A Garden in Every School Symposium

~ Delaine Eastin

school garden initiative

We've planned an inspiring weekend for you! Network with like-minded teachers, parents, garden designers, community leaders, school garden coordinators, and others involved with helping kids make the connection between food, health and the

environment. Gardens offer beautiful, dynamic settings to integrate every discipline, including science, math, reading, art, environmental studies, nutrition and health. By encouraging and supporting a garden in every school, we create opportunities for our children to discover fresh food, to make healthier food choices and to become better nourished.

If you agree that school garden projects nurture community spirit, common purpose, and cultural appreciation by building bridges among students, school staff, families, local businesses and organizations; let's work together to create a garden in every school!

Our intention is to advance Delaine Eastin's A Garden in Every School initiative by advocating for a collaborative regional commitment to accomplish the goal of a garden in every school by 2020 for the children of America's Farm to Fork Capital. Will you help us?

Get Involved!

Collaborative partners or volunteers: Shannon Hardwicke
(shardwicke@soilborn.org)

Sponsorship information: Liz Shahbazian (lshahbazian@soilborn.org)

Donations and media partners: Janet Zeller (jzeller@soilborn.org)
