District, or its designee, has determined that certain materials, services, products or things designated by specific brand or trade name shall not be subject to Public Contract Code section 3400(a) in order that: a field test or experiment may be made to determine the product's suitability for future use; and/or in order to match other materials, services, products or things in use on a particular District public improvement either completed or in the course of completion; and/or in order to obtain a necessary item that is only available from one source; and/or in order to respond to an emergency declared by District. INSTRUCTIONS TO BIDDERS

1. BID PREPARATIONS/RESPONSIVENESS

All portions of the Bid Form must be completed before the bid is submitted. Failure to submit all required and completed documents may result in the bid being rejected as nonresponsive. The Bid Form submitted shall contain the original signature in ink (not a photocopy or stamp) by the person or persons legally authorized to bind the Bidder to a contract. The Bidder's representative shall sign and date the Declaration included in the Bid Form. Failure to submit a Bid Form with an original signature and date will cause the Bid to be rejected.

Bidders are warned against making erasures or alterations of any kind on the bid form. Bids which contain omissions, erasures, alterations, conditions, or additions not called for may be rejected. The State of California Business and Professions Code, Division 3, Chapter 9, known as the "Contractors' License Law," establishes licensing requirements for contractors. If a bidder that is a specialty contractor, submits a bid involving three or more specialized building trades, the work of which is more than incidental and supplemental to the performance of the work for which bidder holds a specialty contractor license, Bidder must also hold either (1) a specialty contractor "C" license in each such trade, (2) a general engineering contractor "A" license, or (3) a general building contractor "B" license. This requirement is applicable whether or not Bidder lists a subcontractor for each such trade.

The Bidder and/or Subcontractors, regardless of Tier, must be a Cisco Authorized Technology Partner or Provider with either a Cisco Gold or Cisco Silver Partner Certification, or equivalent, at time of bid. This allows SCUSD to build on the Cisco equipment embedded infrastructure throughout the district.

7. CONTRACTORS EXPERIENCE

In addition to other minimum qualifications, the successful Bidder must also demonstrate to the satisfaction of the District, a minimum of five (5) years experience to be qualified to perform the work described in the Contract Documents:

8. DESIGNATION OF SUBCONTRACTORS

In accordance with California Public Contract Code, Chapter 4 (commencing with Section 4100), Part 1, Division 2 of the Public Contract Code of the State of California (Subletting and Subcontracting Fair Practices Act), each bidder shall list in the bid form (a) all first-tier subcontractors that will perform work, labor or render services to the bidder in or about the construction of the work or improvement to be performed or a subcontractor licensed by the State of California who, under subcontract to the bidder, specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the plans and specifications in an amount in excess of ½ of 1% of the bid amount, and (b) the portion of the work which will be done by each such subcontractor. The Contractor shall list only one subcontractor for each such portion as defined by the Contractor in Contractor's bid. **NOTE:** If an A or B General Contractor is listed as a first-tier subcontractor, the bidder must identify all of the specific scopes of work to be performed by that General subcontractor. If Contractor fails to specify a subcontractor for any portion of the work to be performed under this Contract in excess of one-half of one percent (0.5%) of the bid, Contractor agrees to perform that portion himself.

The bid form contains a Designation of Subcontractor form with spaces for the following information: (1) Work Activity (Type of trade, labor or service); (2) Name and License number of Subcontractor, with Expiration Date, and; (3) Complete Address and Telephone Number. Failure to list the name and location of the business will result in the District treating the bid as if no Subcontractor was listed for the Work Activity. The Bidder thereby represents to the District that the Bidder is fully qualified to perform that portion of Work and shall perform that Work Activity.

Information requested in the Designation of Subcontractor Form for subcontractors, other than the name and location of the business, must be provided within twenty-four (24) hours of notification or the District will treat the Bid as if no Subcontractor was listed for the Work Activity and Bidder will thereby represent to the District that the Bidder agrees that it is fully qualified to perform that portion of the work and shall perform that Work Activity.

9. DISABLED VETERANS BUSINESS ENTERPRISES (DVBE)

This contract is is not subject to DVBE requirements of Education Code § 17076.11.

10. RESPONSIBILITY OF SUBCONTRACTORS

Prior to Contract award, the District will notify the Bidder in writing if the District objects to a subcontractor proposed by the Bidder. District may require financial documents, references, and evidence of experience for the subcontractor. Failure of the District to object to a proposed subcontractor prior to award of the Contract shall not preclude the District from requiring replacement of any subcontractor.

11. REPORTS/PRE-EXISTING CONDITIONS

The District may have obtained report(s) that contain facts that may materially affect bidders' bids. In addition, the District has constructed other public works projects throughout the district, and obtained reports and other information in the course of the design and construction of those other projects, which may contain facts that may materially affect bidders' bids. Bidders are strongly encouraged to inspect all of the District's reports, records and documents referred to above. Reports and documents

are available upon request at District Operations for inspection and copying at bidders' sole cost and expense, during normal working hours.

12. CONTRACTORS RESPONSIBILITY TO VERIFY SUBSURFACE CONDITIONS AND OTHER CONDITIONS

Investigations of subsurface conditions or otherwise, are made for the purpose of design, and the District assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the placement of underground utilities, borings, logs of test borings, or other preliminary investigations, or of the interpretation thereof. Furthermore, there is no guaranty, either expressed or implied, that the conditions indicated are representative of those existing throughout the work, or any part of it, or that unanticipated conditions may not occur.

When reports of existing utility locations, logs of test borings, and/or other such reports are available to the Contractor or included in the Contract Documents, it is expressly understood and agreed that such reports do not constitute a part of the Contract. The reports only represent an opinion of the District as to the character of the conditions to be encountered, and are made available or included in the Contract Documents only for the convenience of the bidders. Bidders must satisfy themselves through their own investigation as to conditions to be encountered.

The submission of a bid shall be conclusive evidence that the Contractor has satisfied himself through Contractor's own investigation as to the conditions to be encountered; the character, quality, and scope of work to be performed; the materials and equipment to be furnished; and all requirements of the Contract Documents.

Investigations of subsurface conditions are made for the purpose of design, and the District assumes no responsibility whatsoever with respect to the sufficiency or accuracy of borings, the log of test borings, or other preliminary investigations, or of the interpretation thereof, and there is no guaranty, either expressed or implied, that the conditions indicated are representative of those existing throughout the work, or any part of it, or that unanticipated conditions may not occur. Making such information available to bidders is not to be construed in any way as a waiver of the previous provisions of this section, and bidders must satisfy themselves, through their own investigations, as to conditions to be encountered.

NOTE: If the successful bidder determines that bore drilling, radar detection services, or other such subsurface investigations are necessary to confirm existing conditions, all associated costs for such investigations shall be the Contractor's responsibility and should be considered as part of the bid process.

13. ADDENDA

Addenda will be issued only by the District and only in writing. Addenda will be identified as such and will be mailed, faxed, sent electronically, or delivered to all who are known by the Contracts Office who have received a complete set of bidding documents and who have provided a street address, fax number, or electronic address, for receipt of addenda. (Copies of addenda will also be made available at designated plan rooms for inspection.) Addenda will be issued such that they should be received by prospective bidders who have provided a street address for receipt of addenda, no later than seventy-two (72) hours prior to the bid deadline. Addenda withdrawing the request for bids, postponing the bid deadline, or providing clarifications that do not materially impact the Bidders Bid, may be issued anytime prior to the bid deadline. Each bidder shall be responsible for ascertaining, prior to submitting a bid, that the bidder has received all issued addenda.

If discrepancies or apparent errors are found in the Contract Documents prior to the date of bid opening, bidders shall submit a written request for clarification, which response to said request will be given in the form of addenda to all bidders, if time permits.

The correction of any discrepancies in, or omissions from the drawings, specifications, or other Contract Documents, or any interpretation thereof, during the bidding period will be made only by an addendum issued by the District. A copy of each such addendum issued by the District will be mailed, faxed or delivered to each person receiving a set of the Contract Documents, and shall be made a part of the Contract. Any other interpretation or explanation of such documents will not be considered binding.

14. FINGERPRINTING RULES AND REGULATIONS

The Contractor and all Subcontractors are required to comply with all rules and regulations enacted by the District regarding fingerprinting. Contractor's employees and subcontractors on this project may experience limited contact with students; therefore the Contractor is referred to the General Conditions of the Contract for specific information on fingerprinting requirements for this project. General Conditions may be found on the District's website, at www.scusd.edu/construction-projects.

If the protest is based on the selection of the apparent lowest responsible bidder, it shall be filed in writing not later than three (3) business days after selection of the apparent lowest responsible bidder. The protest shall specify the reasons and facts upon which the protest is based.

18. WITHDRAWAL OF BID

A bid may be withdrawn at any time prior to the time fixed in the Public Notice to Contractors for the opening of bids by a written request of the bidder, filed with the District. The withdrawal of a bid will not prejudice the right of a bidder to file a new bid within the time prescribed.

19. TAXES

Bid prices shall include allowance for all taxes, including, but not limited to, all applicable Federal, State, and local taxes.

20. DISQUALIFICATION OF BIDDERS

More than one prime bid from any individual, firm, partnership, corporation, or association, under the same or different names, will not be considered. Reasonable grounds for believing that any bidder is interested in more than one bid for the work will cause the rejection of all bids in which such bidder is interested. If there is reason to believe that collusion exists among the bidders, none of the participants in such collusion will be considered.

21. RELIEF OF BIDDERS

Attention is directed to the provisions of Public Contract Code section 5100, and following, concerning relief of bidders, and in particular to the requirements therein, including that if the bidder claims a mistake was made in Contractor's bid, the bidder shall give the District written notice within five (5) days after opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred.

DETERMINATION OF BIDDER RESPONSIBILITY QUESTIONNAIRE

The Public Contract Code requires that school districts, in certain circumstances, bid and award public contracts to the lowest *responsive* and *responsible* bidder. California law establishes a very comprehensive standard concerning bidder responsibility, such that a school agency has wide discretion and broad authority to make its determination of bidder responsibility on a case-by-case basis. Such authority empowers the District to conduct its own investigation, and make an assessment of the facts and circumstances to ascertain the quality, fitness, capacity and trustworthiness of each bidder. It is the purpose of this questionnaire to assist in determining contractor responsibility, and to aid the District in selecting the lowest responsible bidder (when the District does not opt to reject all bids).

Bidders must have completed the questionnaire, truthfully and completely, at least once since **January 1, 2016** to be considered for award on this project. If you completed this questionnaire since that date, you must certify that the data previously submitted is still true and accurate. Bidders must either complete the entire questionnaire or certify the previously submitted data as still current, truthful, and accurate, to be determined responsible and responsive to the bid announcement.

Bidders must answer all questions and provide all requested information, where applicable. If the answer to any question is "none", or is not applicable, please so state in writing. The District will evaluate bidders not only on the information contained in this questionnaire, but also using any and all information available through other sources, including District records, staff or representatives, interviews, and/or reference checks. Based on a complete evaluation, the awarding authority has sole and discretionary judgment to determine if the bidder is deemed responsible and/or qualified to perform the work. Bidders discovered to have omitted required information or provided false, misleading, or substantively incorrect statements, as determined solely by the District, will be disqualified from bidding. The District reserves the right to waive minor irregularities and to make all final determinations regarding prospective bidders' responsibility, fitness, and/or qualifications.
