

Kindergarten Procedural Recount

- 1) Danny is sitting on a bench. Three friends join him. How many children are sitting on the bench in all?

Kindergarten Procedural Recount

1) Danny is sitting on a bench. Three friends join him. How many children are sitting on the bench in all?

" I had to find out how many kids were on the bench. I used making a model. First, I drew a circle to show Danny. Then I drew 3 circles for his friends. I counted all the circles to see how many kids there were in all. I found out that there are 4 kids."
