a vote of at least 55% of the voters voting at an election duly and legally called, held and conducted in the District on November 6, 2012. The Bonds are issued and sold by the Board of Education of the District pursuant to and in strict conformity with the provisions of the Constitution and laws of the State of California, and the Paying Agent Agreement, dated as of [June] 1, 2016 (the “Paying Agent Agreement”), by and between the District and the Paying Agent. Reference is hereby made to the Paying Agent Agreement and any and all amendments thereof for a description of the terms on which the Bonds are issued, for the rights of the Owners of the Bonds, for the provisions for payment of the Bonds, and for the amendment of the Paying Agent Agreement (with or without consent of the Owners of the Bonds); and all the terms of the Paying Agent Agreement are hereby incorporated herein and constitute a contract between the District and the Registered Owner of this Bond, to all the provisions of which the Registered Owner of this Bond, by acceptance hereof, agrees and consents. Capitalized undefined terms used herein have the meanings ascribed thereto in the Paying Agent Agreement.

The Bonds are issuable as fully registered bonds without coupons in the denomination of \$5,000 or any integral multiple thereof, provided that no Bond shall have principal maturing on more than one principal maturity date. Subject to the limitations and conditions and upon payment of the charges, if any, as provided in the Paying Agent Agreement, Bonds may be exchanged for a like aggregate principal amount of Bonds of the same series, maturity, interest payment mode and interest rate of other authorized denominations.

This bond is transferable by the registered owner hereof, in person or by attorney duly authorized in writing, at said designated office of the Paying Agent, but only in the manner, subject to the limitations and upon payment of the charges provided in the Paying Agent Agreement, and upon surrender and cancellation of this bond. Upon such transfer, a new Bond or Bonds of authorized denomination or denominations for the same series, maturity, interest payment mode and interest rate, and same aggregate principal amount will be issued to the transferee in exchange herefor.

The District and the Paying Agent may treat the registered owner hereof as the absolute owner hereof for all purposes, and the District and the Paying Agent shall not be affected by any notice to the contrary.

The Bonds are subject to optional and mandatory sinking fund redemption on the terms and subject to the conditions specified in the Paying Agent Agreement, and as shown in the attached Redemption Schedule. If this bond is called for redemption and payment is duly provided therefor, interest shall cease to accrue hereon from and after the date fixed for redemption.

The Board of Education of the District hereby certifies and declares that the total amount of indebtedness of the District, including the amount of this bond, is within the limit provided by law; that all acts, conditions and things required by law to be done or performed precedent to and in the issuance of this bond have been done and performed in strict conformity with the laws authorizing the issuance of this bond; and that this bond is in substantially the form prescribed by order of the Board of Education of the District duly made and entered on its minutes. The Bonds represent an obligation of the District payable out of the interest and sinking fund of the District, and the money for the payment of principal of and interest on this bond shall be raised by taxation upon the taxable property of the District.

Board of Education
Sacramento City Unified School District
5735 47th Avenue
Sacramento, CA 95824

Ladies and Gentlemen:

The undersigned, Stifel, Nicolaus & Company, Incorporated (the “Underwriter”), hereby offers to enter into this Bond Purchase Agreement (the “Purchase Contract”) with the Board of Education of the Sacramento City Unified School District (the “District”), acting through its Authorized District Representative (as such term is defined in the hereinafter defined Resolution). The offer made hereby is subject to acceptance by the District by execution and delivery of this Purchase Contract to the Underwriter at or prior to 11:59 p.m., California time, on the date hereof, but it shall be irrevocable until such time as it is sooner accepted or rejected by the District. Upon acceptance of this offer by the District in accordance with the terms hereof, this Purchase Contract will be binding upon the District and upon the Underwriter.

Section 1. Purchase and Sale. Upon the terms and conditions and upon the basis of the representations, covenants and agreements hereinafter set forth, the Underwriter hereby agrees to purchase from the District for offering to the public, and the District hereby agrees to sell to the Underwriter for such purpose, all (but not less than all) of the \$_____ aggregate principal amount of the Sacramento City Unified School District General Obligation Bonds, Election of 2012 (Measure Q), 2016 Series D (the “Bonds”), at the purchase price of \$_____, which has been computed as the aggregate principal amount of the Bonds (\$_____) plus original issue premium thereon (\$_____), less Underwriter’s discount (\$_____), less \$_____ to be applied by the Underwriter to pay costs of issuance in accordance with Section 9 hereto.

The District acknowledges and agrees that (a) the purchase and sale of the Bonds pursuant to this Purchase Contract is an arm’s-length commercial transaction between the District and the Underwriter; (b) in connection therewith and with the discussion, undertakings and procedures leading up to the consummation of such transaction, the Underwriter is acting solely as a principal and not as an agent or a fiduciary of or a financial advisor to the District; (c) the Underwriter has not assumed an advisory or fiduciary responsibility in favor of the District with respect to (i) the offering of the Bonds or the process leading thereto (whether or

not the Underwriter has advised or is currently advising the District on other matters), or (ii) any other obligation of the District except the obligations expressly set forth in this Purchase Contract; and (d) the District has consulted with its own legal and other professional advisors to the extent it deemed appropriate in connection with the offering of the Bonds. The District acknowledges that it has previously provided the Underwriter with an acknowledgment of receipt of the required disclosure under Rule G-17 of the Municipal Securities Rulemaking Board (“MSRB”).

Section 2. The Bonds. The Bonds shall be issued pursuant to Section 53506 et seq. of the California Government Code and other applicable law (the “Act”), and in accordance with Resolution No. ____ of the Board of Education of the District (the “Board”), adopted on [May 5], 2016 (the “Resolution”) with respect to the Bonds. The Bonds shall conform in all respects to the terms and provisions set forth in the Resolution, that certain Paying Agent Agreement dated as of [June] 1, 2016 (the “Paying Agent Agreement”), to be entered into by and between the District and the Director of Finance of the County of Sacramento, as paying agent (the “Paying Agent”), and in Appendix A to this Purchase Contract. Capitalized terms used but not defined herein shall have the meanings ascribed thereto in the Resolution.

The Bonds shall be dated their date of delivery, expected to be [June] __, 2016, shall mature on August 1 in each of the years, in the principal amounts and bear interest at the rates shown in Appendix A. Interest on the Bonds shall be payable on February 1, 2017, and thereafter on February 1 and August 1 in each year until maturity or prior redemption.

The Bonds shall be subject to optional and mandatory sinking fund redemption on the terms and on the dates shown in Appendix A.

[Payment of principal of and interest on the Bonds (the “Insured Bonds”) when due will be guaranteed under an insurance policy (the “Policy”) to be issued concurrently with the delivery of the Bonds by [INSURER] (the “Bond Insurer”).]

The Bonds shall otherwise be as described in the Preliminary Official Statement of the District with respect thereto, dated _____, 2016 (together with the appendices thereto, any documentation incorporated therein by reference, and any supplements or amendments thereto, the “Preliminary Official Statement”).

One fully registered certificate for each maturity of the Bonds will be prepared and delivered as described in Section 8 hereof, registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, NY (“DTC”), and will be made available to the Underwriter for inspection at such place as may be mutually agreed to by the Underwriter and the District, not less than three Business Days prior to the Closing Date, as defined in Section 3 below. The Underwriter shall order CUSIP identification numbers and the District shall cause such CUSIP identification numbers to be printed on the Bonds, but neither the failure to print such number on any Bond nor any error with respect thereto shall constitute cause for a failure or refusal by the Underwriter to accept delivery of and pay for the Bonds in accordance with the terms of this Purchase Contract.

Section 3. Offering. The Underwriter hereby certifies that it has made a bona fide public offering of all the Bonds as of the date hereof at the initial public offering prices shown in the table attached to Appendix A hereto. Subsequent to such initial public offering, the Underwriter reserves the right to change such initial public offering prices or yields as it deems necessary in connection with the marketing of the Bonds. On or prior to [June] __, 2016 (the “Closing Date”), the Underwriter shall provide the District with information regarding the prices at which a representative portion of each maturity of the Bonds was sold to the public, in such form as Bond Counsel may reasonably request, for purposes of determining the yield on the Bonds.

The District hereby ratifies, approves and confirms the distribution of this Purchase Contract, the Resolution, the Paying Agent Agreement, the Preliminary Official Statement and the Official Statement (defined herein) in connection with the public offering and sale of the Bonds by the Underwriter.

The Underwriter hereby represents that it has received and reviewed the Preliminary Official Statement, and hereby agrees that it will provide, consistent with the requirements of MSRB Rule G-32, for the delivery of a copy of the final Official Statement describing the Bonds, dated the date hereof (the “Official Statement”), to each customer who purchases any Bonds during the underwriting period (as such term is defined in MSRB Rule G-11), and to deliver a copy of the Official Statement to the MSRB in electronic format as prescribed by the MSRB on or before the Closing Date, and otherwise to comply with all applicable statutes and regulations in connection with the offering and sale of the Bonds, including, without limitation, MSRB Rule G-32 and 17 CFR Section 240.15c2-12, promulgated by the Securities and Exchange Commission (“Rule 15c2-12”).

The Underwriter hereby agrees that prior to the time the final Official Statement is available, the Underwriter will send to any potential purchaser of the Bonds, upon request, a copy of the most recent Preliminary Official Statement. Such Preliminary Official Statement shall be sent by first-class mail (or other equally prompt means) not later than the first Business Day following the date upon which each such request is received.

The District represents that it has duly authorized and caused the preparation and delivery of the Preliminary Official Statement and it has deemed the Preliminary Official Statement to be final, except for either revision or addition of the offering price(s), interest rate(s), yield(s) to maturity, selling compensation, aggregate principal amount, principal amount per maturity, delivery date, rating(s), redemption provisions and other terms of the Bonds which depend upon the foregoing as provided in and pursuant to Rule 15c2-12, and consents to and ratifies the use and distribution by the Underwriter of the Preliminary Official Statement in connection with the public offering of the Bonds by the Underwriter.

The District will deliver to the Underwriter within seven Business Days from the date hereof, as many copies of the Official Statement as the Underwriter shall reasonably request (not to exceed 150), signed by the Authorized District Representative, substantially in the form of the Preliminary Official Statement with such changes thereto as shall be approved by the Underwriter, which approval shall not be unreasonably withheld.

Section 4. Representations and Agreements of the District. The District represents to and agrees with the Underwriter that, as of the date hereof and as of the date of the Closing:

(a) The District is a school district duly organized and validly existing under the constitution and general laws of the State of California.

(b) The District has full legal right, power and authority to enter into this Purchase Contract, to adopt the Resolution, to enter into the Paying Agent Agreement, and to observe and perform the District's covenants and agreements contained herein and therein.

(c) The District has duly adopted the Resolution in accordance with the laws of the State of California; the Resolution is in full force and effect and has not been amended, modified or rescinded, and all representations of the District set forth in the Resolution are true and correct; the District has duly authorized and approved the execution and delivery of, and the observance and performance by the District of its covenants and agreements contained in the Bonds, the Paying Agent Agreement, and this Purchase Contract, and the District has complied, and will at the Closing be in compliance in all respects, with its obligations in connection with the issuance of the Bonds contained in this Purchase Contract, the Resolution, the Paying Agent Agreement, and the Bonds.

(d) No consent, approval, authorization, order, filing, registration, qualification, election or referendum, of or by any person, organization, court or governmental agency or public body whatsoever is required in connection with the issuance, delivery or sale of the Bonds or the consummation of the other transactions effected or contemplated herein or hereby. The District gives no representation or warranty with regard to compliance with Blue Sky or similar securities requirements.

(e) The District represents to the Underwriter that the Preliminary Official Statement has been "deemed final" by the District as of its date within the meaning of paragraph (a)(2) of Rule 15c2-12, except for the omission of some or all of such information the omission of which is permitted under Rule 15c2-12.

(f) The Preliminary Official Statement as of its date does not, and the Official Statement as of its date will not, and if supplemented or amended, as of the date of any such supplement or amendment, will not, contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made therein, in light of the circumstances under which they were made, not misleading; excluding in each case any information contained therein relating to DTC or its book-entry-only system; [information contained therein relating to the Bond Insurer or the Policy;] CUSIP numbers of the Bonds; information contained therein describing the investment policy of the County of Sacramento (the "County"), its current portfolio holdings, and valuation procedures (as they relate to funds of the District held by the Director of Finance of the County (the "Director of Finance")); information provided by the Underwriter regarding CUSIP numbers or the prices or yields at which the Bonds were re-offered to the public, as to all of which the District expresses no view. The District disclaims any obligation

after the date of Closing to update the Preliminary Official Statement and the Official Statement, except as set forth in paragraph (g) below.

(g) The District agrees that, for a period of 25 days after the “end of the underwriting period” (as defined in Rule 15c2-12), if any event of which it has actual knowledge occurs which might cause the information in the Official Statement as then in existence to contain any untrue or misleading statement of a material fact or omit to state any fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which such statements were made, not misleading, the District shall promptly notify the Underwriter in writing of the circumstances and details of such event. If, as a result of such event or any other event, it is necessary, in the reasonable opinion of the Underwriter, to amend or supplement the Official Statement so that the Official Statement does not contain any untrue or misleading statement of a material fact or omit to state any fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which such statements were made, not misleading, and if the Underwriter shall have so advised the District, the District shall forthwith cooperate with the Underwriter in the prompt preparation and furnishing to the Underwriter, at the expense of the District, of a reasonable number of copies of an amendment of or a supplement to the Official Statement, in form and substance satisfactory to the Underwriter, which will so amend or supplement the Official Statement so that, as amended or supplemented, it will not contain any untrue or misleading statement of a material fact or omit to state any fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which such statements were made, not misleading. The District shall promptly advise the Underwriter of the commencement of any action, suit, proceeding, inquiry or investigation seeking to prohibit, restrain or otherwise affect the use of the Official Statement in connection with the offering, sale or distribution of the Bonds. Unless the Underwriter otherwise advises the District in writing that the end of the underwriting period shall be another specified date, the end of the underwriting period shall be the Closing Date.

(h) The District will undertake, pursuant to the Paying Agent Agreement and a Continuing Disclosure Certificate, to provide certain annual financial information and notices of the occurrence of certain enumerated events. A form of this undertaking is set forth in the Preliminary Official Statement and will also be set forth in the final Official Statement. Based on a review of its prior undertakings under Rule 15c2-12, and except as otherwise disclosed in the Official Statement, the District has never failed to comply in all material respects with any previous undertakings with regard to Rule 15c2-12 to provide annual reports or notices of enumerated events with respect to the last five years.

(i) The issuance of the Bonds, and the execution, delivery and performance of this Purchase Contract, the Resolution, the Paying Agent Agreement, and the Bonds, and the compliance with the provisions hereof and thereof, do not conflict with or constitute on the part of the District a violation of or material default under the Constitution of the State of California or any existing law, charter, ordinance, regulation, decree, order or resolution and do not conflict with or result in a violation or breach of, or constitute a

material default under, any agreement, indenture, mortgage, lease or other instrument to which the District is a party or by which it is bound or to which it is subject.

(j) As of the time of acceptance hereof, no action, suit, proceeding, hearing or investigation is pending or, to the best knowledge of the District, threatened against the District: (i) in any way affecting the existence of the District or in any way challenging the respective powers of the several offices or of the title of the officials of the District to such offices; or (ii) seeking to restrain or enjoin the sale, issuance or delivery of any of the Bonds, the application of the proceeds of the sale of the Bonds, or the collection of revenues or assets of the District pledged or to be pledged or available to pay the principal of and interest on the Bonds, or the pledge thereof, or the levy of any taxes contemplated by the Resolution or in any way contesting or affecting the validity or enforceability of the Bonds, this Purchase Contract, the Paying Agent Agreement, or the Resolution, contesting the powers of the District or the Resolution or this Purchase Contract or the entitlement of the officers of the District who have signed the Bonds and the various certificates and agreements of the District relating to the issuance and sale of Bonds, to their respective offices; or (iii) in which a final adverse decision could (A) materially adversely affect the operations of the District or the consummation of the transactions contemplated by this Purchase Contract, the Paying Agent Agreement or the Resolution; (B) declare this Purchase Contract to be invalid or unenforceable in whole or in material part; or (C) adversely affect the exclusion of the interest paid on the Bonds from gross income for federal income tax purposes and the exemption of such interest from State of California personal income taxation.

(k) Between the date hereof and the Closing Date, without the prior written consent of the Underwriter, the District will not have issued, nor will the County have issued in the name and on behalf of the District, any bonds, notes or other obligations for borrowed money except for such borrowings as may be described in or contemplated by the Official Statement.

(l) The District has not received a qualified or negative certification in its most recent interim report pursuant to Section 42130 et seq. of the California Education Code.

(m) The District has, and has had, no financial advisory relationship with the Underwriter with respect to the Bonds, nor with any investment firm controlling, controlled by or under common control with the Underwriter.

(n) The District hereby agrees to take any and all actions as may be required by the County or otherwise necessary in order to arrange for the levy and collection of taxes, payment of the Bonds, and the deposit and investment of Bond proceeds. In particular, the District hereby agrees to provide to the Director of Finance a copy of the Resolution, a copy of Appendix A hereto, and the full debt service schedule for the Bonds.

(b) The Underwriter is in compliance with MSRB Rule G-37 with respect to the District and is not prohibited thereby from acting as underwriter with respect to securities of the District.

(d) The Underwriter has no, and has had no, financial advisory relationship, as that term is defined in Section 53590(c) of California Government Code, with the District with respect to the Bonds, and no investment firm controlling, controlled by or under common control with the Underwriter has, or has had, any such financial advisory relationship.

(e) The Underwriter has reasonably determined that the District's undertaking pursuant to Sections 4(h) and 6(a)(9) hereof to provide continuing disclosure with respect to the Bonds is sufficient to effect compliance with Rule 15c2-12.
