

COVID-19 MANDATORY TESTING

Notice to Families

SCUSD will provide routine COVID-19 surveillance testing to individuals registered in Primary Health.

Registration is only required once during the school year at this link <https://my.primary.health/r/scusd-edu?registration>

Simple, easy, self-swab test.

If you already registered your student in Primary Health for COVID-19 testing, they will **automatically be tested while on campus.**

Please note that by January 31st all students not yet vaccinated must participate in routine and regular testing.

We are committed to taking all steps possible to slow and stop the spread of COVID-19 and regular testing is one strategy we can take, along with other health and safety measures, such as vaccination, face coverings and **staying home when sick.**
