**REQUEST FOR PROPOSALS
for
PROFESSIONAL LEARNING MANAGEMENT PLATFORM**

**Response to Requests for Information
August 30, 2018**

1. **Question:** I'd like to confirm the # of users: is it the employee count of 4,364, or should that number be different for pricing?

Response: Yes, the employee count is the number of users.

2. **Question:** The RFP states that the District currently has course creation capabilities. Does the District have any learning systems already in place?

Response: The District does not currently have a learning management system or course creation capabilities. eSchool Solutions ERO is being used for PD tracking only.

3. **Question:** Would the district consider a platform that doesn't have the ability to create your own custom courses, but already has a large library of pre-built courses?

Response: Platforms that do not include course creation capabilities will not be considered.
