Organizational Structure and Governance

Criteria for Recommendation Implementation Planning

- **Complexity**

- The higher the number of factors and inter-departmental/disciplinary relationships required within a recommendation, the more complex the recommendation is considered to be. Additional complexity factors include political and/or labor bargaining considerations.

- **Cost**

- In the context of the financial crisis, assessing the new and iterative costs of a recommendation will determine how to allocate District resources efficiently and equitably. In addition, several recommendations reflect a combination of transactional and strategic costs

- **Impact on teaching and learning**

- This refers to the intention and level of influence, minor or significant, a recommendation has to effect student achievement.

- **Contingency**

- Given that the recommendations are not mutually exclusive, some recommendations will need to be implemented before others.

Stand-alone recommendation: #13

Overarching Outcomes

*By June 30, 2020 and each year thereafter, SCUSD will decrease the percentage of non-proficient students by 5%**

- Increase 3rd grade SBAC met or exceeded for Black or African American students:
 - In Mathematics from 17% in 2017-18 to 25%* in 2019-20.
 - In English Language Arts from 18% in 2017-18 to 27%* in 2019-20.
- Increase 6th grade SBAC met or exceeded for Black or African American students:
 - In Mathematics from 15% in 2017-18 to 24%* in 2019-20.
 - In English Language Arts from 19% in 2017-18 to 27%* in 2019-20.
- Increase 8th grade SBAC met or exceeded for Black or African American students:
 - In Mathematics from 16% in 2017-18 to 24%* in 2019-20.
 - In English Language Arts from 29% in 2017-18 to 36%* in 2019-20.
- Increase 4-year cohort graduation rate from 74.1% in 2017-18 to 76.7%* in 2019-20.
- Increase 4-year A-G course completion from 45.9% in 2017-18 to 48.6%* in 2019-20.

*The 2019-20 goal represents a reduction of 10 percent of the percent of students who did not achieve the desired goal in 2017-18. For example, if 20% met the desired goal previously, a total of 80% did not meet the goal. Ten percent of the 80% that did not meet the goal is 8 percentage points. Adding the 8 percentage points to the 20% who previously met the goal equals a hypothetical new goal of 28% for the current year. For each year thereafter 2019-20, the goal is to decrease the percent of non-proficient students by 5%.
