i-Ready Site Administrator Spring Assessment Information

Watch: Here is a **3-minute video** for site administrators on what to look for with their diagnostic data focusing on the **Diagnostic Results and Needs Analysis reports**: https://videos.curriculumassociates.com/watch/bjHtcxn8yHdKXfgZqo2xyK

iReady is "Share by Schools" in Clever which means anyone listed at the designated school sites has access in Clever. **Admin cannot log in to their admin accounts through Clever.** Administrators must go through the admin site using the instructions below. The iReady link seen on the Clever Portal takes administrators to the *teacher* site.

Admin i-Ready logins: To log in to i-Ready, go to: https://login.i-ready.com/
        Username: admin+email address
        Password: admin

If you have new administrators that need admin access, please let myself and Heather know.
Note: the conventions above apply only to new users added via the sync. Existing i-Ready users will have the same credentials they've used previously.
If you have forgotten your username or password, go to https://login.i-ready.com/login/assistance to recover your username or password

If additional site administrators need access, please reach out to
Natalie Glatter (she/her/hers) | Senior Account Specialist
