Board Policy

Continuation Education

BP 6184

Instruction

The Governing Board provides a continuation education program to meet the individual needs of students 16 and 17 years old who are not attending a high school or other appropriate educational institution and who are not legally exempted from compulsory school attendance. (Education Code 48400) Continuation education classes shall provide:

1. An opportunity for the student to complete courses required for high school graduation.
2. A program of instruction that emphasizes occupational orientation, or a work-study program that offers intensive guidance services to meet students' needs.

The Board further expects this program to help students develop self-confidence, a sense of responsibility, and tolerance for a variety of viewpoints.

3. A program designed to meet each student's educational needs, with classroom instruction supplemented by independent study, regional occupational programs, job training and placement, career counseling, and School to Career opportunities. (Education Code 48430)

The Superintendent may allow the voluntary enrollment of students under 16 in this program. The Superintendent may enroll students involuntarily in the continuation programs of the district.

(cf. 6182 - Opportunity School/Class/Program)

The Superintendent or designee shall develop administrative regulations governing the involuntary transfer of students into the continuation program, including students under the age of 16.

The Board shall annually evaluate its continuation education program.
