Recommendation: Approve the 2022-23 First Interim Financial Report with a Positive Certification.

Background/Rationale: Education Code Section 42130 requires school districts to prepare Interim Financial Reports each year. The intent of these reports is to provide an “early warning” system to indicate whether a district can meet its current or future year financial obligations. This is the first of three interim financial reports presented to the Board of Education for the 2022-23 fiscal year. The report provides financial information as of October 31, 2022, projections for the remaining 2022-23 fiscal year and multi-year projections for 2023-24 and 2024-25 fiscal years.

Financial Considerations: The District is projected to satisfy the 2% required reserve for economic uncertainties and maintain a positive cash flow for the current and two subsequent years. The District projects a combined surplus of \$79.8M for 2022-23, \$19.8M for 2023-24 and a deficit of (\$30.3M) in 2024-25.

The District is projecting to be able to meet its financial obligations for the current and subsequent two years; therefore, the District self certifies with a positive certification. The District will continue to work closely with the Sacramento County Fiscal Advisor due to the District’s Adopted Budgets being disapproved for three prior years (2018-2019, 2019-2020 and 2020-2021) and conditionally approved for 2021-22 and 2022-2023.

LCAP Goal(s): Family and Community Empowerment; College, Career and Life Ready Graduates; Operational Excellence

2022-23 First Interim Financial Report

December 15, 2022

I. OVERVIEW/HISTORY

Interim financial reports provide information on district's financial condition for the fiscal year and two subsequent years. The Governing Board of a school district certifies the district's financial condition to the county office of education through these reports. The First Interim Report reflects actual financial activity for the period of July 1st through October 31st, 2022 and projects financial activity through June 30th, 2023. The First Interim Report contains summarized and detailed budget information, multi-year projections, and estimated cash flow reports. The State budget and budget guidelines provided by the California Department of Education, Department of Finance, county offices of education, School Services of California, and other professional organizations provide the guidance for districts to develop and modify their budgets. This is the first of the interim financial reports presented to the Governing Board for the 2022-23 fiscal year.

The 2018-19 disapproved budget qualified the District to receive independent auditing support from the Fiscal Crisis and Management Assistance Team (FCMAT). At no cost to the District, FCMAT conducted a Fiscal Health Risk Analysis Study of the District in October 2018. FCMAT presented the findings to the Governing Board at the December 13, 2018 Board Meeting. A matrix titled FCMAT Fiscal Health Risk Analysis was created to track the District's progress to correct the findings. The District and the SCOE assigned Fiscal Advisor have worked together to implement FCMAT's recommendations.

The District provides regular updates on the progress made to address the FCMAT findings with each interim financial report. Following is a summary of the findings attempted, completed and remaining as of December 15, 2022:

2022-23 First Interim Financial Report

A report of the updated findings is included in the First Interim documents and is found on the District's financial webpage at <https://www.scusd.edu/fcmat>.

II. Driving Governance

- Education Code Section 42130 requires school districts to prepare interim financial reports each fiscal year. The requirement includes filing two interim financial reports. The First Interim Report, as of October 31st, requires Board approval by December 15th. The Second Interim Report, as of January 31st, requires Board approval by March 15th. If the District is in qualified or negative status, a third financial report is required as of April 30, and requires Board approval by June 1st. All reports required shall be in a format or on forms prescribed by the Superintendent of Public Instruction.
- Education Code section 42131 requires the Board of Education to certify, in writing, whether the district is able to meet its financial obligations for the remainder of the fiscal year and, based on current projections, for the subsequent two fiscal years. Certifications shall be based on the Board's assessment of the district budget. The certifications provided with the first and second interim reports are classified as positive, qualified, or negative. A "positive" certification indicates that the district will meet its financial obligations for the current fiscal year as well as the two subsequent fiscal years. A "qualified" certification means that the district may not meet its financial obligations for the current fiscal year or two subsequent fiscal years. A "negative" certification means that the district is unable to meet its financial obligations for the remainder of the current fiscal year or the future fiscal year. This education code section also outlines the role of the County Office of Education.
- The SCUSD Board of Trustees has revised Board Policy 3100 to establish and maintain a general reserve for economic uncertainty that meets or exceeds the requirements of CCR 15443. The reserve for economic uncertainty for the District will be established at no less than 5% of total general fund expenditures. Under BP 3100 it is acknowledged that one-time funding should be used for one-time expenditures and shall only be used for an on-going expenditure as a last resort. As part of the approval of the annual budget, the Board shall consider any proposed use of one-time funding and shall take separate action to approve such uses

III. Goals, Objectives and Measures

2022-23 First Interim Financial Report

School district budgets are not static, but instead are constantly being revised to respond to decisions at the State and Federal levels, as well as to the expenditure needs of the district. District staff closely monitor enrollment, average daily attendance, State and Federal revenue and other areas that could impact the budget in the current or outlying years. The District's 2022-23 1st Interim financial report is budgeted assuming a 6.56% COLA plus additional LCFF investment of 6.70% for a total of 13.26% for 2022-23, 5.38% for 2023-24 and 4.02% for 2024-25.

The First Interim Financial Report includes assumptions and projections made with the best information available for the reporting period, and the documents attached are primarily State-required reports but also include District documents that provide additional related financial details. Key information includes the budget assumptions, multi-year projections, and cash flow reports.

Summary Analysis of the 2022-23 State Enacted Budget

Local Control Funding Formula Factors

Illustrated below is a comparison of projected statutory COLAs plus additional LCFF investments for the budget year and two subsequent years:

Description	2022-23	2023-24	2024-25
LCFF COLAs (22-23 Gov. Proposal)	5.33%	3.11%	3.11%
LCFF COLAs + Investment (22-23 May Revision)	6.56% + investment \approx 3.29%	5.38%	4.02%
LCFF COLAs + Investment (22-23 Enacted State Budget)	6.56% + investment of 6.28%	5.38%	4.02%
LCFF COLAs + Investment (22-23 AB185 Trailer Bill)	6.56% + investment of 6.70%	5.38%	4.02%

The enacted state budget also incorporated the Governor's proposal of allowing school districts to utilize the greater of current year, prior year, or the average of the most recent three prior years' ADA. It also included the provision of amending the 2021-22 LCFF calculation to utilize the greater of 2021-22 ADA or the 2019-20 attendance rate applied to 2021-22 enrollment for all classroom-based LEAs that met specified independent study requirements.

Other Enacted State Budget Components

Illustrated below is a summary of other major budget components contained in the enacted state budget.

- Transitional Kindergarten (TK) add-on to the LCFF of \$2,813 for 2022-23, to be adjusted annually by the COLA
- \$7.9 billion to establish the Learning Recovery Emergency Block Grant to be allocated to all LEAs based on unduplicated pupil counts
- \$3.6 billion to establish the Arts, Music, and Instructional Materials Discretionary Block Grant to be allocated to all LEAs on a per-pupil basis
- Full funding of \$4 billion for the Expanded Learning Opportunities Program (ELOP) with changes to calculation of funds, offering, and access requirements. \$5 million of the \$4 billion is for county offices to provide technical assistance, evaluation and training services to support program improvement [EC 46120(d)(8)]
- Special education base rate increased to \$820 per pupil

- Home-to-school transportation funding equal to 60% of transportation expenditures reported in the prior year, excluding capital outlay and nonagency expenditures, and reduced by the transportation add-on to the LCFF.
 - As a condition of receiving the reimbursed transportation allowance, the school district or county office of education shall develop a plan describing the transportation services it will offer to its pupils and how it will prioritize planned transportation services for pupils in TK thru grade 6 and pupils who are low income.
 - The plan shall be adopted by the governing board on or before April 1, 2023 and updated annually by April 1.
- \$1.2 billion to implement universal meals, plus \$600 million for kitchen infrastructure grants
- \$500 million to establish the Golden State Pathways Program for college and career education pathways and \$200 million for the expansion of dual enrollment programs
- \$250 million of one-time Prop. 98 funds, available over five years, to LEAs, including \$25 million for the Superintendent of Public Instruction to provide grants to high-needs elementary schools with a UPP of 97% or higher in kindergarten and grades 1 to 3, inclusive, to develop and implement school literacy programs and interventions and train and hire literacy coaches and reading and literacy specialists.

Reserves

District Reserve Requirements: The 2014 State Budget Act and the passage of Proposition 2 in November 2014 established a hard cap on district reserves, if all the following conditions are met:

1. Proposition 98 must be funded based on Test 1
2. Full repayment of the maintenance factor prior to 2014-15
3. Proposition 98 provides sufficient funds to support pupil attendance growth and the statutory COLA
4. Capital gains exceed 8% of General Fund revenues

Prior law specified that in any fiscal year immediately following a year in which a transfer of any amount is made to the Public School System Stabilization Account, a district's assigned or unassigned fund balance (including Fund 01 and Fund 17) may not exceed two times the reserve for economic uncertainty (three times the reserve for economic uncertainty for districts with more than 400,000 ADA).

However, Senate Bill (SB) 751 which became effective January 1, 2018 made changes to the school district reserve cap law in the following manner:

- It requires that the reserve cap is triggered in a fiscal year immediately after a fiscal year in which the amount of moneys in the Public School System Stabilization Account is equal to or exceeds three percent of the combined total of General Fund revenues appropriated

for school districts and allocated local proceeds of taxes (Proposition 98 funding), as specified, for that fiscal year

- Adjusts the reserve cap from a combined assigned and unassigned ending fund balance based on the size of the district to a combined assigned or unassigned ending balance, in the General Fund (01) and the Special Reserve Fund for Other Than Capital Outlay (17), of 10% of those Funds for all districts
- Reserves would be capped at 10% as long as the amount in the Public School System Stabilization Account remained at 3% or greater of the Proposition 98 amount in each preceding year
 - The State must notify local educational agencies when the conditions are and are no longer applicable
- Basic aid school districts and districts with fewer than 2,501 average daily attendance are exempt from the reserve cap requirement

Since the four conditions stated above are met, and the Proposition 98 reserve balance will be 7.8% (exceeding the minimum 3% threshold), LEAs will have the statutory reserve cap described above beginning 2022-23. Therefore, applicable school districts may need to spend down their reserves and/or commit funds. LEA's could consider board action to commit funds for specific costs such as special education cost increases, increasing CalSTRS/CalPERS contributions, enrollment decline or other LEA priorities.

Education Protection Account

Proposition 30 provides that a portion of K-14 general purpose funds must be utilized for instructional purposes. Revenues generated from Proposition 30 are deposited into an account called the Education Protection Account (EPA). The District receives funds from the EPA based on its proportionate share of statewide general purpose funds. A corresponding reduction is made to its state aid funds. Illustrated below is how the District's EPA funds are appropriated for 2022-23. The amounts will be revised throughout the year based on information received from the State.

Routine Restricted Maintenance Account

Per Education Code Section 17070.75, school districts are required to deposit into the account a minimum amount equal to or greater than three percent (3%) of the total General Fund expenditures and other financing uses for that fiscal year. Illustrated below are the primary compliance components:

- The 3% contribution is calculated on total General Fund expenditures, including other financing uses (i.e. transfers out, debt issuances relating to the General Fund)
- The final 3% contribution is based on year-end actual data; therefore, while it is developed based on budget, it must be trued up using actual expenditures
- The actual contribution will be audited as part of the School Facility Program Bond Audit
- Currently, LEAs are allowed to exclude the following programs from its calculation of required contributions to routine restricted maintenance:
 - State pension on-behalf payments
 - ESSER I, GEER I, Coronavirus Relief, & State LLM
 - State supplemental meal reimbursements
- The most recent funds relating to coronavirus impacts (i.e In-Person, & Extended Learning) currently remain included in the calculation assumptions.

2022-23 First Interim Financial Report

December 15, 2022

Changes from 2022-23 Adopted Budget to 2022-23 First Interim Report

<i>1. The change in LCFF is due to an additional investment to the base LCFF of 6.7% on top of the 6.26% COLA at Adopted Budget.</i>
<i>2. The increase in restricted federal revenues is due to budgeting carryover of \$75M including \$5.1M for Title I, \$2.5M CSI, \$14M ESSER II, \$35.7M ESSER III, and \$9.1M in federal ELOG. Also includes \$3.6M in Title II/III/IV carryover, \$1.86M in ASES funds and \$3.8 in federal special education funding carryover.</i>
<i>3. The unrestricted decrease of \$45.5M is due to the removal of unrestricted one time state funds that were shifted to restricted resources at the enacted budget. The increase in restricted state revenues is due to the addition of the Learning Recovery Block Grant and Music Arts Grant one time funds, and budgeting carryover of \$7M including \$3.4M IPI grant, \$1.75M CTEIG, \$50K CPA grant, and budgeting \$1.9M for the CCSP grant.</i>

2022-23 First Interim Financial Report

December 15, 2022

Conclusion

The District is projected to satisfy the 2% required reserve for economic uncertainties and maintain a positive cash flow in 2022-23, 2023-24 and 2024-25. The District projects a combined surplus of \$79.8M for 2022-23, \$19.8M for 2023-24 and a deficit of (\$30.3M) in 2024-25. The projected budget and multiyear projections support that the District is projecting to be able to meet its financial obligations for the current and subsequent two years; therefore, the District self certifies with a positive certification.

Risks:

Uncertainty regarding on-going State funding for K12 Districts, the potential future impact of a recessionary economy, enrollment, additional unfunded COVID-19 related expenses and final audit guidance on the utilization of the 2019-20 COVID-19 ADA relief calculations.

Opportunities:

Improved State Budget and funding for K12 Districts, stable/increased enrollment, maintaining fiscal stability and the potential to make up the instructional days lost during the 2021-22 school year through the State waiver process.

Continuation of County Oversight

County superintendents are required by statute to continually monitor districts for fiscal distress. If the district has a negative certification, a disapproved budget, or the county superintendent determines that the district may be unable to meet its financial obligations, the county superintendent can:

- Stay or rescind any action that is determined to be inconsistent with the ability of the district to meet its obligations for the current or subsequent fiscal year, and
- Assist in developing a budget for the subsequent fiscal year.

The District's budget has been disapproved for three prior years (2018-2019, 2019-2020 and 2020-2021) but the Sacramento County Office of Education conditionally approved the District's adopted budgets for 2021-22 and 2022-2023.

The Sacramento County superintendent continues to maintain the current fiscal advisor to support the district.

Recent efforts include the completion of the LCAP Mid-year report and the one-time supplement to the Annual Update. These processes required collaborative development of estimated actual expenditures for LCAP actions and reporting on the ESSER III Expenditure plan actions. The latter have involved a wider collaborative with program staff to understand the implementation status of various personnel-related actions and maintaining ongoing progress monitoring to ensure that unspent funds can be reallocated to already identified actions and open consideration for new actions. Additional collaboration has occurred to ensure that the standard LCAP development is on pace, with</p>

A recent example is the ESSER III expenditure plan development. Business Services and Continuous Improvement and Accountability (CIA) staff collaboratively developed a Request for Funding process that was used by departments. This required departmental staff to describe their proposal in detail including, but not limited to, their intended use of funding, scope across the three-year timeline, and per year and total funding amounts requested. Business services and CIA staff further collaborated to facilitate executive leadership's prioritization process, review proposed expenditures in relation to other CARES funding uses, and ensure that proposed amounts were accurate to staffing amounts requested. The ESSER III plan is closely aligned to the LCAP and other recent district plans, making this collaboration a key step in the 2021-22 development of the 2022-23 LCAP.</p> <p><u>9/16/21 Update:</u> Throughout 2019-20 and 2020-21 staff in Business Services and State and Federal Programs have developed</p>

These include program coding for funds allocated to school sites to more accurately account for planned expenditures in the LCAP, realignment of resource coding for LCFF S&C funds, and development of shared tools to prepare projected and estimated actual expenditures. These efforts have been supported by regular meetings between Business Services and LCAP staff with the explicit goal of increasing LCAP-budget alignment. Business Services staff have also collaborated on multiple LCAP presentations to the Board of Education.</p> <p><u>11/30/20 Update:</u> Board Policy Staff have developed an initial draft of BP 0460: Local Control and Accountability Plan. 2.	Has the district addressed any deficiencies the county office of education has identified in its oversight letters? (part 1)	Complete	Since 2006, the county office of education has identified the need for the district to develop a viable plan to fund its long-term other post-employment benefits (OPEB) liability, which has not been measurably addressed.	<p><u>12/15/22 Update:</u> The district has made progress towards funding at the Actuarially Determined Contribution (ADC) level and for the 2021-22 fiscal year funded at 100%. Funding at the ADC to the OPEB trust has resulted in the District's net OPEB liability decreasing from \$567M as of June 30, 2020 down to \$308M as of June 30, 2022. The District plans to continue funding at the actuarially determined contribution level.</p> <p><u>3/17/22 Update:</u> The District is continuing to review options to fully fund at the Actuarially Determined Contribution level for the 2021-22 fiscal year to continue its progress towards funding the OPEB liability.</p> <p><u>12/16/21 Update:</u> On November 2nd, 2021 the District received an updated actuarial study that reflects an improvement in the District's total OPEB liability. Due to increased contributions in FY 2021, the District funded 97.6% of its Actuarially Determined Contribution. The higher funding level allowed for a change in the actuarial methodology that contributed to a decrease in total OPEB liability from \$654M as of June 30, 2020 to \$415M as of June 30, 2021, or a 44% decrease. To continue to maximize progress, the district plans on fully funding at the Actuarially Determined Contribution level for the 2021-22 fiscal year.</p>

No.	FCMAT Finding	Status	District Response	Progress
				<p><u>9/16/21 Update:</u> The District is expecting to receive an updated actuarial report in the next few weeks which will provide the status of the OPEB liability.</p> <p><u>5/1/21 Update:</u> The District is continuing to review options and develop a plan to fully fund at the ADC level which, over a five-year span, will substantially decrease the Net OPEB liability.</p> <p><u>3/1/21 Update:</u> The District realized excess savings in its Dental and Vision funds and applied the savings towards its OPEB contribution. The District is continuing to review options and develop a plan to fully fund at the ADC level which, over a five-year span, will substantially decrease the Net OPEB liability.</p> <p><u>3/10/20 Update:</u> On October 25, 2019 the District received its updated Other Post Employment Benefit (OPEB) liability amount in our latest GASB 75 actuarial report for fiscal year ended June 30, 2019. The latest valuation reports the District's Total OPEB Liability at \$599 million, a \$181 million decrease from the prior report of \$780 million. This is a result of lower than projected medical premium growth and increased interest rates. While a portion of the change in interest rates is market-based, being able to maintain the higher interest (discount) rates is contingent upon sustained and/or increasing contributions to the OPEB trust. Failure to do so would likely result in a</p>

No.	FCMAT Finding	Status	District Response	Progress
				<p>reduction to these rates in the future and revert to a higher Total OPEB Liability. The Net OPEB Liability decreased by \$199 million from the prior report to \$526 million. The decrease is a result of the continued funding of the District's OPEB irrevocable trust fund in addition to the decreases noted above. In other words, these continued contributions to the OPEB trust help not only in increasing the trust assets, but also in stabilizing or improving the discount rate used to calculate the Total OPEB Liability. This is a significant improvement, but the liability will continue to grow without continued efforts to decrease it. 11/30/20 Update: On September 2, 2020 the District received its updated Other Post Employment (OPEB) liability amount in the recent GASB 75 actuarial report for the fiscal year ended June 30, 2020. The key points are:</p> <ul style="list-style-type: none"> • The District's Net OPEB liability increased by \$41.7M year over year from \$526M FYE 2019 to \$568M FYE 2020. • The increase is due to annual costs and a decrease in the discount rate assumption from 4.25% to 3.90% • The Actuarially Determined Contribution (ADC) is \$30.8M. The district contributed \$26.7M in 19-20, leaving a contribution deficit of \$4.1M.

No.	FCMAT Finding	Status	District Response	Progress
				<ul style="list-style-type: none"> • If the District were to increase its contribution to the ADC amount it would help in two ways: <ul style="list-style-type: none"> o Fund the Net OPEB liability o Per GASB 75, allow the actuary to gradually increase the discount rate used (3.90%) to the asset return rate used (7.0%) in between 1-5 years' time. In dollars, if all else is equal, the Total OPEB liability would be closer to \$430M instead of the \$654M projected currently. <p>The District has made some progress but due to changes in assumptions, the Net OPEB liability has increased. To maximize progress, the district would need to contribute the full ADC amount each year.</p>
3.	Has the district addressed any deficiencies the county office of education has identified in its oversight letters? (part 2)	In Progress	<p>In letters dated December 7, 2017, January 16, 2018, and April 16, 2018, the county office discussed and outlined its concerns with the district's ongoing structural deficit, and the need for the district to submit a board-approved budget reduction plan to reverse the deficit spending trend.</p> <p>On August 22, 2018, the county office disapproved the district's 2018-19 adopted budget, and the district was instructed to revise its 2018-19 budget and submit a balanced budget plan that supports ongoing expenditures from ongoing revenue sources, and that has a timeline showing when and</p>	<p>12/15/22 Update: As of the 2022-23 First Interim Report the district is projecting an unrestricted surplus of \$30.5M in 2022-23, \$23.3M unrestricted surplus in 2023-24 and unrestricted surplus \$7.6 M in 2024-25.</p> <p><u>3/17/22 Update:</u> As of the 2021-22 Second Interim report the District is projecting an unrestricted surplus of \$19.86M in the current year, an unrestricted surplus of \$10.45M in 2022-23 and projected unrestricted deficit of (\$6.17M) in 2023-24.</p> <p><u>12/16/21 Update:</u> As of the 2021-22 First Interim financial report the District is projecting an unrestricted deficit of (\$16.5M) in 2022-23 and (\$23.2M) in 2023-24.</p>

			<p>how adjustments would be implemented no later than October 8, 2018. On October 11, 2018, the county office notified the district that its revised adopted budget was also disapproved based on their review. That budget showed that the district's unrestricted general fund balance would decrease by approximately \$34 million in 2018-19, approximately \$43 million in 2019-20 and \$66.5 million in 2020-21. The district was instructed to develop a viable board-approved budget and multiyear expenditure plan that would reverse the deficit spending trend, and to submit this plan with its 2018-19 first interim report, which is due December 14, 2018.</p>	<p><u>5/1/21 Update:</u> As of the 2020-2021 2nd Interim financial report, the District is projecting an unrestricted deficit spend of (\$11.2M) in 2021-22 and (\$26.4M) in 2022-23.</p> <p><u>3/1/21 Update:</u> On the February 4, 2021 Board meeting, the Board approved a reduction of approximately \$4.5M.</p> <p><u>11/30/20 Update:</u> Over the past two years, the District has identified and implemented more than \$50 million in on-going non-negotiable budget reductions. However, these reductions have not been sufficient to address the structural deficit. As of the 2020-2021 1st Interim financial report, the District is projecting a \$56 million budget deficit and must implement an on-going solution to achieve fiscal solvency and avoid a State Loan. At the December 10, 2020 Board Meeting the Board will consider a Fiscal Recovery Plan to address some of the deficit but this plan alone will not be sufficient to resolve the projected \$56M deficit.</p> <p><u>5/12/20 Update:</u> At the April 2, 2020 Board Meeting, the 2019-20 Second Interim Financial Report was approved with a negative certification and an update on the FCMAT matrix was also presented. At the May 7, 2020 Board Meeting, a State Budget update and impact on the District's finances using 3 LCFF COLA scenarios was presented to assess the impact on the District's revenue and cash flow for the 2020-21 and 2021-22</p>

				<p>fiscal years. Under any of the 3 scenarios, the District's fiscal condition is worse and the cash challenges are projected to accelerate by a few months.</p> <p><u>3/10/20 Update:</u> The 2019-20 First Interim Financial Report and FCMAT Update was presented at the December 19, 2019 Board Meeting with a negative certification. A negotiated solution will be required to address the District's \$27M shortfall. The Fiscal Recovery Plan was presented at the February 6, 2020 Board Meeting and included proposals to achieve the \$27M solution. These proposals require negotiations.</p> <p><u>6/13/19 Update:</u> District has made approximately \$45 million in adjustments through the 2019/20 Proposed Budget. Additional adjustments of \$26 million are needed through negotiations. As of the 2019-20 Revised Adopted Budget the District has implemented \$50.2M in ongoing budget adjustments and \$12.1M in one-time budget adjustments. These adjustments were made during the period of December 2018 through September 2019 and are not in addition to the previous adjustments listed above. Additional adjustments of \$27M are still needed to eliminate the deficit and achieve fiscal solvency. This information can be found in the Revised Adopted Budget 2019-20 presented at the October 3, 2019 Board Meeting.</p>

5.	Does the district have sufficient cash resources in its other funds to support its current and projected obligations?	Complete	During FCMAT’s fieldwork, the district was projected to be cash insolvent as early as October 2019 if budget reductions are not made. A more recent cash flow projection prepared by the district at the 2018-19 first interim shows the cash insolvency date as November 2019 without budget reductions.	<p><u>3/17/22 Update:</u> The 2021-22 Second Interim Report projects a positive cash balance in 2021-22, 2022-23 and 2023-24 fiscal years. The District projects a positive cash balance through October 2020.</p>
6.	Are all charters authorized by the district going concerns? (part 1)	In Progress	The district has transferred funds to some of its authorized charter schools when those schools were in financial need. In 2017-18, the district transferred a total of \$239,697.59 to charter schools, and it is projecting a transfer of \$300,000 in 2018-19.	<u>12/15/22 Update:</u> For fiscal year 2021-22, the district transferred \$1,081,471 to the charter fund. \$918K of this transfer was to offset the estimated loss of LCFF revenue as a result of the loss of instructional days during the 21-22 school year. The remaining \$163K was a contribution to New Joseph Bonnheim. The 2022-23 First Interim budget projects a \$116K contribution to the charter fund. The higher funding level allowed for a change in the actuarial methodology that contributed to a decrease in total OPEB liability from \$654M as of June 30, 2020 to \$415M as of June 30, 2021, or a 44% decrease. This is a result of lower than projected medical premium growth and increased interest rates. While a portion of the change in interest rates is market-based, being able to maintain the higher interest (discount) rates is contingent upon sustained and/or increasing contributions to the OPEB trust. Failure to do so would likely result in a reduction to these rates in the future and revert to a higher Total OPEB Liability.</p> <p>The Net OPEB Liability decreased by \$199 million from the prior report to \$526 million. The decrease is a result of the continued funding of the District's OPEB irrevocable trust fund in addition to the decreases noted above. In other words, these continued contributions to the OPEB trust help not only in increasing the trust assets, but also in stabilizing or improving the discount rate used to calculate the Total OPEB Liability.</p>

18.	If the district has unfunded or contingent liabilities or one-time costs, does the unrestricted fund balance include any assigned or committed reserves above the recommended reserve level?	In Progress	<p>The district's unrestricted ending fund balance does not include amounts for the following liabilities:</p> <ul style="list-style-type: none"> * Because the district and the SCTA disagree on the implementation date of a 3.5% increase included in the December 7, 2017 negotiated agreement, * There is a potential fiscal impact for 2019-20 and beyond of a 7% increase related to salary schedule restructuring rather than the 3.5% stated in the agreement. * The district's net contributions to the irrevocable OPEB trust established to pay future retiree medical benefits have averaged 31% of the amount that will be needed to ensure that total OPEB contributions equal the actuarially- defined contribution. The area of retirement benefits is a liability that the district will need to face because the costs are outpacing contributions. 	<p><u>12/15/22 Update:</u> The district has made progress towards fully funding at the Actuarially Determined Contribution level and for the 2021-22 fiscal year funded at 100.10%. The increase in funding to the OPEB trust has resulted in the District's net OPEB liability decreasing from \$567M as of June 30, 2020 down to \$308M as of June 30, 2022. The District plans to continue funding at the actuarially determined contribution level.</p> <p><u>3/17/22 Update:</u> The District is continuing to review options to fully fund at the Actuarially Determined Contribution level for the 2021-22 fiscal year to continue its progress towards funding the OPEB liability.</p> <p><u>12/16/21 Update:</u> On November 2nd, 2021 the District received an updated actuarial study that reflects an improvement in the District's total OPEB liability. Due to increased contributions in FY 2021, the District funded 97.6% of its Actuarially Determined Contribution. The higher funding level allowed for a change in the actuarial methodology that contributed to a decrease in total OPEB liability from \$654M as of June 30, 2020 to \$415M as of June 30, 2021, or a 44% decrease. To continue to maximize progress, the district plans on fully funding at the Actuarially Determined Contribution level for the 2021-22 fiscal year.</p>

				<p><u>5/1/21 Update:</u> The District is continuing to review options and develop a plan to fully fund at the ADC level which, over a five-year span, will substantially decrease the Net OPEB liability.</p> <p><u>3/1/21 Update:</u> The District realized excess savings in its Dental and Vision funds and applied the savings towards its OPEB contribution. The District is continuing to review options and develop a plan to fully fund at the ADC level which, over a five-year span, will substantially decrease the Net OPEB liability.</p> <p><u>3/10/20 Update:</u> On October 25, 2019 the District received its updated Other Post Employment Benefit (OPEB) liability amount in our latest GASB 75 actuarial report for fiscal year ended June 30, 2019.</p> <p>The latest valuation reports the District's Total OPEB Liability at \$599 million, a \$181 million decrease from the prior report of \$780 million. This is a result of lower than projected medical premium growth and increased interest rates. While a portion of the change in interest rates is market-based, being able to maintain the higher interest (discount) rates is contingent upon sustained and/or increasing contributions to the OPEB trust. Failure to do so would likely result in a reduction to these</p>

				<p>rates in the future and revert to a higher Total OPEB Liability.</p> <p>The Net OPEB Liability decreased by \$199 million from the prior report to \$526 million. The decrease is a result of the continued funding of the District's OPEB irrevocable trust fund in addition to the decreases noted above. In other words, these continued contributions to the OPEB trust help not only in increasing the trust assets, but also in stabilizing or improving the discount rate used to calculate the Total OPEB Liability.</p> <p>This is a significant improvement, but the liability will continue to grow without continued efforts to decrease it.</p> <p>In Progress: Superintendent to establish commission to further address the outstanding liability once a balanced budget is adopted.</p>

In Progress	The district has seen a 129% increase in its total restricted ending fund balance from 2014-15 to 2017-18. In addition, staff stated that some federal funds have gone unspent and have been returned to the federal government.	<u>12/15/22 Update:</u> As of the 2022-23 First Interim report, the district projects a restricted ending fund balance of \$94M primarily due to the addition of two restricted grant funding sources, the Learning Recovery Block Grant and Music Arts Grant. 22.	Are the district's financial system's access and authorization controls reviewed and updated upon employment actions (i.e. resignations, terminations, promotions or demotions) and at least annually?	Complete	The district does not regularly update authorization controls, and discrepancies based on changes in positions are often found many months later. 39.	If the district is using a separate financial system from its county office of education and is not fiscally independent, is there an automated interface with the financial system used by the county office of education?	Complete	There is no automated interface between the two systems. When the district processes payroll and accounts payable warrants, information related to these transactions is uploaded to the county via a file transfer protocol (FTP). This process is started manually once payroll and accounts payable warrant processing is complete. No other electronic interface exists between the two systems.	SCOE is currently working in Escape for District oversight and data entry.
40.	If the district is using a separate financial system from its county office of education, has the district provided the county office with direct access so the county office can provide oversight, review and assistance?	Complete	The county office of education has not been able to access the district's Escape system online, but conversations continue between the two agencies about how this will be accomplished. The software needed to access the Escape system has been installed on some systems at the county office, but there has been no training. The county office has had to create a second set of books for the district in its QCC system so it can attempt to monitor financial transactions and balances at the major object level. This requires much manual entry by county office staff since the district sends the county office only limited data related to warrant processing.	SCOE now has access to and training in Escape and is working in the system. SCOE and District staff are developing the process of reconciling in Escape.

41.	Does the district account for all positions and costs?	Complete	<p>The district must improve its position control process. The district currently uses the same position control number for multiple positions, and for full-time equivalent (FTE) positions that have the same title, instead of creating a unique position control number for each board-approved position or FTE. The district's current practice leads to lack of clarity about which positions are being filled and about the site to which each belongs, because the same position number can exist at multiple sites if the same title is assigned. The district needs to use a unique identifier, or position control number, for each board-authorized position.</p> <p>Another area to improve on in the position control process involves the ramifications of the one-stop process, because confusion often arises when employees are transferred between sites and departments without a paperwork trail since the information was input directly into the system and the typical forms are not used during one-stop meetings. In addition, as employee transfers and changes are discussed and made later in the year, position control system information about which positions are open and about employees' work locations is often found to be inaccurate. Recent progress includes using Escape to analyze the changes in FTE from a past reporting period to the current reporting period; this was implemented November 15, 2019 with the assistance of the SCOE fiscal advisor. The next Escape tool to be implemented is budgeting for vacancies. The SCOE fiscal advisor introduced this feature to District staff on November 15, 2019 and the plan is to have this implemented for use by 2nd Interim. 42.	Does the district use a budget development method other than a rollover budget, and if so, does that method include tasks such as review of prior year estimated actuals by major object code and removal of one-time revenues and expenses? (part 1)	Complete /Ongoing	Although the district uses a one-stop method for budget development rather than a rollover budget, it appears that the primary driving force behind this method is to develop a list of employees who will receive a preliminary layoff notice on March 15 rather than to truly develop a reliable budget. The budget development process needs to be further refined so that all revenues and expenditures are reviewed and adjusted, not only those budgets with larger staffing allocations. A comprehensive budget development process is needed for the entire budget to ensure all revenues and expenditures are understood and used according to the district's goals and objectives.	Monthly reviews are conducted of the District's Revenues and Expenditures. 3/23/2020 Update: The District will be utilizing budget models in Escape for budget development. Budget staff will analyze the budget and compare it to prior year estimated actuals by major object. One time revenue and expenses will be removed during this process.

All information is input into the financial system during the meeting, and because appropriate approval authorities are physically in the conference room, approvals are obtained and actual staffing is determined for the next fiscal year. This is a more expedited process than the typical routing of position change forms between departments to obtain various approvals, and it ensures that staffing decisions, and thus layoff notices for the next school year, are determined by the March 15 deadline.</p> <p>The above process is efficient for meeting the March 15 deadline. However, not all budgets are assessed using this method. As additional staffing decisions are made during other one-stop meetings, or even after budget development ends, confusion can arise when employees are transferred between sites and departments without a paperwork trail since the information was input directly into the system and the typical forms are not used at the one-stop meetings.</p>

49.	If the district has deficit spending in funds other than the general fund, has it included in its multiyear projection any transfers from the general fund to cover the deficit spending?	Complete	<p>Although the district's multiyear financial projection includes transfers from the general fund to cover deficit spending in other funds, FCMAT believes that those transfers are inadequate based on prior year deficits. Without a specific plan to reduce deficit spending, specifically in the child development fund, the budgeted transfers are likely inadequate to cover the increasing costs of salaries and benefits.</p> <p>Based on unaudited actuals data, the following transfers were made from the general fund to the child development fund: 2015-16: \$1,500,000 2016-17: \$322,344 2017-18: \$502,296</p> <p>Based on 2018-19 Standardized Account Code</p>	Board took action to reduce the size of the Child Development program by returning slots to the grantor (SETA) and thus the contribution to the Child Development program.

			<p>Structure (SACS) data, transfers to the child development fund are projected to be as follows:</p> <p>2018-19: \$2,345,207 2019-20: \$382,178 2020-21: \$382,178</p> <p>Assuming revenue and spending patterns remain the same, even if the current projected transfers of \$382,178 in 2019-20 and 2020-21 are included, the district's shortfall in cash would be as follows:</p> <p>2019-20: (\$791,940.93) 2020-21: (\$2,754,969.93)</p> <p>The district must develop a plan to ensure its expenditures are equal to or less than expected revenues, but until that time it must ensure that its budget is revised to include adequate transfers to all funds, including the child development fund, so they have adequate cash to close the fiscal year. Unless an approved plan to reduce spending, or increase revenues, is implemented in 2018-19, these shortfalls in 2019- 20 and 2020-21 will increase the district's liabilities and further increase its projected general fund deficits. If this increased deficit is not remedied in 2018-19, it could cause the district to become cash</p>

			insolvent prior to November 2019, based on current budget projections.	
50.	Has the district's enrollment been increasing or stable for the current and three prior years?	Complete	The district's enrollment has been declining for the last 15 years.	Adopted FCMAT recommendation of using Cohort Survival Method for staffing and enrollment purposes.
51.	Are the district's enrollment projection and assumptions based on historical data, industry-standard methods, and other reasonable considerations?	Complete	<p>The district tracked the number of children who enter kindergarten as a percentage of countywide live births five years earlier to project kindergarten enrollment for the 2018-19 school year.</p> <p>However, to project enrollment in grades one through 12 for the same period, it used simple grade level progression rather than the more commonly used cohort survival method.</p> <p>The cohort survival method groups students by grade level upon entry and tracks them through each year they stay in school. This method evaluates the longitudinal relationship of the number of students passing from one grade to the next in a subsequent year. This method more closely accounts for retention, dropouts and students transferring to and from a school or district by grade. Although other enrollment forecasting techniques are available, the cohort survival method usually is the best choice for local education agencies</p>	Adopted FCMAT recommendation of using Cohort Survival Method for staffing and enrollment purposes.

			<p>because of its sensitivity to incremental changes to several key variables including:</p> <ul style="list-style-type: none"> * Birth rates and trends. * The historical ratio of enrollment progression between grade levels. Changes in educational programs. * Migration patterns. * Changes in local and regional demographics. 	
52.	Does the district ensure that one-time revenues do not pay for ongoing expenditures?	Complete	<p>As mentioned in the budget development section of this analysis, the district stated in its 2018-19 budget narrative that one-time funding was used to pay for salary increases. This action will also have severe effects on the budget in future years because the one-time funding will likely not be available to the district, leaving a \$13.2 million deficit moving forward.</p>	<p><u>3/1/21 Update:</u> Revised BP 3100 adopted at 3/4/21 Board Meeting.</p> <p><u>11/30/20 Update:</u> BP 3100 was presented at the June 18, 2020 and June 25, 2020 Board Meeting as a Second Reading. Revised drafts will be presented at a future Board Meeting not later than January 2021.</p> <p><u>5/8/20 Update:</u> The proposed policy BP 3100 was scheduled for further Board review and discussion in March or April 2020 Board meetings but this was delayed due to the impact of the COVID-19 pandemic on District operations. BP 3100 will be presented to the Board at the May 21, 2020 Board Meeting as a First Reading for further review and discussion.</p> <p><u>3/10/20 Update:</u> BP 3100 was presented to the Board at the February 6, 2020 Board Meeting as a First Reading. 				as a last resort. As part of the approval of the annual budget, the Board shall consider any proposed use of One-Time funding and shall take separate action to approve such uses.
53.	Does the district consistently account for all program costs, including allowable indirect costs, for each restricted resource?	Complete	The district does not charge allowable indirect costs to special education, and as a result there is underreporting of the total cost of the program. If the indirect cost rate of 4.21% for 2018-19 were applied to the district's 2018-19 annual special education expenditures of \$107,398,026, the resulting allowable indirect cost would be \$4,521,457. The district's total actual indirect charge for special education has been approximately \$100,000 per year. The industry-standard practice is to consistently account for indirect costs in all restricted resources, including special education. The district is not correctly identifying the true cost of its special education programs.	The 2019/20 Proposed Budget includes charging indirect to all appropriate grants.
54.	Is training on the budget and governance provided to board members at least every two years?	Complete	There was no evidence that budget or governance training is provided to board members regularly.	The Superintendent has been conducting Board Learning Sessions. Board governance trainings has been an ongoing and regular practice for the Board of Education for the past two years. Budget trainings have not previously been provided outside of the regular meeting setting over the past couple of years, but will begin with the 2019-20 academic year.

No.	FCMAT Finding	Status	District Response	Progress
55.	Does the district use its most current multiyear projection when making financial decisions?	Complete	It appears that the district used multiyear projections when making financial decisions until the 2017-18 fiscal year, but that this practice ceased in that year, during which it also entered into a multiyear agreement with the SCTA (December 7, 2017) that granted ongoing salary increases without a budget reduction plan to maintain minimum reserves through 2020-21.	Current budget philosophy is to understand fourth year budget implications of financial decisions.
56.	Are the sources of repayment for non-voter-approved debt stable {such as certificates of participation (COPs), bridge financing, bond anticipation notes (BANS), revenue anticipation notes (RANS) and others}, predictable, and other than unrestricted general fund?	Complete	The district has \$67,920,000 in outstanding lease revenue bonds. The annual debt service payment is approximately \$5,400,000 and continues through fiscal year 2025-26. The annual debt service payments are made from a combination of unrestricted general fund revenue and developer fees.	Debt payment transferred outside of the General Fund to Mello Roos tax collections.
57.	Does the district analyze and adjust staffing based on staffing ratios and enrollment?	Complete	The district did not provide evidence that regular analysis of staffing ratios is compared with actual enrollment or that adjustments are made in accordance with sites' or departments' needs after the one-stop budget and staffing process occurs in January or February of each year during the budget development process. During one-stop, because the primary purpose appears to be developing the March 15 notice list, staffing ratios are compared against enrollment	Yes. Allocations to staffing are based on contract class size ratios and adopted Cohort Survival Method for enrollment projections.

			<p>projections, and staffing is scheduled accordingly.</p> <p>Although this process is efficient for meeting the March 15 deadline as well as initial budget development projections, the decisions made during one-stop need to be reassessed as the year proceeds and actual enrollment numbers are known.</p>	
58.	Does the district reconcile budget, payroll and position control regularly, meaning at least at budget adoption and interim reporting periods?	Complete	<p>It is best practice to have a position control system that is integrated with, or at least reconciled with, budget, payroll and human resources records. The district does not reconcile these records regularly to ensure that its budget represents the amount the district should set aside for such costs. In interviews, employees indicated that the number of open positions shown in financial reports is usually inflated.</p> <p>At interim reporting times, the district identifies variances between budgeted and actual amounts, and salary and benefit budgets are often revised based on that analysis. By contrast, standard industry practice is to reconcile actual human resources and payroll records to ensure that only open, authorized positions are shown as such in the budget; if an open position exists</p>	Position Control true-up conducted with the support of SCOE fiscal experts. Regular bi-weekly meetings are now being conducted to ensure position control is reconciled.

No.	FCMAT Finding	Status	District Response	Progress
			that should be closed, the appropriate paperwork is completed to do so, and the budget is updated.	
59.	Does the governing board approve all new positions before positions are posted?	Complete	The governing board approves new positions after employees have been hired rather than when the position is vacant or posted.	New process established: Cabinet Member to bring forth new positions to the Cabinet meeting for review and discussion. If allowed, the new position moves forward to Deputy and Superintendent for approval. Approved position is then submitted to the Budget department for assignment of position control identifying number. Budget then sends completed position requisition to H.R. for posting (Business Process Map was created for this new process and is currently being revised).
60.	Do managers and staff responsible for the district's human resources, payroll and budget functions meet regularly to discuss issues and improve processes?	Complete	Staff indicated that those responsible for human resources, payroll and budget meet two times per year. Scheduled meetings should be conducted at least monthly to resolve ongoing issues and problems, as well as improve processes, between the departments.	H.R. and Business Services now meet bi-monthly.

1B. Comparison of District ADA to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - The projected change since budget adoption for funded ADA exceeds two percent in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard, a description of the methods and assumptions used in projecting funded ADA, and what changes will be made to improve the accuracy of projections in this area.

Explanation:
(required if NOT met)

The District's projected funded ADA for the current year and subsequent years increased due to a change at the state level which allowed the district to apply its 2019-20 ADA yield to its 2021-22 enrollment, subsequently increasing the 3 prior year average funded ADA calculation.

S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements that have been ratified since budget adoption, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and superintendent.

DATA ENTRY: Click the appropriate button in Item 1. If Yes, enter data in Item 2 and provide the reports referenced in Item 1.

1. Are any funds other than the general fund projected to have a negative fund balance at the end of the current fiscal year?

If Yes, prepare and submit to the reviewing agency a report of revenues, expenditures, and changes in fund balance (e.g., an interim fund report) and a multiyear projection report for each fund.

2. If Yes, identify each fund, by name and number, that is projected to have a negative ending fund balance for the current fiscal year. Provide reasons for the negative balance(s) and explain the plan for how and when the problem(s) will be corrected.

DATA ENTRY: Click the appropriate Yes or No button for items A2 through A9; Item A1 is automatically completed based on data from Criterion 9.

GENERAL FUND

General Fund Definition

The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund. The General Fund also contains categorical programs such as Every Student Succeeds Act (ESSA), Title I, After School Education and Safety (ASES), and others.
