Update on System Process Improvements (Year 2)

- Pre-Registration based on High School Student Course Requests for Core classes
- School Plan for Student Achievement (SPSA) Mid-Year Review Process

Creating opportunities for all students - Pre Registration

- Pre-registration is the most important piece of building a master schedule. It identifies the student's academic needs. By completing the pre registration process early, principals will have more complete data on student's course needs prior to Budget Development.
- Aligning the school's vision with the master schedule happens through the pre-registration process. Equal opportunity for access for all students happens when sites align their course offerings in a clear pathway for graduation and/or college. Key questions that need to be answered include:
 - Are the courses offered to all 9th graders required courses for graduation?
 - Are the courses "a-g"?
 - Are the courses offered for all 10th graders built on the 9th grade year? 11th grade? 12th grade?
 - Do all courses increase in rigor?
 - Are all courses available to all students?
 - If we say "*all students are given an equal opportunity to graduate with the greatest number of postsecondary choices from the widest array of options*" Can we see that by the course offerings?
- **Pre-registration determines the number of courses needed and the number of teachers needed by subject area. Principals need this information for Budget Development to make staffing decisions with a student needs focus.**
- Use of tools, such as the A-G Course Monitoring Tool & the Graduation Course Monitoring Tool, gives counselors and AP's the ability to align the student needs and ensure the students have the most post secondary options available to them.

School Plan for Student Achievement Mid-year Review

- The School-wide Program Requirements state that we must identify the process for evaluating and monitoring the implementation of the School Plan for Student Achievement (SPSA) and progress towards accomplishing the goals.
- The SPSA Mid-Year Review provided schools the framework for monitoring the implementation of high leverage activities and strategies funded with Title I.
- Schools used local data to measure student outcomes and progress toward achieving their stated goals.
- Data from the Mid-Year Review should inform Budget Development decision-making and updates to the SPSA (***Completed by December 18, 2020***).

System Process Highlights from Previous Year

- Integrated approach resulting in cross-departmental team engagement
- Implementation of the Budget Development Process

Next Steps

Upon Board approval:

- By taking this action to approve the Resolution before you, the District will meet the timelines as established by the Education Code.
- Staff will be able to analyze staffing reductions.
- Staff will take attrition into consideration:
 - Vacancies
 - Resignations
 - Retirements
- Staff will determine who and how many employees will be issued layoff notices.
- The District will work with our labor partners to schedule meetings to discuss with employees impacted through the process.
- As new funding or information becomes available, the District may be able to rescind notices.
- Staff recommends approving Resolution No. 3185.
