Health Professions High School, home of the Jaguars, aims to provide students with a unique and innovative educational experience rich with relevant and college preparatory academics, application and leadership experiences-using healthcare as a theme. Our students will graduate college and career ready with much more than a diploma; learning how to suture, getting CPR certified and participating in enrichment programs at local hospitals are only the beginning! We believe that learning should be relevant, engaging and challenging. Come and see what we are all about!
