School Description

John Still K-8 is dedicated to ensuring the academic success of every student. At John Still, we pride ourselves in providing a rigorous standards-based curriculum program that allows all students the opportunity to experience academic success, develop positive attitudes towards themselves and others, and to promote the desire and ability needed to be lifelong learners prepared for a 21st Century world. We maintain high standards and expectations in order to yield high quality results!

John Still is working to develop a learning environment that strives to make children confident and creative builders of their future. Our focus is on the whole child. We work toward an integrated curriculum that reaches across disciplines and age levels; the students are encouraged to meet academic challenges with openness, enthusiasm, and a willingness to solve problems. We aim for an atmosphere of cooperation, with respect for individual differences and community values. We are committed to assure learning experiences that will assist our students to achieve their greatest potential to adapt and adjust to a diverse and ever changing society. We are dedicated to serve our students with the understanding that diversity of gender, physical or mental ability, culture, and background is a strength to be respected.

We are committed to social emotional learning and developing and maintaining an environment that supports personal growth and teaches tolerance. We utilize a wide range of programs, but we utilize positive behavior intervention system.

The foundation of PBIS at John Still K-8 School are three school-wide expectations, which we call R.O.A.R.S.:

1. Respect Others
2. Act Responsibly and
3. Safely

In addition to our behavior expectations, PBIS has four other components:

- 1) a behavior matrix which explains behavior expectations in each school setting;
- 2) direct teaching of the expectations;
- 3) PBIS recognition assemblies/events; and
- 4) behavior tracking sheets to record and address inappropriate behaviors

The John Still Student Support Center is here to help students, families, and staff identify issues, and resources necessary to address them. The Student Support Center can help with attendance & academics, attitude and behavior, basic needs (food, housing, clothes) family issues, health and hygiene, mental health, peer relations and much more.

We provide our students, families, and community with six days of programs to provide a safe and nurturing environment where students can grow.

The ASES program provides academic and educational enrichment opportunities that prepare all students with 21st century skills. The design and implementation of the after-school program addresses the developmental needs of students by focusing on literacy intervention and enhancement and hands-on activities that will increase student access to science, technology, engineering and math.

John Still has worked hard to develop resources to support parents and our learning community. We are constantly looking at ways to better serve the whole child and support the community. We provide a variety of programs such as Parents as Partners, John Still Zumba Club, John Still Community Garden, Hope Closet (Food & clothing), and the John Still K-8 Collective Impact Collaborative. These programs are aligned with our Student Support Services and our ASES provider (Focus on Family) to help bridge the gap between school and community. The SSC at John Still is here to help students, families, and staff identify social emotional issues and we work collaboratively to address them. We have worked hard to build a Multi-Tiered Systems of Support (MTSS) focused on Universal (systems promoting healthy development and learning), Strategic Systems for early interventions and tiered interventions.

We have expanded our school's offerings by partnering up with Focus on Family to provide the children of John Still and Meadowview with arts experiences through the South Sacramento Visual and Performing Arts Academy. This program provides our students access to visual arts, ceramics, modern dance, drumline, and piano. The academy serves as the hub for additional community partners to provide our students with engaging opportunities. We have partnered up with Square Root Academy to provide four hours of STEM activities for students to learn about careers linked to science and technology.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2017-18)

Textbooks and instructional materials are reviewed and then piloted across the district. Subsequent adoption by the Board of Education is consistent with the cycle of textbook approval by the State, California School Board. Textbooks are chosen for their alignment with California Content Standards, California Frameworks, and appropriateness for Sacramento City Unified School District students. Textbook sufficiency data is collected annually.

School Facility Conditions and Planned Improvements (Most Recent Year)

The main campus was built in 1967 with the adjoining elementary campus completed in 2005. This school has 33 permanent classrooms which include a multipurpose room, a library, and an administrative building. During the 2006-07 modernization, renovations and upgrades were made in the following areas: health and safety, site exterior and miscellaneous upgrades.

The district takes great efforts to ensure that all schools are clean, safe, and functional. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. The district governing board has adopted cleaning standards for all the schools in the district. A summary of these standards is available at the school office, or at the district operations office. The principal works directly with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

The State Legislature established the Deferred Maintenance Fund (DMF) in 1980 to assist districts in maintaining facilities and sites. The District has participated in the Deferred Maintenance Program since its inception. The program requires both the local district and the State of California to share equally in the cost of major deferred maintenance projects, with the maximum contribution from the State limited to approximately one-half of one percent of the District's General Fund and Adult Education Fund operating budgets. For fiscal years 2008-09 through 2012-13, the Deferred Maintenance Program has been included in the State's Tier III Flexibility Program. Therefore, DMF funds received by the District are deposited in the General Fund, and are unrestricted. Due to state budget cuts for 2010-11 these unrestricted funds have not been designated to deferred maintenance purposes. The funds were used as part of the Tier III recommendations approved by the Board on the May 6, 2010 Board Meeting.

The overall rating based on the below 8 categories is 97.43%. School Rating: Good

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

Students with Disabilities	32	24	75.0	25.0

* Science test results include CSTs, CMA, and CAPA in grades five, eight, and ten. The "Proficient or Advanced" is calculated by taking the total number of students who scored at Proficient or Advanced on the science assessment divided by the total number of students with valid scores. Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Professional Development provided for Teachers

To realize the vision of Sacramento City Unified School District, which is to fully prepare all students for college career and life, it is imperative that the district provides numerous opportunities to expand the professional repertoire of its administrators and teachers.

To that end, the district has crafted a high quality professional program that is focused on the ELA and math Common Core State Standards, the Next Generation Science Standards, English Language Learners, Balanced Literacy and Instructional Strategies for Addressing the Needs of Diverse Learners. These areas of focus were derived from needs assessments coupled with the analysis of student learning of specific content and that is ongoing with follow-up opportunities, models effective practices, and uses assessments to guide and monitor progress. The learning opportunities afforded through this program deeply align with the needs of our individual schools, as well as our strategic plan, and connect to every aspect of school practice: thinking curriculum, intentional instructional practices, assessment for learning, and lesson design.

These learning experiences, which are offered during the school day and after-school are supported with on-site coaching, are complemented with the required collaborative time built into the school day on Thursdays, which is designated for teachers to engage in collaborative professional learning at their respective school sites. Such communities of practices, under the leadership and guidance of site administrators, afford our teachers the opportunity to deepen their content knowledge, strengthen their instructional repertoire, improve their assessment strategies, and foster a shared sense of responsibility. As a result, every teacher will help to promote and nurture a community of learners in which the individual school staff is not only enriched, but the district as a whole is enhanced.

Types of Services Funded

Each district school receives categorical funding to provide supplemental services to assist students reach grade level proficiency and above, master grade level content standards and successfully graduate from high school. Services throughout the district include:

- Class Size Reduction
- Grade Level and Department Collaboration
- Common Planning Time
- ASES AfterSchool Program
- Lunch and Learn
- Tutoring
- AVID
- Supplemental instructional materials and books in mathematics, reading/language arts and ELD
- Enrichment programs
- Access to technology
- Parent Education/Family Nights
- Student/Family Primary Language Support
- Translation for Home-School Communication
- Special Education
- Professional Development
- Support Staff, such as nurses, instructional assistants, parent advisors, and counselors
- Campus Monitors
- Supplemental Education Services
- School Choice
- Cloud base Intervention programs that can be accessed at home.

In addition to the services annotated above we provide strategic intervention in ELA and math through Lunch and Learn as well as the utilization of a District Resource educator targeting all groups of students.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
