	Architect
	SCUSD Project Manager
	Construction Manager

Jeff Kilty DC Architects Christopher Frappier PCM3

**Progress:** Bid package 1 is substantially complete, and is in the punch list and closeout phase. Bid packages 2 and 3 are complete. Construction is complete for Building F, and the project is in the punch list and closeout phase.

**Site Improvements/Utilities & Wiring:** This project included new play areas, basketball courts, soccer and softball field and 118 parking spaces with a bus turn around and all associated site work, utilities and mechanical, electrical and plumbing work.

Alarm/Fire Systems: New fire alarm and security requirements were implemented into the design.

Air Conditioning & Heating Systems: New HVAC requirements were implemented into the design.

**Classroom Improvements:** This project consisted of a new K-6 elementary school campus (40,000 square feet of new construction) being stick built with three new classroom buildings, a Library, a Kindergarten building, an Administration building, Multi-Purpose Building, and a Restroom Building. Building F added a fourth classroom building to the campus.

**Computer Wiring:** Data requirements were implemented into the design.

State Mandated Hazardous Materials: None at this time.

State Mandated ADA Compliance: ADA requirements were implemented into the design.

Other Issues, Comments, and Information: None at this time.

**Outstanding Issues:** The contractor for Bid Package 2 has filed a claim for this project.

**Budget:** This project is within the overall budget. For specific cost information, refer to the Cost Report sheet on page 7.

**Schedule:** This project was scheduled for a 15 month duration starting the summer of 2005. The overall project completed on schedule. Project was split into three phases. Phase I being the site work and utilities, Phase 2 being the building construction, and Phase 3 being campus landscaping. Building F was completed prior to the start of the 2008-2009 school year. Construction of Building F was completed in August 2008. The contractor is currently working on punch list items and required closeout documentation.

	Construction Manager

Felisberto Cedros RDS/Williams + Paddon Christopher Frappier PCM3

**Progress:** The remaining modernization scope of work began in the late fall of 2007. Construction of the performing arts center will begin in fall of 2008.

**Site Improvements / Utilities & Wiring:** Summer of 2004 work included upgrade to existing hydraulic elevator to meet ADA requirements. The remaining modernization scope included quad and courtyard configurations, new slurry and striping of the basketball and tennis courts, portable demolition to eleven buildings, and the relocation of several portable buildings.

**Alarm/Fire Systems:** Spring of 2006 work included replacing or upgrading all building fire alarm, intrusion, replacement of emergency generator, phones, clock and speaker equipment and devices.

**Air Conditioning & Heating Systems:** Summer of 2006 work included new HVAC for Buildings E, G, H, I, J, and K.

**Classroom Improvements:** Modernization scope included new interior paint, lighting, floor coverings, ceiling tiles, marker boards, tack boards, new electrical and data upgrades, and upgrades to existing casework.

**Computer Wiring:** Not at this time.

**State Mandated Hazardous Materials:** Asbestos and lead abatement was provided where necessary for construction purposes during the modernization.

**State Mandated ADA Compliance:** Modernization work included ADA signage, new doors, hardware, thresholds, accessible restroom partitions, and accessible restroom fixtures.

**Other Issues, Comments, and Information:** DSA approval for the performing arts center was not received until October 17, 2008.

**Outstanding Issues:** An estimate is being performed to reconcile the cost impacts between the bid set of documents and the DSA approved set of plans and specifications for the performing arts center.

**Budget:** This modernization project is currently within budget. For specific cost information, refer to the Cost Report sheet on page 7.

**Schedule:** This modernization project is currently in the seventh and final construction phase. There were five phases completed during the previous school year, the sixth phase was completed during the summer, and the seventh phase is presently in progress, which will complete during November. Work in the seventh phase includes modernizing restrooms at two wings, installing new lockers at the girl's locker room, and installing new doors, frames, and hardware at various locations. Meanwhile, the portable relocation project was awarded and subsequently completed, including punch list and closeout, during the summer. Finally, the new performing arts center, a 13,000 square foot facility slated to locate on the west side of campus, will be constructed beginning later this fall once this project's plans are approved by DSA.

## QUARTERLY PROGRESS REPORT

Sacramento Charter High School Modernization – 2006/2008

**Installing Final Awning Truss** 

Awnings & Thin Brick Complete on South Wall

Fire and Gas Riser Room is Framed

**Classroom Minus Electrical and Fire Sprinkler Trims** 

Vapor Barrier and Ceiling Tiles Installed in Courtyard

Acid Resistant Pipes and Tank in Casework

## SACRAMENTO CHARTER HIGH SCHOOL

**General Information:** School Principals

Architect SCUSD Project Manager Construction Manager PK Diffenbaugh Ed Manansala HMR Dave Taxara PCM3

**Progress:** Fall 2007 - Summer 2008 project is in progress.

**Site Improvements / Utilities & Wiring:** Summer of 2004 work included renovation of the existing HVAC system to proper working conditions including the existing EMS system. Fall of 2006 - Winter 2007 work included installation of interim housing, parking lot striping, and new ADA accessibility path of travel.

**Alarm/Fire Systems:** Fall of 2006 - Winter 2007 work included replacement of existing fire alarm with a new fire alarm system and new telephone and intercom systems.

**Air Conditioning & Heating Systems:** Previous work included the removal of the old boilers and furnaces, and installation of additional new HVAC units, and temperature control and energy management system.

**Classroom Improvements:** Fall 2006 – Winter 2007 work included the modernization of the Administration Buildings, Multi-purpose Building, gymnasiums, restrooms, and classrooms. Work includes new casework, plumbing fixtures, new carpeting and VCT, interior painting, new ceiling systems, new marker boards and tack boards, new electrical and low voltage raceways throughout, and ADA signage. The East Wing has been completed and is currently occupied. Mechanical, electrical, and plumbing trims along with the remainder of the interior finishes are in progress at the West Wing.

Computer Wiring: Not at this time.

**State Mandated Hazardous Materials:** All work for this project will include asbestos and lead abatement where necessary for construction purposes.

**State Mandated ADA Compliance:** Fall of 2006 work included a new wheelchair lift, new doors, hardware and thresholds, ADA signage, parking lot striping, and ADA accessibility path of travel. Work through the end of December 2007 included site flatwork, bathroom partitions, ramps, guardrails, and ADA signage.

**Other Issues, Comments, and Information:** The scope for the unforeseen emergency wall repair is being completed concurrently with ongoing modernization. Summer 2007 scope included the installation of a new chiller unit. An application for this work was submitted for reimbursement through OPSC's Facility Hardship Program, and it is on the SAB agenda for the meeting on December 10, 2008.

Outstanding Issues: Welding issues at the East Wing are almost complete.

**Budget:** This project is currently within budget. For specific cost information, refer to the Cost Report on page 7.

**Schedule:** Currently this work is less than one week behind schedule. The General Contractor is confident that they will bring the project back on schedule. At the West Wing, the exterior corrugated metal panels and the roofing are complete. The thin brick and perimeter walkways are nearing completion. Mechanical, electrical, and plumbing trims are ongoing and are approximately 65% complete. Interior finishes such as casework, acoustic ceiling tile, and flooring are all on or near schedule. This project is ongoing and is still scheduled to be completed in December 2008.

## SCHOOL OF ENGINEERING AND SCIENCES/POCKET-GREENHAVEN JOINT USE LIBRARY

NEW CONSTRUCTION

General Information:	School Principal Architect
	SCUSD Project Manager Construction Manager

Glenda Golobay WLC Architects Chris Frappier PCM3

**Progress:** The contract documents for the School, Increment 1, were approved by DSA at the end of June. The contract documents for the Library, Increment 2, were submitted to DSA for approval at the beginning of September.

**Site Improvements / Utilities & Wiring:** This project includes new basketball courts, a soccer field, a baseball/softball field, and a new parking lot with all associated site work, utilities and mechanical, electrical, and plumbing work.

Alarm/Fire Systems: New fire alarm and security requirements are implemented into the design.

Air Conditioning & Heating Systems: New HVAC requirements are implemented into the design.

**Classroom Improvements:** This project consists of a new high school campus with three new classroom buildings including one science building, an administration building, and a multi-purpose building. This project will also include a new library building that will be a joint venture project with the City of Sacramento.

**Computer Wiring:** Data requirements are implemented into the design.

State Mandated Hazardous Materials: None at this time.

State Mandated ADA Compliance: ADA requirements are implemented into the design.

Other Issues, Comments, and Information: None at this time.

Outstanding Issues: None at this time.

Budget: For specific cost information, refer to the Cost Report sheet on page 7.

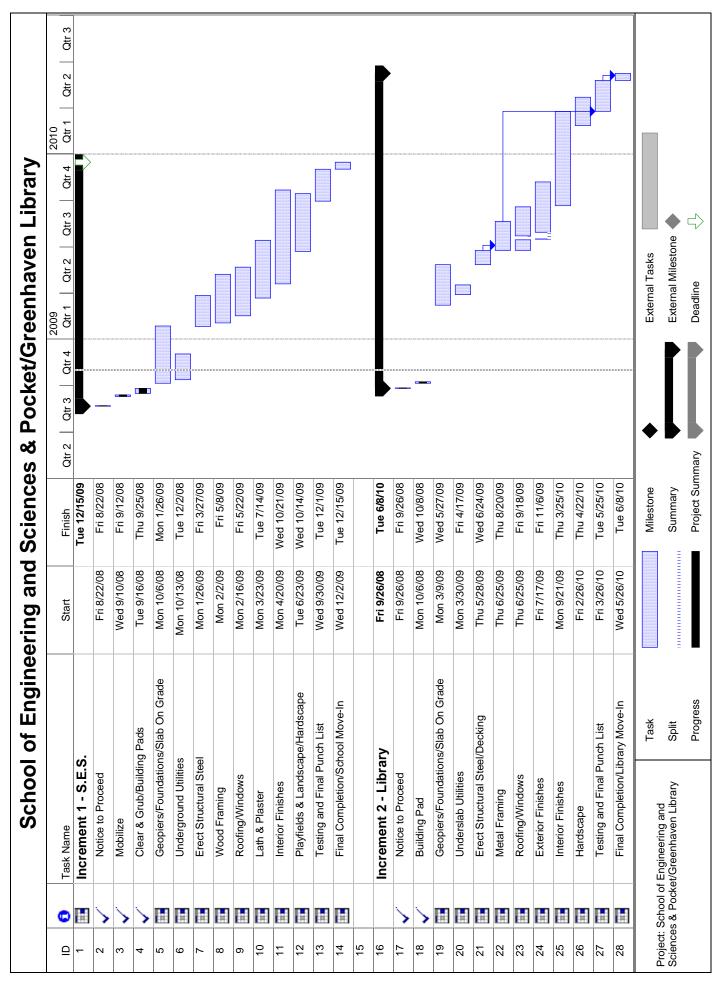

**Schedule:** Construction began in September 2008. The School is scheduled to be completed during the 2009-2010 school year. The Library is scheduled to be completed in the summer of 2010.

Project Closeout

## **CROCKER RIVERSIDE ELEMENTARY SCHOOL**

School Principal	Alvin Lee
Architect	Oshima & Yee
SCUSD Project Manager	Christopher Frappier
Construction Manager	PCM3
	Architect SCUSD Project Manager

- Scope of Work: Project scope for the summer of 2004 and the summer of 2005 included upgrading of HVAC, electrical, and the existing fire alarm system. Also, remodeling of classroom buildings, restrooms, and ADA upgrades. Wheelchair lift completed during the summer of 2007.
- **Recent Progress:** The 2007 project is complete. Punch list is completed. The contractor's closeout is complete. DSA closeout pending.
- **Outstanding Issues:** The design of two ADA ramps for the Multi-Purpose Building is in progress. The installation of these ramps will complete the scope for the modernization.

## **ARTHUR A. BENJAMIN HEALTH PROFESSIONS HIGH SCHOOL**

General Information:	School Principal	Matt Perry
	Architect	DC Architects
	SCUSD Project Manager	Christopher Frappier
	Construction Manager	PCM3

- Scope of Work: Project scope for the summer of 2005 consisted of a brand new campus encompassing 45,000 square feet of new interior space including three Classroom Buildings, Administration Building, Library, Computer Lab, Kitchen, and Gymnasium. Exterior work included new play areas, basketball courts, landscaping, parking lot lighting, a soccer and softball field, new parking lots, and all associated site work including utilities, mechanical, plumbing, and electrical.
- **Recent Progress:** The new school construction portion of this project is complete. Punch list is completed. This portion of the project is closed out. DSA closeout pending. Remaining portion involving additional site work and an encroachment permit with City is complete. The additional site work portion is closed out.
- Outstanding Issues: The MPR flooring was bubbling and had to be removed and replaced during the summer of 2008. There is one DSA Field Trip Note item that needs to be resolved.

## Glossary

1A Diagrams	Area plan drawings on 8-1/2" x 11" sheets depicting all existing facilities.
A/C	Abbreviation for "air conditioning".
A/E	Abbreviation for "Architect/Engineering consultants".
ADA	Abbreviation for "Americans with Disabilities Act".
Advertisement For Bids	The published public notice soliciting bids for construction projects.
AIA	Abbreviation for "American Institute of Architects."
AIEE	Abbreviation for "American Institute of Electrical Engineers".
Alternate	Amount stated in the bid to be added to or deducted from the amount of the base bid if the change in scope is accepted by the owner.
ANSI	Abbreviation for "American National Standards Institute".
ASCE	Abbreviation for "American Society of Civil Engineers".
ASME	Abbreviation for "American Society of Mechanical Engineers".
ASTM	Abbreviation for "American Society for Testing Materials".
BC	Abbreviation for "Building Code".
Bid	An offer to perform the work described in a contract at a specified cost.
Bid Bond	A form of bid security submitted by the bidder as principal.
Bid Date	The date established by the owner for the receipt of bids.
Bidder	A contractor or vendor who submits a bid to perform work or supply material directly for/to the owner, as distinct from a submitter who submits a bid to a prime bidder. A bidder is not a contractor until a contract exists between bidder and the owner.
Bidding Document	The advertisement or invitation to bid, instructions to bidders, the bid form, and the proposed contract documents including any addenda issued prior to bids.
Bidding Period	The calendar period beginning at the time of issuance of bidding requirements and contract documents and ending at the prescribed bid time.
Bidding Requirements	Those documents providing information and establishing procedures and conditions for the submission of bids. They consist of the notice to bidders or advertisement for bids, instructions to bidders, invitation to bid, and sample forms.

Change Order	Document used to alter, add, or delete part of the content in the plans and specifications after the bid opening date.
Clerestory	An upper zone of wall pierced with windows that admit light to the center of a lofty room.
Compression Test	On a specimen of mortar or concrete a test to determine its compressive strength.
Construction Masonry Unit (CMU)	A block or brick cast of Portland cement and suitable aggregate, for laying up with other units as in normal stone masonry construction.
Condenser	A heat-exchange device in a refrigeration system; consists of a vessel or arrangement of pipes or tubing in which refrigerants vapor is liquefied (condensed) by removal of heat.
Construction Contract	The agreement between the successful bidder and the owner.
Construction Cost	The cost of all the construction portions of a project, generally based upon the sum of the construction contract(s) and all change orders; same as "Hard Costs".
Construction Documents Phase (CD)	The third phase of the architect's basic services. The architect prepares for approval by the owner, the working drawings and specifications and the necessary bidding information.
Contingencies	Funds provided for in the budget allow a means for financing eligible unforeseen project costs.
Contract Documents	Those documents that comprise a contract. Typically include: plans, drawings, specifications, modifications, together with any other items stipulated as being specifically included.
Contractor's Liability	Insurance purchased and maintained by the contractor to protect from claims, which may arise out of our result from operations under the contract.
Cost Estimate	A document dealing with costs associated with a project.
СРМ	Abbreviation for "critical path method." A method of scheduling.
CSI	Abbreviation for "Construction Specifications Institutes." (Sections of the bid documents describing building materials and methods which are organized in CSI recognized categories.)
Demographic Study	A study of the size, distribution, and composition of, and changes within, a specified population.
Design	To compose a plan for a building. The architectural concept of a building as represented by plans, elevations, renderings, and other drawings.
Design Development Phase (DD)	The second phase of the architect's basic services consisting of drawings projects.
Direct Lighting	Lighting that distributes 90% to 100% of the emitted light in the direction of the surface to be illuminated.

DSA	Abbreviation for "Division of State Architect". The State office that reviews construction plans for code compliance, structural safety and access compliance purposes.
DOE	Abbreviation for "Department of Education". The State office that reviews construction plans for educational program and access compliance purposes.
Elevation	A drawing showing the vertical elements of a building, either exterior or interior.
ENGR	Abbreviation for "Engineer".
Equipment Ground	In electric wiring, a connection from the exposed metal parts of equipment housings to provide a path to ground in the event such parts become energized as a result of failure of the insulation of a conductor housed within the equipment.
Fascia	Any relatively narrow vertical surface which is projected or supported on columns or elements other than a wall below.
Feeder	In power distribution, a group of electric conductors which originate at a main distribution center and supply one or more secondary distribution centers.
Fenestration	The arrangement and design of windows in a building.
Fire Damper	A damper which closes off an air duct automatically in the event of fire to restrict the passage of fire and smoke.
Fire Wall	An interior or exterior wall having sufficiently high fire resistance to impede passage of smoke, heat and fire for periods of time as designated appropriate by code.
Flexible Metal Conduit	A flexible raceway used for the pulling in or withdrawing of cables or wires after the conduit and its fittings are in place.
General Contractor	The prime contractor who ids responsible for and coordinates most of the work at the construction site, including that performed by subcontractors.
Gunite	A concrete mixture sprayed under pressure over steel reinforcements.
Hydraulic Elevator	An elevator powered by the energy of a liquid under pressure in a cylinder which acts on a piston or plunger to move the elevator car.
Hard Costs	The cost of the construction portions of a project including the construction bid and change orders; same as "Construction Cost".
IEE	Abbreviation for "Institution of Electrical Engineers".
Inspection Services	Services provided by a State certified inspector during the site development and building construction phases of a project.
Joist	One of a series of parallel beams of timber, reinforced concrete, or steel used to support floor and ceiling loads, and supported in turn by larger beams, girders, or bearing walls.
Labeled Door	A fire-rated door carrying a certified rating by the Underwriters' Laboratories, Inc.

Lease-Purchase	An agreement to purchase a structure where the ownership is exchanged at the maturity of the lease term.
Liquidated Damages	A penalty dollar amount per day to be deducted from the contract sum for construction delays beyond the expressed date of completion.
Lowest Responsible Bidder	The bidder who submits the lowest bona-fide bid and is considered to be fully responsible and qualified to perform the work for which the bid is submitted.
Mechanics Lien	A lien on privately owned real property created by State stature in favor of persons supplying labor or material for a building or structure or improvements thereof, generally for the value of the labor or material supplied by them. A lien is generally not placed on a property unless payment due is withheld.
Muntin	A secondary framing member to hold panes within a window, window wall, or glazed door; an intermediate vertical member that divides the panels of a door.
National Electric Code	A nationally accepted guide to the safe installation of wiring and equipment not intended as a design specification but rather for the practical safeguarding of persons and of buildings and their contents from hazards arising from the use of electricity.
