

# SACRAMENTO CITY UNIFIED SCHOOL DISTRICT BOARD OF EDUCATION

Agenda Item# 12.1

**Meeting Date:** February 2, 2012

**Subject:** Business and Financial Information

- Information Item Only
- Approval on Consent Agenda
- Conference (for discussion only)
- Conference/First Reading (Action Anticipated: \_\_\_\_\_)
- Conference/Action
- Action
- Public Hearing

**Division:** Administrative Services

**Recommendation:** Receive business and financial information.

**Background/Rationale:** This includes items from the January 12, 2012 Board of Education meeting which were not received at the end of the meeting.\*

- Enrollment and Attendance Report for Month 3 Ending November 25, 2011\*
- Purchase Order Board Report for the Period of November 15, 2011 through December 14, 2011\*
- Actuarial Report on GASB 45 Retiree Benefit Valuation\*
- Purchase Order Board Report for the Period of December 15, 2011 through January 14, 2012
- Report on Contracts within the Expenditure Limitations Specified in Section PCC 20111 for the Period November 1, 2011 through December 31, 2011
- Enrollment and Attendance Report for Month 4 Ending December 23, 2011
- Investment Report as of December 31, 2011

**Financial Considerations:** Reflects standard business information.

**Documents Attached:**

1. Enrollment and Attendance Report for Month 3 Ending November 25, 2011\*
- 2a. Executive Summary: Purchase Order Board Report for the Period of November 15, 2011 through December 14, 2011\*
- 2b. Purchase Order Board Report for the Period of November 15, 2011 through December 14, 2011\*
3. Actuarial Report on GASB 45 Retiree Benefit Valuation\*
- 4a. Executive Summary Purchase Order Board Report for the Period of December 15, 2011 through January 14, 2012
- 4b. Purchase Order Board Report for the Period of December 15, 2011 through January 14, 2012
5. Report on Contracts within the Expenditure Limitations Specified in Section PCC 20111 for the Period November 1, 2011 through December 31, 2011
6. Enrollment and Attendance Report for Month 4 Ending December 23, 2011
7. Investment Report as of December 31, 2011

**Estimated Time of Presentation:** N/A

**Submitted by:** Patricia A Hagemeyer, Chief Business Officer

**Approved by:** Jonathan P. Raymond, Superintendent

## Administrative Services

Purchase Order Board Report for the Period of  
November 15, 2011 through December 14, 2011  
January 12, 2012

### I. Overview/History:

At the April 25, 2011 Board meeting, staff proposed providing a report comparable to one provided by member Rodriguez from the Hawthorne School District at the April 7, 2011 Board meeting. This particular report is generated from the district's on-line finance/human resources system, called "Escape On-Line."

Staff will provide this system-generated report at the first Board meeting of every month. The report will provide information from the 15<sup>th</sup> through the 14<sup>th</sup> of the month.

While this report was discussed during the presentations around contracts, the report provides information on purchases – including supplies – that require the generation of a purchase order. A purchase order is created when a school site or department requests a product or service that requires an outside purchase.

At the bottom of the system generated report, there is a statement that reads in part, "It is recommended that the preceding Purchase Orders be approved and that payment be authorized upon delivery and acceptance of the items ordered." This report is brought before the Board as an information item only and does not require Board approval. As discussed at the April 25, 2011 Board meeting, staff will continue to present contracts (along with a copy of the contract) above the Public Contract Code limit in the Consent Agenda portion of the regular Board meeting agenda. Board approval for Purchase Orders and contracts below the Public Contract Code limit will continue to come before the Board for approval as currently presented.

### II. Driving Governance:

- Education Code Section 17605 states, "The governing board by majority vote may adopt a rule, delegating to any officer or employee of the district as the board may designate, the authority to purchase supplies, materials, apparatus, equipment and services. No rule shall authorize any officer or employee to make any purchases involving an expenditure by the district in excess of the amount specified by Section 20111 of the Public Contract Code. The rule shall prescribe the limits of the delegation as to time, money and subject matter."

# Board of Education Executive Summary

## Administrative Services

Purchase Order Board Report for the Period of  
November 15, 2011 through December 14, 2011

- Board Policy 3312 states, “All purchases shall be made by formal contract or purchase orders, or shall be accompanied by a receipt.”

### III. Budget:

The report itself is first sorted by Purchase Order (PO) type and number. The first column identifies the PO number. The number twelve in the PO Number column identifies the fiscal year as 2011-12. The following describes the different types of codes used for identifying the type of requisition.

- B12 = Blanket Order – used when multiple purchases or payments are made to the same vendor. Twelve (12) identifies the fiscal year as 2011-12.
- CHB = Charge Back Blanket Order – used to reimburse district master purchase accounts, for example such as charging school sites/departments for the district copier rental program.
- CS = Contract Services – used for professional, personal or consulting services.
- J = Just-In-Time – used for supply purchases with specific vendors, for example, Office Depot. Items are ordered through a catalog and delivered to school sites/departments within 24 hours. Catalog items are restricted.
- P = Purchase Orders – unless identified elsewhere, these are regular purchase orders for outside vendors/purchases.
- TB = Textbook Orders – this PO type was established to make sure staff could easily identify textbook orders so they were approved and ordered quickly to ensure students had textbooks by the start of school.
- N = Non-Public Schools – used for Special Education Non-Public School contracts.

The next column in the report is Vendor Name. This is the vendor name on file to whom we make payments based on the requisition and final approvals.

Following the vendor name is the Description. This information comes directly from the “Comment” line on the requisition. It is filled out by the person at the school site/department

# Board of Education Executive Summary

## Administrative Services

Purchase Order Board Report for the Period of  
November 15, 2011 through December 14, 2011  
January 12, 2012

that is creating the requisition. Staff will be communicating with those that create requisitions to make sure no confidential information is included now that this report is a public document. Staff will also work to ensure that the description is as complete as possible.

The Location column indicates the location of the originator of the requisition. It may be a school site or department but indicates who has ordered the particular item.

The Fund column indicates the primary source of funding. For example, Fund 01 is the General Fund. It is important to note that the General Fund does not necessarily mean “unrestricted funds.” Categorical funds such as Title I, Economic Impact Aid and Special Education are accounted for in the General Fund. Further in the report on Page 24, there is a summary that shows the fund number and name of that particular fund.

Finally, the report shows the Account Amount. This is the amount of the particular requisition or order when the PO is generated.

On page 25 of the attached report, there are PO Changes. These are purchase orders that were generated and have had changes to the amount by increasing or decreasing the PO. There are many reasons that a PO may need to be increased or decreased. Unknown price increases or something as simple as the addition of tax and shipping may create an increase to a PO. Frequently, blanket orders are set up for an estimated amount and may be decreased throughout the year. Decreases are noted as a negative number in the report.

### IV. Goals, Objectives and Measures:

Promote transparency by providing additional information to the Board and public on expenditures made by the district throughout the year.

### V. Major Initiatives:

Use information as a guide to ensure continuous improvement.

### VI. Results:

The attached information provides further transparency.

### VII. Lessons Learned/Next Steps:

- Provide report monthly

Re: December 1, 2010 Actuarial Report on GASB 45 Retiree Benefit Valuation

Dear Marianne:

We are pleased to enclose our report providing the results of the December 1, 2010 actuarial valuation of "other post-employment benefits" (OPEB) liabilities for Sacramento City Unified School District (the District). The report's text describes our analysis and assumptions in detail.

The District has previously reported GASB 45 liabilities in its financial statements on pay-as-you-go basis. As no irrevocable trust has yet been established toward the funding of these benefits, the majority of the exhibits presented here reflect continuation of a pay-as-you-go funding policy. We do understand, however, that establishment of a trust is underway and some partial prefunding may occur during the fiscal year ending June, 2012 and beyond. Should this occur, some revision to results presented in this report may be appropriate.

We have based our valuation on employee data and plan information provided by the District. We encourage a review of our summary of the benefits described in Table 3 to be comfortable that we have captured these provisions correctly as there are some changes since the prior valuation was prepared. The liabilities shown in this report also reflect a number of assumption changes since the prior report was prepared.

We appreciate the opportunity to work on this analysis and acknowledge the efforts of the District's staff who provided valuable information and assistance to enable us to perform this valuation. Please let us know if we can be of further assistance.

Sincerely,

A handwritten signature in black ink that reads "Catherine L. MacLeod".

Catherine L. MacLeod, FSA, EA, MAAA

## A. Executive Summary

This report presents the results of the December 1, 2010 actuarial valuation of Sacramento City Unified School District (the District) "other post-employment benefit" (OPEB) programs. Retired employees have continued access to District-sponsored medical plans and the District pays all or part of the medical premium for eligible retirees until age 65. The purpose of this valuation was to assess the OPEB liabilities and provide disclosure information as required by Statement No. 45 of the Governmental Accounting Standards Board (GASB 45).

Prefunding the plan supports use of a higher interest rate and generally produces substantially lower liabilities than a pay-as-you-go funding policy which requires a lower interest rate, such as the 7.5% and 4.5% interest rates used, respectively, in this valuation. Neither rate is a guarantee of future investment performance, but rather an assumption about the long term rate of return. We have selected these rates for illustrative purposes, though the ultimate decision for these rates lies with the District.

The District reported a Net OPEB obligation of \$91,761,722 as of June 30, 2010. Exhibits presented in this report are based on the assumption that the results of the December 1, 2010 valuation will first be applied in determining the annual OPEB expense for the fiscal year ending June 30, 2011. *Assuming the District continues funding on a pay-as-you-go basis,*

- We calculate the GASB 45 actuarial accrued liability (AAL) as of December 1, 2010 to be \$566,291,438. Since the District has not set aside assets in an irrevocable trust to offset these liabilities, the unfunded accrued liability as of this date is \$566,291,438.
- We calculate the annual required contribution (ARC) to be \$43,615,798.
- Contributions for the fiscal year ending June 30, 2011 are estimated to be \$19,137,830, equal to (a) \$18,549,269 in benefit payments made by the District during the period plus (b) \$588,561, the projected current year's implicit subsidy of retiree Kaiser premiums by active employee Kaiser premiums.
- Based on the above, we estimate the net OPEB obligation to be \$116,234,219 as of June 30, 2011.
- We projected results for the fiscal year ending June 30, 2012, assuming the District continues a pay-as-you-go funding policy. These results are also found in the tables beginning on page 12.

To enable the District to compare and consider the relative benefits of prefunding its OPEB obligations, we calculated the prefunding results for the fiscal year ending June 30, 2012 on the same amortization basis currently being used by the District. These results are found in Column 2 of the exhibit in Appendix 2 on page 26, shown alongside the pay-as-you-go results. Should a prefunding policy be of interest to the District for this or any future year, we are available to assist with additional information or calculations, as needed.

There are other funding options in addition to the pay-as-you-go and minimum prefunding options described above, such as partial prefunding, though these would require additional calculations.

## **Executive Summary (Concluded)**

The liabilities shown in the report reflect assumptions regarding continued future employment, rates of retirement and survival, and elections by future retirees to retain coverage for themselves and their dependents. To the extent that actual experience is not what we assumed, future results will be different. We also note that this valuation has been prepared on a closed group basis; no provision is made for new employees.

Details of our valuation process and the various disclosures required by GASB 45 are provided on the succeeding pages.

The next actuarial valuation date should not be later than December 1, 2012. If there are any significant changes in the employee data, benefits provided or the funding policy, please contact us to discuss whether an earlier valuation is appropriate.

## **B. Requirements of GASB 45**

The Governmental Accounting Standards Board (GASB) issued GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. This Statement establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities (assets), note disclosures, and, if applicable, required supplementary information (RSI) in the financial reports of state and local governmental employers. We understand that the District adopted GASB 45 for the fiscal year ended June 30, 2008.

GASB 45 disclosures include the determination of an annual OPEB cost. For the first year, the annual OPEB cost is equal to the annual required contribution (ARC) as determined by the actuary. If the District's actual contribution is less than (greater than) the ARC, then a net OPEB obligation (asset) amount is established. In subsequent years, the annual OPEB expense will reflect adjustments made to the net OPEB obligation, in addition to the ARC (see Table 1D).

The decision whether or not to prefund, and at what level, is at the discretion of the District, as are the manner and term for paying down the unfunded actuarial accrued liability. Once a funding policy has been established, however, the District's auditor may have an opinion as to the timing and manner of any change to such policy in future years. The level of prefunding also affects the selection of the discount rate used for valuing the liabilities.

We note that various issues in this report may involve legal analysis of applicable law or regulations. The District should consult counsel on these matters; Bickmore Risk Services (BRS) does not practice law and does not intend anything in this report to constitute legal advice. In addition, we recommend the District consult with their internal accounting staff or external auditor or accounting firm about the accounting treatment of OPEB liabilities.

## C. Sources of OPEB Liabilities

Post-employment benefits other than pensions (OPEB) comprise a part of compensation that employers offer for services received. The most common OPEB are:

- Medical
- Dental
- Prescription drug
- Vision
- Life insurance

Other possible post-employment benefits may include outside group legal, long-term care, or disability benefits outside of a pension plan. OPEB does not generally include vacation, sick leave<sup>1</sup> or COBRA benefits, which fall under other GASB accounting statements.

A direct employer payment toward the cost of OPEB benefits is referred to as an “explicit” subsidy and these are included in the determination of OPEB liabilities. In addition, if claims experience of employees and retirees are pooled when determining premiums, the retirees pay a premium based on a pool of members that, on average, are younger and healthier. For certain types of coverage, such as medical, this results in an “implicit subsidy” of retiree claims by active employee premiums since the retiree premiums are lower than they would have been if the retirees were insured separately. GASB 45 generally requires an implicit subsidy of retiree premium rates be valued as an OPEB liability (see paragraph 13.a. of GASB 45).

Exceptions may exist when the plan is either a “community-rated” or “cost-sharing” program. GASB guidance indicates that a District whose membership is a small portion (in the neighborhood of 1%) of the total coverage of a multiple employer plan to reasonably conclude that any change in their group’s mix of retirees and active would not affect the premium rates for the plan. In those circumstances, while an implicit subsidy may exist, it is not required to be disclosed.

### OPEB Obligations of the District

The District provides continuation of medical, dental, vision and life coverage to its retiring employees. For retirees and former employees that have chosen to retain this coverage:

- The District contributes directly to the cost of retiree medical coverage. These benefits are described in Table 3 and liabilities have been included in this valuation.
- While retirees may continue dental, vision and/or life insurance coverage at their discretion, the District does not contribute toward the cost of this coverage. Dental and life insurance coverage are rated separately for actives and retired employees; as such, there is no implicit subsidy of retiree claims by active premiums. While retirees and actives are comingled in setting vision premiums, this coverage is relatively incidental and we believe no subsidy exists for this coverage. Neither dental, vision or life insurance coverage is considered further in this report.

---

<sup>1</sup> When a terminating employee’s unused sick leave credits are converted to provide or enhance a defined benefit OPEB, e.g., healthcare benefits, such converted sick leave credits should be valued under GASB 45.

## **Sources of OPEB Liabilities (concluded)**

- Employees in the Sacramento City Teachers Association are covered by either Healthnet or Kaiser medical plans. Experience of actives and retirees in the Healthnet plans is rated separately in setting premiums and thus no subsidy of retiree claims by active premiums exists in this arrangement. However, experience of active employees and pre-Medicare eligible retirees is comingled in setting rates in the Kaiser plan for SCTA members. We believe an implicit subsidy of retiree claims exists for this group and have included the liabilities for this subsidy in this valuation.
- Employees other than those in the Sacramento City Teachers Association are covered by the CalPERS medical program. The experience of public agency employer membership in this program is community-rated (“OPEB Assumption Model”, 11/14/2006) and the District’s membership in this program is incidental relative to the total number of members covered. This report, therefore, does not make age-related premium adjustments or compute an implicit rate subsidy for employees covered under this program.

## D. Valuation Process

The valuation has been based on employee census data initially submitted to us by the District in January 2011 and clarified in various related communications. Summaries of that data are provided in Table 2. While the individual employee records have been reviewed to verify that it is reasonable in various respects, the data has not been audited and we have otherwise relied on the District as to its accuracy. A summary of the benefits provided under the Plan is provided in Table 3A, based on information supplied to BRS by the District. The valuation described below has been performed in accordance with the actuarial methods and assumptions described in Table 4.

In the specific development of the projected benefit values and liabilities, we first determine an expected premium or benefit stream over the employee's future retirement. We then calculate a present value of these premiums as of the valuation date.

- These present value determinations reflect assumptions for the likelihood that an employee may not continue in service with the District to receive benefits;
- For those that do, appropriate assumptions are made to reflect the probability of retirement at various ages.
- After reduction for the probability an employee may not receive a benefit, for the remaining probability he or she does, those benefits reflect assumptions as to whether they will elect coverage for themselves and/or dependents.
- The cost of benefits payable, once they begin for each employee, reflect expected trends in the cost of those benefits and the assumptions as to the expected date(s) those benefit will cease. The final payments for currently active employees may not be made for 75 years or more.

The resulting present value for each employee is allocated as a level percent of payroll each year over the employee's career using the entry age normal cost method. This creates a cost expected to increase each year as payroll increases. Amounts attributed to prior fiscal years form the "actuarial accrued liability" (AAL). The amount of future OPEB cost allocated to the current year is referred to as the "normal cost".

Where contributions have been made to an irrevocable OPEB trust, the accumulated value of trust assets is applied to offset the AAL. It is our understanding that the District's plans have not yet been funded and no assets have been set aside in an irrevocable trust as of the valuation date. The portion of the AAL not covered by assets is referred to as the unfunded actuarial accrued liability (UAAL).

### E. Changes Since the Prior Valuation

In addition to updates in employee data and premium information, this valuation reflects the following principal changes which impacted projected OPEB costs:

- (a) A change in the benefits provided to certain SCTA retirees (specifically, longer eligibility requirements for some future retirees and a change in out-of-area rate plans made available by the District for current and future SCTA retirees covered by Medicare).
- (b) A change in the demographic actuarial assumptions used (rates of termination, mortality and retirement) to reflect the rates used in the most recent actuarial valuations of the pension plans covering District employees, and
- (c) A change in the medical trend rate assumption to better reflect anticipated experience.

The overall effect of these changes was a modest decrease in liabilities relative to what we expected as of December 1, 2010, as shown below:

Results as of December 1, 2010	Expected	Actual
<b>Number of Covered Employees</b>		
Actives	4,730	4,448
Retirees	3,118	3,206
Total Participants	7,848	7,654
<b>Actuarial Present Value of Projected Benefits</b>		
Actives	\$ 520,535,774	\$ 484,927,852
Retirees	291,993,972	298,164,856
Total APVPB	812,529,745	783,092,708
<b>Actuarial Accrued Liability (AAL)</b>		
Actives	315,384,810	268,126,582
Retirees	291,993,972	298,164,856
Total AAL	607,378,781	566,291,438
<b>Actuarial Value of Assets</b>		
	-	-
<b>Unfunded AAL (UAAL)</b>	607,378,781	566,291,438
<b>Normal Cost</b>	19,520,161	18,101,918

Based on experience to date, we have assumed that no SCTA retirees will opt to decline medical benefits and receive 50% of the average in-area premium cost to purchase other coverage of their choice. As experience develops under this option, we will decide on an appropriate assumption to reflect expected utilization of this option.

We have also not considered the reduction in District liabilities resulting from the contributions required of active SCTA employees, since a trust meeting the requirements of GASB 45 for the funding of OPEB liabilities had not been established as of the date of this valuation.

## F. Funding Policy

The specific calculation of the ARC and annual OPEB expense for an employer depends on how the employer elects to fund these benefits. Contributing an amount greater than or equal to the ARC each year is referred to as “prefunding”. Prefunding generally allows the employer to have the liability calculated using a higher discount rate, which in turn lowers the liability. In addition, following a prefunding policy does not build up a net OPEB obligation because the contribution equals or exceeds the annual OPEB cost each year.

### Determination of the ARC

The Annual Required Contribution (ARC) consists of two basic components, which have been adjusted with interest to the District’s fiscal year end:

- The amounts attributed to active employee service performed in the current fiscal year (the normal cost) and
- Amortization of the unfunded actuarial accrued liability (UAAL).

These results are summarized in Table 1C.

### Decisions Affecting the Amortization Payment

The period and method for amortizing the AAL can significantly affect the ARC. GASB 45:

- Prescribes a maximum amortization period of 30 years and requires no minimum amortization period (except 10 years for certain actuarial gains). Immediate full funding of the liability is also permitted.
- Allows amortization payments to be determined (a) as a level percentage of payroll, designed to increase over time as payroll increases, or (b) as a level dollar amount much like a conventional mortgage, so that this component of the ARC does not increase over time. Where a plan is closed and has no ongoing payroll base, a level percent of payroll basis is not permitted.
- Allows the amortization period to decrease annually by one year (closed basis) or to be maintained at the same number of years (open basis).

It is our understanding that the District’s pay-as-you-go funding policy includes amortization of the unfunded AAL over a closed 30-year period initially established in determining the ARC for the fiscal year ended June 30, 2008. A 26 year period was used in developing the annual OPEB expense for the 2011-12 fiscal year, with 25 years remaining as of June 30, 2012. Amortization payments are determined on a level percent of pay basis.

### Funding of the Implicit Subsidy

The implicit subsidy liability created when expected retiree medical claims exceed the retiree premiums was described earlier in Section C. In practical terms, when the City pays the premiums each year for active SCTA members in the Kaiser plan, their premiums include an amount expected to be transferred to cover the portion of the pre-Medicare retirees’ claims not covered by their premiums. This transfer represents the current year’s implicit subsidy. Paragraph 13.g.of GASB 45 allows for recognition of payments to an irrevocable trust *or directly to the insurer* as an employer’s contribution to the ARC. We have estimated the portion of this year’s premium payment attributable to the implicit subsidy and recommend netting this against the funding requirement for the implicit subsidy (see Table 1D).

## **G. Choice of Actuarial Funding Method and Assumptions**

The “ultimate real cost” of an employee benefit plan is the value of all benefits and other expenses of the plan over its lifetime. These expenditures are dependent only on the terms of the plan and the administrative arrangements adopted, and as such are not affected by the actuarial funding method. The actuarial funding method attempts to spread recognition of these expected costs on a level basis over the life of the plan, and as such sets the “incidence of cost”. Methods that produce higher initial annual (prefunding) costs will produce lower annual costs later. Conversely, methods that produce lower initial costs will produce higher annual costs later relative to the other methods. GASB 45 allows the use of any of six actuarial funding methods; a brief description of each can be found in the glossary.

### **Factors Impacting the Selection of Funding Method**

While the goal of GASB 45 is to match recognition of retiree medical expense with the periods during which the benefit is earned, the funding methods differ because they focus on different financial measures in attempting to level the incidence of cost. Appropriate selection of a funding method contributes to creating intergenerational equity between generations of taxpayers. The impact of potential new employees entering the plan may also affect selection of a funding method, though this is not a factor in this plan.

We believe it is most appropriate for the plan sponsor to adopt a theory of funding and consistently apply the funding method representing that theory. This valuation was prepared using the entry age normal cost method with normal cost determined on a level percent of pay basis. The entry age normal cost method often produces initial contributions between those of the other more common methods and is generally regarded by pension actuaries as the most stable of the funding methods and is one of the most commonly used methods for GASB 45 compliance. In addition, it is the method required for plans participating in the CalPERS OPEB trust, CERBT.

### **Factors Affecting the Selection of Assumptions**

Special considerations apply to the selection of actuarial funding methods and assumptions for the District. In particular, CalPERS has issued a set of standardized actuarial methods and assumptions to be used by entities participating in the CalPERS prefunding vehicle for OPEB liabilities, the California Employers Retiree Benefit Trust (CERBT). The actuarial assumptions used in this report for GASB 45 analysis are intended to comply with CERBT requirements. While this report does not take a position either on whether the District should prefund or the appropriate investment vehicle for doing so, assuming our application of methods and assumptions is acceptable to CalPERS, the option of using CERBT is available to the District using the analysis in this report.

In selecting an appropriate discount rate, GASB states that the discount rate should be based on the expected long-term yield of investments used to finance the benefits. Since no OPEB trust has yet been established, for purposes of this valuation, we have used a 7.5% discount rate in developing results on a funded basis and a 4.5% rate for pay-as-you-go funding. The actual discount rate, should the District decide to begin prefunding, should be adjusted, as appropriate, to reflect the particular investments and asset allocation strategy selected.

## H. Certification

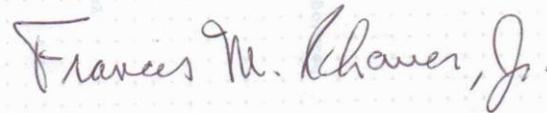

We certify that this report has been prepared in accordance with our understanding of GASB 45, and that the figures in Tables 1A, 1B and 1C accurately present our analysis of the actuarial calculations for this plan required by GASB 45. Each signing individual is a Manager in the Health & Benefits Actuarial Unit at Bickmore Risk Services and a Member of the American Academy of Actuaries who satisfies the qualification requirements for rendering this opinion.

Signed: October 6, 2011

**Table 1A**  
**Comparison of Valuation Results**  
**Pay-As-You-Go Basis**

The following exhibit compares the results of the December 1, 2008 valuation (Column 1) to the results of the December 1, 2010 valuation (Column 2).

Valuation date	Pay-As-You-Go	
	12/1/2008	12/1/2010
Discount rate	4.50%	4.50%
<b>Number of Covered Employees</b>		
Actives	4,730	4,448
Retirees	3,118	3,206
Total Participants	7,848	7,654
<b>Actuarial Present Value of Projected Benefits</b>		
Actives	\$ 478,832,744	\$ 484,927,852
Retirees	297,873,390	298,164,856
Total APVPB	776,706,134	783,092,708
<b>Actuarial Accrued Liability (AAL)</b>		
Actives	254,567,628	268,126,582
Retirees	297,873,390	298,164,856
Total AAL	552,441,018	566,291,438
<b>Actuarial Value of Assets</b>	-	-
<b>Unfunded AAL (UAAL)</b>	552,441,018	566,291,438
<b>Normal Cost</b>	18,310,630	18,101,918
<b>Benefit Payments</b>		
Actives (in retirement)	727,160	69,096
Retirees	15,914,429	19,068,734
Total	16,641,589	19,137,830

It is our understanding that the results of the December 1, 2010 valuation results will be used to develop the annual OPEB expense and net OPEB obligation for the fiscal years ending June 30, 2011 and June 30, 2012. Those calculations begin on the following page.

**Table 1B**  
**Summary of Valuation Results**  
**Pay-As-You-Go Funding Basis**

The following summarizes the results of the December 1, 2010 valuation for the fiscal year ending June 30, 2011, and adjusted (rolled forward) amounts for the fiscal year ending June 30, 2012.

Valuation date	Pay-As-You-Go Basis	
	12/1/2010	
For fiscal year beginning	7/1/2010	7/1/2011
For fiscal year ending	6/30/2011	6/30/2012
Discount rate	4.50%	4.50%
<b>Number of Covered Employees</b>		
Actives	4,448	4,448
Retirees	3,206	3,206
Total Participants	7,654	7,654
<b>Actuarial Present Value of Projected Benefits</b>		
Actives	\$ 484,927,852	\$ 506,680,509
Retirees	298,164,856	292,513,541
Total APVPB	783,092,708	799,194,050
<b>Actuarial Accrued Liability (AAL)</b>		
Actives	268,126,582	299,039,686
Retirees	298,164,856	292,513,541
Total AAL	566,291,438	591,553,227
<b>Actuarial Value of Assets</b>	-	-
<b>Unfunded AAL (UAAL)</b>	566,291,438	591,553,227
<b>Normal Cost</b>	18,101,918	18,690,230
<b>Benefit Payments</b>		
Actives (in retirement)	69,096	2,055,529
Retirees	19,068,734	17,832,251
Total	19,137,830	19,887,780

**Table 1C**  
**Calculation of the Annual Required Contribution**  
**Pay-As-You-Go Funding Basis**

The following exhibit develops the amortization payments and the annual required contribution (ARC) on a pay-as-you-go basis for the fiscal years ending June 30, 2011 and June 30, 2012.

Fiscal Year End	Pay-As-You-Go Basis	
	6/30/2011	6/30/2012
<b>Funding Policy</b>		
Discount rate	4.50%	4.50%
Amortization method	Level % of Pay	Level % of Pay
Initial amortization period (in years)	30	30
Remaining period (in years)	27	26
<b>Determination of Amortization Payment</b>		
UAAL	566,291,438	591,553,227
Factor	23.1915	22.4602
Payment	24,418,060	26,337,843
<b>Annual Required Contribution (ARC)</b>		
Normal Cost	18,101,918	18,690,230
Amortization of UAAL	24,418,060	26,337,843
Interest to 06/30	1,095,820	1,160,458
<b>Total ARC</b>		
Determined as of fiscal year end	43,615,798	46,188,531

While the following is not intended to be used to determine the normal cost or ARC in future years, this information may be of value for planning purposes. The projected covered payroll shown for each year below reflects assumed increases in aggregate payroll since the valuation date.

Projected covered payroll	230,000,000	237,475,000
Normal Cost as a percent of payroll	7.9%	7.9%
ARC as a percent of payroll	19.0%	19.4%
ARC per active ee	9,806	10,384

**Table 1D  
Expected OPEB Disclosures  
Pay-As-You-Go Funding Basis**

The following exhibit displays the expected June 30, 2011 and 2012 disclosures assuming the District continues its previously established pay-as-you-go funding policy provided under GASB 45.

Fiscal Year End	Pay-As-You-Go Basis	
	6/30/2011	6/30/2012
<b>1. Calculation of the Annual OPEB Expense</b>		
a. ARC for current fiscal year	43,615,798	46,188,531
b. Interest on Net OPEB Obligation (Asset) at beginning of year	4,129,277	5,230,540
c. Adjustment to the ARC	(4,134,748)	(5,408,000)

**Table 2**  
**Summary of Employee Data**

The District reported 4,448 active employees; of these, 4,309 were currently participating in the medical program while 139 employees were waiving coverage as of the valuation date. Age and service information for the reported individuals is provided below:

Distribution of Benefits-Eligible Active Employees								
Current Age	Years of Service						Total	Percent
	Under 1	1 to 4	5 to 9	10 to 14	15 to 19	20 & Up		
Under 25	30	17	0	0	0	0	47	1%

UPE	133	146	279
<b>Total</b>	<b>4,448</b>	<b>3,206</b>	<b>7,654</b>

### Table 3A Summary of Retiree Benefit Provisions

**OPEB provided:** The District has indicated that the OPEB provided is medical, dental, vision and life plan coverage to its retiring employees. However, the only OPEB creating a liability for the District is medical plan coverage.

**Access to coverage:** Medical coverage is *available* for employees who satisfy the requirements for retirement under the applicable retirement system:

- For CalPERS, attained age 50 with 5 years of State or public agency service or approved disability retirement.
- For CalSTRS, attained age 55 with 10 years or age 50 with 30 years of service.
- An employee who terminates employment with the District before meeting the age conditions above may not continue medical coverage beyond the COBRA period.

**Benefits provided:** For retirees who meet the additional conditions set forth below, the District subsidizes the cost of retiree medical coverage as described in the following table:

Group	Applies to Retirees	Minimum Age	Minimum Service	Benefit	Term of Benefit
United Professional Educators Classified Supervisors Association Confidential Management non-represented Supervisors	Hired at any date	50	5	Minimum employer contribution (MEC)	Life
	Hired before 11/15/96	55	10	Up to 100% of the Kaiser active employee premium (Sacramento region)	Life
	Hired after 11/14/96	60	10		Age 65
Teamsters & SEIU	Hired at any date	50	5	Minimum employer contribution (MEC)	Life
	Hired before 5/22/87	50	10	Up to 100% of the Kaiser active employee premium (Sacramento region)	Life
	Hired after 5/21/87 and before 5/22/96	55	10		
	Hired after 5/21/96	60	20	Up to 50% of the Kaiser active employee premium (Sacramento region)	Life
Sacramento City Teachers Association	Retired at any date	55	5	Can continue medical coverage at their own expense	Life
	Retired before 1/1/75	55	10	Up to \$121 per month	Life
	Retired after 12/31/74 and had attained age 55 with 10 years of service prior to 7/1/13	55	10	100% of the employee only premium	Life
					Life
	Retire after 6/30/13 and had not attained age 55 with 10 years of service prior to 7/1/13	55	20	100% of the employee only premium	Life
56		19			
57		18			
58		17			
	59	16			
	60	15			

### Table 3A Summary of Retiree Benefit Provisions (Concluded)

All District employees, except SCTA members, are currently provided medical coverage through CalPERS as permitted under the Public Employees' Medical and Hospital and Care Act (PEMHCA). As a condition of participation in this medical program, the District is obligated to contribute toward the cost of retiree medical coverage for the retiree's lifetime or until coverage is discontinued. Employees covered by the CalPERS medical program must commence his or her retirement benefit within 120 days of terminating employment with the District to retain access to this coverage. According to current PEMHCA resolutions provided to BRS, the District pays the minimum employer contribution (MEC) for both active and retired employees (\$108 per month in 2011; \$112 per month in 2012)<sup>2</sup>.

Other than continuation of the MEC for retirees covered by the CalPERS/PEMHCA medical program, there are no other paid survivor benefits, though a spouse may continue coverage at his or her expense.

SCTA retirees may opt to decline medical benefits and receive 50% of the average in-area premium cost to purchase other coverage of their choice.

**Current premium rates:** The 2011 CalPERS monthly medical plan rates are below.

Sacramento 2011 Health Plan Rates						
Plan	Actives and Pre-Med Retirees			Medicare Eligible		
	Ee Only	Ee & 1	Ee & 2+	Ee Only	Ee & 1	Ee & 2+
Blue Shield HMO	\$609.14	\$1,218.28	\$1,583.76	\$337.88	\$675.76	\$1,013.64
Blue Shield NetValue HMO	\$541.43	\$1,082.86	\$1,407.72	\$337.88	\$675.76	\$1,013.64
Kaiser HMO	\$524.51	\$1,049.02	\$1,363.73	\$282.30	\$564.60	\$846.90
PERS Choice PPO	\$524.04	\$1,048.08	\$1,362.50	\$375.88	\$751.76	\$1,127.64
PERS Select PPO	\$458.27	\$916.54	\$1,191.50	\$375.88	\$751.76	\$1,127.64
PERS Care PPO	\$831.50	\$1,663.00	\$2,161.90	\$433.66	\$867.32	\$1,300.98

The tables above illustrate the rates for residents of the Sacramento Area rate group. While different rate may apply where the member resides outside of this area, these variances are reflected in the valuation, but not listed here. Additionally, CalPERS charges an administrative fee, however these expenses are not separately analyzed in this valuation.

The medical rates that apply to SCTA employees as of December 1, 2010 are as follows:

Health Plan	Active	Retired							
		Pre-65		Post-65					
		Risk	Out of Area	Risk	Out of Area	Medicare			
						Full	Part A	Part B	None
Health Net	\$541.16	\$916.38	\$1,145.29	\$373.93	\$742.88	\$687.09	N/A	N/A	N/A
Kaiser	500.32	500.32	500.32	428.17	N/A	856.34	971.97	735.16	1383.95

The premiums valued for SCTA active employees in retirement were determined by weighting retiree premiums based on the current distribution of SCTA retirees by plan

<sup>2</sup> It is our understanding that there exists a pre-tax flexible benefit plan in place for active employees, which provides medical premiums in excess of the MEC, and such additional payments are not required to be provided to retired employees to meet PEMHCA requirements.

### **Table 3B**

## **General CalPERS Annuitant Eligibility Provisions**

The content of this section has been drawn from Section C, Summary of Plan Provisions, of the State of California OPEB Valuation as of June 30, 2010, issued March 2011, to the State Controller from Gabriel Roeder & Smith. It is provided here as a brief summary of general annuitant and survivor coverage.

#### *Retired Employees*

A member is eligible to enroll in a CalPERS health plan if he or she retires within 120 days of separation from employment and receives a monthly retirement allowance. If the member meets this requirement, he or she may continue his or her enrollment at retirement, enroll within 60 days of retirement, or enroll during any Open Enrollment period. If a member is currently enrolled in a CalPERS health plan and wants to continue enrollment into retirement, the employer will notify CalPERS and the member's coverage will continue into retirement.

Eligibility Exceptions: Certain family members are not eligible for CalPERS health benefits:

- Children age 26 or older
- Children who have been married
- Children's spouses
- Former spouses
- Never enrolled or deleted disabled children over age 26
- Grandparents
- Parents
- Children of former spouses
- Other relatives
- 

#### *Coordination with Medicare*

CalPERS retired members who qualify for premium-free Part A, either on their own or through a spouse (current, former, or deceased), must sign up for Part B as soon as they qualify for Part A. A member must then enroll in a CalPERS sponsored Medicare plan. The CalPERS-sponsored Medicare plan will pay for costs not paid by Medicare, by coordinating benefits.

#### *Survivors of an Annuitant*

If a CalPERS annuitant satisfied the requirement to retire within 120 days of separation, the survivor may be eligible to enroll within 60 days of the annuitant's death or during any future Open Enrollment period. Note: A survivor cannot add any new dependents; only dependents that were enrolled or eligible to enroll at the time of the member's death qualify for benefits.

Surviving registered domestic partners who are receiving a monthly annuity as a surviving beneficiary of a deceased employee or annuitant on or after January 1, 2002, are eligible to continue coverage if currently enrolled, enroll within 60 days of the domestic partner's death, or enroll during any future Open Enrollment period.

Surviving enrolled family members who do not qualify to continue their current coverage are eligible for continuation coverage under COBRA.

**Table 4**  
**OPEB Valuation Actuarial**  
**Methods and Assumptions**

Valuation Date	December 1, 2010
Funding Method	Entry Age Normal Cost, level percent of pay
Asset Valuation Method	Market value of assets (\$0; plan has not yet been funded)
Discount Rate	4.5% if unfunded; 7.5% if funded
Salary Increase	3.25% per year
Assumed Increase for Amortization Payments	3.25% per year where determined on a percent of pay basis

**Table 4 - Actuarial Methods and Assumptions  
(Continued)**

Healthcare Trend Rate

Medical plan premiums are assumed to increase once each year. The increases over the prior year's levels are assumed to be effective on the dates shown in the chart below:

Effective July 1	Premium Increase	Effective July 1	Premium Increase
2012	9.0%	2016	7.0%
2013	8.5%	2017	6.5%
2014	8.0%	2018	5.5%
2015	7.5%	2019 & up	4.5%

The Minimum Employer Contribution (MEC) required under PEMHCA is assumed to increase at 4.5% per year.

Participation Rate

*Active employees:*

- (a) 40% of active employees (including those not currently covered by a District plan) who qualify only for the Minimum Employer Contribution are assumed to continue medical coverage through the District in retirement.
- (b) 100% of active employees who qualify for greater District benefits are assumed to elect to continue their coverage in retirement.

*Retired participants:* Existing medical plan elections are assumed to be maintained through retirement until death.

Where District-paid benefits decrease at age 65, only 75% of those participating are assumed to continue their coverage through the District after benefits are reduced.

Spouse Coverage

*Current active employees:* 20% of eligible retirees are assumed to elect coverage for an eligible spouse in retirement. Husbands are assumed to be 3 years older than their wives.

*Currently retired participants:* Based on existing elections for spouse coverage.

Surviving spouses are assumed to retain coverage until their death.

Medicare Eligibility

Absent contrary data, all individuals are assumed to be eligible for Medicare Parts A and B at 65.

## Table 4 - Actuarial Methods and Assumptions (Concluded)

### Development of Age-related Premiums

*Kaiser SCTA medical premiums applicable prior to Medicare eligibility:* Actual premium rates were adjusted to an age-related basis by applying the rates per the "Representative Curve for General Use" as presented by Petertil, August 2003, Society of Actuaries. Rates between 50 and 64 were averaged and rounded to the nearest .5%. A uniform rate was developed and applied prior to age 50 based on analysis of plans offered. Based on this, premiums for ages below 65 were assumed to increase at the rate of 3.5% per year.

### Changes Since the Prior Valuation:

#### Discount rates

*Funded rate illustrated:* decreased from 7.75% to 7.5%

#### Demographic assumptions

*For CalPERS participants:* rates were updated from the 2002 experience study to the 2007 experience study.

*For CalSTRS participants:* rates were updated to reflect those in the most recent actuarial valuation for the CalSTRS retirement system.

#### Healthcare trend

Medical plan premium rates are assumed to increase at slightly higher rates than were assumed in the prior valuation. Please refer to the 2008 report to compare the changes by year.

Increases in the Minimum Employer Contribution required under PEMHCA, however, were decreased to an assumed increase of 4.5% per year.

**Table 5**  
**Projected Benefit Payments**

The following is an estimate of other post-employment benefits to be paid on behalf of current retirees and current employees expected to retire from the District.

- No benefits expected to be paid on behalf of current active employees prior to retirement are considered in this projection.
- No benefits for potential future employees have been included.

Expected annual benefits have been projected on the basis of the actuarial assumptions outlined in Table 4.

Projected Annual Benefit Payments							
Fiscal Year Ending June 30	Explicit Subsidy			Implicit Subsidy			Total
	Current Retirees	Future Retirees	Total	Current Retirees	Future Retirees	Total	
2011	18,549,269	-	18,549,269	519,465	69,096	588,561	19,137,830

The implicit subsidy liability shown above for SCTA members arises out of the coverage of current and expected future pre-Medicare retirees in the Kaiser plan. For further details, please refer to pages 5 and 8 of the report, which discuss the implicit subsidy liability and how it is funded. Because all employees other than SCTA members participate in the CalPERS medical program, no implicit subsidy liability is required to be valued or disclosed.

## Appendix 2 Comparison of Pay-As-You-Go and Prefunding Results

The following table compares the valuation results for the fiscal year end June 30, 2012 on a Pay-As-You-Go basis to those determined on a Prefunding basis.

Valuation date	Pay-As-You-Go	Prefunding
	12/1/2010	12/1/2010
For fiscal year beginning	7/1/2011	7/1/2011
For fiscal year ending	6/30/2012	6/30/2012
Discount rate	4.50%	7.75%
<b>Actuarial Present Value of Projected Benefits</b>		
Actives	\$ 506,749,605	\$ 244,005,336
Retirees	293,033,006	214,607,227
Total APVPB	799,782,611	458,612,563
<b>Actuarial Accrued Liability (AAL)</b>		
Actives	299,108,782	175,131,030
Retirees	293,033,006	214,607,227
Total AAL	592,141,788	389,738,257
<b>Actuarial Value of Assets</b>		
	-	-
<b>Unfunded AAL (UAAL)</b>	592,141,788	389,738,257
<b>Normal Cost</b>	18,690,230	8,013,484
<b>Benefit Payments</b>		
Actives (in retirement)	2,055,529	2,055,529
Retirees	17,832,251	17,832,251
Total	19,887,780	19,887,780
<b>Determination of Amortization Payment</b>		
UAAL	592,141,788	389,738,257
Factor	22.4602	16.0468
Payment	26,364,048	24,287,600
<b>Annual Required Contribution (ARC)</b>		
Normal Cost	18,690,230	8,013,484
Amortization of UAAL	26,364,048	24,287,600
Interest to 06/30	1,161,133	1,424,304
<b>Total ARC at fiscal year end</b>	46,215,411	33,725,388
<b>Calculation of Expected Contribution</b>		
Expected payments on behalf of retirees	\$ 19,887,780	\$ 19,887,780
Expected contribution to OPEB trust	-	13,837,608
<b>Total Expected Employer Contribution</b>	19,887,780	33,725,388

## Glossary

Actuarial Accrued Liability (AAL) – Total dollars required to fund all plan benefits attributable to service rendered as of the valuation date for current plan members and vested prior plan members; see “Actuarial Present Value”

Actuarial Funding Method – A procedure which calculates the actuarial present value of plan benefits and expenses, and allocates these expenses to time periods, typically as a normal cost and an actuarial accrued liability

Actuarial Present Value (APV) – The amount presently required to fund a payment or series of payments in the future, it is determined by discounting the future payments by an appropriate interest rate and the probability of nonpayment.

Aggregate – An actuarial funding method under which the excess of the actuarial present value of projected benefits over the actuarial accrued liability is levelly spread over the earnings or service of the group forward from the valuation date to the assumed exit date, based not on individual characteristics but rather on the characteristics of the group as a whole

Annual Required Contribution (ARC) – The amount the employer would contribute to a defined benefit OPEB plan for a given year, it is the sum of the normal cost and some amortization (typically 30 years) of the unfunded actuarial accrued liability

Attained Age Normal Cost (AANC) – An actuarial funding method where, for each plan member, the excess of the actuarial present value of benefits over the actuarial accrued liability (determined under the unit credit method) is levelly spread over the individual’s projected earnings or service forward from the valuation date to the assumed exit date

CalPERS – Many state governments maintain a public employee retirement system; CalPERS is the California program, covering all eligible state government employees as well as other employees of other governments within California who have elected to join the system

Defined Benefit (DB) – A pension or OPEB plan which defines the monthly income or other benefit which the plan member receives at or after separation from employment

Defined Contribution (DC) – A pension or OPEB plan which establishes an individual account for each member and specifies how contributions to each active member’s account are determined and the terms of distribution of the account after separation from employment

Entry Age Normal Cost (EANC) – An actuarial funding method where, for each individual, the actuarial present value of benefits is levelly spread over the individual’s projected earnings or service from entry age to assumed exit age

## **Glossary (Continued)**

Frozen Attained Age Normal Cost (FAANC) – An actuarial funding method under which the excess of the actuarial present value of projected benefits over the actuarial accrued liability (determined under the unit credit method) is levelly spread over the earnings or service of the group forward from the valuation date to the assumed exit date, based not on individual characteristics but rather on the characteristics of the group as a whole

Frozen Entry Age Normal Cost (FEANC) – An actuarial funding method under which the excess of the actuarial present value of projected benefits over the actuarial accrued liability (determined under the entry age normal cost method) is levelly spread over the earnings or service of the group forward from the valuation date to the assumed exit date, based not on individual characteristics but rather on the characteristics of the group as a whole

Financial Accounting Standards Board (FASB) – A private, not-for-profit organization designated by the Securities and Exchange Commission (SEC) to develop generally accepted accounting principles (GAAP) for U.S. public corporations

Government Accounting Standards Board (GASB) – A private, not-for-profit organization which develops generally accepted accounting principles (GAAP) for U.S. state and local governments; like FASB, it is part of the Financial Accounting Foundation (FAF), which funds each organization and selects the members of each board

Non-Industrial Disability (NID) – Unless specifically contracted by the individual Agency, PAM employees are assumed to be subject to only non-industrial disabilities.

Normal Cost – Total dollar value of benefits expected to be earned by plan members in the current year, as assigned by the chosen funding method; also called current service cost

Other Post-Employment Benefits (OPEB) – Post-employment benefits other than pension benefits, most commonly healthcare benefits but also including life insurance if provided separately from a pension plan

Pay-As-You-Go (PAYGO) – Contributions to the plan are made at about the same time and in about the same amount as benefit payments and expenses coming due

PEMHCA – The Public Employees' Medical and Hospital Care Act, established by the California legislature in 1961, provides community-rated medical benefits to participating public employers. Among its extensive regulations are the requirements that medical insurance contributions for retired annuitants and paid for by a contracting Agency be equal to the medical insurance contributions paid for its active employees, and that a contracting Agency file a resolution, adopted by its governing body, with the CalPERS Board establishing any new contribution.

## **Glossary (Concluded)**

Projected Unit Credit (PUC) – An actuarial funding method where, for each individual, the projected plan benefit is allocated by a consistent formula from entry date to assumed exit date

Public Agency Miscellaneous (PAM) – Actuarial assumptions used by CalPERS for most non-safety public employees.

Select and Ultimate – Actuarial assumptions which contemplate rates which differ by year initially (the select period) and then stabilize at a constant long-term rate (the ultimate rate)

Trend – The healthcare cost trend rate, defined as the rate of change in per capita health claims costs over time as a result of factors such as medical inflation, utilization of healthcare services, plan design and technological developments

Unfunded Actuarial Accrued Liability (UAAL) – The excess of the actuarial accrued liability over the actuarial value of plan assets

Unit Credit (UC) -- An actuarial funding method where, for each individual, the unprojected plan benefit is allocated by a consistent formula from entry date to assumed exit date

Vesting – As defined by the plan, requirements which when met make a plan benefit nonforfeitable on separation of service before retirement eligibility

## Administrative Services

Purchase Order Board Report for the Period of  
December 15, 2011 through January 14, 2012  
February 2, 2012

### I. Overview/History:

At the April 25, 2011 Board meeting, staff proposed providing a report comparable to one provided by member Rodriguez from the Hawthorne School District at the April 7, 2011 Board meeting. This particular report is generated from the district's on-line finance/human resources system, called "Escape On-Line."

Staff will provide this system-generated report at the first Board meeting of every month. The report will provide information from the 15<sup>th</sup> through the 14<sup>th</sup> of the month.

While this report was discussed during the presentations around contracts, the report provides information on purchases – including supplies – that require the generation of a purchase order. A purchase order is created when a school site or department requests a product or service that requires an outside purchase.

At the bottom of the system generated report, there is a statement that reads in part, "It is recommended that the preceding Purchase Orders be approved and that payment be authorized upon delivery and acceptance of the items ordered." This report is brought before the Board as an information item only and does not require Board approval. As discussed at the April 25, 2011 Board meeting, staff will continue to present contracts (along with a copy of the contract) above the Public Contract Code limit in the Consent Agenda portion of the regular Board meeting agenda. Board approval for Purchase Orders and contracts below the Public Contract Code limit will continue to come before the Board for approval as currently presented.

### II. Driving Governance:

- Education Code Section 17605 states, "The governing board by majority vote may adopt a rule, delegating to any officer or employee of the district as the board may designate, the authority to purchase supplies, materials, apparatus, equipment and services. No rule shall authorize any officer or employee to make any purchases involving an expenditure by the district in excess of the amount specified by Section 20111 of the Public Contract Code. The rule shall prescribe the limits of the delegation as to time, money and subject matter."

# Board of Education Executive Summary

## Administrative Services

Purchase Order Board Report for the Period of  
December 15, 2011 through January 14, 2012

- Board Policy 3312 states, “All purchases shall be made by formal contract or purchase orders, or shall be accompanied by a receipt.”

### III. Budget:

The report itself is first sorted by Purchase Order (PO) type and number. The first column identifies the PO number. The number twelve in the PO Number column identifies the fiscal year as 2011-12. The following describes the different types of codes used for identifying the type of requisition.

- B12 = Blanket Order – used when multiple purchases or payments are made to the same vendor. Twelve (12) identifies the fiscal year as 2011-12.
- CHB = Charge Back Blanket Order – used to reimburse district master purchase accounts, for example such as charging school sites/departments for the district copier rental program.
- CS = Contract Services – used for professional, personal or consulting services.
- J = Just-In-Time – used for supply purchases with specific vendors, for example, Office Depot. Items are ordered through a catalog and delivered to school sites/departments within 24 hours. Catalog items are restricted.
- P = Purchase Orders – unless identified elsewhere, these are regular purchase orders for outside vendors/purchases.
- TB = Textbook Orders – this PO type was established to make sure staff could easily identify textbook orders so they were approved and ordered quickly to ensure students had textbooks by the start of school.
- N = Non-Public Schools – used for Special Education Non-Public School contracts.

The next column in the report is Vendor Name. This is the vendor name on file to whom we make payments based on the requisition and final approvals.

Following the vendor name is the Description. This information comes directly from the “Comment” line on the requisition. It is filled out by the person at the school site/department

## **Board of Education Executive Summary**

### **Administrative Services**

Purchase Order Board Report for the Period of  
December 15, 2011 through January 14, 2012  
February 2, 2012

that is creating the requisition. Staff will be communicating with those that create requisitions to make sure no confidential information is included now that this report is a public document. Staff will also work to ensure that the description is as complete as possible.

The Location column indicates the location of the originator of the requisition. It may be a school site or department but indicates who has ordered the particular item.

The Fund column indicates the primary source of funding. For example, Fund 01 is the General Fund. It is important to note that the General Fund does not necessarily mean “unrestricted funds.” Categorical funds such as Title I, Economic Impact Aid and Special Education are accounted for in the General Fund. Further in the report on Page 17, there is a summary that shows the fund number and name of that particular fund.

Finally, the report shows the Account Amount. This is the amount of the particular requisition or order when the PO is generated.

On page 18 of the attached report, there are PO Changes. These are purchase orders that were generated and have had changes to the amount by increasing or decreasing the PO. There are many reasons that a PO may need to be increased or decreased. Unknown price increases or something as simple as the addition of tax and shipping may create an increase to a PO. Frequently, blanket orders are set up for an estimated amount and may be decreased throughout the year. Decreases are noted as a negative number in the report.

#### **IV. Goals, Objectives and Measures:**

Promote transparency by providing additional information to the Board and public on expenditures made by the district throughout the year.

#### **V. Major Initiatives:**

Use information as a guide to ensure continuous improvement.

#### **VI. Results:**

The attached information provides further transparency.

#### **VII. Lessons Learned/Next Steps:**

- Provide report monthly
