School Description

The William Land staff will provide a safe and supportive environment so that our students will be encouraged and challenged to succeed and develop a love for learning. Our staff will provide an enriching, Common Core Standards aligned curriculum so that all students will achieve academic proficiency, appreciation of self, social awareness, and become empowered citizens.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2017-18)

Textbooks and instructional materials are reviewed and then piloted across the district. Subsequent adoption by the Board of Education is consistent with the cycle of textbook approval by the State, California School Board. Textbooks are chosen for their alignment with California Content Standards, California Frameworks, and appropriateness for Sacramento City Unified School District students. Textbook sufficiency data is collected annually.

School Facility Conditions and Planned Improvements (Most Recent Year)

The main campus was built in 1975. A two story, 9 classroom addition was completed in 2016. This school has 18 permanent classrooms (including 4 portables), a multipurpose room, a library, and an administrative area. During the 2005 modernization, renovations and upgrades were made in the following areas: health and safety, site interior, HVAC, and miscellaneous upgrades.

The district takes great efforts to ensure that all schools are clean, safe, and functional. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. The district governing board has adopted cleaning standards for all the schools in the district. A summary of these standards is available at the district operations office. The principal works directly with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

The State Legislature established the Deferred Maintenance Fund (DMF) in 1980 to assist districts in maintaining facilities and sites. The District has participated in the Deferred Maintenance Program since its inception. The program requires both the local district and the State of California to share equally in the cost of major deferred maintenance projects, with the maximum contribution from the State limited to approximately one-half of one percent of the District's General Fund and Adult Education Fund operating budgets. For fiscal years 2008-09 through 2012-13, the Deferred Maintenance Program has been included in the State's Tier III Flexibility Program. Therefore, DMF funds received by the District are deposited in the General Fund, and are unrestricted. Due to state budget cuts for 2010-11 these unrestricted funds have not been designated to deferred maintenance purposes. The funds were used as part of the Tier III recommendations approved by the Board on the May 6, 2010 Board Meeting.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

CAASPP Test Results in Science for All Students

	14-15	15-16	14-15	15-16	14-15	15-16
Science	37	32	47	47	60	56

Note: Science test results include California Standards Tests (CSTs), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA) in grades five, eight, and ten.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

2016-17 CAASPP Results for All Students

Socioeconomically Disadvantaged	45	43	95.6	32.6
English Learners	15	15	100.0	13.3

* Science test results include CSTs, CMA, and CAPA in grades five, eight, and ten. The "Proficient or Advanced" is calculated by taking the total number of students who scored at Proficient or Advanced on the science assessment divided by the total number of students with valid scores. Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

**School Year 2016-17 CAASPP Assessment Results - English Language Arts (ELA)
Disaggregated by Student Groups, Grades Three through Eight and Eleven**

English Learners	88	86	97.73	58.14
Students with Disabilities	19	19	100	5.26
Foster Youth	--	--	--	--

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2017-18)

At William Land we know that parent involvement is essential to the academic success of our students. We actively encourage parents and community members to share their time and talents by volunteering at our school. Some opportunities for volunteers include helping in the classroom, tutoring or mentoring students, and participating in school events and programs. Additionally, we always welcome parents to attend and become members of our School Site Council, English Language Advisory Committee, and Parent Teacher Association. Please contact the school office at (916) 264-4166 for more information on becoming a volunteer.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

Professional Development provided for Teachers

To realize the vision of Sacramento City Unified School District, which is to fully prepare all students for college career and life, it is imperative that the district provides numerous opportunities to expand the professional repertoire of its administrators and teachers.

To that end, the district has crafted a high quality professional program that is focused on the ELA and math Common Core State Standards, the Next Generation Science Standards, English Language Learners, Balanced Literacy and Instructional Strategies for Addressing the Needs of Diverse Learners. These areas of focus were derived from needs assessments coupled with the analysis of student learning of specific content and that is ongoing with follow-up opportunities, models effective practices, and uses assessments to guide and monitor progress. The learning opportunities afforded through this program deeply align with the needs of our individual schools, as well as our strategic plan, and connect to every aspect of school practice: thinking curriculum, intentional instructional practices, assessment for learning, and lesson design.

These learning experiences, which are offered during the school day and after-school are supported with on-site coaching, are complemented with the required collaborative time built into the school day on Thursdays, which is designated for teachers to engage in collaborative professional learning at their respective school sites. Such communities of practices, under the leadership and guidance of site administrators, afford our teachers the opportunity to deepen their content knowledge, strengthen their instructional repertoire, improve their assessment strategies, and foster a shared sense of responsibility. As a result, every teacher will help to promote and nurture a community of learners in which the individual school staff is not only enriched, but the district as a whole is enhanced.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
