INDEPENDENT AUDITOR'S REPORT

Board of Education Sacramento City Unified School District Sacramento, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sacramento City Unified School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Sacramento City Unified School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Sacramento City Unified School District, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Management's Plan

As discussed in Note 13 of the financial statements, the District has suffered from declining student enrollment and attendance percentages, cost pressures related to escalating pension costs and costs associated with Special Education program and facilities requirements and significant deficit spending in the General Fund. Management's plan in regards to these matters is described in Note 13. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 to 15 and the Required Supplementary Information, such as the General Fund Budgetary Comparison Schedule, the Schedule of Changes in Net Other Postemployment Benefits (OPEB) Liability and Related Ratios, the Schedule of the District's Contributions - OPEB, the Schedule of Money-Weighted Rate of Return on OPEB Plan Investments, Schedule of the District's Proportionate Share of the Net Pension Liability, and Schedule of the District's Contributions on pages 64 to 71 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Sacramento City Unified School District's basic financial statements. The accompanying schedule of expenditure of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditure of federal awards and other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the Schedule of Financial Trends and Analysis, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and other supplementary information as listed in the table of contents, except for the Schedule of Financial Trends and Analysis, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Financial Trends and Analysis has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 18, 2020 on our consideration of Sacramento City Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Sacramento City Unified School District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

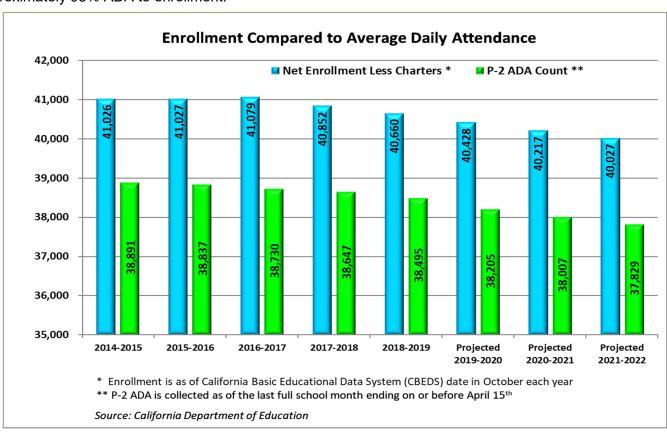

The Management's Discussion and Analysis (MD&A) Section of the audit report is District management's overall view of the District's financial condition and provides an opportunity to discuss important fiscal issues with the Board and the public. The MD&A is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34. Certain comparative information is required to be presented in this document.

District Overview

Sacramento City Unified School District (the "District"), located in Sacramento County, is the thirteenth largest school district in California regarding student enrollment. The District provides educational services to the residents in and around Sacramento, the state capital. The District operates under the jurisdiction of the Sacramento County Office of Education, although the District has attained "fiscal accountability" status under California Education Code.

For fiscal year 2018-2019, the District operated 42 elementary schools (grades K-6), seven elementary/middle schools (grades K-8), six middle schools (grades 7-8), two middle/high schools (grades 7-12), seven high schools (grades 9-12), three alternative schools, two special education centers, two adult education centers, 17 charter schools (including five dependent charter schools) and 42 children's centers/preschools serving infants through age 12.

The graph below shows the District's enrollment trend, considering the impact of charter school enrollment. The District's enrollment and average daily attendance (ADA) continue to decline year over year. The District is funded based on its ADA, which is tracked daily with staff following up on areas of concern. The District averages approximately 95% ADA to enrollment.

Governance

The District is governed by a Board of Education consisting of seven members and one student member. The regular members are elected to staggered four-year terms every two years. As a result of the passage of two ballot measures at the November 7, 2006 election, beginning in 2008, Board member elections are no longer held district-wide but instead are held among voters who reside in each of seven trustee areas.

Strategic Plan and Guiding Principle

The District's *Strategic Plan 2016-2021* makes a commitment to provide every student with access to opportunities for success. It functions like a blueprint, outlining a vision for our schools in the future and providing the steps necessary to attain the vision. The Strategic Plan also guides the District's Local Control and Accountability Plan, pairing actions with resources.

The District's Mission:

Students graduate as globally competitive lifelong learners, prepared to succeed in a career and higher education institution of their choice to secure gainful employment and contribute to society.

The District's Vision:

Every student is a responsible, productive citizen in a diverse and competitive world.

The District's Core Values:

- Equity: Commitment to reducing the academic achievement gap by ensuring that all students have equal access to the opportunities, supports and the tools they need to be successful.
- Achievement: Students will be provided with a relevant, rigorous and well-rounded curriculum, with the expectation that all will be well prepared for a career and post-secondary education.
- Integrity: Communication and interaction among and between students, parents, staff, labor and community partners is defined by mutual respect, trust and support.
- Accountability: Commitment to transparency and ongoing review of data will create a culture focused on results and continuous improvement in a fiscally sustainable manner.

The District's Goals:

- College, Career and Life Ready Graduates: Challenge and support all students to actively engage in rigorous and relevant curriculum that prepares them for college, career, and a fulfilling life, regardless of zip code, race/ethnicity, ability, language proficiency, and life circumstance.
- Safe, Emotionally Healthy and Engaged Students: Provide supports and opportunities to ensure that
 every student succeeds, with safe school environments that foster student engagement, promote daily
 attendance, and remove barriers to learning.
- Family and Community Empowerment: Commit to a welcoming school environment for our community; recognize and align district partnerships; and provide tools and family empowerment opportunities that are linked to supporting student academic achievement and social emotional competencies in order for families to be equal and active partners in their child's educational success.

Strategic Plan and Guiding Principle (Continued)

 Operational Excellence: Be a service-focused organization. Consistently serve students, families, staff and community with efficient and effective programs, practices, policies and procedures at every point of contact across the district.

In addition to the Strategic Plan, the District's Equity, Access, and Social Justice Guiding Principle – All students are given an equal opportunity to graduate with the greatest number of postsecondary choices from the widest array of options – guides decision making and resource allocation.

Overview of the Financial Statements

This annual report consists of five parts: (1) management's discussion and analysis (this section); (2) the financial statements; (3) required supplementary information; (4) supplementary information and (5) findings and recommendations.

The remainder of the MD&A highlights the structure and contents of each of the statements.

The financial statements include two kinds of statements that present different views of the District: district-wide financial statements and fund financial statements. The financial statements also include notes that explain some of the information in the statements and provide more detail.

The first two statements are district-wide financial statements that provide both short-term and long-term information about the District's overall financial position. The Statement of Net Position includes all of the District's assets and liabilities and deferred outflows and inflows of resources. All current year revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid. The District's activities are divided into two categories:

- Governmental activities Most of the District's basic services are included here, such as regular and special education, transportation and administration. State support from Local Control Funding Formula (LCFF) and categorical apportionments finance most of these activities.
- Business-type activities The District does not currently have any business-type activities.

These two financial statements start on page 16.

The remaining statements are fund financial statements that report on the District's operations in more detail than the district-wide statements. These statements begin on page 18.

The statements are followed by a section of required supplementary information and supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

District-wide Financial Condition

The Statement of Net Position is a district-wide financial statement that reports all that the District owns (assets) and owes (liabilities). The District displays the book value of all district assets including buildings, land and equipment, and related depreciation, in this financial statement. Land is accounted for at purchase cost, not market value, and is not depreciated. Many of our school sites have low values because the District acquired the land many decades ago. School buildings are valued at their historical construction cost less depreciation.

Comparative financial information as of June 30 from the Statement of Net Position is summarized in the following table:

	June 30, 2019	June 30, 2018	Variance	% Difference
Capital Assets	\$600,730,370	\$561,290,674	\$39,439,696	7%

Deferred Inflows of Resources	\$297,434,156	\$122,130,142	\$175,304,014	144%
Net Investment in Capital Assets (net of related debt)	\$101,653,692	\$98,731,558	\$2,922,134	3%
Restricted Net Position	\$110,686,852	\$104,507,628	\$6,179,224	6%
Unrestricted Net Position	(\$1,070,715,946)	(\$1,065,355,862)	(\$5,360,084)	-1%
Total Net Position	(\$858,375,402)	(\$862,116,676)	\$3,741,274	0%

At the end of fiscal year 2018-2019, the District had a total value of \$1,189,860,150 in capital assets. Capital assets include land, buildings, site improvements, equipment and work in progress. Total accumulated depreciation amounted to \$589,129,780. Net capital assets totaled \$600,730,370, an increase of \$39,439,696 from prior year. This is a result of capital projects being completed through Measures Q and R General Obligation Bonds.

Other assets include cash, investments, receivables, prepaid expenses and stores inventory. A decrease in other assets of \$47,408,096 is mostly a result of less cash with fiscal agent for the Building Fund as compared with the prior year. The Building Fund cash accounts are used to fund the District's capital asset improvements (i.e. Measures Q and R General Obligations Bonds).

Current and other liabilities include accounts payable, unpaid self-insurance claims and unearned revenue. An increase in current and other liabilities of \$9,049,267 is a result of more accounts payable and unearned revenue than the prior year.

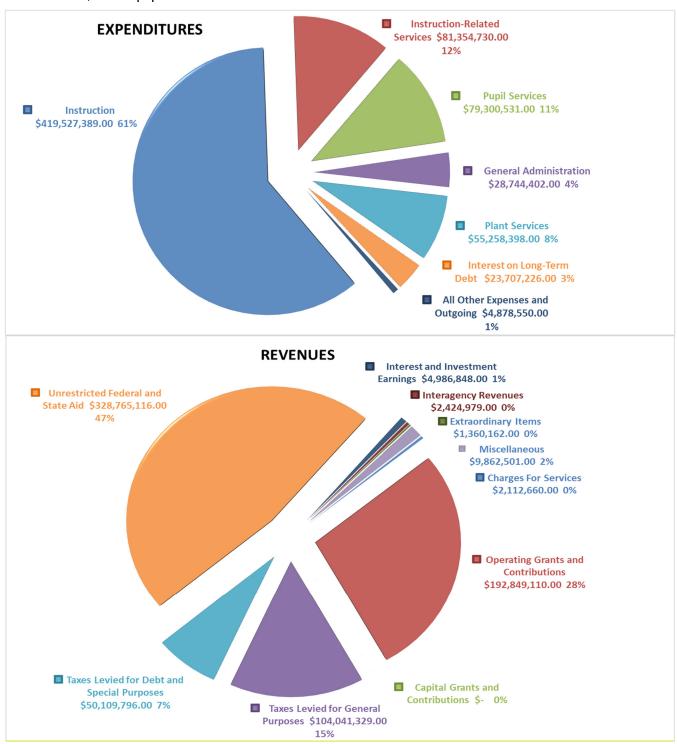

The District ended the year with a total of \$1,680,102,960 in outstanding obligations. The decrease in total liabilities of \$186,694,844 is mainly attributed to a reduction in the net Other Post Employment Benefit (OPEB) liability as valued in the latest GASB Statement No. 75 actuarial report. The updated OPEB valuation included differences between expected and actual experience and changes in assumptions that also contributed to the increases in Deferred Inflows of Resources of \$175,304,014.

The Statement of Activities is a district-wide financial statement that reports the District's cost of instruction and other district activities, and the resources that fund individual and general activities of the District. Comparative financial information for the year ended June 30 is presented in the following table:

	June 30, 2019	June 30, 2018	Variance	% Difference

Change in Net Position	\$3,741,275	(\$3,272,344)	\$7,013,619	214%

The District overall experienced a \$3,741,275 increase in net position. This was an increase from the prior year of \$7,013,619. Total revenues increased 9%, or \$55,593,257, as compared to 2017-2018, while total expenditures increased by 8%, or \$48,579,638.

This year's increases in Instruction and Pupil Services can be attributed to increases in salaries and related pension benefits, and equipment and food increases.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds. A fund consists of a self-balancing set of accounts that the District uses to track specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as cafeteria funds) or to show that it is properly using certain revenues (such as community facility funds).

The District has three kinds of funds:

- Governmental Funds Most of the District's basic services are included in governmental funds, which focus on (1) how cash, and other financial assets that can be readily converted to cash, flow in and out; and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explain the relationship (or differences) between them.
- Proprietary Funds Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. Enterprise funds (one type of proprietary fund) are the same as business-type activities, but provide more detail and additional information, such as cash flows. The District does not currently have any business-type activities. Internal service funds (another type of proprietary fund) are used to report activities that provide supplies and services for the District's other programs and activities. The District currently has one internal service fund, the Self-Insurance Fund, which includes Workers' Compensation and Dental/Vision.
- Fiduciary Funds The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

General Fund Financial and Budgetary Highlights

The General Fund accounts for the primary operations of the District. The District's initial budget is adopted by July 1. Over the course of the year, the District's budget is revised several times to account for revised and new categorical funding appropriations and related expenditures, and to update budgets for prior year carryover amounts. The budget may also be revised to reflect mid-year changes to the State Budget which affect district funding. Additionally, the District is required to prepare expenditure reports and must include multi-year projections at least twice a year. The following table summarizes the General Fund budget to actual information for the year ended June 30, 2019:

	Adopted Budget	Year End Budget	Actual
Total Revenues	\$526,385,177	\$565,763,661	\$549,828,423
Total Expenditures	\$563,668,431	\$591,608,153	\$553,491,115
Total Other Financing Sources/(Uses)	\$1,332,796	\$1,079,125	\$3,491,286

The net revenue increase between Adopted and Year End Budget was \$39,378,484, due to current year budgets for categorical funds, which are budgeted as grant award documents are received. Also, the budgets for prior year unspent restricted and unrestricted program funds (carryover) are appropriated mid-year. In addition, the Adopted Budget did not include one-time funds such as \$22,662,875 in increased pension payments made on behalf of the District by the State. The revised legislation was enacted in June 2019.

The net increase to the total expenditure budget between Adopted and Year End Budget was \$27,939,722, due to revisions to set up expenditures related to the one-time funds described above and the categorical program funds, which are budgeted after July 1 as grant award documents are received and school site plans are approved.

Actual revenues were \$15,935,238, or 2.8%, below Year End Budget, due primarily to unspent and unearned categorical revenue and one-time revenues that carryover to 2019-2020. Actual expenditures were \$38,117,038, or 6.4%, below Year End Budget, due to timing of grants received in the later part of the year, unspent categorical revenue and unspent school site program funds.

The following table summarizes the General Fund operational fund financial statements for the year ended June 30, 2019:

Total Revenues	\$549,828,423
Total Expenditures	\$553,491,115
Total Other Financing Sources/ (Uses)	\$3,491,286
Net Change	(\$171,406)

District Reserves and Net Ending Balance

Revenues that have not been expended during a budget year are carried over for expenditure in the subsequent year and are identified as the District's "Net Ending Balance." Included within the projected net ending balance is a "reserve for economic uncertainties." The State requires districts of our size to retain an amount equal to 2% of our budgeted expenditures to cover unforeseen shortfalls in revenues or expenditures greater than budgeted. Also included in the net ending balance are carryover balances that originated from sources that can only be used for specific purposes. These "restricted" resources can only be spent on the purposes determined by the grantor, and the balances in these accounts carry the same restrictions as the originating revenue.

The District also has the option of committing or assigning the ending balance. Committing funds requires the Board of Education to designate the funds for any purpose by a majority vote at a Board meeting. Once the funds are committed, the amounts cannot be used for any other purpose unless the Board takes action to remove or change the constraints for the committed funds. The Board has not taken any action in 2018-2019 to commit funds. Assigned ending balances are constrained by the District's intent but are neither restricted nor committed. An example of assignment is designating the ending balance to be used for a future textbook adoption.

The chart below represents the District's financial analysis of its Governmental and Proprietary Funds:

Ending Fund Balances	June 30, 2019	June 30, 2018	Difference

Capital Projects

Modernization and construction projects are scheduled to continue as we update our existing facilities and continue to close out construction projects. With the passage of Bond Measures Q and R in 2012, the District continues facility improvements, modernization and construction projects that enhance the learning environment.

District Indebtedness

As of June 30, 2019, the District has incurred \$1,608,818,718 in long-term liabilities. Of this amount, \$482,724,672 are General Obligation Bonds and Accreted Interest backed by property tax increases voted on by District residents in 1999, 2002 and 2012, and \$63,120,000 is Lease Revenue Bonds, backed by Developer Fees and Mello-Roos Community Facilities funds.

Nearly 64% of the long-term liabilities is related to the investment in employees' post-retirement. The District continues to provide lifetime health benefits to eligible retirees. While the recognized net OPEB liability decreased to \$526,175,712, the pension liability increased by \$29,854,000 to \$497,997,000.

Financial Outlook

A continued decline in ADA, increased operating expenditures, such as rising Special Education costs and pension and health premium increases, and uncertain future state resources are key issues facing Sacramento City Unified School District. The development of future budgets will be influenced by external variables such as the State Budget and enrollment changes.

The District's 2019-2020 first interim multi-year projections indicate that the District will be able to meet its financial obligations for the current and subsequent year but may not be able to meet its financial obligations during the second subsequent year 2021-2022 unless an ongoing \$27 million solution materializes. The District projects having a positive cash balance through October 2021 but will have major cash challenges starting in November 2021. Further discussion is included in Footnote 13.

The District is working with the Sacramento County Office of Education and assigned fiscal advisor to achieve fiscal stability and continues to evaluate all opportunities, including reducing salaries and benefits expenditures, for an improved future financial outlook.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Sacramento City Unified School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The following is a summary of the more significant policies:

Reporting Entity: The Board of Education is the level of government which has governance responsibilities over all activities related to public school education in the District. The Board is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board since Board members have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

The District, Sacramento County Schools Education Facilities Financing Corporation (the "Corporation") and Sacramento City Schools Joint Powers Financing Authority (the "Authority") have a financial and operational relationship which meet the reporting entity definition criteria of the Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, for inclusion of the Corporation and Authority as a component unit of the District. Therefore, the financial activities of the Corporation and the Authority have been included in the basic financial statements of the District as a blended component unit.

The following are those aspects of the relationship between the District, the Corporation and the Authority which satisfy *Codification of Governmental Accounting and Financial Reporting Standards, Section 2100*, criteria:

A - Manifestations of Oversight

- 1 The Corporation's and the Authority's Boards of Directors were appointed by the District's Board of Education.
- 2 The Corporation and the Authority have no employees. The District's Superintendent and Chief Business Officer function as agents of the Corporation and the Authority. Neither individual received additional compensation for work performed in this capacity.
- 3 The District exercises significant influence over operations of the Corporation and the Authority as it is anticipated that the District will be the sole lessee of all facilities owned by the Corporation and the Authority.

B - Accounting for Fiscal Matters

- 1 All major financing arrangements, contracts, and other transactions of the Corporation and the Authority must have the consent of the District.
- 2. Any deficits incurred by the Corporation and the Authority will be reflected in the lease payments of the District. Any surpluses of the Corporation and the Authority revert to the District at the end of the lease period.
- 3. It is anticipated that the District's lease payments will be the sole revenue source of the Corporation and the Authority.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- 4. The District has assumed a "moral obligation," and potentially a legal obligation, for any debt incurred by the Corporation and the Authority.
- C Scope of Public Service and Financial Presentation
- 1. The Corporation and the Authority were created for the sole purpose of financially assisting the District.
- 2. The Corporation is a nonprofit, public benefit corporation incorporated under the laws of the State of California and recorded by the Secretary of State. The Authority was created pursuant to a joint powers agreement between the District and the California Statewide Communities Development Authority, pursuant to the California Government Code, commencing with Section 6500. The Corporation and the Authority were formed to provide financing assistance to the District for construction and acquisition of major capital facilities. Upon completion the District intends to occupy all Corporation and Authority facilities. When the Authority's Lease Revenue Bonds have been paid with state reimbursements and the District's developer fees, title of all Corporation and Authority property will pass to the District for no additional consideration.
- 3. The Corporation's and the Authority's financial activity is presented in the financial statements in the Building Fund. Lease Revenue Bonds issued by the Authority are included in the government-wide financial statements. There are currently no outstanding Certificates of Participation under the Corporation as of June 30, 2019.

<u>Basis of Presentation - Government-Wide Financial Statements</u>: The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. Fiduciary funds are not included in the government-wide financial statements. Fiduciary funds are reported only in the Statement of Fiduciary Net Position and the Statement of Change in Fiduciary Net Position at the fund financial statement level.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

Program revenues: Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of indirect expenses: The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of the respective function. Interest on general long-term liabilities is considered an indirect expense and is reported separately on the Statement of Activities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Basis of Presentation - Fund Accounting</u>: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

A - Major Funds:

1. General Fund:

The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

2. Building Fund:

The Building Fund is a capital projects fund used to account for resources used for the acquisition or construction of capital facilities by the District.

3. Bond Interest and Redemption Fund:

The Bond Interest and Redemption Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. All records relating to the Bond Interest and Redemption Fund are maintained by the Sacramento County Auditor-Controller. The revenue for this fund is raised by school district taxes which are levied, collected, and administered by County officials. The Education Code stipulates that the tax rate levied shall be sufficient to provide monies for the payment of principal and interest as they become due on outstanding school district bonds.

B - Other Funds:

The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. This classification includes the Charter Schools, Adult Education, Child Development and Cafeteria Funds.

The Capital Projects Funds are used to account for resources used for the acquisition or construction of capital facilities by the District. This classification includes the Developer Fees and Community Facilities Funds.

The Self-Insurance Fund is an internal service fund used to account for services rendered on a cost-reimbursement basis within the District. The Self-Insurance Fund is used to provide workers' compensation, dental and vision benefits to employees of the District.

The Scholarship Fund is a trust fund used to account for amounts held by the District as Trustee, to be used to provide scholarships to students of the District.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Student Body Funds are used to account for revenues and expenditures of the various student body organizations. All cash activity, assets and liabilities of the various student bodies of the District are accounted for in Student Body Funds. The District also has a Warrant Pass-Through Fund reported in the agency funds.

<u>Basis of Accounting</u>: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the basic financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

<u>Accrual</u>: The governmental activities in the government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

<u>Modified Accrual</u>: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

<u>Budgets and Budgetary Accounting</u>: By state law, the Board of Education must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The Board of Education complied with these requirements.

<u>Receivables</u>: Receivables are made up principally of amounts due from individuals and private companies. The District has determined that no allowance for doubtful accounts was required as of June 30, 2019.

<u>Due from Grantor Governments</u>: Due from Grantor Governments are made up principally of amounts due from the State of California and Categorical programs. The District has determined that no allowance for doubtful accounts was required as of June 30, 2019.

<u>Stores Inventory</u>: Inventories in the General and Cafeteria Funds are valued at average cost. Inventory recorded in the General and Cafeteria Funds consists mainly of school supplies and consumable supplies. Inventories are recorded as an expenditure at the time the individual inventory items are transferred from the warehouse to schools and offices.

<u>Capital Assets</u>: Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at acquisition value for the contributed asset. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 3 - 30 years depending on asset types.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Deferred Outflows/Inflows of Resources</u>: In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred loss on refunding reported in the Statement of Net Position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. Additionally, the District has recognized a deferred outflow of resources related to the recognition of the net pension liability and net OPEB liability reported in the Statement of Net Position.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the net pension liability and net OPEB liability reported in the Statement of Net Position.

<u>Pensions</u>: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value.

	<u>STRP</u>	PERF B	<u>Total</u>
Deferred outflows of resources	<u>\$ 131,369,088</u>	<u>\$ 41,466,325</u>	\$ 172,835,413
Deferred inflows of resources	\$ 40,452,000	\$ 573,000	\$ 41,025,000
Net pension liability	\$ 353,827,000	\$ 144,170,000	\$ 497,997,000
Pension expense	\$ 82,629,641	\$ 33,387,857	\$ 116,017,498

<u>Compensated Absences</u>: Compensated absences totaling \$4,568,518 are recorded as a long-term liability of the District. The liability is for the earned but unused benefits.

<u>Accumulated Sick Leave</u>: Sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure or expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits for certain STRP and PERF B employees, when the employee retires.

<u>Unearned Revenue</u>: Revenue from federal, state, and local special projects and programs is recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position: Net position is displayed in three components:

- 1. Net Investment in Capital Assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- 2. Restricted Net Position Restrictions of the ending net position indicate the portions of net position not appropriable for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for debt service repayments represents the portion of net position which the District plans to expend on debt repayment in the ensuing year. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for scholarships represents the portion of net position to be used to provide financial assistance to students of the District. It is the District's policy to first use restricted net position when allowable expenditures are incurred.
- 3. Unrestricted Net Position All other net position that does not meet the definitions of "restricted" or "net investment in capital assets".

<u>Fund Balance Classifications</u>: Governmental Accounting Standards Board Codification Sections 1300 and 1800, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

A - Nonspendable Fund Balance:

The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash, stores inventory and prepaid expenditures.

B - Restricted Fund Balance:

The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide and fiduciary trust fund statements.

C - Committed Fund Balance:

The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Board of Education. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. Formal action by the Board of Education is required to remove any commitment from any fund balance. At June 30, 2019, the District had no committed fund balances.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D - Assigned Fund Balance:

The assigned fund balance classification reflects amounts that the District's Board of Education has approved to be used for specific purposes, based on the District's intent related to those specific purposes. The Board of Education can designate personnel with the authority to assign fund balances, however, as of June 30, 2019, no such designation has occurred.

E - Unassigned Fund Balance:

In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund, that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

<u>Fund Balance Policy</u>: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

While GASB Cod. Sec. 1300 and 1800 do not require Districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements, if they have been adopted by the Board of Education. At June 30, 2019, the District has not established a minimum fund balance policy nor has it established a stabilization arrangement.

<u>Property Taxes</u>: Secured property taxes are attached as an enforceable lien on property as of March 1. Taxes are due in two installments on or before December 10 and April 10. Unsecured property taxes are due in one installment on or before August 31. The County of Sacramento bills and collects taxes for the District. Tax revenues are recognized by the District when received.

<u>Encumbrances</u>: Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. All encumbrances are liquidated as of June 30.

<u>Eliminations and Reclassifications</u>: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

<u>Estimates</u>: The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

NOTE 2 - CASH AND INVESTMENTS

Cash and investments at June 30, 2019 are reported at fair value and consisted of the following:

	G	_		
	Governmental	Proprietary		Fiduciary
	<u>Funds</u>	<u>Fund</u>	<u>Total</u>	<u>Activities</u>

<u>Pooled Funds</u>: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest-bearing Sacramento County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in the financial statements at the amounts based upon the District's pro-rate share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

<u>Deposits - Custodial Credit Risk</u>: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. At June 30, 2019, the carrying amount of the District's accounts was \$2,914,967 and the bank balance was \$2,277,102. \$1,120,921 of the bank balance was FDIC insured and \$1,156,181 remained uninsured.

NOTE 2 – CASH AND INVESTMENTS (Continued)

<u>Cash with Fiscal Agents</u>: Cash with Fiscal Agent in the Governmental Funds represents funds held by Fiscal Agents restricted for capital projects and repayment of General Obligation Bonds. The District holds their funds with the Sacramento County Treasurer. The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis. Cash with Fiscal Agent held in the Proprietary Fund represents funds held as required by the District's third-party administrator, Self Insurance Authority, for the District's self-insurance activities.

Interest Rate Risk: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2019, the District had no significant interest rate risk related to cash and investments held.

<u>Credit Risk</u>: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

<u>Concentration of Credit Risk</u>: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2019, the District had no concentration of credit risk.

NOTE 3 – INTERFUND TRANSACTIONS

<u>Interfund Activity</u>: Transactions between funds of the District are recorded as transfers, except for the Self-Insurance Fund activity which is recorded as income and expenditures of the Self-Insurance Fund and the funds which incur payroll costs, respectively. The unpaid balances at year end, as a result of such transactions, are shown as due to and due from other funds.

<u>Interfund Receivables/Payables</u>: Individual interfund receivable and payable balances at June 30, 2019 were as follows:

<u>Fund</u>	Interfund <u>Receivables</u>	Interfund <u>Payables</u>

NOTE 5 – SELF-INSURANCE CLAIMS

The District has established a Self-Insurance Fund to account for employee vision benefits, employee dental benefits and workers' compensation plans. The employee vision and dental plans are self insured and contract with a third party administrator for benefits processing. Until July 31, 1998 and from July 1, 2001 through June 30, 2005, the workers' compensation plan provided coverage up to \$250,000 and purchased excess insurance for claims over the retained coverage limit. Between August 1, 1998 and June 30, 2001, and after July 1, 2005, the District purchased insurance for the workers' compensation coverage.

The liability for unpaid claims and claim adjustment expenses represents the ultimate cost of claims that have been reported but not settled and of claims that have been incurred but not reported. These claims will be paid in future years. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from coverage in the prior year.

District management recomputes the liability annually using available updated claims data. Annually, the District obtains an actuarial study using a variety of statistical techniques to produce current estimates that consider claim frequency and other economic factors. The liability for workers compensation is based on an actuarial study dated April 5, 2019 and March 7, 2018 for the years ended June 30, 2019 and June 30, 2018, respectively.

The liabilities for unpaid claims and claim adjustment expenses are as follows:

		June 30, <u>2018</u>		June 30, <u>2019</u>
Unpaid claim and claim adjustment expenses, beginning of year	\$	755,880	\$	543,004

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN

General Information about the State Teachers' Retirement Plan

<u>Plan Description:</u> Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plan may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at http://www.calstrs.com/comprehensive-annual-financial-report.

<u>Benefits Provided:</u> The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

CalSTRS 2% at 60

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a full time basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any three consecutive years of credited service.

CalSTRS 2% at 62

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for three consecutive years of credited service.

<u>Contributions</u>: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

<u>Contributions</u>: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

In June 2019, California Senate Bill 90 (SB 90) was signed into law and appropriated approximately \$2.2 billion in fiscal year 2018–19 from the state's General Fund as contributions to CalSTRS on behalf of employers. The bill requires portions of the contribution to supplant the amounts remitted by employers such that the amounts remitted will be 1.03 and 0.70 percentage points less than the statutorily required amounts due for fiscal years 2019–20 and 2020–21, respectively. The remaining portion of the contribution is allocated to reduce the employers' share of the unfunded actuarial obligation of the Defined Benefit Program.

The employer contribution rates set in statute by the CalSTRS Funding Plan were not changed by the passage of SB 90. A summary of statutory contribution rates and other sources of contributions to the Defined Benefit Program are as follows:

Members - Under CalSTRS 2% at 60, the member contribution rate was 10.25 percent of applicable member earnings for fiscal year 2018-19. Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2018-19.

In general, member contributions cannot increase unless members are provided with some type of "comparable advantage" in exchange for such increases. Under previous law, the Legislature could reduce or eliminate the 2 percent annual increase to retirement benefits. As a result of AB 1469, effective July 1, 2014, the Legislature cannot reduce the 2 percent annual benefit adjustment for members who retire on or after January 1, 2014, and in exchange for this "comparable advantage," the member contribution rates have been increased by an amount that covers a portion of the cost of the 2 percent annual benefit adjustment.

Employers – 16.28 percent of applicable member earnings.

Pursuant to AB 1469, employer contributions will increase from a prior rate of 8.25 percent to a total of 19.1 percent of applicable member earnings phased in over seven years starting in 2014. The legislation also gives the CalSTRS board limited authority to adjust employer contribution rates from July 1, 2021 through June 2046 in order to eliminate the remaining unfunded actuarial obligation related to service credited to members prior to July 1, 2014. The CalSTRS board cannot adjust the rate by more than 1 percent in a fiscal year, and the total contribution rate in addition to the 8.25 percent cannot exceed 12 percent.

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

The CalSTRS employer contribution rate increases effective for fiscal year 2018-2019 through fiscal year 2045-46 are summarized in the table below:

Effective Date	Prior Rate	<u>Increase</u>	<u>Total</u>
July 01, 2018	8.25%	8.03%	16.28%
July 01, 2019	8.25%	9.88%	18.13%
July 01, 2020	8.25%	10.85%	19.10%
July 01, 2021 to			
June 30, 2046	8.25%	*	*
July 01, 2046	8.25%	Increase from prior rate ce	ases in 2046-47

^{*} The Teachers' Retirement Board (the "board") cannot adjust the employer rate by more than 1 percent in a fiscal year, and the increase to the contribution rate above the 8.25 percent base contribution rate cannot exceed 12 percent for a maximum of 20.25 percent.

The District contributed \$35,911,088 to the plan for the fiscal year ended June 30, 2019.

State - 9.828 percent of the members' creditable earnings from the fiscal year ending in the prior calendar year.

Also as a result of AB 1469, the additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specific in subdivision (b) of Education Code Section 22955.1. The increased contributions end as of fiscal year 2045-2046.

The state's base contribution to the Defined Benefit Program is calculated based on creditable compensation from two fiscal years prior. The state rate will increase to 5.811% on July 1, 2019, to continue paying down the unfunded liabilities associated with the benefits structure that was in place in 1990 prior to certain enhancements in benefits and reductions in contributions. Additionally, the enactment of SB 90 will result in future supplemental contributions to be made by the state to pay down its portion of the unfunded actuarial obligation of the Defined Benefit Program in fiscal years 2019–20 through 2022–23.

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

The CalSTRS state contribution rates effective for fiscal year 2018-19 and beyond are summarized in the table below.

		Increase For		Total State

⁽¹⁾This rate does not include the \$72 million reduction in accordance with Education Code Section 22954.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 353,827,000
State's proportionate share of the net pension liability associated with the District	202,583,000
Total	<u>\$ 556,410,000</u>

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school Districts and the State. At June 30, 2018, the District's proportion was 0.385 percent, which was an increase of 0.013 percent from its proportion measured as of June 30, 2017.

⁽²⁾In May 2019, the board of CalSTRS exercised its limited authority to increase the state contribution rate by 0.5 percent of the payroll effective July 1, 2019.

⁽³⁾ This rate does not include the \$2.2 billion supplemental state contribution on behalf of employers pursuant to SB 90.

⁽⁴⁾ The CalSTRS board has limited authority to adjust state contribution rates annually through June 30, 2046 in order to eliminate the remaining unfunded actuarial obligation associated with the 1990 benefit structure. The board cannot increase the rate by more than 0.50 percent in a fiscal year, and if there is no unfunded actuarial obligation, the contribution rate imposed to pay for the 1990 benefit structure would be reduced to 0 percent.

⁽⁵⁾ From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining 1990 unfunded actuarial obligation.

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

For the year ended June 30, 2019, the District recognized pension expense of \$82,629,641 and revenue of \$36,668,907 for support provided by the State. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Difference between expected and actual experience	\$ 1,097,000	\$ 5,140,000	
Changes of assumptions	54,968,000	-	
Net differences between projected and actual earnings on investments	-	13,625,000	
Changes in proportion and differences between District contributions and proportionate share of contributions	39,393,000	21,687,000	
Contributions made subsequent to measurement date	35,911,088		
Total	<u>\$ 131,369,088</u>	\$ 40,452,000	

\$35,911,088 reported as deferred outflows of resources related to pensions resulting from contributions made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ended <u>June 30,</u>	
2020	\$ 17,443,000
2021	\$ 12,339,000
2022	\$ 3,054,000
2023	\$ 5,852,667
2024	\$ 14,946,667
2025	\$ 1,370,666

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2018 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The financial reporting actuarial valuation as of June 30, 2017, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date

Actuarial Cost Method

Investment Rate of Return

Consumer Price Inflation

Wage Growth

Post-retirement Benefit Increases

June 30, 2017

July 1, 2010 through June 30, 2015

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant as an input to the process. The actuarial investment rate of return assumption was adopted by the CalSTRS board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset <u>Allocation</u>	Long-Term* Expected Real <u>Rate of Return</u>

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

<u>Discount Rate</u>: The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1%	Current	1%
	Decrease	Discount	Increase
	<u>(6.10%)</u>	Rate (7.10%)	<u>(8.10%)</u>
District's proportionate share of the net pension liability	<u>\$518,316,000</u>	<u>\$353,827,000</u>	<u>\$217,451,000</u>

<u>Pension Plan Fiduciary Net Position</u>: Detailed information about the pension plan's fiduciary net position is available in the separately issued CalSTRS financial report.

NOTE 9 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B

General Information about the Public Employer's Retirement Fund B

<u>Plan Description</u>: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer's Retirement Fund B (PERF B) is administered by the California Public Employees' Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at obtained at:

https://www.calpers.ca.gov/docs/forms-publications/cafr-2018.pdf

<u>Benefits Provided</u>: The benefits for the defined benefit plans are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

NOTE 9 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

<u>Contributions</u>: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer's benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when districts first join PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2019 were as follows:

Members - The member contribution rate was 6.50 or 7.50 percent of applicable member earnings for fiscal year 2018-19.

Employers - The employer contribution rate was 18.062 percent of applicable member earnings.

The District contributed \$13,259,325 to the plan for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability of \$144,170,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school Districts. At June 30, 2018, the District's proportion was 0.541 percent, which was an increase of 0.023 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$33,387,857 and revenue of \$4,890,641 for support provided by the State.. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Difference between expected and actual experience	\$ 9,451,000	\$ -	
Changes of assumptions	14,395,000	-	
Net differences between projected and actual earnings on investments	1,183,000	-	
Changes in proportion and differences between District contributions and proportionate share of contributions	3,178,000	573,000	
Contributions made subsequent to measurement date	13,259,325		
Total	<u>\$ 41,466,325</u>	<u>\$ 573,000</u>	

NOTE 9 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

\$13,259,325 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

June 30,	
2020	\$ 15,458,833
2021	\$ 12,158,833
2022	\$ 867,334
2023	\$ (851,000)

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 4 years as of the June 30, 2018 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

Actuarial Methods and Assumptions: The total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The financial reporting actuarial valuation as of June 30, 2017, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2017
Experience Study	June 30, 1997 through June 30, 2015
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.15%
Consumer Price Inflation	2.50%
Wage Growth	Varies by entry age and service
Post-retirement Benefit Increases	Contract COLA up to 2.00% until Purchasing
	Power Protection Allowance Floor on
	Purchasing Power applies 2.50% thereafter

The mortality table used was developed based on CalPERS specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90% of scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS' website.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

^{* 10-}year geometric average

<u>Discount Rate</u>: The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS' website.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected cash flows of the Plan. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the Plan's asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

NOTE 10 - OTHER POSTEMPLOYMENT BENEFITS (OPEB)

General Information - Other Postemployment Benefits Plan (OPEB)

<u>Plan Description</u>: In addition to the pension benefits described in Notes 8 and 9, the District provides postemployment health care benefits to eligible employees and their dependents under a single employer defined benefit OPEB plan. The plan does not issue separate financial statements.

The District established an irrevocable trust under the California Employer's Retiree Benefit Trust Program (CERBT) to prefund the costs of other postemployment benefits. The funds in the CERBT are held in trust and will be administered by the California Public Employees' Retirement System (CalPERS) as an agent multiple-employer plan. Benefit provisions are established and may be amended by District labor agreements which are approved by the Board of Education. The District's contributions to the irrevocable trust is included in the CERBT, which is included in the CalPERS CAFR. Copies of the CalPERS' CAFR may be obtained from the CalPERS Executive Office – 400 P Street – Sacramento, CA 95814.

The CERBT fund, which is an Internal Revenue Code (IRC) Section 115 Trust, is set up for the purpose of (i) receiving employer contributions to prefund health and other post-employment benefits for retirees and their beneficiaries, (ii) invest contributed amounts and income therein, and (iii) disburse contributed amounts and income therein, if any, to pay for costs of administration of the fund and to pay for health care costs or other post-employment benefits in accordance with the terms of the District's OPEB plan.

Benefits Provided: Sacramento City Unified School District's Retired Employees Healthcare Plan (REHP), is a single-employer defined benefit healthcare plan administered by the Sacramento City Unified School District. REHP provides medical insurance benefits to eligible retirees. Benefits are a negotiated component of each bargaining unit agreement. Currently, eligible retirees receive health care benefits that are paid 100% by the District. District teachers qualify for these benefits after attaining age 55 with at least five years of consecutive service to the District, age 50 with 30 years of service (if a member prior to January 1, 2013), or approved disability retirement with 5 years of service. CalPERS employees qualify for benefits after attaining age 50 (age 52, if a new CalPERS member on or after January 1, 2013) with 5 years of State or public agency service or approved disability and meeting the requirements outlined in their respective bargaining agreements.

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

The District's Governing Board has the authority to establish or amend the benefit terms offered by the Plan. The District's Governing Board also retains the authority to establish the requirements for paying the Plan benefits as they come due.

<u>Employees Covered by Benefit Terms</u>: The following is a table of plan participants as of the June 30, 2018 valuation;

	Number of <u>Participants</u>
Inactive Plan members, covered spouses, or	
beneficiaries currently receiving benefits	3,118
Active employees	4,278
	7,396

<u>Contributions</u>: California Government Code specifies that the District's contribution requirements for covered employees are established and may be amended by the Governing Board.

Contributions to the Plan from the District were \$28,640,257 for the year ended June 30, 2019.

<u>OPEB Plan Investments</u>: The plan discount rate of 4.25% was determined using the following asset allocation and assumed rate of return:

Asset Class	Long-Term* Assumed Asset <u>Allocation</u>	Expected Real Rate of Return <u>Year 1-10</u>	Expected Real Rate of Return Years 11+
Global Equity	59%	4.80%	5.98%

^{*}Geometric average

Rolling periods of time for all asset classes in combination we used to appropriately reflect correlation between asset classes. This means that the average returns for any asset class do not necessarily reflect the averages over time individually, but reflect the return for the asset class for the portfolio average. Additionally, the historic 30 year real rates of return for each asset class along with the assumed long-term inflation assumption was used to set the discount rate. The investment return was offset by assumed investment expenses of 25 basis points. It was further assumed that contributions to the plan would be sufficient to fully fund the obligation over a period not to exceed 30 years.

Money-weighted rate of return on OPEB plan investments

The money-weighted rate of return expresses investment performance, net of OPEB plan investment expenses, adjusted for the changing amounts actually invested.

OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the District recognized OPEB expense of \$8,271,489. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Difference between expected and actual experience	\$ 4,357,609	\$ 120,832,521	
Changes of assumptions	-	134,546,959

Differences between projected and actual earnings on investment are amortized over a closed period of 4 years as of the June 30, 2018 measurement date. Changes in assumptions are amortized over a closed period of 6.64 years as of the June 30, 2018 measurement date.

NOTE 11 – JOINT POWERS AGREEMENTS

Schools Insurance Authority: The District is a member with other school districts of a Joint Powers Authority, Schools Insurance Authority (SIA), for the operation of a common risk management and insurance program for property and liability coverage. The joint powers agency is to be self-sustaining through member premiums. SIA enters into insurance agreements for coverage above self-insured retention layers, whereby it cedes various amounts of risk to other insurance companies or joint power authorities. SIA's Property, Liability and Workers' Compensation Programs provide self-insured retention of \$100,000, \$750,000 and \$1,000,000 per incident, respectively. The District continues to carry commercial insurance for all other risks of loss, including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from coverage in the prior year. The following is a summary of financial information for SIA at June 30, 2019:

Total assets	\$ 174,147,032
Deferred outflows	\$ 1,922,631
Total liabilities	\$ 81,108,882
Deferred inflows	\$ 591,817
Total net position	\$ 94,368,964
Total revenues	\$ 73,668,839
Total expenses	\$ 58,748,742
Change in net position	\$ 14,920,097

The relationship between the District and the Joint Powers Authority is such that the Joint Powers Authority is not a component unit of the District for financial reporting purposes.

NOTE 12 - CONTINGENCIES

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

The District has received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could result in expenditure disallowances under terms of the grants, it is management's opinion that any required reimbursements of future revenue offsets subsequently determined will not have a material effect on the District's financial position or results of operations.

At June 30, 2019 the District had approximately \$11,500,000 in outstanding construction contract commitments.

NOTE 13 - MANAGMENT'S PLANS

Since September 2018 when the Sacramento County Office of Education (SCOE) disapproved the District's adopted General Fund budget for the 2018-19 fiscal year, the Board of Education, Superintendent, management, staff, and labor partners have been collaborating to identify solutions that would address the structural deficit for current and future fiscal years' financial projections.

Due to Education Code provision, the District's financial position resulted in a series of actions including the requirement to revise the 2018-19 budget by October 8, 2018 and a Fiscal Health Risk Analysis by the Fiscal Crisis and Management Assistance Team (FCMAT). SCOE appointed a fiscal advisor to work with the District to review the budget for accuracy. While the revised adopted budget included approximately \$10 million in reductions, it was also disapproved by SCOE as it did not contain sufficient reductions to completely eliminate the structural deficit and satisfy the required reserve for economic uncertainties. The District required more time to work with SCOE and the fiscal advisor, labor partners and the community to focus on solutions that are sustainable and student-centered.

By December 2018, the District identified over \$19 million in cost savings through reductions that did not directly impact students in the classrooms and were not subject to negotiations. The First Interim Financial Report reflected a negative self-certification based on the remaining structural deficit in the multi-year financial projections. The District recognizes that one of its largest cost drivers is employee health insurance, which requires a negotiated solution with its labor partners.

Also in December 2018, FCMAT issued the results of its analysis that concluded, unless changes are made, the District is at risk of insolvency, which leads to a state loan and an appointed administrator. The analysis focused on identifying district systems and processes where improvements can be made. Immediately, the District began taking steps to implement business process changes and adopt FCMAT's recommendations.

In February 2019, the Board of Education reviewed cost savings measures to prioritize funding for students, including reducing staffing levels to match student needs based on actual and projected enrollment, and staffing based on the collective bargaining agreements and California Department of Education class size requirements.

In March 2019, the Board of Education was presented with the Second Interim Financial report, a fiscal recovery plan, and a resolution to help save schools by further reducing spending by capping general administration costs, reducing unused vacation time accruals, and further exploring health cost savings options. The fiscal recovery plan continued to prioritize reductions away from services and programs serving students.

The District presented a Third Interim Financial report as well as a series of community budget workshops in May 2019, which summarized the nearly \$29 million in current and future year budget reductions made as of that date. The California Joint Legislative Audit Committee directed the State Auditor to conduct a performance audit of the District's finances for the past five fiscal years and identify current causes of the District's fiscal distress.

The District's proposed 2019-20 Budget continued a structural deficit into 2019-20 to allow for the time necessary to negotiate a solution that achieves long-term cost savings. SCOE recognized that the District made considerable progress towards stabilizing the budget, but disapproved the budget since the District expected to be \$27 million short of the minimum required reserve in 2021-22 without an agreed upon solution. Insolvency was delayed but not eliminated.

NOTE 13 - MANAGMENT'S PLANS (Continued)

On October 3, 2019 the Board of Education approved the 2019-20 revised adopted budget which was again disapproved by SCOE due to the projected negative ending fund balance in 2021-22, continued deficit spending and a projection of insufficient cash in the 2020-21 fiscal year. The Board of Education voted to waive the formation of the Budget Review Committee, and the waiver was approved by the California Department of Education. The fiscal advisor assigned by SCOE continues to work with the District providing fiscal oversight and guidance to ensure fiscal stability in the current and future years.

By December 2019, the State Auditor issued its independent performance audit report on the fiscal condition of the District. The report includes several recommendations to assist the District in moving towards fiscal solvency.

The financial status as of the 2019-20 First Interim Financial Report projects that ongoing reductions of \$27 million are still required in order to balance the budget, satisfy the state-mandated 2% reserve and avoid the fiscal crisis.

A Student-Centered Fiscal Recovery Plan presented to the Board of Education on February 6, 2020, provided a list of options subject to negotiations that could achieve a \$27 million solution.

The District reviewed and analyzed the following opportunities:

Options Subject to Negotiations	
(1) Potential Changes to Salary – Cut all salaries by 2%	\$ 6,854,000
(2) Staff pay 3.5% of salary towards retiree health benefits	\$ 9,997,000
(assumes contribution would reduce General Fund cost)	
(3) Cap district payment at 80% of the lowest-cost plan for employee only and family	\$20,419,000
plans	

The District identified several options to achieve \$27 million in ongoing budget savings, as noted in the table below:

Options Subject to Negotiations	
(1) Potential Changes to Health Care Benefits – Cap district payment at lowest-cost plan	\$28,516,699
for employee-only plans and 75 percent for employee+1 and family plans	
(2) Potential change to employee contribution to fund retiree health benefits to 2% of	\$ 3,300,000
salary	
(does not reduce employer contribution but addresses the retiree health benefit	
liability)	

As of the date of these financial statements, the District has not achieved sufficient reductions to resolve the ongoing structural budget deficit which is projected to increase in future years. Similar to many other districts within the State, the District continues to face challenges with declining student enrollment, average daily attendance percentages, and unduplicated student group percentages. These are all variables that impact the District's basis for revenues. Furthermore, additional cost pressures compound the above challenges due to escalating employer pension costs and increased contributions from the Unrestricted General Fund to meet student needs in the Special Education program.

NOTE 13 – MANAGMENT'S PLANS (Continued)

The District is committed to identifying areas where savings may be achieved in a manner that is fair and equitable without substantial disruptions to our educational programs. The District will continue to evaluate its programs and staffing levels, and other supply and services expenditures in order to determine whether additional non-negotiable savings may be achieved.

If corrective action is not taken, the District is at risk of fiscal insolvency by November 2021 and potential loss of local control by appointment of an administrator. Multi-year budget projections will continue to be evaluated and will also be revised upon the Governor's May 2020 Revision of the 2020-21 Governor's Budget Proposal.

NOTE 14 - SUBSEQUENT EVENT

General Obligation Bonds: On November 21, 2019, the District issued General Obligation Bonds, Election of 2012 (Measure R), 2019 Series D in the amount of \$30,900,000 to improve the health and safety of children, repair playgrounds and playfields to meet modern safety standards, improve physical education facilities and bathrooms, and other various modernization and improvement projects. The 2019 General Obligation Bonds, Series D mature in varying amounts during the succeeding years through August 2049 with interest rates ranging from 2.0% to 5.0%.

SACRAMENTO CITY UNIFIED SCHOOL DISTRICT NOTE TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2019

NOTE 1 - PURPOSE OF SCHEDULES

A - Budgetary Comparison Schedule

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Education to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

B - Schedule of Changes in Net OPEB Liability and Related Ratios

The Schedule of Changes in Net OPEB Liability presents multi-year information which illustrates the changes in the net OPEB liability for each year presented

C - Schedule of the District's Contributions - OPEB

The Schedule of District Contributions is presented to illustrate the District's required contributions relating to the OPEB. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

D - Schedule of Money-Weighted Rate of Return on OPEB Plan Investments

The Schedule of Money-Weighted Rate of Return (MWRR) on OPEB Plan Investments presents multiyear information for the MWRR associated with the OPEB trust.

E - Schedule of the District's Proportionate Share of the Net Pension Liability

The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

F – Schedule of the District's Contributions

The Schedule of District Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

G – Changes of Benefit Terms

There are no changes in benefit terms reported in the Required Supplementary Information.

SACRAMENTO CITY UNIFIED SCHOOL DISTRICT ORGANIZATION June 30, 2019

Sacramento City Unified School District, a political subdivision of the State of California, was established on July 7, 1936. The territory covered by the District does not include certain areas of the City of Sacramento, but does include some contiguous territory located outside city boundaries, but within Sacramento County boundaries. The District operated forty-two elementary schools (grades K-6), seven elementary/middle schools (grades K-8), six middle schools (grades 7-8), two middle/high schools (grades 7-12), seven high schools (grades 9-12), three alternative schools, two adult education centers, two special education centers and forty-two children's centers and preschools, serving infants through age 12. Seventeen charter schools also operated in the District serving kindergarten though grade twelve, five of which were governed by the District Board of Education.

The General Fund fund balance has decreased by \$27,603,270 over the past three years. The District has incurred operating deficits in three of the past three years, and anticipates incurring an operating deficit during the 2019-2020 fiscal year. The fiscal year 2019-2020 budget projects a decrease of \$18,706,877. For a district this size, the state recommends available reserves of at least 2% of total General Fund expenditures, transfers out, and other uses. For the year ended June 30, 2019, the District has met this requirement.

Total long-term liabilities have increased by \$323,172,540 over the past two years, due primarily to the recognition of the net pension and the net OPEB liabilities (Note 6 to the financial statements).

Average daily attendance has decreased by 261 over the past two years. The District anticipates a decrease of 220 ADA for the 2019-2020 fiscal year.

SACRAMENTO CITY UNIFIED SCHOOL DISTRICT NOTES TO SUPPLEMENTARY INFORMATION June 30, 2019

NOTE 1 - PURPOSE OF SCHEDULES

A - Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

B - Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District, and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

C - Schedule of Expenditure of Federal Awards

The Schedule of Expenditure of Federal Awards includes the federal award activity of Sacramento City Unified School District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

The following schedule provides a reconciliation between revenues reported on the Statement of Revenues, Expenditures and Change in Fund Balances and the related expenditures reported on the Schedule of Expenditure of Federal Awards. The reconciling amounts represent Federal funds that have been recorded as revenues that have not been expended by June 30, 2019.

SACRAMENTO CITY UNIFIED SCHOOL DISTRICT NOTES TO SUPPLEMENTARY INFORMATION June 30, 2019

NOTE 1 - PURPOSE OF SCHEDULES (Continued)

D - Reconciliation of Unaudited Actual Financial Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the Unaudited Actual Financial Report to the audited financial statements.

E - Schedule of Financial Trends and Analysis - Unaudited

This schedule provides information on the District's financial condition over the past three years and its anticipated condition for the 2019-2020 fiscal year, as required by the State Controller's Office.

F - Schedule of Charter Schools

This schedule provides information for the California Department of Education to monitor financial reporting by Charter Schools.

G - Schedule of First 5 Revenues and Expenditures

This schedule provides information about the First 5 Sacramento County Program.

NOTE 2 - EARLY RETIREMENT INCENTIVE PROGRAM

Education Code Section 14502 requires certain disclosure in the financial statements of districts which adopt Early Retirement Incentive Programs pursuant to Education Code Sections 22714 and 44929. For the fiscal year ended June 30, 2019, the District did not adopt this program.

Management's Responsibility

Management is responsible for compliance with the requirements of state laws and regulations, as listed above.

Auditor's Responsibility

Our responsibility is to express an opinion on Sacramento City Unified School District's compliance with state laws and regulations as listed above based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the 2018-19 Guide for Annual Audits of K12 Local Education Agencies and State Compliance Reporting (Audit Guide). Those standards and the Audit Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on Sacramento City Unified School District's compliance with the state laws and regulations listed above occurred. An audit includes examining, on a test basis, evidence about Sacramento City Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with state laws and regulations. However, our audit does not provide a legal determination of Sacramento City Unified School District's compliance.

Basis for Qualified Opinion on Compliance with State Laws and Regulations

As described in Findings 2019-002 and 2019-003 in the accompanying Schedule of Audit Findings and Questioned Costs, Sacramento City Unified School District did not comply with the requirements regarding After School Education and Safety Program and Unduplicated Local Control Funding Formula Pupil Counts. Compliance with such requirements is necessary, in our opinion, for Sacramento City Unified School District to comply with the requirements applicable to the state laws and regulations referred to above.

Qualified Opinion on Compliance with State Laws and Regulations

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, Sacramento City Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state laws and regulations referred to above for the year ended June 30, 2019.

Other Matter

Sacramento City Unified School District's responses to the noncompliance findings identified in our audit are included in the accompanying Schedule of Audit Findings and Questioned Costs. Sacramento City Unified School District's responses were not subjected to the auditing procedures applied in the audit of State Compliance and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report on compliance is solely to describe the scope of our testing of compliance and the results of that testing based on the requirements of the State of California's 2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education Sacramento City Unified School District Sacramento, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sacramento City Unified School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Sacramento City Unified School District's basic financial statements, and have issued our report thereon dated February 18, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Sacramento City Unified School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sacramento City Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Sacramento City Unified School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We identified a deficiency in internal control that was communicated to management as identified in the accompanying Schedule of Audit Findings and Questioned Costs as Finding 2019-001.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sacramento City Unified School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Sacramento City Unified School District's Response to Finding

Sacramento City Unified School District's response to the finding identified in our audit is described in the accompanying Schedule of Audit Findings and Questioned Costs. Sacramento City Unified School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH THE FIRST 5 SACRAMENTO COUNTY PROGRAM

Board of Education Sacramento City Unified School District Sacramento, California

Report on Compliance on First 5 Sacramento County Program

We have audited Sacramento City Unified School District's compliance with the types of compliance requirements described in the Program Guidelines for the First 5 Sacramento County Program that could have a direct and material effect on the First 5 Sacramento County Program for the year ended June 30, 2019.

Management's Responsibility

Management is responsible for the compliance with the requirements of laws, regulations, contracts and grants applicable to its First 5 Sacramento County Program.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance on Sacramento City Unified School District's First 5 Sacramento County Program based on our audit of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on First 5 Sacramento County Program occurred. An audit includes examining, on a test basis, evidence about Sacramento City Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Sacramento City Unified School District's compliance with those requirements.

Opinion on First 5 Sacramento County Program

In our opinion, Sacramento City Unified School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its First 5 Sacramento County Program for the year ended June 30, 2019.

Purpose of this Report

The purpose of this report on compliance is solely to describe the scope of our testing over compliance and results of that testing based on requirements of the First 5 Sacramento County Program. Accordingly, this report is not suitable of any other purposes.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Board of Education Sacramento City Unified School District Sacramento, California

Report on Compliance for Each Major Federal Program

We have audited Sacramento City Unified School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Sacramento City Unified School District's major federal programs for the year ended June 30, 2019. Sacramento City Unified School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statues, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Sacramento City Unified School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Sacramento City Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Sacramento City Unified School District's compliance.

Unmodified Opinion on Each of the Major Federal Programs

In our opinion, Sacramento City Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of Sacramento City Unified School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Sacramento City Unified School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Sacramento City Unified School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SECTION II - FINANCIAL STATEMENT FINDINGS

2019-001 DEFICIENCY - SEGREGATION OF DUTIES IN JOURNAL ENTRY PROCESSING (30000)

Criteria

Sound accounting policies and proper segregation of duties require an internal control system be in place to ensure each transaction is complete, accurate and reviewed by a knowledgeable person prior to processing.

Context

Three individuals in the Accounting Services department have the ability to prepare and post journal entries into the financial system.

Effect

There exists opportunity for error or fraud to be committed related to financial reporting.

<u>Cause</u>

The design of controls within the journal entry process does not mitigate the potential for fraud or error in financial reporting.

Fiscal Impact

Not applicable.

Recommendation

We recommend that the District implement an internal control generating a log of journal entries prepared and posted by the same individual and require an independent individual to review and verify on a periodic basis.

Views of Responsible Officials and Planned Corrective Action

The District currently uses a manual process for the segregation of duties to mitigate the same individual preparing and posting their own journal entries into the financial system. The District will implement stronger internal controls to address the risk that the same individual could prepare and post journal entries into the financial system by adding an additional level of review to verify potential entries on a periodic basis.

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

No matters were reported.		

SECTION IV - STATE AWARD FINDINGS AND QUESTIONED COSTS

2019-002 DEFICIENCY - AFTER SCHOOL SAFETY AND EDUCATION PROGRAM - ATTENDANCE (10000)

<u>Criteria</u>

Attendance Accounting and Reporting in California Public Schools, Title 5, CCR, Section 401 and 421 (B) and Education Code Section 44809 - Each LEA must develop and maintain accurate and adequate records to support the attendance reported to the State.

Condition

The After School Education and Safety (ASES) Program improperly reported 31 days of attendance in their attendance system and was unable to provide sign in sheets to support an additional 2 days of attendance in their attendance system.

Context

We performed the audit procedures enumerated in the State of California 2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting and identified the finding described above.

Effect

The effect of this finding is an overstatement of 33 days of attendance for the District's ASES program.

Cause

The errors were the result of clerical errors in accounting for attendance.

Fiscal Impact

Not determinable.

Recommendation

The District should enforce controls to ensure accurate accounting for attendance.

Views of Responsible Officials and Planned Corrective Action

The District will work with site administration and staff to implement the recommendations. The District will continue to provide staff training on student attendance reporting procedures. The Youth Development department staff will perform internal reviews prior to filing attendance reports, and will submit corrected 2018-19 attendance reports to the California Department of Education.

SECTION IV - STATE AWARD FINDINGS AND QUESTIONED COSTS

2019-003 DEFICIENCY – UNDUPLICATED LOCAL CONTROL FUNDING FORMULA PUPIL COUNTS (40000)

Criteria

Education Code Section 42238.02 (B)(3)(B) - ...determine if the English learner, foster youth, and free or reduced-price meal eligible pupil counts [in CALPADS] are consistent with the school district's or charter school's English learner, foster youth, and free or reduced-price meal eligible pupil records.

Condition

At multiple sites in the District, two students were improperly included as as Free or reduced-price meal eligible. There was no supporting documentation that these students met the free or reduced-price meal eligible program guidelines.

Context

We performed the audit procedures enumerated in the State of California 2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting and identified the finding described above.

Effect

For the District, the effect of this finding is an extrapolated overstatement of 333 unduplicated pupil counts.

<u>Cause</u>

The errors were the result of clerical errors in accounting for unduplicated pupil counts.

Fiscal Impact

The Unduplicated Pupil Percentage for Sacramento City Unified School District was originally reported at 71.63% and the revised School District Unduplicated Pupil Percentage should be revised to 71.35%; the fiscal impact is a reduction of LCFF revenues of approximately \$627,091.

Recommendation

The District should ensure that all students are properly reflected in the CALPADS reporting under the appropriate free or reduced-price meal program status.

SECTION IV - STATE AWARD FINDINGS AND QUESTIONED COSTS

2019-003 DEFICIENCY – UNDUPLICATED LOCAL CONTROL FUNDING FORMULA PUPIL COUNTS (40000) (Continued)

Views of Responsible Officials and Planned Corrective Action

The District will work with administration and staff to follow internal controls to confirm only eligible students are included in the California Longitudinal Pupil Achievement Data System (CALPADS) reporting before the report has been submitted. This includes ongoing inter-department meetings to ensure accurate CALPADS reporting for Free or Reduced-Price Meal Program (FRPM) and English Language Acquisition Status (ELAS) Local Control Funding Formula (LCFF) funded students; a final review process to confirm accuracy prior to the report submission; and a random selection of a sampling of the students included in the FRPM and ELAS reporting over various school sites.

- Profit and Loss statements for the student store are not approved.
- Fundraisers are not approved by the site principal.

Sam Brannan Middle School

- A dual count is not being documented when funds are turned into the office.
- A receipt is not being issued when funds are turned into the office.
- Cash receipts are not reconciled to supporting documentation when turned into the office.
- Profit and Loss statements for the student store are not prepared or approved.

New Technology High School

- Fundraisers are not approved prior to the event.
- Monthly financial reports and reconciliations are not reviewed by the site principal.

American Legion Continuation High

- Receipts are not issued when funds are turned into the office.
- Deposits are not performed in a timely manner.

SACRAMENTO CITY UNIFIED SCHOOL DISTRICT STATUS OF PRIOR YEAR FINDINGS AND RECOMMENDATIONS Year Ended June 30, 2019

Finding/Recommendation

Current Status

District Explanation If Not Implemented

2018-001 (Continued)

Recommendation: Based on the deficiencies identified above, we recommend the following:

- Cash count forms should be prepared evidencing dual count of funds for receipt of funds.
- A receipt for the funds turned into the ASB should be issued.
- Cash receipts should be supported by detailed schedules noting the quantity and unit price of items sold.
- Profit and Loss statements for the student store should be prepared and approved.
- The Monthly Encumbrance Report should be reviewed by the principal.
- Approval of expenditures should be formally documented by the proper individuals (including an elected student representative if applicable) before an item is purchased.

2018-002

Condition

Implemented.

Arthur A. Benjamin Health Professions High School - Grades 9-12:

• One student was improperly counted as present for one day.

New Technology High School - Grades 9-12:

• One student was improperly counted as present for one day.

Recommendation: We recommend that the attendance clerk reconciles attendance log with attendance records to ensure attendance is accurately recorded.

SACRAMENTO CITY UNIFIED SCHOOL DISTRICT STATUS OF PRIOR YEAR FINDINGS AND RECOMMENDATIONS Year Ended June 30, 2019

Finding/Recommendation

Current Status

District Explanation If Not Implemented

2018-003

Condition: At multiple sites in the District, three students were improperly included as English learner. There was no supporting documentation that these students were approved to be documented as English learner status.

At New Technology High School, one student was improperly included as English learner. There was no supporting documentation that the student was approved to be documented as English learner status.

Recommendation: The District should ensure that all students are properly reflected in the CALPADS reporting under the appropriate English Learner status.

Implemented.
