### School Description

Arthur A. Benjamin Health Professions High School is a NAF Certified and Linked Learning Certified small innovative high school in the Sacramento City Unified School District. The school opened in 2005 with support from the Bill and Melinda Gates Foundations, the Carnegie Foundation, the James Irvine Foundation and the California Endowment. The school moved into a new 17 million dollar facility in 2006. The school is centered around the implementation of a national health sciences curriculum across all of the core and elective classes in the school. Teachers are not only experts in their content area but they receive specialized training to teach using project-based units that integrate healthcare topics with Common Core State Standards. Students at Health Professions access an education that sets the bar high for coursework and goes beyond the content areas to bring in real life learning connected to their classroom. This integrated curriculum combines academics and the health sciences helping to engage students by demonstrating real life applications through the use of healthcare issues, practices and processes. In addition to learning about the importance of high academic and behavioral achievement, students also have numerous opportunities to work side by side healthcare professionals and visit healthcare settings through career explorations, internships, and job-site tours. These experiences provide insight into available careers, work expectations and educational requirements. In order to achieve these goals the school partners with regional health care providers and post-secondary partners like UC Davis Medical Center, Kaiser Permanente and Sacramento City College Allied Health Department, just to name a few. Students interact with professionals active in health care fields to understand professional expectations and gain experience in the field. The school has a strong Dual Enrollment partnership with Los Rios Community College District to engage students in completing college courses before they graduate from high school.

Students who graduate from Health Professions do so with a plan for life after high school and experiences that will prepare them for the demands of college and the working world. Our mission is: To provide students with an outstanding education, rich with relevant academic, application and leadership experiences - using healthcare as a theme.

## About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

## A. Conditions of Learning

### State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

**Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2018-19)**

The district instructional material evaluation committee, consisted of members representing teachers, administrators, other staff, students, parents/guardians, and community, ensures that the selected textbooks, technology-based materials and other educational materials effectively support the district's adopted courses of study and meet current curricular goals and California Content Standards. Teachers, students, parents/guardians and community members have the opportunity to review and provide input about the instructional materials being considered for adoption. Recommendations for the adoption and/or withdrawal of instructional materials by the instructional material evaluation committee are presented to the Board by the Superintendent or designee and include documentation supporting the recommendation. In some instances, the considered textbooks and/or instructional materials are piloted for a period of time before being recommended for adoption to the Board of Education.

### School Facility Conditions and Planned Improvements (Most Recent Year)

Arthur A. Benjamin Health Professions High School, built in 2006, received Facility Inspection Tool (FIT) overall repair rating score of “good” from its most recent facility inspection in September 2018. The district governing Board has adopted cleanliness standards for all district schools to ensure that all schools are clean, safe and functional. The district Operations Department takes great pride following a work order process that provides efficient and timely services to all the sites. The principal works directly with the site custodial staff to develop cleaning schedules to ensure that the school is clean and safe.

The passage of Measure Q, the district’s 2012 general obligation bond, provided facility upgrade funding to all district schools. The district performed Quick Strike projects during the summer of 2014, which allowed schools to pick from one of the following improvements: 1) marquees, 2) closed-circuit television (CCTV) surveillance, 3) exterior painting, or 4) seal coating and striping of parking lots or playgrounds. Fire alarms at all the district schools were upgraded. Additional 10 million dollars have been allocated for safety and security upgrades, which are expected to begin in 2019.

Funding from the federal government through Universal Service Administrative Company (USAC) provided for technology infrastructure improvements to the district’s wireless connectivity. The improvements, which are expected to be completed by the end of 2019, will increase classroom internet access and digital voice communication.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

### Opportunities for Parental Involvement (School Year 2018-19)

AABPHS strongly believes in partnering with families to support student learning and behavior. The school has established a Community Room that encourages parents to meet and share information, provide access to community programs and job search information. The monthly newsletter and weekly email blast provides parents and students with information on school events, parent meetings, rules, club news, class assignments, community academic programs, and social events.

Parents are welcome to volunteer, serve on the School Site Council and to assist in decision making and provide support to staff, students and community through participation in the English Learner Advisory Committee (ELAC) and the District English Learner Advisory Committee (DELAC). Additional parent feedback is garnered through the accreditation process, WASC and focus groups.

Parent participation is valued in all aspects of the school including, family nights, MultiCultural Pot Luck, and student project presentations like Catch the Fever and Risky Business. Other opportunities for parental involvement are:

Visit their son/daughter's classroom and spend the day shadowing their student  
Parent and student academic conferences  
Back to school night  
Open House  
After School Program  
Academic Awards school wide assembly  
Graduation Requirement Night  
Parent Action Team

For more information please contact the school at 916-395-5010.

### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

\* Number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

**Professional Development provided for Teachers**

To realize the vision of Sacramento City Unified School District, which is to fully prepare all students for college and career, it is imperative that the district provides numerous opportunities to expand the professional repertoire of its administrators and teachers.

To that end, the district has crafted a high quality professional program that is focused on Literacy (including ELA Common Core Standards), English Language Learners, Differentiation of Instruction, Data Inquiry, Culturally and Linguistically Teaching and Learning, and Conceptual Understanding of Mathematics. The learning opportunities afforded through this program deeply align with the needs of our individual schools, as well as our strategic plan, and connect to every aspect of school practice: thinking curriculum, intentional instructional practices, assessment for learning, and lesson design.

Professional learning opportunities are offered during school hours and outside of contracted hours. In addition to on-site coaching and regular professional learning opportunities, a designated collaborative Thursday time provides the opportunity for teachers to engage in collaborative professional learning at their respective schools focusing on deepening their content knowledge, strengthening their instructional repertoire, improving their assessment strategies, and fostering a shared sense of responsibility.

## Types of Services Funded

SCUSD and district schools provide supplemental programs and services through categorical funds and other sources to support the needs of all students, including GATE, students with disabilities and English learners. Programs and services such as enrichment program, family engagement activities, supplemental instructional materials, and academic, social and emotional support programs help our students achieve grade level readiness, mastery of the California Common Core State Standards (CCSS), and college and career readiness. Arthur A. Benjamin Health Professions High School and district supplemental programs and services include:

- Students are recognized for their academic achievement and social-emotional growth by teachers and the Principal through an Academic Awards Assembly held each quarter.
- Students and parents sign a behavior contract to ensure high expectations are carried out at all times.
- Voluntary tutoring is provided in each subject during lunch to students who seek additional support, additionally tutoring is assigned as an intervention to help struggling students.
- Progress Reports are sent home every four weeks to parents.
- Every student meets with a counselor to review transcripts and graduation requirements.
- Students are responsible for planning and implementing school dances, school wide assemblies, and rallies through Student Government (ASB) and PEEPS.
- Club soccer and basketball is open to all students with at least a “C” average. All students who meet eligibility requirements may also play CIF sports through West Campus.
- All clubs and activities are student “interest” driven and are organized, lead, and run by students under the advisement of staff members.
- A very positive educational climate is present at HPHS, and has a diverse population of staff and students who operate in an atmosphere of collaboration.
- Integrated curriculum allows the staff and students to collaborate and work together in ways that bind them together as a community.
- The HPHS and SCUSD Parent and Student Handbooks are provided to all staff members, parents, and students outlining rights and responsibilities for all involved, essential rules and procedures (including dress code and behavior expectations), and subsequent consequences for non-compliance.
- Connect Ed: Important school information relayed via the telephone to all student households in multiple languages. Parents and staff also receive weekly emails of campus events.
- Administrators and Campus Monitors are present among students every day at the school site to proactively engage students in positive behavior and maintain a cooperative environment.
- Parents are made aware of each discipline situation with their student – restorative justice practices are used and positive behavior intervention strategies (PBIS) are employed.

### Career Technical Education Programs

The College and Career Readiness Department provides high quality support to all schools in Sacramento City Unified as they move to adopt a “Linked Learning” approach preparing students for career and post-secondary experiences. The department also works closely with industry and community partners as well as post-secondary institutions to support our schools in preparing our students to be successful after graduation.

Linked Learning is a career-themed approach to learning that prepares students for their future: academic preparation for college and professional skills for success in the workplace. Students study through a profession that interests them, learning challenging academics and professional skills in the classroom while getting real world experience through internships. No matter which professional interest they choose, Linked Learning students develop into adults who are prepared for college, career, and life after high school.

The CTE programs offered at each of the SCUSD high schools are diverse and unique to the specific culture and needs of each school. The Career Technical Education (CTE) pathways represent the twelve (12) Industry Sectors identified by the state.

CTE programs and courses are reviewed by CTE District Wide Advisory Committee comprised of a variety of people including, but not limited to, business partners, community leaders, parents, students, educators and other interested parties. The committee discusses awareness, recruitment, placement, and retention of middle, high school students in CTE classes; local labor market, and school/business partnerships. Career technical education updates, evaluations and funding will also be reviewed. The committee is also responsible for approving the SCUSD Career Technical Education Plan.

### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
